INTERCHANGE.

COMMERCE.

By the Commonwealth of Australia Constitution Act **Gustoms** and (section 51) the power to make laws with respect to trade Excise. and commerce with other countries and among the States was conferred on the Federal Parliament, and by the same Act (section 86) the collection and control of duties of Customs and Excise passed to the Executive Government of the Commonwealth on 1st January, The first Commonwealth Customs Tariff was assented to on 16th September, 1902, and was made retrospective to 8th October, Since then various amendments have been made. The present Tariff was assented to on 16th December, 1921, but it has been operative as from 25th March, 1920. It contains three scales of duties -British Preferential, Intermediate, and General. The first relates to goods which are the produce or manufacture of the United Kingdom but its provisions may be applied wholly or in part to any of the The Intermediate Tariff may be applied to any British Dominions. part of the British Dominions, or to any foreign country.

Recorded Value of Imports and Exports.

the State.

The recorded value of goods imported represents the amount on which duty is payable or would be payable if the duty were charged ad valorem. The value of goods is taken to be the fair market value in the principal markets of the country whence the goods were exported, plus 10 per cent. to cover the cost of insurance, freight and other charges. The value of goods exported is the value in the principal markets of

Oversea The total values and the values per head of population of imports from and exports to oversea countries for the ten and a half years 1912 to 1921-22 are set forth hereunder:

VALUE OF OVERSEA IMPORTS AND EXPORTS, 1912 TO 1921-22.

^{*} Includes gold, silver, and bronze specie, and gold and silver bullion.

The aggregate trade of the year 1922 (£71,062,667) represents a decrease in imports of £21,256,610, and in exports of £161,461, as compared with the totals of the preceding year. The decrease in the imports was due partly to falling prices and partly to small importations in the earlier months of the year. The latter was probably a reaction from the record imports of the year 1920-21.

[†] The figures for this year are subject to slight revision.

The principal articles imported from oversea countries into Victoria during each of the last four years are shown below in the order in which they appear in the statistical classification:—

The articles imported were mainly manufactured goods. Apparel, textiles, manufactured fibres, machinery, and manufactures of metal amounted to 55 per cent. of the total value of imports in the last five years. Compared with the previous year the imports for 1922 showed a decrease of £21,256,610. The items showing the largest decreases were as follows:—Textiles, £4,822,360; metal manufactures, £4,394,838; sugar (cane), £2,154,089; paper and stationery, £1,502,265; manufactured fibres, £1,328,420; timber, £1,194,224; apparel, £1,191,312; oils, £877,646; drugs and chemicals, £660,485; machines and machinery, £613,122; and indiarubber, £538,275.

Principal Exports, The principal articles exported to oversea countries from Victoria during each of the last four years are shown hereunder in accordance with the statistical classification:—

The export trade consists largely of agricultural and pastoral products. The value of wool, wheat, flour, and butter exported during the last five years amounted to about 67 per cent. of the total exports for that period. There was a decrease of £161,461 in the exports of 1922, as compared with the previous year. The following articles accounted for the largest decreases:—Butter, £1,000,809; wheat, £903,669; rubber manufactures, £351,898; boots and shoes, £309,539; vessels, £215,042; and spirituous and alcoholic liquors, £174,383. The chief increases were in the following items:—Wool, £2,276,822; fruits (all kinds), £734,861; milk and cream, £406,820; frozen lamb, £267,718; and flour, £256,866.

Imports from and exports to principal countries and the surplus of imports or exports in each case, during the year ended 30th June, 1922, are given below. In the tables which follow the imports have been assigned to the country of origin owing to the Customs Department having discontinued the recording of the country of shipment.

Forty-five per cent. of the total value of the exports in 1922 were sent to the United Kingdom, whilst 52 per cent. of the imports were the products or manufactures of the United Kingdom. The chief articles of United Kingdom origin imported in the last five years, and the principal articles exported direct to that country in the same period, were as follows:—

Trade with Belgium was suspended in 1918 and 1919, and for the two preceding years consisted of imports only. Goods of Belgian origin received in 1915–16 amounted in value to £30,774, and those received in 1916–17 to £23,235. The principal articles of trade with Belgium in the calendar year 1913, and in the fiscal years 1915 to 1922 were as follows:—

The trade with Germany, which amounted to 8.4 per Trade with cent. of the total with oversea countries in 1913, was dis-Germany. continued early in the year 1914-15 owing to the outbreak of war and the passing of the Trading with the Enemy Act 1914. The provisions of this Act automatically ceased to operate on the ratification of peace, but the Commonwealth authorities issued a proclamation on 14th January, 1920, under the Customs Act, prohibiting exports to and imports from Germany without the written consent of the Minister of State for Trade and Customs. On 2nd December, 1920, the embargo against exports was removed. The exportation of goods to Germany was thereafter allowed upon the same conditions as apply to all other countries, which means that it is only necessary to obtain permission from the Government when it is desired to export to Germany goods which are specifically prohibited from exportation, e.g., metals.

