

**LAW, CRIME, ETC.****THE LEGAL SYSTEM IN VICTORIA.**

The law of Victoria, in its basic principles and main provisions, is founded on the law of England. All laws in force in England in 1828 were, so far as they should be held to apply to the circumstances of Australia, by Imperial Statute made law in New South Wales (which then included Victoria); and, in case of any doubt as to their applicability, the Colonial Legislature was empowered to declare whether or not they did apply, or to establish any modification or limitation of them within the colony. The same Statute established a Legislature within New South Wales with power to make laws for that colony; and Supreme and other courts were constituted. On the separation of Port Phillip from New South Wales in 1851 the new colony of Victoria was invested with similar powers, which were widened on the establishment of responsible government in 1855. In order, therefore, to ascertain the law of Victoria as to any particular matter or point, considerable research is often involved. The first step is a search of the Victorian Statutes. If the matter is fully dealt with there, the labour is concluded; but, if it has never been dealt with by any Victorian Act, recourse must be had to the Statutes of New South Wales and the Imperial Statutes specially applicable to New South Wales passed between 1828 and 1851. If no law on the point is obtainable from these sources, the law of England in 1828 must be ascertained, which in most cases is found in the English text-books. Having found the apparent law from one of these sources, it is still necessary to search through series of law reports for decisions which may either modify or interpret the same.

**LITIGATION AND LEGAL BUSINESS.**

**Supreme  
Court civil  
business.**

The Supreme Court of Victoria was first established in 1852, and its constitution and powers remain substantially unaltered by recent legislation, although the procedure was entirely remoulded by the "Judicature Act 1883" (now incorporated in the Supreme Court Act 1915). There were in 1925 seven Judges, viz., a Chief Justice and six Puisne Judges.

The following is a statement of Supreme Court business during the last year of each of the five decennial periods ended 1910, and the last five years :—

### SUPREME COURT CIVIL CASES, 1870 TO 1924.

**Decline in Litigation.** There has been a considerable decline in litigation in the Supreme Court since 1890. In 1924 the writs issued were one-seventh, the amount sued for was about one-half, and the causes which actually came to trial were about one-fourth of the corresponding numbers in 1890. The figures show that a very small proportion of writs result in actual trials, whilst a large number of trials are either abandoned before a verdict is given, postponed to the following year, or settled.

**County Court business.** County Courts have a jurisdiction both in equity and common law cases, limited to £500; also in cases remitted by the Supreme Court. The cause of action must have arisen within 100 miles of the court in which proceedings are taken, which court must not be more than ten miles further away from defendant's residence than some other County Court in which the plaintiff might have sued. In 1924 there were 112 sessions lasting 468 days and held in 36 places. Particulars of litigation in the last

year of each of the five decennial periods ended 1910 and in each of the last five years are as follows :—

\* No record.

The number of cases tried in 1924 was above the average of recent years, but was only about 8 per cent. of the number in 1890. The amounts sued for and awarded were, however, greater than the amounts for that year. The decline in the number of cases would seem to indicate that the public is less inclined than formerly to institute legal proceedings for the settlement of disputes; and that the County Court is not resorted to for the recovery of petty and trade debts to the same extent as in former years.

The number of requests for arbitration under the **Workers' Compensation—Arbitration cases.** Workers' Compensation Act during the year 1924 was 233. The aggregate amount of compensation claimed was £57,553, and the amount awarded, £54,487. These figures are not included in the above table.

**Petty Sessions civil business.** Courts of Petty Sessions were held at 228 places in Victoria in 1924 by stipendiary magistrates and honorary justices. Clerks of courts of ten years' standing, who have passed the prescribed examination, and barristers of five years' standing are eligible for appointment as police magistrates, but there is no legal training or knowledge of the law required as a condition precedent to the appointment of a person as an honorary justice of the peace. The jurisdiction in civil cases is limited to what

may be called ordinary debts, damages for assault, and restitution of goods, where the amount in dispute does not exceed £50. Particulars of such cases heard during a series of years are given hereunder :—

In addition to the ordinary cases above mentioned, and to the criminal jurisdiction hereafter mentioned, Courts of Petty Sessions deal with other business of a civil and quasi-criminal nature. During the year 1924, 491 appeals against municipal ratings, 371 Children's Maintenance Act cases, 762 ejectment cases, 1,246 fraud summons cases against debtors, 1,993 garnishee cases, 12,438 cases relating to licences and certificates, 1,606 maintenance cases, 141 prohibition cases, and 603 miscellaneous cases were heard, and 262 persons alleged to be lunatics were examined.

