EXPLANATORY NOTES**Introduction**

This publication presents statistics of finance (secured by mortgage or other security, including secured personal loans and contracts of sale) approved by significant lenders to individuals for the construction or purchase of dwellings for owner occupation. Also included is housing finance provided to employees by lenders covered in this collection.

2. A significant lender providing housing finance for owner occupation is covered in this collection if—

(a) It satisfies either of the following criteria on an Australia-wide basis:

(i) loans approved to individuals for housing finance for owner occupation during 1981-82 exceeded \$250,000 or

(ii) balances outstanding on such loans as at 30 June 1982 exceeded \$2 million,

and

(b) It is one of the types of lenders described below:

Banks

- (i) incorporated companies coming within the meaning of the *Banking Act 1959*, or
- (ii) constituted by a State Act.

Building Societies

- (i) registered under relevant State or Territory legislation, and
- (ii) operating on a co-operative basis and providing finance to their members principally in the form of housing loans.

Finance Companies

Incorporated companies mainly engaged in providing credit to the general public.

Government Authorities and Departments

Federal, State or Semi-government authorities and departments providing housing finance (including contracts of sale) for owner occupation. Government trading enterprises are classified in this publication according to the activity of the enterprise and not as a government authority or department, e.g. State government insurance offices are included with Insurance Companies.

Insurance Companies

- (i) bodies corporate which have made an application for an authority to carry out insurance business under the *Insurance Act 1973*, or
- (ii) bodies corporate registered under the *Life Insurance Act 1945*, or
- (iii) constituted by a State Act.

Credit Unions (Co-operative Credit Societies)

- (i) registered under relevant State or Territory legislation; and
- (ii) organised on a co-operative basis to provide finance to their members.

3. The following table provides, for the lenders described in sub-paragraph 2(b) above, the coverage of housing finance for owner occupation achieved by significant lenders.

4. Although the coverage of housing finance for owner occupation as a whole provided by the current criteria is quite high, users should note that the level of coverage achieved for particular types of lenders may not be as high. The table below gives, for each type of lender, an indication of the coverage of housing finance for owner occupation provided by the significant lenders meeting the size criteria specified in paragraph 2 above.

* While the precise coverage is unknown, examinations carried out of public accounts suggest the coverage is very high.

5. While the statistics are described as being for calendar months, it should be noted that:

- (i) for trading banks the data relate to the period ending on the second Wednesday of the month following the month stated and may cover either a 4 or 5 week period.
- (ii) for savings banks the data relate to the period ending on either the last Monday (one bank), the last Wednesday (six banks) or the last day (five banks) of the month stated and may cover either a 4 or 5 week period.

Definitions and descriptions of data items

6. *Loans approved.* A loan approval is a firm commitment to advance funds. Loans approved for amounts additional to loans previously approved are also included. Under contracts of sale, the sale value of the dwellings less any deposit made is treated as the approval.

7. *Cancellation of loans.* This item refers to the value of loans approved but subsequently cancelled or reduced. Loans approved and cancelled during the same month are recorded as both loan approvals and cancellations for the month. Also included are loans cancelled in part.

8. *Loans advanced.* This item refers to the actual money advanced during a period. Where loans are advanced by instalments, only the actual cash paid out is included. Capitalised mortgage insurance premium payments and other capitalised charges (e.g. legal fees, inspection and valuation fees) are also included. In the case of contracts of sale the advance is assumed to be equal to the approval.

9. *Dwelling.* A dwelling is classified as either a *house* or *other dwelling*.

(a) A *house* is defined as a building which has been designed so that its prime purpose is to be a single self-contained (i.e. includes bathing and cooking facilities) dwelling unit which is completely detached from other buildings, and occupies a separate titled block of land.

(b) An *other dwelling* is defined as a self-contained dwelling unit other than a house as defined in (a) above. Examples of an *other dwelling* are flats, home units, semi-detached cottages, villa units, town houses, etc.

10. *Number of dwelling units.* This item refers to the number of houses and other dwellings for which loans secured by contract of sale or first mortgage only have been approved. If amounts additional to the original loan are approved to complete the purchase or construction, the number of dwellings involved is not recorded again.

11. *Alterations and additions.* Alterations are changes to existing dwellings without an increase in floor area whereas additions are structural changes to existing dwellings resulting in an increase in floor area. Detached garages are included in these statistics as additions.

12. *Loans approved for—*

(a) *Construction of dwellings*

(i) *Houses.* This category refers to loans to individuals to fund the construction of *houses* which they will occupy.

(ii) *Other dwellings.* This category refers to loans to individuals to fund the construction of *other dwellings* which they will occupy. Where a group of people combine to organise the construction of a block of home units, town houses, etc., and each person in the group is to acquire a title to one of the dwelling units, it is included in this category. Also included are instances where an individual constructs more than one dwelling unit and the value of the particular unit intended for owner occupation represents fifty per cent or more of the total value.

(b) *Purchase of newly erected dwellings.* This item represents the purchases of dwellings which have been completed or will be completed within a period of twelve months preceding the date of purchase where the purchaser is, or will be, the first occupant.

(c) *Purchase of established dwellings.* This item represents the purchase of dwellings which have been completed for a period greater than twelve months preceding the date of purchase or, if completed within twelve months, the purchaser is not the original occupant.

Reliability of statistics

13. In certain cases funds provided by lenders are used to pay off loans previously negotiated with other lenders, i.e. individuals have 'refinanced' their housing loans. Where this occurs details may be 'double counted' and the 'net flow' to the household sector may be overstated. The precise extent of this 'refinancing' activity is not known, but is believed to be insignificant.

Seasonal Adjustment

14. Details of the methods used in seasonally adjusting original series are given in *Seasonally Adjusted Indicators, Australia* (1308.0).

15. Large fluctuations in series as a result of irregular influences are not removed by seasonal adjustment. Particular care should therefore be taken in interpreting individual month-to-month movements.

Revisions

16. This publication incorporates revisions made to previous statistics in this series.