The proclamation of 14th January, 1920, which prohibited the importation of goods from Germany, was revoked as from 1st August, 1922, by special proclamation dated 12th January, 1922. There are, therefore, no restrictions on the importation of goods from that

country, except as regards those specified in the Customs Tariff (Industries Preservation) Act 1921-22. The principal sections of this Act, in so far as German goods are concerned, are Nos. 8 and 9. Section 8 is designed to protect Australian industries from the competition of goods imported from countries having a depreciated currency, whilst section 9 protects British manufacturers from competition with goods manufactured in other countries having a depreciated currency in compar son with the currency of the United Kingdom.

Imports of German origin were valued at £46,107 in 1920-21 and £66,296 in 1921-22, whilst the exports thereto in the same years

amounted in value to £591,926 and £242,524 respectively.

Trade with Tapan. The value of Japanese goods received represented 8.4 per cent. of the total oversea imports into Victoria in 1918, 8.8 per cent. in 1919, 3.9 per cent. in 1920, 3.0 per cent. in 1921, and 2.9 per cent. in 1922. The exports to Japan during 1920 and 1922 were very much above the average; this was chiefly accounted for by the large shipments of wheat and wool in those years. The principal articles interchanged during the last five years were as follows:—

Trade with United States in 1922 amounted to United States in £8,478,023, or 11.9 per cent. of the Victorian oversea trade. As compared with the year 1921 this trade had decreased by £5,055,959, there having been a decrease in imports of United States origin of £5,417,088 and an increase in exports of £361,129. The principal articles included in the trade with the United States in the last five years were as follows:—

SHIPPING.

Victorian shipping as dealt with in the succeeding tables

vessels entered and cleared. refers to vessels trading with other States and oversea countries; the tonnage quoted is net. Vessels trading on the Victorian coast and on the River Murray have not been taken into consideration, except in the particulars of the shipping at Victorian ports (page 404) and at the port of Melbourne (page 406) where coastal shipping is included.

The number of vessels entered and cleared, their total tonnage, and the number of men forming their crews in each of the last five years were as follows:—

OVERSEA AND INTERSTATE SHIPPING, 1917-18 TO 1921-22.

			Year	ended 30th J	Tune	
· · · · · · · · · · · · · · · · · · ·		1918.	1919.	1920.	1921.	1922.

Crews		80,196	81,181	117,352	132,728	148,644

The figures in the above table for the year 1922 show a large increase in the tonnage and crews of vessels as compared with each of the preceding four years. For the twelve months ended 30th June, 1922, steamers numbered 2,310 of the vessels entered, and 2,308 of the vessels cleared, their tonnage aggregating 5,469,923 and 5,481,910 respectively.

The inward shipping of 1922 included 128 vessels in ballast, of an aggregate tonnage of 353,034, whilst the outward shipping included 400 vessels in ballast, having an aggregate tonnage of 633,647.

Shipping with principal countries.

The more important of the countries having shipping communication with Victoria in 1921-22 are set out in the following statement:—

During 1921 there were added to the register 13 steamers with net tonnage of 14,352, and 6 sailing vessels with a tonnage of 1,027; whilst 10 steamers having net tonnage of 10,949, and 7 sailing vessels having a tonnage of 1,096, were taken off the register.

PORT OF MELBOURNE.

The port of Melbourne is under the control of the Mel-Port of bourne Harbor Trust, which has 10.44 miles of wharfs, piers, Melbourne. and jetties in the River Yarra, Victoria Dock, and Hobson's

The area of these wharfs is 67 acres, of which 25 acres are under The constitution of the Trust and the revenue and expenditure are shown in part "Municipal Statistics." The Year-Book for 1919-20 contains, on page 430, a statement of works recently undertaken by the Trust in the river and Victoria Dock, and information relating to that dock and the Coode Canal.

A new railway pier at Port Melbourne was completed in 1915, its length being 1,902 feet, and its width 186 feet. Improvement. The total cost of the pier and superstructures is £214,666. Dredging has been completed to 37 feet, to provide for four berths for vessels drawing 35 feet. Two shelter sheds are provided, which are connected with vessels by movable gangways bridging the railway Passengers are thus enabled to board and disembark from

vessels clear of the railway traffic.

