## PREFACE

This edition of the *Catalogue of Publications and Products* lists titled products released by the Australian Bureau of Statistics (ABS) between 1 January 1999 and 31 December 2002, and those expected to be released before the end of 2003. The Catalogue can be accessed through the ABS web site <[www.abs.gov.au](http://www.abs.gov.au)>.

The Catalogue is a comprehensive reference to the statistical information published from ABS collections. It provides reference information such as product title and reference year, and also provides a brief description of the content of each product. The release medium of the product — printed publication, floppy disk, CD-ROM or online service — is also indicated.

Prices shown in this catalogue include the Goods and Services Tax, and prices are subject to revision (see page xii for details).

Suggestions for improvements to the catalogue, or queries on matters not itemised in detail — such as the availability of data on special interest topics and unpublished statistics — should be directed to the National Information and Referral Service. The address and telephone number are shown on the inside back cover.

**AusStats, the ABS online subscription service**

AusStats is a web based information service providing you with the ABS' full product range (both free and charged material) online. Available by subscription only, AusStats allows you to conveniently access:

- All ABS publications from 1998 onwards in Adobe Acrobat format (.pdf)
- Over 2,000 spreadsheets
- Multidimensional datasets in SuperTABLE format
- Census Basic Community Profiles to the Statistical Local Area (SLA) level in excel spreadsheet format and
- Free summary information including Main Features, Release Advices & Australia Now and extensive linking between related information.

**Other access**

ABS information is also available through libraries, over the telephone or through the ABS Information Service. Please see details on the inside back cover of this catalogue for further details.

## INTRODUCTION

The ABS is Australia's official statistical organisation. Its main function is to provide government and the community with a high quality, objective and responsive national statistical service.

### THE CATALOGUE OF PUBLICATIONS AND PRODUCTS

The *Catalogue of Publications and Products 2003* refers to titled products which the ABS has issued since 1 January 1999 or expects to release before the end of 2003. In some cases, for example where products are part of a current series, information on earlier issues has been included.

The Catalogue is divided into four parts.

#### **Part 1 — CONSULTANCY SERVICES**

This introduces the various consultancy services provided by the ABS, such as: flexible data delivery; thematic maps; survey and sample design; data analysis; data management; methodological reviews; tender evaluation; and statistical training.

#### **Part 2 — NATIONAL PRODUCTS**

This part comprises a list of products that provide information referring to the whole of Australia. Many national products contain separate statistics for states and territories as components of Australian totals, and can be used for comparing state and territory figures. Products are arranged in sequence by ABS catalogue number. (See page xiii for an explanation of ABS catalogue numbers.)

#### **Part 3 — STATE AND TERRITORY PRODUCTS**

This is a list of products that provides information about a particular state or territory. These products contain more detailed information than is provided in similar national publications, and in some cases they provide a finer geographic breakdown. Products are arranged in sequence by ABS catalogue number after being separated into state and territory as indicated by the fifth digit of the number. (See page xiii for an explanation of ABS catalogue numbers.)

#### **Part 4 — INDEXES**

As there are in the order of 730 publications and products introduced in this catalogue, a number of different indexes are included to assist in locating the data required. (See table of contents for page numbers). The indexes are:

##### *Directories, catalogues and guides*

A comprehensive listing of directories, catalogues and guides issued by the ABS on particular topics.

##### *Information and technical papers*

This index contains a listing of information and technical papers produced by the ABS on the availability, collection and format of statistics.

##### *Occasional and professional papers*

Occasional papers are prepared by individual ABS officers and provide accounts of ABS development or research work, and analyses of an experimental nature.

##### *Releases by medium*

Some releases are available from the ABS either on floppy disk or CD-ROM.

##### *Feature articles*

A list of feature articles which have been published in ABS publications since 1 January 1999. Feature articles appear in some publications frequently and in others only occasionally. They examine statistical issues of particular interest or complexity.

##### *Census products*

For convenience, all Census of Population and Housing products are listed together in catalogue number order.

##### *Titles*

This index comprises a complete list of publication and product titles in alphabetic order.

##### *Subject index*

This index, lists ABS publications and products that are available pertaining to a specific subject of interest. It has not, however, been possible to include exhaustive lists of subjects for the Australian and state year books. While the most significant references for all year book publications are given in this index, each publication contains a more detailed index of its own.

#### **'DISCONTINUED' PRODUCTS**

There may still be stocks available of products which are labelled 'discontinued' in the margin of this catalogue. For details, please contact the National Information and Referral Service's inquiry number listed on the inside back cover of this catalogue, or email <client.services@abs.gov.au>.

## **COPYRIGHT**

This work is copyright. Apart from any use as permitted under the *Copyright Act 1968*, no part may be reproduced by any process without permission from the Commonwealth. Requests and inquiries concerning reproduction and rights in this publication should be addressed to: The Manager, Intermediary Management, Australian Bureau of Statistics, Locked Bag 10, Belconnen ACT 2616, by telephone (02) 6252 6998, fax (02) 6252 7102 or email <intermediary.management@abs.gov.au>.

In all cases, the ABS must be acknowledged as the source when reproducing or quoting any part of an ABS publication or other product.

## **PRICES**

The balancing of public good obligations and user pays underpins the ABS pricing policy. Prices quoted in this Catalogue are inclusive of GST. Prices for individual copies are subject to revision.

## **INFORMATION ON ABS RELEASES**

*Release Advises* are posted daily on the ABS web site <[www.abs.gov.au](http://www.abs.gov.au)>. Information on expected releases is also available through the ABS online service, *AusStats* (1405.0.55.001).

## **ANNUAL REPORTS**

The *Australian Bureau of Statistics Annual Report* (latest issue 2001–2002) reports on the operations of the ABS.

The *Australian Statistics Advisory Council Annual Report* (latest issue 2001–2002) outlines the functions and activities of the Council.

