#### EXPLANATORY NOTES

##### Introduction

This publication presents statistics of secured housing finance commitments made by significant lenders to individuals for the construction or purchase of dwellings for owner occupation. For detailed information on the scope and coverage of these statistics and definitions of data items refer to the July to September 1984 issues of this publication.

2. While the statistics are described as being for calendar months, it should be noted that:

- (i) in the case of *trading banks*, the data relate to a month ending on the last Wednesday; and
- (ii) in the case of *other lenders*, some have accounting periods which do not correspond exactly to a calendar month and their figures are used without adjustment.

##### Break in continuity of series

3. For an explanation of the reasons for the break in continuity of the housing finance series from July 1984 refer to the July to September 1984 issues of this publication.

4. Details of methods used in seasonally adjusting original series are given in *Seasonally Adjusted Indicators, Australia* (1308.0).

5. Large fluctuations in series as a result of irregular influences are not removed by seasonal adjustment. Particular care should therefore be taken in interpreting individual month-to-month movements.

##### Unpublished data

6. More detailed classifications of the data in this publication may be made available on request. Generally a charge is made for providing this information. Inquiries should be made to the officer named in the Phone Inquiries section of the inquiries box at the front of this publication or by writing to Private Finance Section, ABS, P.O. Box 10, Belconnen, A.C.T. 2616.