The channel leading to the piers at Port Melbourne and Williamstown is 600 feet wide, and dredging is in progress to provide a depth of 37 feet at low water. The first stage of providing a depth of 34 feet is well advanced, and the channel is now open for this depth for a width of 300 feet. The full width of 600 feet to a depth of 34 feet is expected to be provided by the end of 1922.

The construction of the new Central Pier at the Victoria Dock was completed in 1916. A bed for the centre roadway on this pier was formed by the insertion of reinforced concrete plates on which wood blocks have been laid. The expenditure on the pier to 31st December,

1921, including the erection of six cargo sheds, was £200,636.

The widening of the swinging basin on the south side of the river, and the erection of a timber wharf around the basin, have been com-This work makes the width of the river at the basin 700 feet for a length of 1,000 feet. The river below the swinging basin as far as the Coode Canal, viz., for 4,480 feet, is being widened by 100 feet; 1,930 feet has been completed, leaving 2,550 feet still to be put in The works being carried out in this connexion are: Construction of reinforced concrete sheet piling, erection of wharf in front of sheet piling, demolition of the old wharf and sheet piling, and dredging to a depth of 27 feet. The swinging basin has been dredged to 27 feet O.L.W. The cost of these works to 31st December, 1921, was £192,606: the estimated total cost is £341,158.

The material dredged and disposed of during 1921 amounted to 2,237,555 cubic yards, viz., 1,176,707 cubic Dredging. yards from the Bay within the Harbor Trust boundary, and 1,060,848 cubic yards from the River Yarra and Victoria Dock. Since the establishment of the Trust the river dredgings have amounted to 37,974,726, and the Bay dredgings to 33,319,952 cubic yards, making a total of 71,294,678 cubic yards. Of the dredgings 57,872,144 cubic yards were deposited in deep water and 13,422,534 cubic yards were

landed and deposited for reclamation work. The average cost of dredging, towing, and depositing in 1921 was 14:46d, per cubic yard.

Berthing Accommodation. There is a berthing space of 49,010 feet, the whole of which has a good depth of water—7,780 feet at Williamstown, 9,150 feet at Port Melbourne, 20,320 feet in the River Yarra, and 11,760 feet in the Victoria Dock.

In the year 1921 vessels to the number of 5,738, comprising 4,273 steamers, 14 ships, 10 barques, 2 barquentines, 366 ketches, 69 schooners, and 1,004 lighters, with registered net tonnage aggregating 8,696,087, berthed within the port. The tonnage of imports in 1921 was 2,713,635, and that of exports 1,266,044. These figures include New Zealand and Inter-State tonnage, which amounted to 1,654,190 in the case of imports, and 463,880 in the case of exports. Coal forms a great part of the Inter-State imports. Exclusive of coal transhipped, 1,095,012 tons were imported in 1921. The exports (1,266,044 tons) were well up to the average, although they were 421,900 tons below the amount for the year 1919. The exports in 1919 were the greatest in the history of the port. This was owing to the exports of wheat and flour, which accounted for 863,000 tons, as compared with an average yearly export of 500,000 tons.

POSTS, TELEGRAPHS, AND TELEPHONES.

The Department of Posts and Telegraphs was transferred to the Federal Government by proclamation on 1st March, 1901.

The following are the principal postal charges within the Commonwealth, as from 1st October, 1920:—

Letters 2d. per half ounce ٠. Letter-cards . . Single, 2d. each ٠. ٠. . . Post-cards Single, 11d. each . . ٠. . . Printed papers (other than newspapers) ld. per 2 ounces . . Books printed in Australia
Books printed outside Australia 1d. per 8 ounces . . Magazines printed and published in Australia
Magazines printed and published outside Australia
Commercial papers 1d. per 4 ounces . . each 1d. per 8 ounces each 1d. per 4 ounces Commercial papers, patterns, samples, and merchandise as

The rate of postage on letters from the Commonwealth to the United Kingdom and the Oversea Dominions and British colonies and protectorates is 2d. per half ounce or fraction of half ounce. To the United States of America and all foreign countries the rate of postage has been 4d. for the first ounce and 2d. for each additional ounce since 1st January, 1922.

The ordinary rate for cabling to the United Kingdom is 3s. per word, and the deferred rate is 1s. 6d. per word. Deferred cablegrams are transmitted only after the despatch of non-urgent private cablegrams and press cablegrams. In January, 1913, the Pacific Cable Board instituted a tariff for week-end cable letters which is available between Australia and the United Kingdom. The rate is 9d. per word, with a minimum charge of 15s. Week-end messages may be lodged up to midnight on Saturday, and are deliverable on Tuesday morning, or if practicable on Monday.