The *Australian Bureau of Statistics Forward Work Program* (latest issue 2002–2003 to 2004–2005), which is produced annually, describes for each ABS program the objectives, outputs, main medium term developments and resources used. To obtain a copy please telephone the National Information and Referral Service on 1300 135 070.

## THE ABS CATALOGUE NUMBERING SYSTEM

The system consists of either a five-digit or ten-digit code.

### Five-digit Code

Printed publications usually have a five-digit code.

- The *first digit* defines a broad subject group as follows:

1	General
2	Census of Population and Housing
3	Demography
4	Social Statistics
5	National Accounts, International Trade and Finance
6	Labour Statistics and Prices
7	Agriculture
8	Secondary Industry and Distribution
9	Transport, Tourism

- The *second digit* specifies a subgroup of the broad subject group. Refer to the Contents on page iii for details of the subgroups.
- The *third and fourth digits* are serial numbers which are permanently allocated to publications within categories formed by the first two digits. An allotted number will remain unchanged provided the contents of a publication remain essentially the same.
- The *fifth digit*, after the full stop, represents the state or territory covered by the statistics. The codes for each state and territory are:

0	Australia
1	New South Wales
2	Victoria
3	Queensland
4	South Australia
5	Western Australia
6	Tasmania
7	Northern Territory
8	Australian Capital Territory
9	External Territories

Products containing Australia-wide information (fifth digit: 0) are listed in Part 2 — National Products, pages 9–165. Products containing information pertaining to a specific state or territory (fifth digit: 1–9) are listed in Part 3 — state and territory Products, pages 167–244.

Example: ABS cat. no. 3311.2

1st digit:	3	=	Demography
2nd digit:	3	=	Vital statistics
3rd & 4th digits:	11	=	Serial numbers
5th digit:	2	=	Victoria

Title of publication = Demography, Victoria.

This product is listed in Part 3 — State and Territory Products, page 186.

### Ten-digit Code

Products other than printed publications generally have a ten-digit code with the sixth and seventh digits together indicating the medium of release. For lists of ABS products released on either CD-ROM or floppy disk, refer to the releases by medium index on pages 251– 254.

**NOTE:** Publications and products may have multiple listings when they have significant reference to more than one subgroup. For example *Directory of Census Statistics* (2910.0) is listed in subgroup 11: Directories, Catalogues and Guides (page 14) and subgroup 29: Census Reference Products and Services (page 48).

When a publication or product listed in the state and territory products Chapter refers to more than one state or territory, a full listing can be found in both sections. For example, *Labour Force, New South Wales and Australian Capital Territory* (6201.1) is listed under both Australian Capital Territory (page 244) and New South Wales (page 178).

## **1. CONSULTANCY SERVICES**

Part 1 describes the various consultancy services provided by the Australian Bureau of Statistics.

## CONSULTANCY SERVICES

The Australian Bureau of Statistics (ABS) will make a valuable addition to your research team.

When you need to engage professional, timely and objective statistical consultancy services first consider the range of services available from the ABS. The ABS houses Australia's largest and most comprehensive range of statistical data and has a wide range of expertise on hand to help you with your information and statistical needs.

This expertise can be found in the form of:

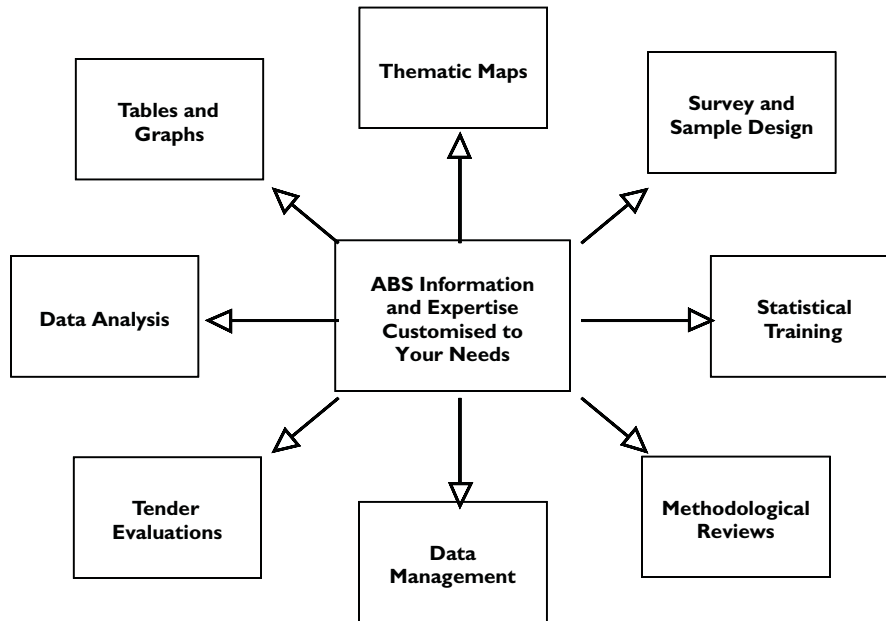

- demographers
- mathematical statisticians
- national and international accountants
- geographers
- professional librarians
- survey designers
- time series and seasonal adjustment analysts and
- experts in all ABS social and economic statistics.

Our consultants will assist you by accessing the full range of ABS information including published and unpublished statistics on industry and business, agriculture, international trade, finance, population census, health, welfare and much more.

In addition, our consultants can analyse data for you as well as model or massage it to help meet your information needs. However, if the data does not exist we can provide methodological advice on how you can obtain it.

We can tailor our service to your needs, time frame and budget, to provide you with a range of solutions.

**Range of Solutions Available as ABS Consultancy Services**

**Tables and Graphs**

Most data from the ABS are delivered in tabular format, either in hardcopy or electronically. Standard publications and products have fixed formats. However, customised consultancies can most often be delivered in whatever tabular or graphical format is required.

As not all ABS data are published in our standard publications, customised tables and graphs can be produced to provide access to a wider range of information than is covered in the publications.