A statement is given below of the number of writs received by the Sheriff in the last year of each of the five decennial periods ended 1910 and the last five years, from which it will be seen that the numbers in recent years have been much less than in 1890 :—

\* Information not available.

The number of insolvencies in 1924 was the highest recorded in years subsequent to 1905, when the number was 570. The average yearly number during the ten years 1909 to 1918 was 358, and the average declared liabilities, £226,517. During the ten years 1899 to 1908 the average yearly number was 445, with declared liabilities of £244,538, whereas, during the ten years 1889 to 1898, when the failures resulting from the financial crisis of that period swelled the returns, the average yearly number was 833, with declared liabilities of £2,213,592. During the ten years 1879 to 1888 the average yearly number was 612, with declared liabilities of £661,720.

Insolvencies are of two kinds, voluntary and compulsory. The following table shows the number of petitions of each kind in the last five years :—

Year.	Voluntary.	Compulsory	Total.
1920 ... ..	165	21	186
1921 ... ..	270	30	300
1922 ... ..	239	33	322

**Occupations of Insolvents.**

In the next return will be found the occupations, in six classes, of those who became insolvent or compromised with their creditors during the last five years, also the number of breadwinners in each class at the census of 1921, and the proportion of the former to the latter. The total number of insolvents does not include 70 whose occupations were not stated :—

**OCCUPATION OF INSOLVENTS, 1919 TO 1924.**

Primary Producers .. ..	147,438	60	4·07
Total .. ..	661,836*	461	6·97

\* Exclusive of 7,617 persons of Independent means.

The number of breadwinners of the domestic and professional classes who became insolvent was smaller, in proportion to their numbers in the community, than those of any other class, whilst a greater proportion of the commercial than of any other class found it necessary to file their schedules or compound with their creditors.

A table showing the occupations of insolvents in detail for the years 1912 to 1916 appears in the *Year-Book* for 1916-17, page 444.

### DIVORCE.

The present law in regard to divorce is contained in the *Marriage Act* 1915, and a summary thereof is given in the *Year-Book* for 1916-17, page 445. The Act of 1915 was amended by Acts passed in 1919, 1921, and 1923, but the amendments relate to minor matters and do not affect the main features of the principal Act. The grounds upon which divorce might be granted were considerably extended by an Act passed in 1889.

**Number of Divorces.**

Since jurisdiction was first conferred upon the Supreme Court of Victoria in matters matrimonial in 1861, 6,615 decrees for dissolution of marriage and 112 decrees for judicial separation have been granted. Of these, 6,267 and 41 respectively have been issued since 1890; so that, during the 30 years ended 1890, only 348 decrees for dissolution of marriage and 71 for judicial separation were issued, or an average per annum of about twelve of the former and two of the latter; whereas, since the Divorce Act of 1889 received the Royal Assent in 1890, no fewer than 184 decrees per annum for dissolution of marriage have been granted, while the decrees for judicial separation have decreased to about one per annum.

**Divorces, Sex.**

The following table gives the number of petitions filed by husband and wife respectively, and the number of decrees granted for divorce, judicial separation, and nullity of marriage during the year 1924 :—

**Divorces, 1881 to 1924.**

The following is a statement of the number of petitions and decrees for dissolution of marriage and judicial separation in the State of Victoria during the last year of each of the four decennial periods ended 1911 and each of the last five years, also of the proportion of decrees per 100,000 married couples living :—

1923	528	3	426	2	145
1924	533	5	399	1	133

The extension of the grounds upon which divorce might be obtained had the effect of greatly increasing the number of petitions and decrees.

In New South Wales, where the law in regard to divorce does not differ much from that in Victoria, there were, in 1924, 1,100 decrees for dissolution of marriage and judicial separation. The number of divorces and separations in that year per 100,000 married couples living was 265. The average annual number for the five-year period 1920-24, in proportion to a like number of married couples, was 205, as compared with an average of 135 for the same period in Victoria.