These messages are also available to Canada at a charge of 7d. per word with a minimum charge of 11s. 8d. per message.

The following table shows the destination of letters, newspapers, packets, and parcels posted in Victoria, whether for delivery inside the Commonwealth or to oversea countries. The recording of the numbers of letters, &c., received from other States has been discontinued, only those received in Victoria from outside the Commonwealth being given:—

Of the orders issued in 1921–22, 5,972 for £24,881 were payable in New Zealand, and 43,164 for £136,399 in the United Kingdom. The orders paid included 18,158 for £62,891 issued in New Zealand, and 9,729 for £41,888 issued in the United Kingdom.

Telegraphs and telegrams. There are 1,791 telegraph offices in the State, 140 of which are attached to the railway service. The number of telegrams sent from Victorian offices, and the number

received from outside the State, in each of the last five years, were as follows:—

TELEGRAMS DESPATCHED AND RECEIVED, 1917-18 TO 1921-22.

The telephone exchanges were worked by a private company until September, 1887, in which month the business, buildings, and plant were purchased by the Government. There were 814 exchanges in Victoria on 30th June, 1922, and the actual number of subscribers' lines was 55,986, with 77,744 telephones connected which represented 4 97 to every 100 persons in the State. Telephone bureaux for the use of the public are placed in prominent positions in or near public buildings, post-offices, railway stations, &c. The number of these at 30th June, 1922, was 1,469.

RAILWAYS.

All railways in Victoria available for general traffic are, with the two exceptions referred to on page 417, the property of the State, and are under the management of three Commissioners appointed by the Government.

The succeeding tables relate to the State railways. The usual motive power of these is steam, but electric trains are run for the conveyance of passengers on nearly all of the suburban lines, and there are also about $7\frac{1}{2}$ miles of electric street railways in the suburbs of Melbourne. The gauge of the lines is 5 ft. 3 in., with the exception of 121 9 miles of single lines, of which the gauge is 2 ft. 6 in., and 2 41 miles (2 ·22 miles double and ·19 mile single) of electric street railway, of which the gauge is 4 ft. $8\frac{1}{2}$ in. The following table shows the length of double and single lines, the cost of construction, and the average cost per mile at the close of each of the last five years:—

RAILWAYS, LENGTH AND COST OF CONSTRUCTION, 1917-18 to 1921-22.

	1918.	1919.	1920.	1921.	1922.
Length of Lines opened to 30th June— Double Lines (miles) Single Lines (miles)	328·19 3,876·57	330 · 41 3,914 · 64	330·41 3,939·12	330 · 41 3,991 · 70	332·0- 4,040·35
Total Cost of Construction Average Cost per mile	4,204·76 £ 38,652,751 9,193	£ 38,945,068	4,269·53 £ 39,148,873 9,169	4,322·11 £ 39,681,760 9,181	4,372 · 39 £ 40,408,014 9,242

In addition to the lines embraced in this table the following was in course of construction on 30th June, 1922:—

5 ft. 3 in. Gauge. Merbein to Yelta				Miles. 10 · 0 0
Black Rock to Beaun	naris (ele	ctric stre	et railway)	 2.20
Port Fairy to Yambi				 11 .50

Colac to Alvie				 10.00
Total			••	 $\overline{43\cdot 45}$

Parliament sanctioned the electrification of the Melburnes.

Parliament sanctioned the electrification of the Melburnes.

Parliament sanctioned the electrification of the Melburnes.

Electrification of the Melburnes.

Electrification of the Melburnes.

Expected that the whole scheme will be completed about February, 1923. The suburban system is now being served by electric trains, which carry about 80 per cent. of the suburban passenger traffic. The electrified system when completed will comprise a total of 125 route miles of double track and 20 miles of single track. It will thus be seen that the scheme is a huge and complicated one. The work was greatly delayed by the war, but has made rapid progress since the first electric train was run between Essendon and Sandringham in May, 1919.

A marked increase in business has resulted from the electrification of the various lines. On 95 route miles of electrified lines the extra traffic due to electrification (after allowing for the normal expansion that would probably have occurred had steam traction continued, and other factors) is valued at approximately £170,000 per annum, while the increase in the number of passenger journeys is estimated at 12½ per cent. An important advantage of the scheme is that it has enabled the Central Station at Flinders-street to be used largely as a through station instead of a terminal, and has deferred costly duplications of tracks and the provision of other facilities which would have involved expenditure amounting to several million pounds.

The original project of establishing an electrification scheme has developed in another highly important direction, viz., the supply of power for industrial purposes—the revenue from this source in 1921-22 amounting to £92,540.

