Introduction

Statistics of the characteristics of the population and of dwellings as compiled from Householder's Schedules of the Census of 30 June 1966 are being issued progressively in mimeographed bulletins for each State and Territory.

Each bulletin will be allotted a two-figure code (e.g. 5.8). The first digit identifies the State and Territory concerned and follows the order used in Bureau publications, namely:

- 1 - New South Wales;
- 2 - Victoria;
- 3 - Queensland;
- 4 - South Australia;
- 5 - Western Australia;
- 6 - Tasmania;
- 7 - Northern Territory;
- 8 - Australian Capital Territory; and
- 9 - Australia

The second digit identifies the content of the bulletin, as follows:

- 1. Summary of population;
- 2. Summary of dwellings;
- 3. Ages of the population according to marital status;
- 4. Ages of the population according to industry;
- 5. Birthplaces of the overseas born population according to nationality;
- 6. Occupational status of the population according to industry;
- 7. Occupational status of the population according to age and marital status;
- 8. Population and dwellings in local government areas.

A list of the 1966 Census bulletins so far issued is contained on page 26.

Additional bulletins containing further cross-classifications and more detailed geographical data will be issued for Australia as a whole during 1968.

The figures in this bulletin are final. At this stage only details of total occupied and unoccupied dwellings are available; details of the numbers of private and non-private dwellings in local government areas will be issued at a later date.

All tables in this bulletin exclude particulars of full-blood Aborigines and dwellings occupied solely by them. A statement containing details of the Aboriginal population enumerated at the 1966 Census was issued on 27 November 1967. An analysis is now being carried out of Aborigines at the 1966 Census. At a later date it is proposed to issue the results of this analysis in a publication which will include statistics of characteristics of Aborigines.

Persons having diplomatic immunity (diplomatic and home-based staff of diplomatic missions, and their families) are not included. Dwellings occupied by persons having diplomatic immunity have also been excluded.

Any discrepancies between totals and sums of components in percentages in tables are due to rounding.

Explanatory Notes -

For the purpose of presenting population and dwelling statistics obtained at the Census of 30 June 1966, new concepts have been adopted for the delimitation of metropolitan and other urban centres. These are described in detail in Field Count Statement No. 4 - Population : Principal Urban Centres of Australia. Because of practical difficulties (notably lack of time to carry out an extensive examination of each area in order to re-design suitable collector's districts) the new criteria have at present been uniformly applied only to urban centres within the capital city statistical divisions and the statistical districts, to other urban centres with a population of 30,000 or more and to a few smaller centres (Katoomba-Wentworth Falls, Lawson-Hazelbrook and urban centres in the Shires of Wyong and Gosford in New South Wales; Moe-Yallourn in Victoria; Cairns in Queensland and Kalgoorlie in Western Australia). It is proposed to extend the application of the new criteria to smaller centres in future Censuses.

Briefly the new concepts, which, as explained above, have in general only been applied to the larger urban centres, are as follows:-

- (i) Population clusters of 1,000 or more persons having a minimum density of 500 persons per square mile shall be designated "Urban". This density shall be determined for each census collector's district (the smallest geographical area available). Additionally, some areas of lower population and/or density shall be classified as "Urban" on other grounds (e.g. holiday areas, industrial areas).
- (ii) Around each principal urban centre with a population of 75,000 or more two boundaries shall be drawn. The outer boundary shall circumscribe the area which is expected to be in close economic and social contact with the principal urban centre for the next two or three decades. These areas shall be designated STATISTICAL DIVISIONS (for State capital cities) or STATISTICAL DISTRICTS (for Canberra, Newcastle, Wollongong and Geelong).

The inner boundary shall delimit the principal urban centre itself. It shall be a moving boundary, which from Census to Census, as urbanisation proceeds, will move outwards to encompass peripheral development. For capital cities, the principal urban centre encompassed by the inner boundary shall be designated the "METROPOLITAN AREA".

- (iii) Other urban centres shall be described by name as "URBAN _____".