## CRIME.

### ADMINISTRATION OF THE CRIMINAL LAW.

In nearly all cases where the criminal law has been broken the alleged offender is brought at the very first opportunity before a Court of Petty Sessions, before two honorary justices or a police magistrate, or both, or in some cases a single magistrate, and the court, if the matter is one which comes within its summary jurisdiction, disposes of the case summarily. If the offence is an indictable one, the magistrates hold a preliminary investigation, and, if they are satisfied that a *prima facie* case has been made out by the prosecution, the accused

is committed for trial to a superior court. There are two superior courts with criminal jurisdiction, viz., the Supreme Court, and a Court of General Sessions, which are held at various places throughout the State. The latter court may deal with all cases of an indictable nature except such as are expressly excluded from its jurisdiction, viz., ten of the most serious crimes. A person may be brought before magistrates by three modes of procedure, viz., by an arrest by a police officer on warrant issued on a sworn information; or in a limited number of cases without warrant if the offence has been witnessed by the arresting constable; or by a summons. If at a coroner's inquest a verdict is returned of murder or manslaughter, the accused person is sent for trial to the Supreme Court without any investigation before magistrates. The Attorney-General or Solicitor-General also has the power of presenting any person for trial before a superior court without the necessity of a preliminary magisterial hearing; and upon the application of any person, properly supported by affidavit, a grand jury may be summoned, on the order of the Full Court, if the affidavit discloses that an indictable offence has been committed by a corporate body; or that such an offence has been committed by any person, and that some justice has refused to commit such person for trial; or in the case of a committal that no presentment has been made at the court at which the trial would in due course have taken place. The grand jury, which consists of 23 men, investigates the charge, and, if it is of opinion that a *prima facie* ground of action has been made out, the case is sent for trial. The cases which are presented under these latter forms of procedure are, however, very rare.

**Indeterminate sentences.** The Indeterminate Sentences Act came into force on 1st July, 1908. Its principal provisions are—

1. The adoption of the indeterminate sentence for (a) habitual criminals, and (b) certain classes of other offenders.
2. The appointment of an Indeterminate Sentences Board.
3. The establishment of reformatory prisons.
4. A system of probation applicable to adults as well as minors.

A Board was appointed on 18th August, 1908. Its present members are:—The Hon. S. Mauger (chairman), Dr. C. S. Godfrey, and Mr. W. R. Anderson, I.S.O., P.M., formerly Secretary to the Crown Law Department. The secretary is Mr. G. F. Dicker, Chief Secretary's Office, Melbourne.

The chief functions of the Board are to make visits of inspection monthly to each reformatory prison, to examine the conduct reports of the inmates and accounts of their earnings, to authorize promotion in grade, to approve of indulgences, and to make careful inquiries as to whether any persons detained in a reformatory prison are sufficiently reformed to be released on probation, and submit recommendations accordingly to the Chief Secretary; also generally to

report on the working of the Indeterminate Sentences Act and the regulations. Other important powers were vested in the Board under the provisions of the Amending Indeterminate Sentences Act of 1915, chief among which are :—

- (a) To parole a prisoner temporarily for the purpose of testing his reform ;
- (b) To impose conditions of release ;
- (c) To transfer prisoners from one reformatory prison to another ;
- (d) To hear charges of misconduct and impose punishment at a reformatory prison for the detention of persons not habitual criminals, the power formerly conferred on visiting justices in this regard being cancelled ;
- (e) To control the disbursement of a prisoner's earnings upon release ; and
- (f) To recommend to the Minister that he make an order permitting a prisoner detained in a reformatory prison to leave such prison temporarily—
  - (1) for the purpose of being treated in a hospital ; or
  - (2) to visit a relative believed to be dying ; or
  - (3) for any other reason which appears to the Board to be sufficient.

An important alteration under the Amending Act is the substitution of "Minister" for "Governor in Council" as the authority by whose direction a prisoner may be released on probation on the Board's recommendation. Regulations governing the treatment of declared habitual criminals, and of offenders not habituals, who are detained under indeterminate sentence in a reformatory prison, are now in operation.

In the early part of the financial year 1916-17 the Board was enabled to bring into operation two valuable aids to the reformation of the inmates of the reformatory prisons, by the Government sanctioning the purchase of a farm in connexion with the Castlemaine Reformatory, and the establishment of a forestry settlement at French Island. The equipment of the Castlemaine Reformatory was further improved in 1917 by the addition of the necessary plant and tools for imparting technical instruction to the inmates, this being given by an expert of the local technical school. The lads are now receiving practical training in the use of tools, framing, jointing, &c., and they have turned out much useful work. This instruction, coupled with the experience they are gaining in farming operations, is of value to them in gaining suitable employment in the country on release. The improvements carried out on the farm have added considerably to the value of the property, and include clearing, fencing, ploughing, the enlargement of dams for water supply, and the erection of poultry pens, and of a building containing a dining room and ten sleeping rooms for inmates who are allowed to sleep at the farm.