The total expenditure debited to the Electrification Capital Account to 30th June, 1922, was £5,496,841, which will probably be increased by £650,000 when all charges have been liquidated.

Cost of railways and equipment.

The capital cost of lines opened, works, rolling-stock and equipment at 30th June in each of the last five years was as follows:—

CAPITAL COST OF RAILWAYS AND EQUIPMENT,

		~ 0 . 0	1 . •	- 044.	
30th June-					£
1918					56,694,141
1919					57,658,557
1920					58,496,357
1921	٠.				60,012,250
1922					63,186,759

The cost given is the actual cost of construction, exclusive of expenses of floating loans, &c. Of the capital expended to 30th June, 1922, £3,936,832 was derived from the general revenue, and the balance (£59,249,927) from loans. The latter liability is represented by debentures and stock outstanding to the nominal amount of £61,111,158, on which the annual interest payable is £2,690,724, or at the average rate of 4 403 per cent. The nominal amount of loans, however, was reduced by £1,861,231—the cost of flotation, together with the discount at time of flotation. It has been computed that, whilst the nominal rate of interest on loans outstanding on 30th June, 1922, was 4 403 per cent., the real interest on the net proceeds available for railway construction was 4 541 per cent.

The capital expenditure incurred in respect of lines now closed for traffic was approximately £383,427, and for surveys of lines not constructed £372.881.

Railway traffic. The mileage and the traffic of the railways since 30th June, 1917, are given in the following table:—

RAILWAYS—MILEAGE AND TRAFFIC, 1917-18 TO 1921-22.

	Year ended 30th June—							
	1918.	1919.	1920.	1921.	1922.

" Dismantled	36.13	36 · 13	36.13	36.13				
" Closed to Traffic	11.83	11.83	11.83	11.83				
" Open for Traffic	4,156.80	4,197.09	$4,221 \cdot 57$	$4,274 \cdot 15$				
Train Mileage	14,147,896		15,687,177	16,583,638	16.522 658			
Passengers carried	109,607,750	117,467,159	143,251,216	140,850,933	149.223.520			
Goods and Live Stock				,,	,0,020			
Carried (Tons)	6,231,093	6.515,470	7,770,694	7,572,993	7,491,031			

The mileage given in preceding tables relates to lines of railway, irrespective of the number of tracks, the actual length of which open for traffic on 30th June, 1922, was 4,686 84 miles of main tracks, and 868 67 miles of sidings.

The number of passengers carried in 1921–22 constituted a record, and exceeded the best total previously recorded by 4 per cent. Of the passenger journeys in 1921–22, 139,412,803 were made by metropolitan-suburban, and 9,810,726 by country passengers, the former being an increase of 8,623,736, and the latter a decrease of 251,140, as compared with the corresponding journeys for the previous year. The tonnage of goods and live stock carried was 81,962 less than in 1920–21. The items of goods carried in 1921–22 showing greatest tonnage were wheat, 1,427,269 tons; stone, gravel, and sand, 979,253 tons; and firewood, 618,706 tons. Live stock carried in the same year had an aggregate weight of 467,174 tons, and comprised 44,165 horses, 461,523 cattle, 5,956,747 sheep, and 282,411 pigs.

Railway receipts and expenditure. The receipts and working expenses of the Railway Department during the last five financial years were as follows:—

RAILWAY RECEIPTS AND EXPENDITURE, 1917-18 TO 1921-22.

		Year	ended 30th Ju	ne	
	1918.	1919.	1920.	1921.	1922.

Percentage of Expenses to Receipts	69.82	69 · 10	75 · 61	82.16	76.32

^{*} Including pensions and gratuities.

The railway receipts of 1921-22 were the highest recorded for any year, and exceeded those of 1920-21, which were the best previously recorded, by about 10 per cent. The amount received in passenger fares was greater by £120,914 in the case of country, and by £306,273 in the case of metropolitan-suburban passengers than that received in 1920-21. The most notable features in receipts from goods in 1921-22, as compared with the previous year, were increases of £89,122 for the carriage of wheat, £79,010 for the carriage of wool, £35,759 for the carriage of stone, gravel and sand, and £33,894 for the carriage of fruit. There was a decrease of £50,604 in the amount received for the carriage of firewood. The amount of freight on live stock was greater than that for the previous year by £36,740. The increase in the revenue was due mainly to the fact that the higher fares and rates imposed as from 1st January, 1921, were operative for the whole of the year; to the increased traffic on the electrified suburban lines; and to the new revenue from the sale of electrical power.