Tables of data show the precise estimate for each statistic while graphs are useful to see trends over time or the difference in magnitude between variables. The ABS also has the flexibility to download most datasets as flat files so you can import them into your own database or spreadsheet packages and create your own tables and graphs as needed.

### ***Thematic Maps***

Often it is difficult to identify geographical patterns when data are presented in tables. Mapping data allows for an immediate visual impact or interpretation of the data. For example, you may wish to 'see' areas with high concentrations of young people, or manufacturing businesses, or population density.

The advantage of visual impact means mapping lends itself to presentational or promotional purposes, as well as analytical purposes.

ABS data can also be mapped with data from your own organisation. This will help you draw connections between general population or business characteristics and the characteristics of your own organisation. Alternatively, you may wish to show locations of facilities or outlets on a map of ABS data.

If you have a geographic focus, then it is wise to consider the benefits of mapping ABS data using our consultancy services.

### ***Survey and Sample Design***

ABS Statistical Consultants have extensive survey and sample design experience. They can provide advice on conducting a survey, and can help you undertake components of your survey.

The following details the services we can provide:

#### Project definition

- assisting in defining your survey's objectives and methodological requirements.

#### Survey design

- defining your population to be surveyed
- deciding which list of the population should be used
- identifying how much sample; and how to select your sample
- considering what is the level of accuracy and confidence required about your results
- advising on how to extrapolate from the sample survey to the population
- presenting your results in a report
- determining the survey cost; the components; and the timetable.

#### Questionnaire design

- questions to include and how to ask them
- the best structure of the questions and how they should be presented
- questionnaire testing.

#### Data collection

- is data collection required? Are there data sources already available that can be used?
- how to collect the information: telephone, interview or mail?

#### Data processing

- ensuring you have good quality data by editing and validating.

#### Analysing the results

- preparing tabulations, cross-tabulations and graphical presentations
- undertaking a range of more complex analytical techniques such as regression modelling.

### ***Statistical Training***

If you are designing a survey, concerned about data quality or have only basic data analysis techniques, then the ABS Statistical Consultancy Service can provide you with the tools and skills to help.

Our expert and experienced consultants provide a range of training in designing questionnaires, samples, surveys, analysing data and managing the survey process. Our courses provide you with the knowledge as well as practical skills in these techniques.

Courses are offered in most states and territories, and can be tailored to your specific needs. Our current course content includes:

- Basic Survey Design
- Principles of Questionnaire Design
- Focus Group Techniques
- Basic Statistical Analysis
- Introduction to Sampling Techniques
- Turning Data into Information

Course participants receive a range of supporting notes and material, and we also offer hands-on computer-based training for teaching the numerous analysis techniques.

A number of major organisations have benefited from engaging our training services, including the Commonwealth Government, state, territory and local governments, libraries, government-funded and nonprofit organisations.

### ***Methodological Reviews***

Our statistical consultants can undertake reviews of methodologies and prepare reports which examine:

- the feasibility of a range of methodological options for conducting a survey
- your methodological proposal for conducting a survey, or analysing data
- your analysis of data and its accuracy.

### ***Data Management***

ABS Statistical Consultants can assist with the organisation of data into a statistical framework by advising on standards, suitable arrangements, objectives and input and output requirements.

### ***Tender Evaluations***

ABS Statistical Consultants can assist in evaluating the statistical and analytical content of your tenders or in the preparation of components of your tenders. In this situation, ABS cannot be a party submitting a tender.

### ***Data Analysis***

ABS Statistical Consultants are qualified statisticians with experience in simple analysis techniques to produce means and measures of spread, as well as more complex analytical techniques including:

- describing the relationships between a number of variables (regression analysis) — we can develop the optimal regression model or we can apply your model to our data
- summarising a large amount of data (factor analysis) — a technique which summarises a large amount of related information into a few useful factors
- grouping sub-populations (cluster analysis) — can be used to provide groupings of sub-populations that behave similarly with respect to a number of variables
- testing the differences between a number of populations (analysis of variance) — for example, ABS Consultants can test the difference in average annual kilometres travelled between different vehicle types (cars, station wagons, taxis, motorcycles, utilities, panel vans, etc.)
- adjusting historical data to determine trends and forecasts (time series analyses) and
- standardisation — often the comparison of a social indicator over time, or between different areas, is spoilt by the influence of another variable which is moving independently. The effect of this variable can be neutralised by standardisation. For example, eliminating the effect of different age compositions on death rates for several states and territories is called age standardisation.

### **Contact the ABS Consultancy Team Today**

A limited amount of ABS information that is readily and quickly available can be provided free. However, most consultancies are provided on a fee-for-service basis.

Contact the ABS National Information and Referral Service for referral to our consultants (see contact details on the back of this publication).

OR

Visit the ABS web site <[www.abs.gov.au](http://www.abs.gov.au)> where you will be able to find a range of ABS information, and lodge a request.

## **2. NATIONAL PRODUCTS**

Part 2 lists national printed publications and other products. Note that many of these contain statistics at the state and territory level. However, all state and territory specific publications and products are now shown in Part 3.

A user-friendly, microcomputer-based look-up tool for the ANZSIC that operates in the Microsoft Windows™ environment. The software enables the user to enter all or part of a word or a numeric code which the coder will match to entries within its data file. It displays a list of all entries, complete with their relevant ANZSIC codes. It also includes a manual containing information about the ANZSIC Coder package, Coder installation procedures, operating instructions and industry coding tutorial.

### **1291.0 A Guide to Major ABS Classifications**

*Irregular; first issue: 1990; latest issue: 1998; 60 pp; \$23.00; ISBN: 0 642 17257 9*

Provides an overview of the major ABS classifications and assists users wishing to gain a broad understanding of these classifications. This will aid the interpretation and analysis of statistics provided by the ABS. The classifications referred to in the guide relate to industry, geographical areas of Australia, production and trade commodities, countries, occupations, government finance and offences. In addition to providing a ready description of the nature of these key classifications, the guide gives details of ABS products that are available to be used in association with the classifications.