Poultry farming is now carried on upon a fairly large scale, and additional land adjoining the farm has recently been purchased to permit of agriculture being engaged in more extensively.

The appointment in 1924 of a trained teacher from the Education Department has made the outlook for a forward movement in reformatory work still more hopeful. The inmates receive class instruction in the forenoon, also tuition from 7 to 9 o'clock on five nights of each week.

The Afforestation camp at French Island has yielded good results, and the industry of the prisoners has received the commendation of the officers of the Forests Department. In addition to the work of afforestation, considerable improvements have been effected about the camp and additional buildings erected. The tree-planting season usually extends from May to September in each year. During other months the men are occupied in cutting fire breaks, clearing, and preparing for the next planting season. The experiment is of value, as it provides strenuous work for the men, who are drawn from those under indeterminate detention at Pentridge, and enables the "Honor" system to be carried out. At no time are the men under lock and key, and they are given a considerable amount of freedom, yet with few exceptions they have responded loyally to the trust placed in them. Any who fail to rise to the standard required of them are immediately returned to Pentridge. From time to time several prisoners have escaped, but with two exceptions they have been recaptured. Both here and at Castlemaine the open air life and work have had a beneficial effect upon the health of the prisoners, and the privileges and freedom they enjoy have not made them less amenable to discipline.

The number of prisoners under indeterminate detention on 30th June in each of the last five years was as follows:—

Probation officers to supervise first offenders released by the courts on recognizance under the provisions of the *Crimes Act* 1915 are appointed by the Governor in Council on the recommendation of the Board. The number of such officers who have been appointed to date is 243.

These particulars include the arrests and summonses disposed of in Children's Courts, which are detailed in the next table, other than arrests of neglected children.

Of the persons dealt with in the 50,708 summons cases, 42,748 were summarily convicted, 7,872 were discharged, and 88 were com-

mitted for trial. Of the total persons dealt with (68,494), 54,376 were summarily convicted, 13,516 were discharged, and 602 were committed for trial.

The table which follows shows the number of arrests and summonses for various offences which were disposed of in Children's Courts during the year 1924 :—

The arrests of neglected children, which in 1924 numbered 108, viz., 67 males and 41 females, have been included in this table to indicate the business done by Children's Courts, but they are eliminated from all other criminal tabulations.

Of the persons who were brought before magistrates during the last five years, 25 per cent. were arrested, and 75 per cent. summoned. The great increase in summons cases since 1906 is due principally to the number of prosecutions under the Licensing, Pure Foods, Commonwealth Electoral, and Defence

**Arrests and  
summons  
cases.**

Acts, and is also partially accounted for by more parents having been summoned for neglecting to send their children to school than in previous years—the compulsory clauses of the Amending Education Act requiring children to attend a greater number of times than formerly. Particulars for the last year of each of the four decennial periods ended with 1911, and for each of the last five years, are given in the subjoined table :—

Neglected  
children  
arrested.

The arrests of neglected children, which are excluded from the above table and the tables which follow, numbered 193 in 1920, 112 in 1921, 115 in 1922, 98 in 1923, and 108 in 1924.

There has been a great falling off in the arrests in the last five years, as compared with previous years, the principal reason being that children boarded out with their own mothers by the Children's Welfare Department are not now arrested by the police.

The following table shows for each of the last five years the number of offences for which persons were arrested or summoned, summarily convicted, discharged by magistrates, committed for trial, and convicted after commitment, also the number per 10,000 of the population :—

### NUMBER OF ARRESTS AND SUMMONS CASES, 1920 TO 1924.

Year.	Total.	Summarily Convicted.	Discharged by Magistrates.	Committed for Trial.	Convicted after Commitment.

1924 ...	417·2	331·2	82·3	3·7	2·4

In regard to persons arrested, minor charges are excluded, and only that charge which throughout the hearing of the case was most prominent is taken account of; but, in summons cases, the unit is each separate charge or case, and the number of convictions, discharges, &c., is, therefore, greater than the number of persons concerned.

### CRIME AND DRUNKENNESS.

The subjoined table shows, for a series of years, the number of persons arrested or summoned, also the number per 1,000 of the population, for the only classes of offence for which complete comparisons can be made:—

#### CRIME IN THE STATE OF VICTORIA, 1890 TO 1924.

1923	1.04	2.28	6.17	31.80	41.29
1924	1.08	2.21	5.93	32.45	41.72

The most noticeable feature of the above table is the large decrease in the arrests for drunkenness in the last five years as compared with earlier years.