Railway interest charges compared with net revenue. The amount of interest on current loans allocated to railways, together with the expenditure incurred by the Treasury in connexion with the payment of such interest, is compared with the net revenue of the Department for the last five years in the following statement:—

RAILWAY INTEREST CHARGES AND EXPENSES AND NET REVENUE, 1917-18 TO 1921-22.

ì	Year	• ,		Interest, &c.	Net Revenue.
				£	£
1917–18	- 404			2,126,906	1,989,968
1918-19	***			2,164,902	2,001,305
1919-20	••		!	2,234,202	2,021,309
1920-21	••		• • •	2,409,674	1,758,039
1921-22				2,589,816	2,570,707

The figures show that in each of the last five years there was a deficit after providing for working expenses, pensions and gratuities, special expenditure and interest charges and expenses. The financial operations for 1921-22 resulted in a deficit of £19,109.

Railway earnings and expenses per mile. The earnings, expenses, and net profits per average mile of railway worked for each of the last five years were as follows:—

RAILWAY RECEIPTS AND EXPENDITURE PER AVERAGE MILE WORKED, 1917-18 TO 1921-22.

		1917-18.	191819.	191 9–20.	1920-21	1921-22.
Average Number of Miles for Traffic	Open 	4,144	4,165	4,202	4,244	4,287
		£	£	£	£	£
Gross Earnings per Mile		1,591	1,555	1,972	2,321	2,533
Expenses per Mile		1,111	1,074	1,491	1,907	1,933
Net Profits per Mile		480	481	481	414	600

This table excludes all consideration of the interest payable on railway loans and expenses of paying the same, which are given in the preceding table.

The inventory of the rolling-stock at 30th June, 1922, showed that there were at that time 14 steam cranes, 785 locomotives, 2,530 coaching stock including 646 luggage vans, 19,171 goods vehicles, and 696 service stock, of which 17 locomotives and 55 goods vehicles, including 6 luggage vans, were narrow-gauge stock. Electric railway rolling-stock are included in the above figures. The capital cost of the broad-gauge stock was £11,829,035, of the narrow-gauge stock £105,373, and of the electric street railway stock £86,299.

The number of officers and employees in the railway service and the amount of salaries and wages (excluding travelling and incidental expenses) paid in each of the last five financial years were as set forth below:—

RAILWAY STAFF-NUMBERS, SALARIES, ETC.

Year.		Number	of Employees at end	of Year.	Amount of Salaries and
1 641.		Permanent.	Supernumerary.	Total.	Wages Paid during Year.

^{*} Agricultural Produce includes Wheat, Oats, Barley, Maize, Beet, Onions, Hay, Straw, Chaff, Compressed Fodder, Flour, Bran, Pollard, Peas, Potatoes, Sharps, Molasses and Treacle for cattle food (on declaration), Pig Feed, unrefined Salt, and Malt; also Wine, Fruit, Jams, Jellies, Sauces, and Pickles, if produced in the Commonwealth and consigned direct for export. The minimum loadings for Chaff, Hay and Straw, and Pig Feed are as follows:—

		Per 10 or 12-ton Truck.	Per 15-ton Truck.
Hay and Straw Chaff Pig Feed	 	Tons. 6 7 8	Tons. 8 10 12

[†] These commodities are subject to the Tariff for "Smalls," and, when consigned in lots up to 3 cwt., the charges are slightly higher than pro rata of the tonnage rates.

A railway between Kerang and Koondrook, owned and Municipal worked by the municipality of the Shire of Kerang, is railway. open for general traffic. This railway, which has a 5 ft. 3 in. gauge, is 13 miles 75 chains in length, and, up to the end of 1921, cost £36,401 for construction and equipment. For the year 1921 the gross receipts were £7,421, and the working expenses £6,476. The train mileage for the same year was 14,430, and the passengers carried numbered 15,292.

Another railway in Victoria not belonging to the State system is one of 3-ft. gauge and 12 miles in length between railway. Yarra Junction and Powelltown. It was constructed

Private

principally for private use, but, in addition to serving its immediate purpose, it is engaged in the general business of transportation of passengers and goods. Up to 30th June, 1922, the cost of construction was £60,470, and for the year ended on the same date the receipts and working expenses were £10,600 and £6,857 respectively. The above construction cost includes the cost of about 8 miles of steel tramway continuation beyond Powelltown, which is used for haulage of the Company's logs and sawn timber of other sawmillers, but not for passenger traffic. The freights on this extension line are included in the above receipts. The train mileage for the year between Powelltown and Yarra Junction was 20,946 and the passengers carried numbered 35,121.

Fares on Victorian railways. Λ summary of passenger fares, operative on 1st October, 1922, has been obtained from the Railway Department, and is given below.