**1292.0 Australian and New Zealand Standard Industrial Classification (ANZSIC)**

*Irregular; first and latest issue: 1993; 445 pp; \$75.00; ISBN: 0 642 17241 2*

*Continues: 1201.0, 1236.0 and 1237.0*

The ANZSIC is to be implemented for all ABS industry-classified statistics and is a fundamentally important reference for organisations wishing to interpret these statistics or to compile their own statistics on a comparable basis. The ANZSIC is also to be implemented by the New Zealand Department of Statistics with whom it was jointly developed. This publication presents the detailed classification and defines each industry class identified in it. It also includes concordances with the Australian Standard Industrial Classification (ASIC), the New Zealand Standard Industrial Classification (NZSIC) and the International Standard Industrial Classification of All Economic Activities (ISIC).

NOTE: Also available on the CD-ROM product *Statistical Concepts Reference Library*, 1997 (1361.0.30.001).

A statistical compendium of Australia's wine and grape industry containing information on: area of vines and production of grapes by region; wine production and grapes crushed by region; structure of the wine manufacturing industry; inventories of wine owned by winemakers at 30 June; brandy and grape spirit production; domestic wine sales; exports and imports of wine; price indexes of grapes and wine; consumption of wine; and world comparisons.

### *New issue* **1349.0 Information Paper: A Guide to Interpreting Time Series — Monitoring Trends**

*Irregular; first and latest issue: 2003 is expected to be released in 2003; 180 pp; \$10.00; ISBN: 0 642 54286 4*

This Information Paper explains why, in ABS publications, the main features and commentaries sections concerning most time series are increasingly emphasising the trend series rather than the seasonally adjusted or original data. It also explains how these trend estimates are obtained as well as how they may be used more effectively for informed decision making. It indicates that these trend estimates are the better guide to the substantive movements in series, and are generally more suitable for most business planning decisions and policy advice.

### **1350.0 Australian Economic Indicators**

*Monthly; first issue: February 1991; 144 pp; \$36.00; ISSN: 1035-865X*

*Absorbs: 1304.0*

A monthly compendium of economic statistics, presenting comprehensive tables, graphs, commentaries, feature articles and technical notes. Primarily a reference document, the publication provides a broad basis for analysis and research on the Australian economy and includes statistics that can be applied to both macro-economic and sectoral analyses. The publication contains statistics under the following headings: national accounts, international accounts, consumption and investment, production, prices, labour force and demography, incomes and labour costs, financial markets, state comparisons and international comparisons. The March through to January issues generally present the statistics as time series for the last nine years of annual data, and for the last nine quarters or fifteen months of sub-annual data. The February issue contains longer time series.

### 1351.0 Working Papers in Econometrics and Applied Statistics

*Irregular; first issue: September 1993; latest issue: 2003 is expected to be released in 2003; 152 pp; \$22.00; ISSN: 1320-5099*

The Working Paper series presents ABS research in the fields of econometrics, time series and statistics. The series is intended to make the results of current research within the ABS available to other interested parties. The aim is to present research or analysis of an experimental nature so as to encourage discussion and comment. Working papers are of a technical nature and are directed towards a technically orientated audience. While any one working paper focuses on the results of a single research topic, the series canvasses a diverse range of ABS work. The most recently published working papers include 'Diagnostic Measures and Applied Statistics' and 'Experimental Estimates of the Distribution of Household Wealth, Australia'.

NOTE: The following topics are currently available:

- Working Paper No. 99/1 (April 1999): The Impact of Sample Rotation Patterns and Composite Estimation on Survey Outcomes.
- Working Paper No. 99/2 (December 1999): Seasonal Adjustment: Comparison of Philosophies.
- Working Paper No. 99/3 (December 1999): Adjusting for an Easter Proximity.
- Working Paper No. 2000/1 (June 2000): Diagnostic Measures for Comparing Direct and Aggregative Seasonal Adjustments.
- Working Paper No. 2002/1 (1994–2000): Experimental Estimates of the Distribution of Household Wealth, Australia.

### 1353.0 Integrated Regional Data Base (IRDB), Australia

*Annual is expected to be released in 2003; CD-ROM; varies with requirements — price on application*

Provides a wide range of social, economic and environmental data on a regional basis and time series for these dating back to 1986 or earlier for some items. Contains statistical data from social and economic collections of the ABS and from other Commonwealth agencies, covering for example, the environment, health and disability, employment and unemployment, rural economies and electoral matters. Data are available from the all-Australia level down to Statistical Local Area. The IRDB produces interactive tables, graphs, and reports from screen-based selections of areas, data items and time periods. It has powerful exporting and importing functions, and extensive metadata. The IRDB has unique functions to handle geographic boundary changes, allowing a wide range of data items to be compared on a consistent regional basis through time. The user can select areas and further examine the data through powerful, integrated, Geographic Information System modules.

### **1364.0.15.001 Treasury Model of the Australian Economy — TSP Version**

*Quarterly; first issue: December 1995; floppy disk (DOS); \$1,055.00*

The Treasury Macro-economic (TRYM) model of the Australian economy has been developed and is used within the Commonwealth Treasury of Australia. The TRYM Model was designed to assist in policy analysis and forecasting at the macro-economic level. The result is a model that is ideal for understanding the workings of the Australian economy and for economic research and analysis. The database is separately available as part of the *Modellers' Database* (1364.0.15.003). The TSP version of TRYM allows users to access individual equations and comes with a user guide for using TRYM in TSP. Users will need a copy of TSP Version 4.3 to run this version of the Model.

NOTE: The TRYM database is separately available as part of *Modellers' Database* (1364.0.15.003).