2. For urban centres not yet delimited by the new criteria, the following procedures were used :-

- (i) Municipalities, cities, towns and boroughs of over 1,000 population have been classified as urban (except where they contain a very large rural component, in which case the urban centres have been delimited from aerial photographs or by field inspection). Where extensive urban development is known to extend beyond the boundary the extension has been regarded as an integral part of the urban centre and so included.
- (ii) Other urban centres have been intensively examined on the most recent aerial photographs available and the boundaries set as closely as possible to the periphery of the built-up area without regard to local government boundaries. The greater availability of recent aerial photographs in 1966 than in 1961 has enabled more meaningful boundaries to be delineated for many small urban centres.

3. Comparable population data for the 1961 Census have been prepared using the new concepts although, because 1961 collector's districts were not especially designed for this purpose, some estimations have had to be made.

4. Comparable dwelling data for the 1961 Census, using the same concepts, are not yet available for all urban centres. The 1961 figures shown in this bulletin have been adjusted only to take account of local government area boundary changes which have occurred since the 1961 Census.

5. Where, through growth or decline, an urban centre at one Census was non-urban at the other, figures for both Censuses have been shown where available for comparison, the non-urban figure being in brackets.

6. In some instances, urban centres may extend across State boundaries. Examples are Gold Coast, which includes Tweed Heads, Albury-Wodonga and a number of smaller urban centres along the River Murray. In such cases, State tables include only that part of the urban centre situated within the State, the population of the whole urban centre being shown in a footnote.

7. A statement of the procedure used to obtain details of dwellings at the 1966 Census is contained on page 3 of Census Bulletin 9.2 (Interim) - "Summary of Dwellings, Australia".

8. Throughout this statement the following abbreviations have been used:

(C) = City; (T) = Town; (S) = Shire; n.a. = not available.

TABLE 2. - POPULATION : URBAN CENTRES, WESTERN AUSTRALIA, 1961 AND 1966

NOTE. - For Metropolitan and other urban centres, which are delimited by moving boundaries (see Explanatory Notes), boundaries for 1961 were redrawn according to the new criteria. The urban populations (partly estimated) within these boundaries are shown in this table for comparison with 1966 population. The intercensal increase or decrease between 1961 and 1966 therefore reflects (i) population changes within the revised 1961 boundaries, (ii) urban growth beyond the revised boundaries i.e. the absorption of rural areas by urban and (iii) the merging of other urban areas, one with another, or with the Metropolitan Area.

TABLE 2. - POPULATION : URBAN CENTRES, WESTERN AUSTRALIA, 1961 AND 1966 - continued

Urban Centre (with L.G.A. components)	Census, 30 June 1961	Census, 30 June 1966			Intercensal increase or decrease		Page ref. Table 3
		Males	Females	Persons	Numerical	Percentage	
Mount Barker	1,532	814	780	1,594	62	4.05	15
Narrogin	4,620	2,396	2,465	4,861	241	5.22	16
Norseman	1,980	995	868	1,863	-117	-5.91	19
Northam	7,200	3,825	3,575	7,400	200	2.78	16
Port Hedland	(965)(b)	1,087	691	1,778	1,778	..	21
Rockingham-Safety Bay	1,726	1,911	1,856	3,767	2,041	118.25	12
Wagin	1,608	902	848	1,750	142	8.83	15
Waroona	1,005	510	503	1,013	8	0.80	14
Wundowie	1,102	555	485	1,040	-62	-5.63	16
Wyndham	(c)958	759	397	1,156	198	20.67	22
York	1,524	734	687	1,421	-103	-6.76	17

(a) Non-Metropolitan in 1961. (b) Non-Urban in 1961. (c) The 1961 population of Derby and Wyndham including persons reported as having more than 50 per cent. Aboriginal blood and thus classified as "full-blood Aborigines" was over 1,000 and they have therefore been designated as "urban centres". (d) The 1966 population of Gnowangerup including persons reported as having more than 50 per cent. Aboriginal blood and thus classified as "full-blood Aborigines" was over 1,000 and it has therefore been designated as an "urban centre". (e) Excludes Medina-Calista.

NOTE. - (i) Minus sign (-) denotes decrease in population.
(ii) Only 1966 urban centres are included.