VICTORIAN RAILWAY PASSENGER FARES.

		Sin	gle.	Retu	rn.*

^{*} Tickets issued only on dates specially advertised.

Cheap excursion tickets, at the rate of $2\frac{2}{3}$ d. per mile for first class return and $1\frac{3}{4}$ d. per mile for second class return, are issued to and from Melbourne and the various country stations as may be advertised from time to time.

From the 15th October to the 30th April each year return tourist tickets are issued to various holiday resorts from all stations throughout Victoria at holiday excursion fares, and are available for two months from date of issue.

TRAMWAYS.

The various tramway systems in the State comprise 45.900 miles of cable lines, double track; 97.639 miles of electric lines, of which 53.491 miles are double, and 44.148 miles single track; and .625 of a mile of horse-line, double track.

The electric street railways, St. Kilda to Brighton and Sandringham to Black Rock, under the management of the Victorian Railways Commissioners, are not referred to in this connexion, being included under the heading "Railways."

The subjoined table contains particulars relating to all tramways in Victoria for each of the last five years:—

VICTORIAN TRAMWAYS, 1917–18 TO 1921–22.

(Exclusive of St. Kilda-Brighton and Sandringham-Black Rock Electric Street Railways).

Passengers carried. Traffic Receipts. Expenses. Rolling-stock.

On 7th January, 1919, the Royal Assent was given Melbourne and to the Melbourne and Metropolitan Tramways Act, which Metropolitan Tramways is administered by a Board consisting of seven memappointed by the Governor-in-Council. The bers Chairman holds office for a period of five years and the remaining members for a period of three vears. The Board on 1st November, 1919, assumed control of the Melbourne Cable Tramways and the Royal Park Horse Tramway. Information in regard to the control of these tramways prior to that date is given in the Year-Book for 1918-19, page 569.

On 2nd February, 1920, the Electric Tramway systems of the following Trusts were vested in the Board:—Prahran and Malvern Tramways; Hawthorn Tramways; Melbourne, Brunswick and Coburg Tramways; Fitzroy, Northcote and Preston Tramways; and Footscray Tramways; also the Cable Tramway of the Northcote Council.

Authority was given by the Act to acquire the Electric Tramways of the North Melbourne Electric Tramway and Lighting Company Limited (Essendon), by agreement or by compulsory acquisition, and they were taken over by the Board as from 1st August, 1922.

The Board is empowered to borrow up to £750,000 by the issue of stock or debentures secured upon its revenues and undertakings, this being in addition to the transferred liabilities attaching to the tramways vested in it. Power is given to have an overdraft not exceeding £200,000. The Board has exercised its power to borrow to the extent of £100,000.

The Board has prepared a general scheme for the future development of tramways in the metropolis. This scheme is to be reported upon by the Railways Standing Committee, and subsequently submitted to Parliament. Should it be approved by Parliament, the Board may construct any portion of the tramways included in the general scheme upon obtaining an Order in Council relating thereto. Authority is given to the Board to construct certain tramways already approved by the Governor in Council or Parliament without further formalities.

The Act provides that the Board shall pay to the Consolidated Revenue each year a sum equivalent to the Government's contributions to the Queen's Memorial Infectious Diseases Hospital, the Metropolitan Fire Brigades Board, and certain specified municipalities pursuant to the *Licensing Act* 1916. (The payments under this obligation for the year ended 30th June, 1922, amounted to about £98,000). The surplus on the operations of any year, after transferring not less than 4 per cent. nor more than 6 per cent. of the capital cost of the undertaking to Reserve Funds and carrying to the credit of the succeeding year such sum, not exceeding £10,000, as the Board thinks fit, is to be distributed

amongst 28 constituent Metropolitan Councils in accordance with a scheme of distribution to be adopted by the Board. Any sum received by a municipality in pursuance of this arrangement is to be applied only to such purposes as the Governor in Council shall approve. No distribution to the Municipalities was made for the year ended 30th June, 1922.

In the event of there being a deficit arising from the operation of the tra nways, the Board may meet same from Reserve Funds or levy a rate upon the rateable property of the metropolis.

Melbourne and Metropolitan Tramways. The lines controlled by the Melbourne and Metropolitan Tramways Board have been grouped as follows:—

- (a) The "Cable System," i.e., the Metropolitan Cable Tramways (43.677 miles of cable and .625 of a mile horse-line, double track), and the Northcote Cable Tramway (2.223 miles, double track).
- (b) The "Eastern System," i.e., the Prahran and Malvern Electric Tramways (31 013 miles, double track, and 4 092 miles, single track), and the Hawthorn Electric Tramways (6 822 miles, double track, and 4 351 miles, single track).
- (c) The "Northern System," i.e., the Melbourne and Coburg Electric Tramways (5·252 miles, double track, and 1·82 miles, single track), and the Fitzroy and Preston Electric Tramways (1·913 miles, double track, and 3·909 miles, single track).