Almost all serious crimes are either offences against the person or offences against property. The first-named consist mainly of assault, but include murder, manslaughter, shooting, wounding, and all crimes of lust. Offences against property consist principally of larceny and similar offences; but include burglary, robbery, &c., cattle stealing, and wilful damage to property.

The only serious crimes included under "Other Offences" are forgery, counterfeiting, conspiracy, and perjury, and these are very few in number, there having been in Victoria in 1924 only 30 of such crimes out of a total of 53,237 in the category to which they belong. A large proportion of the cases under the heading "Other Offences" are merely breaches of various Acts of Parliament, by-laws, &c., which indicate no degree of criminal instinct or intent on the part of the person charged. There is also among them a large number of offences against good order, including insulting behaviour, vagrancy, &c.

If it be desired to compare the above figures with those relating to other States or countries several considerations must be taken into account. The first point necessary is that the criminal law in the places compared be substantially the same; the second, that it be administered with equal strictness; and the third, that proper allowances be made for differences in the age and sex constitution of the population. These considerations must also be taken into account in comparing crime in recent years with that in previous periods when there may have been differences in the law and when the population was very differently constituted in regard to sex and age.

In addition to being sent to gaol, four prisoners were ordered one whipping each, and one prisoner two whippings, with a birch or a cat-o'-nine-tails.

Prisoners remaining for trial from the previous year and sentenced in the year mentioned are included in the above statement, but those awaiting trial at the end of the year are excluded.

In compiling the criminal statistics of the State each year a person arrested more than once is counted as a separate individual in respect of each arrest. It is possible to ascertain approximately the number of distinct persons passing through the hands of the police by making a close comparison

Arrests of  
distinct  
individuals.

**Individuals arrested more than once.** Of the total number of arrests, 17,786, only 13,750, or 77 per cent., were of distinct individuals. Of these, 11,572, or 84 per cent., were arrested only once; 1,396, or 10 per cent., twice; 399, or 3 per cent., three times; 169, or 1 per cent., four times; and 214, or 2 per cent., five times and over—one of these persons having been arrested twenty times. The table which follows gives a comparison of 1924 with 1907—a year in which an important Act relating to the obtaining and holding of licences came into force. From this it will be seen that there was a large decrease in the later year in the number of distinct persons arrested:—

## DISTINCT PERSONS ARRESTED, 1907 AND 1924.

Year.	Distinct Persons Arrested.						Percentage Arrested.				
	Number.			Per 100,000 of the Population.			Once.	Twice.	Thrice.	Four Times.	More than Four Times.
	Males.	Females.	Total.	Males.	Females.	Total.					
1907 ...	14,519	2,297	16,816	2,410	369	1,372	83	10	3	2	2
1924 ...	12,527	1,223	13,750	1,536	148	837	84	10	3	1	2

**Sexes of those arrested more than once.** The tendency of females to be arrested over and over again is much greater than that of males, for, while only 15 per cent. of the males who fell into the hands of the police were arrested more than once in 1924, as many as 25 per cent. of the females were so arrested.

**Distinct persons arrested more than once for drunkenness.** The distinct persons arrested for drunkenness during 1924 numbered 7,222, and, of these, 1,307, or 18 per cent., were arrested more than once, viz., 806 twice; 262 thrice; 99 four times; 48 five times; and 92 more than five times, of whom 1 was arrested twenty times.

**Drunkenness, 1907 and 1924.** The number of distinct persons arrested for drunkenness was 10,944 in the year 1907, and 7,222 in 1924. The proportions per 1,000 of the population were 8·93 and 4·40 respectively in the years mentioned, the decrease in the later year being equivalent to a reduction of 51 per cent.

**Drunksards charged with other offences.** Whilst the number of distinct persons arrested for drunkenness in 1924 was 7,222, the charges of drunkenness brought against them numbered 9,713; these persons were also charged with 1,387 other offences, so that the total number of charges of all kinds against drunksards was 11,100. Fifty-five per cent. of the arrests during 1924 consisted of persons who were charged with drunkenness.