### **1364.0.15.003 Modellers' Database**

*Quarterly; first issue: December 1995; floppy disk (DOS); \$172.00*

*Related to:* 1364.0.15.001

The Modellers' Database consists of over 500 quarterly times series constructed from the NIF and TRYM econometric models. They are useful to economists, econometricians, financial analysts and students. The database covers national accounts, banking and investment, price indexes, interest rates, world data, population and labour statistics and wage and tax rates. Some of the time series are published elsewhere by ABS while others are specifically constructed for the TRYM and NIF models. For most series the data span is between 20 and 25 years.

NOTE: See 1364.0.15.001.

### **1369.0 Occasional Paper: Australian Business Register — A Snapshot**

*Irregular; first and latest issue: October 2000; 32 pp; \$19.50; ISBN: 0 642 47769 8*

Presents information provided by the Australian Tax Office (ATO), based on data from the Australian Business Register (ABR). The ABR has been developed as part of the introduction of The New Tax System. Data relates to business entities in Australia at 30 October 2000.

### **1370.0 Measuring Australia's Progress**

*Annual; first issue: 2002; latest issue: 2003 is expected to be released in 2003; 148 pp; \$39.00; ISSN: 1445-7121*

Considers some of the key aspects of progress side by side and discusses how they are linked with one another. It does not purport to measure every aspect of progress that is important. Nor does it consider all of the many different ways in which parts of Australia or groups of Australians are progressing. But it does provide a national summary of many of the most important areas of progress, presenting them in a way which can be quickly understood by all Australians. It informs and stimulates public debate and encourages all Australians to assess the bigger picture when contemplating progress.

## 13: YEAR BOOKS AND OTHER MULTI-SUBJECT PRODUCTS AND SERVICES

### **1371.0 Book Retailers, Australia**

*Annual; first issue: 2000–01; latest issue: 2001–02 is expected to be released in 2003; 24 pp; \$20.00*

Provides details from a survey of businesses involved in the retail sale of books. The publication presents financial and employment data for businesses whose predominant activity is selling books. In addition, data is provided on the volume and sales of books by these businesses and other book sellers such as department stores and supermarkets.

### **1372.0 Information Paper: Improvements in ABS Economic Statistics [Arising from The New Tax System]**

*Single Issue; first and final issue: 2002; 32 pp; \$10.00; ISBN: 0 642 47828 7*

Implications for Economic Statistics of the new units model and changes to the scope of Business Frames, to be implemented June 2002, resulting from Tax Reform related developments.

*New issue* **1374.0 Information Paper — Analysis of Income Support Data in the Production of Regional Statistics**

*Single Issue; first and latest issue: 1995 to 2001 is expected to be released in 2003; 4 pp; \$10.00; ISBN: 0 642 47835 X*

Presents an analysis of administrative data from the Department of Family and Community Services (FaCS) on income support payments. The data is sourced from the Longitudinal Dataset compiled by FaCS from Centrelink administrative systems.

The use of administrative data on income support recipients increases the range and quality of data available for small regional areas. This paper highlights the range of data available and quality issues related to the data. It also discusses issues relating to concurring postcode based income support data to Australian Standard Geographic Classification (ASGC). Sample outputs of the FaCS income support data are presented.

### **1375.0 Discussion Paper: Measuring a Knowledge-based Economy and Society — An Australian Framework**

*Single Issue; first and final issue: August 2002; 48 pp; \$23.00; ISBN: 0 642 47871 6*

Presents a descriptive framework for measuring the knowledge-based economy and society through use of relevant statistics. The framework consists of five broad dimensions, each populated by a number of characteristics and statistical indicators. The aim of the paper is to stimulate discussion and provoke feedback on the proposed framework.

## 14: ONLINE ELECTRONIC SERVICES

*Discont'd***1401.0 PC AUSSTATS — Online Time Series Data Service**

*Annual; first issue: 1990–91; final issue: 1999; electronic delivery; varies with requirements — price on application*

*PC AUSSTATS* gives online access to the latest time series information from the ABS. The service allows you to access the information you need, when you need it — 24 hours a day, 7 days a week.

You can find the information you want simply and quickly from a fully menu driven system. Once you have selected the information, downloading to your PC is done by the *PC AUSSTATS* software. The data are supplied in spreadsheet format — so it's ready for instant analysis or manipulation on your own PC.

By using *PC AUSSTATS* you will know that you have the latest information available. *PC AUSSTATS* is updated daily, giving you full access to the latest facts and figures about the nation. Plus, you do not have to worry about revisions or corrections to the data. *PC AUSSTATS* is updated in line with any revisions to the official figures.

Historical information is typically available for a fifteen-year period for monthly time series and even further for quarterly and annual series. *PC AUSSTATS* data include over 100,000 time series from over 85 publications. Topics covered include agriculture, balance of payments, capital expenditure, company profits, consumer price index, financial surveys, demography, labour force, manufacturing, national accounts, producer and foreign trade price indexes, Reserve Bank of Australia bulletin, retail turnover, stocks and manufacturer's sales, tourism and transport.

NOTE: Also available on CD-ROM (1401.0.30.001).

20: CENSUS STATISTICAL PRODUCTS AND SERVICES

**2001.0 Census of Population and Housing: Basic Community Profile**

*Five-yearly; first and latest issue: 2001; various media; \$10.00*

Community Profiles are a set of standard tables which contain key social, demographic and economic characteristics of people, families and dwellings. The Profiles, which form the core of many Census products, are available for Australian Standard Geographic Classification (ASGC) areas and other standard Census geographic areas. They are an economical way of obtaining a statistical picture of a community and making comparisons between different areas or different population groups — an excellent tool for research and planning.

The Community Profile Series will be available in hardcopy or electronically with a selected range of tables available via the Internet. Electronic versions of the Community Profiles will continue to be provided with free windows-based manipulation software which allows users to view, select and print data. It is anticipated that 2001 Census Profiles will be available in formats suitable for use with a range of spreadsheets and databases.