An electric tramway at Footscray (574 of a mile, double track, and 3.893 miles, single track) was opened for traffic on 6th September, 1921.

In addition to the lines under the Board's control at 30th June, 1922, there is the electric tramway of the North Melbourne Electric Tramways and Lighting Co. Ltd., which is 7:117 miles in length (3:922 double and 3:195 single track) and extends from North Melbourne to Essendon.

The capital cost of the tramways vested in the Tramways Board, including stores on hand, amounted to £4,209,606 on 30th June, 1922, as follows:—Melbourne Cable Tramways, £2,301,254; Prahran and Malvern, £1,024,154; Hawthorn, £322,898; Melbourne, Brunswick and Coburg, £204,763; Fitzroy, Northcote and Preston, £142,523; Footscray, £143,081; Northcote Cable Tramway, £55,326; and general expenditure (unallotted), £15,607.

The length of tramway lines open for traffic on 30th June, 1922, in the metropolitan area (including the North Melbourne Electric Tramway) comprised 45.900 miles of cable lines, double track; 70.756 miles of electric lines, of which 49.496 were double, and 21.230 single track; and .625 of a mile horse-line, double track. Particulars in relation to the traffic of the metropolitan tramways for each of the last five years are given in the following statement:—

MELBOURNE AND METROPOLITAN TRAMWAYS, 1917-18 TO 1921-22.

Financial Year.	Miles of Track.	Tram Mileage.	Number of Passengers carried.	Traffic Receipts.	Working Expenses.	Number of Rolling- stock.	Number of Persons employed.
1917–18	∫ 90·121 double } } 13·81 single }	18,113,776	163,992,345	£ 1,247,435	£ 759,490	1,252	3,187
1918–19	\ 93.575 double \\ 13.452 single \	18,766,868	173,080,746	1,321,723	860,920	1,277	3,376

1920-21	(95.475 double)	20,333,033	213,872,064	1,648,058	1,246,973	1,358	4,228
1921-22	{ 96.021 double } { 21.26 single }	21,208,879	218,450,712	1,857,469	1,406,127	1,402	4,399

The passenger revenue per tram mile of the metropolitan tramways for 1921-22 was $21\cdot02d$., and the average fare per passenger was $2\cdot04d$. The percentage of working expenses to traffic receipts for that year was $76\cdot75$ for the cable, and $73\cdot63$ for all the electric lines. The average distance which a passenger was allowed to travel for a fare of a penny on the tramways under the Board's control was $1\cdot44$ miles over the cable, and $1\cdot104$ miles over the electric system.

In 1921-22 the tram mileage of the Melbourne cable cars was 14,221,059, of the Royal Park horse-line cars 10,134, and of the Northcote cable cars 403,625; and the numbers of passengers carried by these cars were 145,841,233, 239,508, and 5,121,017 respectively.

The towns, other than the metropolis, having tramway systems are:—Ballarat, with 13.85 miles of electric lines (1.425 double and 12.425 single track); Bendigo, with

 $8\cdot113$ miles of electric lines (1·8 double and 6·313 single track); and Geelong, with $4\cdot92$ miles of electric lines (·77 double and $4\cdot15$ single track).

The traffic particulars of these lines for each of the last five years are summarized below:—

COUNTRY TRAMWAYS, 1917-18 TO 1921-22.

Financial Year.	Miles of Track.	Tram Mileage.	Number of Passengers carried.	Traffic Receipts.	Working Expenses.	Number of Rolling- stock.	Number of Persons employed.

The use of motor cars and motor cycles in Victoria is Motor cars, regulated by Act No. 2702, under the provisions of which every motor car and motor cycle must be registered with the Chief Commissioner of Police, and the registration renewed annually. On 31st December, 1921, the number of motor cars registered was 24,845, on which fees were payable at the following annual rates:-170 at six guineas each, 2,296 at five guineas each, 16,453 at four guineas each, 4,244 at three guineas each, 1,512 at two guineas each, and 170 at one guinea each. On the same date, 12,708 motor cycles, which are subject to an annual fee of 5s. each, and 327 traction engines were registered. No person may drive a motor car or motor cycle upon any public highway without having been licensed for that purpose. December, 1921, the number of drivers of motor cars and motor cycles licensed by the Chief Commissioner was 40,690. There were also 83 dealers registered.