**Drunkenness, 1920 to 1924.** The number of persons and the number per 1,000 of the population arrested or summoned for drunkenness during the last five years are given hereunder :—

**PERSONS ARRESTED OR SUMMONED FOR DRUNKENNESS, 1920 TO 1924.**

Year.	Number of Persons —			Number per 1,000 of Population.
	Arrested.	Summoned.	Total.	
1920 ...	7,090	64	7,154	4.73
1921 ...	7,542	79	7,621	4.96
1922 ...	8,684	89	8,773	5.58
1923 ...	10,029	102	10,131	6.17
1924 ...	9,713	101	9,814	5.98

**Drunkenness — Comparison with previous years.** The amount of drunkenness in proportion to population, as evidenced by arrests, being taken as 100 in 1874-8, the corresponding numbers for subsequent periods will show the increase or decrease by comparison. These numbers are given in the following statement :—

Period.	Index Number.	Period.	Index Number.
1874-78 .. ..	100	1915 .. ..	64
1879-85 .. ..	88	1916 .. ..	55
1886-92 .. ..	106	1917 .. ..	37
1893-97 .. ..	65	1918 .. ..	29
1898-1902 .. ..	84	1919 .. ..	29
1903-07 .. ..	77	1920 .. ..	32
1908-12 .. ..	68	1921 .. ..	34
1913 .. ..	72	1922 .. ..	38
1914 .. ..	69	1923 .. ..	42
		1924 .. ..	40

A very considerable decrease in drunkenness is shown for the five years 1893-97, which was a period of general depression. In the five years following an increase occurred, but since that time the arrests for this offence have declined. In the middle of the year 1915 an Act was passed limiting the number of hours during which alcoholic liquors could be sold in hotels, and a further limitation was made in the following year. This probably accounts for the marked decrease in drunkenness in the last nine years. The index numbers for that period are the lowest on record.

The accompanying table shows the number of persons under 20 years of age arrested for drunkenness, also the number arrested per 100,000 of the population under that age, from which it will be seen that very few young persons are arrested for this offence :—

### CONSUMPTION OF INTOXICATING LIQUOR.

**Consumption of intoxicating liquor.** The next table shows for a period of years the average yearly consumption of intoxicating liquors in Australia and New Zealand. It is not possible to give the Victorian consumption for a later year than 1909, as the Commonwealth Government discontinued keeping records of Inter-State trade in the following year.

Expenditure  
by the people  
on intoxicating  
liquor.

With the assistance of the figures in the preceding table, it is possible to estimate for Australia and New Zealand, with some degree of accuracy, the approximate expenditure of the people on intoxicating liquors in a year. The following table shows the average yearly consumption over a period of years :—

### AUSTRALIAN AND NEW ZEALAND DRINK BILL.— YEARLY AVERAGE.

	Expenditure by the People on—					
	Spirits.	Beer.	Wine.	Total.		
				Amount.	Per Head.	Per Adult Individual.

\* Average for five years ended 30th June, 1924.

† Average for five years ended 31st December, 1924.

These figures show that the average yearly expenditure on drink in Australia during the five years ended 30th June, 1924, was £27,830,700, and that in New Zealand during the quinquennium 1920 to 1924 it was £6,531,000. The expenditure per head for the Commonwealth was £5 0s. 7d., and for New Zealand, £5 5s. 0d. The corresponding expenditures for the quinquennium 1909–13 were £3 10s. 2d., and £2 18s. 2d. per head, and for a similar period in the years 1914 to 1919, £3 7s. 8d., and £3 5s. 4d. per head.

### LOCAL OPTION.

Local Option  
Act of 1920.

At the general elections for the State Legislative Assembly, held on 21st October, 1920, the provision in the *Licensing Act 1906* (incorporated in the Act of 1915), which required a poll of the electors to be taken on the question of the number (if any) of liquor licences to be held in the various licensing districts of the State, was submitted to the electors. The resolutions were :—

- A. That the number of licences existing in this district continue.
- B. That the number of licences existing in this district be reduced.
- C. That no licences be granted in this district.

If resolution C had been previously carried and was in force in the district, the following was to be submitted instead of the resolutions mentioned above:—

D. That licences be restored in this district.

Resolution A or B was carried if a majority of the votes given was in favour of such resolution. Resolution C was carried if three-fifths at least in number of the votes given was in favour of that resolution, it being provided that, where less than such number was given, the votes recorded in favour of resolution C should be added to the votes given for resolution B. Resolution D was carried if three-fifths at least in number of the votes given was in favour of that resolution. Resolutions C and D could not be carried unless 30 per cent. or more of the number of electors on the electoral rolls for the district voted for the resolution.