TABLE 3. - POPULATION AND DWELLINGS : LOCAL GOVERNMENT AREAS, WESTERN AUSTRALIA, CENSUSES, 1961 AND 1966

NOTE. For Metropolitan and other urban centres, which are delimited by moving boundaries (see Explanatory Notes), boundaries for 1961 were redrawn according to the new criteria. The urban populations (partly estimated) within these boundaries are shown in this table for comparison with 1966 population. The intercensal increase or decrease between 1961 and 1966 therefore reflects (i) population changes within the revised 1961 boundaries, (ii) urban growth beyond the revised boundaries i.e. the absorption of rural areas by urban, and (iii) the merging of other urban centres, one with another, or with the Metropolitan Area.

(a) Indicates those local government areas where a boundary change occurred between the 1961 and 1966 Censuses. In some cases such boundary changes resulted in a change in the population of the local government area. In order to provide a comparison with the 1966 population, the 1961 local government area populations shown in this table have been adjusted, where necessary, to the boundaries existing at 30 June 1966. (b) Non-Metropolitan in 1961. (c) Non-Urban in 1966. (d) Non-Urban in 1961. (e) Including full-blood Aborigines, the population is over 1,000 and it has therefore been designated as an "urban centre". (f) Refers to persons who, at midnight between 30 June 1966 and 1 July 1966, were enumerated on board ships in Western Australian ports or ships which had left an Australian port prior to Census night with a next port of call in Western Australia. It also includes persons who, at Census time, were enumerated on long-distance trains, motor coaches or aircraft. NOTE. Minus sign (-) indicates decrease in population.

TABLE 4 - POPULATION : URBAN CENTRES OF OVER 2,000 POPULATION

WESTERN AUSTRALIA 1961 AND 1966

NOTE. For Metropolitan and other urban centres, which are delimited by moving boundaries (see Explanatory Notes), boundaries for 1961 were redrawn according to the new criteria. The urban populations (partly estimated) within these boundaries are shown in this table for comparison with 1966 population. The intercensal increase or decrease between 1961 and 1966 therefore reflects (i) population changes within the revised 1961 boundaries, (ii) urban growth beyond the revised boundaries i.e. the absorption of rural areas by urban, and (iii) the merging of other urban areas, one with another, or with the Metropolitan Area.

Urban Centre (a)	Census, 30 June 1961 Persons	Census, 30 June 1966			Intercensal increase or decrease	
		Males	Females	Persons	Numerical	Percentage %

EXPLANATORY NOTES

*Local Government Areas are as used in Commonwealth Census 30th June 1955.

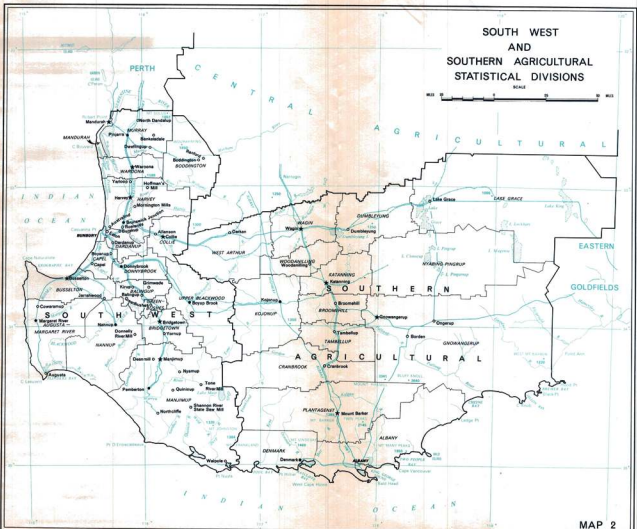

**Cities and Towns contain Urban Concentrations of 1,000 persons or more.

For the 1955 Census, boundaries were placed around all population concentrations which had a 1951 Census non-farm population of 450 persons or more and around holiday areas which had 250 dwellings or more. Symbols on the maps for all the above localities refer to the 1955 Census results. For other localities symbols are based on the 1951 Census.

*Non-farm population