The Series comprise:

Basic Community Profile

Indigenous Profile

Time Series Profile

Usual Residents Profile

Expanded Community Profile

Working Population Profile

The Basic Community Profile (BCP) will contain 33 tables which will be available for all Australian Standard Geographic Classification areas from Collection District (CD) level to total Australia, and Census-specific geographic areas including CD-derived postal areas, suburbs and state and Commonwealth Electoral Divisions. The BCP will again be issued in two releases.

Additional questions on the 2001 Census form will provide information about people's ancestry, their use of personal computers at home and Internet use. New tables using these variables will be included in the 2001 BCP.

NOTE: Community Profiles are available on the ABS web site, or through the ABS Consultancy Service. The recommended retail price (RRP) is applicable for each single community profile purchased. (For example, a Basic Community Profile for a single collection district = \$10, Basic Community Profiles for five separate collection districts = \$50). An appropriate labour charge is added to the RRP when Community Profiles are disseminated through an ABS consultant (for example, one Basic Community Profile for an aggregate of Collection Districts = \$10 plus labour). Standard Bulk Sets of Community Profiles are also available through ABS consultants.

**2002.0 Census of Population and Housing: Indigenous Profile**

*Five-yearly; first and latest issue: 2001; various media; \$10.00*

Community Profiles are a set of standard tables which contain key social, demographic and economic characteristics of people, families and dwellings. The Profiles, which form the core of many Census products, are available for Australian Standard Geographic Classification (ASGC) areas and other standard Census geographic areas. They are an economical way of obtaining a statistical picture of a community and making comparisons between different areas or different population groups — an excellent tool for research and planning.

Electronic versions of the Community Profiles will continue to be provided with free windows-based manipulation software which allows users to view, select and print data. It is anticipated that 2001 Census Profiles will be available in formats suitable for use with a range of spreadsheets and databases.

The Series comprise:

Basic Community Profile

Indigenous Profile

Time Series Profile

Usual Residents Profile

Expanded Community Profile

Working Population Profile

The Indigenous Profile (IP) will be released in two stages and contain 29 tables reflecting the key characteristics of persons, families and dwellings. Comparisons with the non-Indigenous population are provided for the majority of tables. The IP will be available for Indigenous geography, with some tables available for Indigenous Locations, and others available for Indigenous Areas, Aboriginal and Torres Strait Islander Commission (ATSIC) Regions. It will also be available for main ASGC geography comprising Statistical Local Areas and their aggregates.

NOTE: Community Profiles are available on the ABS web site, or through the ABS Consultancy Service. The recommended retail price (RRP) is applicable for each single community profile purchased. (For example, a Basic Community Profile for a single collection district = \$10, Basic Community Profiles for five separate collection districts = \$50). An appropriate labour charge is added to the RRP when Community Profiles are disseminated through an ABS consultant (for example, one Basic Community Profile for an aggregate of Collection Districts = \$10 plus labour). Standard Bulk Sets of Community Profiles are also available through ABS consultants.

*New issue* **2003.0 Census of Population and Housing: Time Series Community Profile**

*Five-yearly; first and latest issue: 2001 is expected to be released in 2003; various media; \$10.00*

The Series comprise:

Basic Community Profile

Indigenous Profile

Time Series Profile

Usual Residents Profile

Expanded Community Profile

Working Population Profile

The Times Series Profile (TSP) will contain approximately 22 tables similar to those in the Basic and Expanded Profiles, comprising data (where the classifications are comparable) from the 1991, 1996 and 2001 Censuses. The TSP will be available for SLAs and aggregates.

The Census question relating to income will use the same response ranges in 2001 as in 1996. The TSP will include, for the first time, a table comparing numbers of people in each income range in the two Census years (not indexed).

NOTE: Community Profiles are available on the ABS web site, or through the ABS Consultancy Service. The recommended retail price (RRP) is applicable for each single community profile purchased. (For example, a Basic Community Profile for a single collection district = \$10, Basic Community Profiles for five separate collection districts = \$50). An appropriate labour charge is added to the RRP when Community Profiles are disseminated through an ABS consultant (for example, one Basic Community Profile for an aggregate of Collection Districts = \$10 plus labour). **2021.0 Census of Population and Housing: Customised Profile Service, Australia**

*Price on application*

A set of tables, similar to 2001.0, based on a particular theme. They are available for a user-specified area and a range of target populations. They will be available for Collection Districts (CDs) and aggregations of CDs. Explanatory Notes and footnotes are included with each Profile.

**2022.0 Census of Population and Housing: Classification Counts, Australia**

*Five-yearly; first issue: 1996; latest issue: 2001; various media; \$10.00*

The 2001 Classification Counts provide frequency counts for 2001 Census variables in full classificatory detail, available for each state and territory and Capital City Statistical Division. These are cross-classified by sex where applicable. Classification Counts will be released in two phases. First release are those variables which are relatively easy to process, such as age, birthplace, language, dwelling type, rent and housing loan repayment. Second release are those variables which require more complex processing such as industry of employment, labour force status, and non-school qualification.

NOTE: Classification Counts are available on the ABS web site, or through the ABS Consultancy Service. The recommended retail price (RRP) is applicable to each Classification Count purchased (that is, for each classification variable and classification count type requested). An appropriate labour charge is added to the RRP when Classification Counts are disseminated through an ABS consultant.

**2024.0.30.001 Census of Population and Housing: CLIB2001, Australia**

*Five-yearly; first issue: 1996 (first release); latest issue: 2001 (Release 2) is expected to be released in 2003; CD-ROM; free; ISBN: 0 642 47893 7*

CLIB2001 includes an enhanced user interface with drill down mapping functionality, search facilities and improved printing capabilities.

NOTE: CLIB has been produced for, and is provided free of charge to eligible libraries under the Library Extension Program. See also 2020.0 and 2022.0.