In two licensing districts in the State, viz., Boroondara and Nunawading, resolution C was carried. Seven hotels in the former district and three in the latter had, therefore, to be closed. The amount of compensation awarded by the Licences Reduction Board was £12,100, or an average of £1,210 for each hotel.

**Act of 1922.** By an amending Licensing Act (No. 3259) assented to on 21st December, 1922, it is provided that a vote of the electors for the Legislative Assembly be taken on the licensing question once in every eighth year on a day to be fixed by proclamation of the Governor in Council, published in the *Government Gazette*, not being a day within three months before or after the day for a general election, the first of such polls to be taken in the year 1930.

At the first of such votes and at any subsequent vote, whenever licences exist, the following resolution only shall be submitted to the electors:—

Abolition.—That licences shall be abolished (Resolution I.).

If at any vote Resolution I. is carried the following resolution only shall be submitted to the electors at each subsequent vote until carried:—

Restoration.—That licences shall be restored (Resolution II.).

**Hotels Closed, 1885-1905.** During the period 1885 to 1905, 217 hotels were closed as the result of local option polls. The amount of compensation awarded was £212,771, or an average of £980 for each hotel. This sum was provided partly out of the Licensing Fund, and, when this was insufficient for the purpose, out of the general revenue.

**Restricting the hours for the sale of intoxicants.** In the year 1915 an Act was passed (No. 2584) which fixed the hours during which alcoholic liquors might be sold in hotels during the period of the war at from 9 o'clock in the morning until half-past 9 at night. By an Act passed in 1916 (No. 2827) the closing hour was fixed at 6 o'clock instead of 9.30. The latter provision was made permanent by Act No. 3028, passed on 19th December, 1919.

## LICENCES REDUCTION BOARD.

Licences  
Reduction  
Board.

The Licences Reduction Board, provided for by the *Licensing Act* 1906, was appointed on 21st May, 1907. At the same time a Compensation Fund was instituted, which was raised by means of a percentage fee of £3 for every £100 of purchases of liquor, the owner of the premises being chargeable with two-thirds and the tenant with one-third of the fee. The duties of the Board are referred to in the *Year-Book* for 1915-16, page 476. Just before the close of the year 1916 an amending Licensing Act (No. 2855) was passed, by which the members of the Licences Reduction Board were constituted a Licensing Court for the whole State. The taking of a local option poll was postponed to the second general election after January, 1917, and the court was authorized in the meantime to close hotels to the extent of the Compensation Fund available, as if reduction had been carried in every Licensing District. No alteration was made in the provisions abolishing the statutory number of hotels for a district, so that the number existing on 1st January, 1917, is now the maximum number, a similar provision applying to spirit merchants' licences, grocers' licences, Australian wine licences, and club licences. The Mallee area was made the subject of special legislation, under which it is possible after a petition and a poll to obtain victuallers' licences in proclaimed areas containing at least 500 electors. These victuallers' licences are to be 12 miles apart, except at Mildura, where there can be three hotels. The whole system of licence-fees was re-cast, fixed fees in the retail liquor trade being abolished and percentage fees substituted. In the wholesale section there are now percentage fees for the sales to private customers; and fixed fees in respect of the balance of the trade. The percentage fee in the case of hotels has been fixed at 6 per cent. of the annual liquor purchases, the owner paying three-eighths, and the licensee five-eighths. This combines and takes the place of the old fixed fees, the 3 per cent. compensation fee, and the assessments for lost licence fees arising out of the closing of hotels. Spirit merchants and holders of grocers' licences and Australian wine licences pay 4 per cent. of the cost of liquors sold to non-licensed purchasers.

Provision was made by Act No. 2776 for an adjustment of rents owing to the reduction effected by the "9.30 Closing Act" in the number of hours allowed for selling liquor, and this provision was extended by Act No. 2855 so as to provide for adjustments by reason of the further restrictions imposed by Act No. 2827—the "6 o'clock Closing Act." The work of adjustment was intrusted to the Board. Under the provisions of these Acts over 700 applications were received from licensees for adjustment of rent and licence-fee rebates.

Up to 31st December, 1925, 1,533 hotels had been closed by the Board or had surrendered their licences. The total sum paid in compensation was £9,016,1, or an average of £613 each. Four hundred and seventy-nine of these hotels were located in the Greater Melbourne

district; the compensation paid in connexion with these totalled £484,432, making an average of £1,011 each. There were 1,104 hotels closed in country districts, whose owners and licensees received £485,729, or an average of £440 for each hotel.

