

COMMONWEALTH BUREAU OF CENSUS AND STATISTICS, CANBERRA, AUSTRALIA

CENSUS OF THE COMMONWEALTH
OF AUSTRALIA, 30TH JUNE, 1954

VOLUME III. – QUEENSLAND

PART V. – POPULATION AND OCCUPIED
DWELLINGS IN LOCALITIES

PREPARED UNDER INSTRUCTIONS FROM THE RIGHT HONORABLE THE TREASURER
BY
S.R. CARVER, ACTING COMMONWEALTH STATISTICIAN

CENSUS OF THE COMMONWEALTH OF AUSTRALIA

30th June, 1954

VOLUME III.

QUEENSLAND

PART V. - POPULATION AND OCCUPIED DWELLINGS IN LOCALITIES WITH A
POPULATION OF 50 PERSONS OR MORE

PREFACE

This publication shows, for the State of Queensland, the numbers of occupied dwellings and of males, females and persons in each locality with a population of 50 persons or more.

This is the first Part issued of the five Parts which will constitute the complete Census Volume for the State of Queensland. The remaining four Parts, which will be issued as the relevant information becomes available, will be entitled : Part I. - Analysis of Population in Local Government Areas and in Non-municipal Towns; Part II. - Cross-classifications of the Characteristics of the Population; Part III. - Analysis of Dwellings in Local Government Areas and in Non-municipal Towns; and Part IV. - Cross-classifications of the Characteristics of Dwellings and of Householders. A similar Volume is being prepared for each State, for the Territories, and for Australia as a whole.

The foregoing arrangement, which provides for the progressive issue of Census information for each State, and a separate volume for convenient reference to all information published for a State, is a departure from previous practice when a series of approximately 30 Census Parts was published, some Parts dealing specifically with data for individual States and others presenting both State and Commonwealth details in respect of a single characteristic of the population or of the dwellings.

At previous Censuses a series of 25 preliminary Census Bulletins was published giving particulars of population and dwellings in summary form for each State and Territory, but it is not proposed to repeat this issue for the 1954 Census, and only a few preliminary Bulletins will be published as the need arises.

As for the 1947 Census, provision has been made for the issue of a number of supplementary statements in mimeograph form. A list of the 1954 Census publications already issued is shown inside the back cover of this Part.

Explanatory Notes relative to the contents of the Part follow this Preface.

S.R. CARVER
ACTING COMMONWEALTH STATISTICIAN

COMMONWEALTH BUREAU OF CENSUS AND STATISTICS

CANBERRA

8TH FEBRUARY, 1956.

EXPLANATORY NOTES

The particulars shown in this Part relate to the numbers of the population and occupied dwellings in cities, towns and other localities throughout Queensland in which 50 or more persons were enumerated at the Census of 30th June, 1954.

All dwellings enumerated in the rural sections of the State have been allotted to localities, and details of localities which at Census date had a population of less than 50 persons, and which are, therefore, excluded from this Part, are available in the Census records.

With the exception of localities within the Town of South Coast, for which full particulars are shown, particulars of any locality whose population was wholly or mainly included in any incorporated City or Town have not been separately recorded. Where the major proportion of the population of a locality was situated outside the boundaries of such an area, separate particulars are shown for that portion of the locality only, but not for the portion located inside.

The Metropolitan Area of Brisbane is a single local government area, but for statistical purposes it is sub-divided into 48 Statistical Areas by a geographical grouping of suburbs, and separate particulars for each of these areas are shown herein. A list of the areas is given at the end of these notes. Two of these Statistical Areas - Rural North and South of the Brisbane River - are further subdivided into localities. Where any such localities are situated partly in other statistical areas particulars are shown only for that portion of the locality within the rural area and such localities are indicated by footnote.

Generally, in the rural areas clearly defined boundaries of towns and other localities are not available, and the figures shown have been derived from Census schedules relating to the dwellings which were stated to be within the generally accepted limits of the town or district specified. Wherever the requisite information was available from Census Collectors or from Census maps, details of towns were compiled separately, but in the absence of information necessary to separate the town from the surrounding district, the whole area has been regarded as one locality, which may, therefore, cover a very wide area, especially in the less densely settled parts of the State. Dwellings located beyond the limits of a town for which details were separately recorded, and which were in an area having no other recognized name, were recorded as "near" the appropriate town. In such cases, details are shown for both town and "near" where either had a population of 50 persons or more.

For the purposes of the 1954 Census, boundaries were delineated to embrace the urban areas of towns with a population of 1,000 persons or more which were not separately incorporated for purposes of local government. Such towns have been termed Non-municipal Towns and are indicated in the 1954 Census publications by the addition of the letters "N.M." after the name of the town.

The names of the Local Government Area or Census Sub-division, and of the Statistical Division in which each locality is situated are also shown. The name of the Census Sub-division, which corresponds approximately to the Commonwealth Electoral Sub-division, has been inserted for those localities situated in parts of the State not separately incorporated for purposes of local government, in order to indicate their approximate positions. The "Statistical Divisions" are identical with those used in State Statistical publications. Maps showing the constitution of these Divisions will be found in Part I of this Volume (see Preface).

The particulars in this Part exclude the numbers of full-blood aborigines and of dwellings occupied solely by them. Figures shown for aboriginal settlements and aboriginal mission stations are, therefore, exclusive of any full-blood aborigines resident therein.

Wherever practicable, information concerning construction and other settlements or camps is shown separately from the general town population. Particulars of military camps or other defence establishments are not shown, however.

For the purpose of the Census, a "dwelling" is any habitation occupied by a household group living together as a domestic unit, whether comprising the whole or part of a building. The term has, therefore, a very wide reference and includes, in addition to houses and flats, a great variety of "dwellings" ranging from a single-roomed shack to a multi-roomed hotel or institution.