**2030.0 Complete Set of Social Atlases**

*Five-yearly; first issue: 1996; latest issue: 2001 is expected to be released in 2003; 498 pp; \$400.00*

A set of Social Atlases of the Australian capital cities. The Social Atlas series present colour maps of the key social, demographic and economic characteristics of each capital city, at the time of the 2001 Census. The maps are easy to interpret as the distribution of the data is represented by different colours or shadings. A brief commentary explaining the main features and characteristics also accompanies each map.

The Social Atlas series has a common core set of maps including population, ethnicity, education, families, income, labour force and dwellings. Each Social Atlas also includes maps that highlight any unique attributes pertaining to that particular capital city.

## 20: CENSUS STATISTICAL PRODUCTS AND SERVICES

### **2031.0 Census of Population and Housing: Customised Tables, Australia**

*Price on application*

Contains tabulations which cross-classify a number of census variables. Clients are able to specify their own combination of census variables and geographic levels (based on census geographic units), providing the table does not breach confidentiality rules. Customised tables can be produced by place of enumeration or by place of usual residence.

### **2032.0 Census of Population and Housing: Australia in Profile — A Regional Analysis**

*Five-yearly; first issue: 1996; latest issue: 2001 is expected to be released in 2003; 180 pp; \$43.00; ISBN: 0 642 47887 2*

Presents commentary and data on a number of key social indicators from the Census with the focus on regional distribution and comparisons. Topics covered include cultural diversity, living arrangements, education, work and housing. Also includes ranked tables, maps and graphs and is designed for the general user of Census data.

### **2035.0 Census of Population and Housing: Population Growth and Distribution, Australia**

### **2042.0 MapInfo Version 5.5 Software**

*Irregular; first and latest issue: 2000; CD-ROM; \$650.00*

Upgrade of existing MapInfo GIS software which is part of the CData 96 product.

**2043.0.30.001 MapInfo version 6.0 software**

*Irregular; first and latest issue: March 2001; CD-ROM; varies with requirements — price on application*

Upgraded version of MapInfo Professional software which offers ABS clients increased functionality when used with CDATA96 CD-ROM product

**2044.0.30.001 Census of Population and Housing: CDATA 2001 — Quickbuild, Australia**

*Five-yearly; first and latest issue: 2001; CD-ROM; \$6,300.00*

CDATA 2001 — Quickbuild contains reduced GIS software functionality when compared to that available in CDATA 2001 — Full GIS, but with complete access to all statistical and boundary data. Users are able to quickly select the geography and data they need to produce reports, thematic maps, graphs or data views. CDATA 2001 — Quickbuild allows for the export of statistical data for use in other applications.

CDATA 2001 — Quickbuild includes a basic base map layer containing major roads, rivers and railways. The more complex GIS facilities such as SQL, importing of external data, geocoding and point creation are not available in CDATA 2001 — Quickbuild. However, the ABS offers an upgrade path for users of this product to upgrade to the full GIS version at a later stage.

**2045.0.30.001 Census of Population and Housing: Census Basics, Australia**

*Five-yearly; first and latest issue: 2001; CD-ROM; \$6,000.00*

Census Basics is a CD-ROM product containing 2001 Census Basic Community Profile (BCP) data, down to Collection District (CD) level, and digital boundaries in MapInfo Interchange format (.mid/.mif). A simple Excel viewer tool is also provided to view the data files. Census Basics is available for purchase for all of Australia or for individual states and Territories.

This product has been introduced for the 2001 Census for several purposes:

- for use with existing database or analysis systems (e.g. geographic information systems, other mapping or tabulation software) where the sophisticated functionality provided by other Census products, including CDATA is not required;
- for use as a simple viewing tool to display a formatted BCP for a single geographic area or a simple custom area aggregate without manipulation or other functionality;
- for purchasers of CDATA 2001 who require access to the available data before the final release of CDATA 2001. Census Basics is provided free on request to all purchasers of CDATA 2001. Purchasers of CDATA 2001 can import the data into CDATA 2001 Release 1 although this task is not considered simple. The free Census Basics offer is available until the CDATA 2001 Release 2 product is released (indicatively June 2003).

The Census Basics final release product is distributed automatically to all recipients of the first release product.

## 20: CENSUS STATISTICAL PRODUCTS AND SERVICES

### **2046.0.55.001 Census of Population and Housing: 2001 Census Snapshots**

*Five-yearly; first and latest issue: 2001; electronic delivery; free*

Census Snapshots are a new product designed to provide a summary overview for a selected geographic area and will be available free of charge via the ABS web site. Census Snapshots contain subsets of Community Profile data, including person counts, age and birthplace, presented in a narrative form for easy access by a wide audience. These will be available for Australia, states and territories, Capital City Statistical Divisions, and Statistical Local Areas. The Snapshots contain comparative data from the 1991, 1996 and 2001 Censuses where available. A Snapshot from the 1901 Census will also be available containing population data for the Australia and state levels. Area selections for this product will be simplified through an intuitive, drill-down map interface.

### *New Issue* **2048.0 Census of Population and Housing: Ageing in Australia**

*Single Issue; First issue 2001 is expected to be released in 2003; 120pp; \$33.00; ISBN: 0 642 47900 3*

Providing an ageing focus on 2001 Census data, this publication will be a useful resource for agencies with ageing policy responsibilities, researchers and the Australian community generally. While a major focus is on the number and characteristics of older Australians, i.e. persons aged 65 years and over, it also explores the ageing process in Australia by examining other age cohorts including mature age workers and the very old as well as examining trends over time by comparing with data from previous Censuses. Topics covered include population structure, geographic distribution, mobility, indigenous status, birthplace and ancestry, language, religion, families and households, type of housing, housing costs, labour force participation, hours worked, income, transport, education, and use of computers and the internet. In each chapter, data are presented in tabular, graphic and textual form, mainly at a national level, with a limited number of tables and maps at a more detailed geographic level.