Particulars of the hotels closed and compensation awarded in metropolitan and country districts in each year since the constitution of the Board are set forth in the following table:—

\* Including ten hotels closed as the result of a Local Option poll held on 21st October, 1920.

In addition to the above closings, the following have been deprived of their licences, as a result of the local option poll held on 21st October, 1920:—5 spirit merchants, 4 grocers, 1 club, and 4 Australian wine licensees. The amount of compensation awarded was £550. Since 1922, 3 spirit merchants', 2 grocers', and 20 Australian wine licences have been taken away, for which compensation to the amount of £5,010 has been awarded.

A table showing the number of hotels closed in each licensing district to 30th June, 1921, appears in the *Year-Book* 1920-21, pages 293 to 299.

The return given hereunder shows the number of hotels, including roadside licences, in Victoria in 1885, 1906 and 1925, and the number of persons to each hotel in those years. The years 1885 and 1906 have been selected, because in those years important alterations were made in the liquor licensing laws :—

\* Including Roadside Licences.

While the population has increased by 72 per cent. since 1885, the number of hotels has decreased by 56 per cent., and the number of persons to an hotel is now 292 per cent. more than it was in that year. During the period 1885-1925, 227 hotels were closed as the result of local option polls, 1,573 were deprived of their licences by the Licences Reduction Board, or surrendered their licences to the Board, and 677 were closed voluntarily. During the period of nineteen years, 1907 to 1925, 47 new licences were granted.

The *Lotteries Gaming and Betting Act* 1906 (now Section 152 of the *Police Offences Act* 1915) provides that all race-courses shall be licensed, for which a fee of £1 per annum is charged. It is stipulated that, in addition to this fee, there shall be paid annually a sum equal to 3 per cent. of the gross revenue derived from all sources. Where the gross revenue is less than £1,500, but more than £600, the annual sum payable is 2 per cent. of the revenue, and, where the gross revenue is £600 or less, no percentage is charged. The amounts paid into the Consolidated Revenue in licence fees and percentages on receipts during the last ten years were as follows :—

## GAOLS AND PRISONERS.

Gaols and prisoners.

There are seven gaols in Victoria, including the Pentridge Penal Establishment, and five reformatory prisons, also four police gaols which are used as receiving stations; the figures given below show that there is accommodation in the gaols for more than twice the average number of prisoners in confinement. The following statement contains information for the year 1924 in regard to the accommodation for prisoners, the daily average number in confinement, the number received during the year, and the number in confinement at the end of the year:—

Prisoners in confinement, 1871 to 1924—decrease.

A statement is given below of the average number of prisoners in detention in the gaols of the State in the last year of each of the decennial periods 1871 to 1911 inclusive, and in each of the last five years. From this it will be seen that there has been a considerable decrease in late years as compared

with earlier periods. The rate per 10,000 of population, aged fifteen years and over, was, in 1924, 23 per cent. less than in 1911, 53 per cent. less than in 1901, 73 per cent. less than in 1891, 77 per cent. less than in 1881, and 82 per cent. less than in 1871.

**Strength of police force in proportion to population.** The number of police in Victoria per 100,000 of the population and the corresponding proportions for other States, at the end of 1924, were as follows:—Victoria, 109·2; New South Wales, 128·2; Queensland, 137·5; South Australia, 114·4; Western Australia, 143·6; Tasmania, 109·3; and Northern Territory, 973·0.

**Expenditure on police, gaols, &c.** The next table contains a statement of the amount and the amount per head of population expended in connexion with the police, and the penal establishments and gaols of Victoria, in the year 1871-2 and every tenth year thereafter until 1911-12 inclusive, also in each of the five years ended with 1923-24 :—

\* This does not include amounts paid to members of the Special Constabulary Force, which was employed temporarily after the Police strike of 1923.

The police perform a number of duties in addition to those connected with the maintenance of law and order. The actual cost to the community of the police protection afforded is, therefore, less than the expenditure shown in the above table for maintenance of the police force.

**Executions.** During the twenty years ended with 1924 there were only eight executions in Victoria, one of which took place in 1908, one in 1912, two in 1916, two in 1918, one in 1922, and one in 1924. Since the first settlement of Port Phillip in 1835, 176 criminals have been executed within the State, of whom only four were females.

The *Year-Book* for 1916-17 contains on page 490 a table showing the offences for which criminals were executed, also their birthplaces and religions, for the years 1842 to 1916.

**Inquests.** The number of inquiries into the causes of deaths of individuals during each of the last five years is given below :—