29: CENSUS REFERENCE PRODUCTS AND SERVICES

A simple and intuitive interface presented for users to access the information and web site links also made available.

### **2919.0.55.001 Collection District Comparability Listing, Australia — Electronic Delivery**

*Five-yearly; first and latest issue: 1996 to 2001; electronic delivery; \$81.00*

*Replaces: 2919.0.15.001*

At each Census, Collection Districts may be redesigned to accommodate growth in population or to conform to other administrative data. To assist users to compare data for Collection Districts which changed between the 1996 and 2001 Censuses, a comparability code has been allocated to pairs of 1996 and 2001 Collection Districts. The resultant listing, which includes all Collection Districts for both 1996 and 2001, indicates the degree to which the boundary of a Collection District has changed between the 1996 and 2001 Censuses. The data is supplied as a comma separated text file with an accompanying explanation of the meaning of each code.

**2919.0.55.002 Collection District Comparability Listing, Australia — Electronic Delivery**

*Five-yearly; first and latest issue: 1991 to 2001; electronic delivery; \$81.00*

*Replaces: 2919.0.15.001*

At each Census, Collection Districts may be redesigned to accommodate growth in population or to conform to other administrative data. To assist users to compare data for Collection Districts which changed between the 1991 and 2001 Censuses, pairs of 1991 and 2001 Collection Districts have been assessed as either comparable or not comparable. A listing of the comparability codes, which includes all Collection Districts for both 1991 and 2001, is available as a comma separated text file with an accompanying explanation of the meaning of each code.

## 33: VITAL STATISTICS

**3301.0 Births, Australia**

*Annual; first issue: 1968; latest issue: 2002 is expected to be released in 2003; 96 pp; \$30.00; ISSN: 1030-0150*

Detailed statistics on confinements and live births — male and female births, births of Indigenous children, age and birthplace of parents, duration of marriage, previous issue of the current relationship, nuptial and exnuptial births, single and multiple births, usual residence of mother (by state or territory), regional comparisons. Also shows various rates and time series data. The appendix gives a comparison between the different births collections — Birth Registrations and the Midwives' Collection.

NOTE: See also 3302.0 and 3311.1 to 3311.8.

**3302.0 Deaths, Australia**

*Annual; first issue: 1967; latest issue: 2002 is expected to be released in 2003; 80 pp; \$27.00; ISSN: 1031-0223*

Number of deaths classified by age, sex, birthplace, marital status, cause of death and usual residence of deceased by state or territory; also information on infant deaths, deaths of Indigenous persons, age-specific death rates, expectation of life at birth and standardised death rates. Australian Life Tables are included.

NOTE: See also 3301.0 and 3311.1 to 3311.8.

**3303.0 Causes of Death, Australia**

*Annual; first issue: 1963; latest issue: 2002 is expected to be released in 2003; 96 pp; \$30.00; ISSN: 1031-2005*

Presents statistics on the number of deaths by state or territory of Australia, sex, selected age groups, and cause of death classified to the World Health Organisation's International Classification of Diseases (ICD). Version 10 of the ICD has been introduced from 1999. Major causes are also shown as a proportion of total deaths and as age-specific death rates. Prior to 1997, death information is available for underlying cause only, while from 1997 onwards, information relating to multiple causes is also available.

Details of perinatal deaths are included from 1994 to 1996 based on the 500 gram/22 weeks gestation definition, while from 1997, the 400 gram/20 week gestation definition is used.

NOTE: See also 3302.0 and 3311.1 to 3311.8.

## 33: VITAL STATISTICS

### **3309.0 Suicides, Australia**

*Irregular; first issue: 1961–81; latest issue: 1921 to 1998; 40 pp; \$18.50; ISBN: 0 642 54239 2*

Using the data derived from causes of death statistics, this publication presents a time series for suicides from 1921, and highlights trends in suicide death rates by age and sex from 1921 to 1998. A detailed analysis of suicide data by age and sex is carried out for suicides in the 20-year period from 1979 to 1998. Although the publication has a national focus, it also presents suicide data for states and territories, capital cities, other urban and rural areas. Trends in suicide death rates are examined according to the method used, marital status, international trends and multiple causes of death.

### **3310.0 Marriages and Divorces, Australia**

*Annual; first issue: 1994; latest issue: 2002 is expected to be released in 2003; 120 pp; \$33.00; ISSN: 1322-8692*

*Continues: 3306.0, 3307.0 and 3220.0*

Provides a valuable tool to examine family formation and dissolution as well as helping to quantify the number of children involved. While the main emphasis of the publication is registered marital status, allowance for change in living arrangements through the growing importance of de facto marriages is also recognised. It covers registration of marriages classified according to state or territory of registration, age, previous marital status, country of birth of bridegrooms and brides and type of celebrant. Registered marriages dissolved are classified by age, duration of the marriage at final separation and at date of dissolution, country of birth and number of children. Estimates of the population by marital status, age and sex, at 30 June are also included.

NOTE: Issues from 1994 contain a wide variety of data relating to Marriages, Divorces and Marital Status Estimated Resident Population. The 1995 issue includes time series data for Marriages and Divorces from 1901. See also 3301.0 and 3311.1 to 3311.8.

### **3315.0 Occasional Paper: Mortality of Indigenous Australians**

*Irregular; first issue: 1994; latest issue: 1997; 76 pp; \$22.00; ISBN: 0 642 27496 7*

Describes the mortality of Indigenous Australians in the three-year period from 1995 to 1997. Most of the data presented are from Western Australia, South Australia and the Northern Territory combined, as these jurisdictions were believed to have the most complete coverage of Indigenous deaths during the period of interest. The process used by the Australian Bureau of Statistics to assess completeness of coverage is also described.

### **3318.0 Mortality Atlas, Australia**

*Single Issue; first and final issue: 1997 to 2000; 108 pp; \$50.00; ISBN: 0 642 47831 7*

A useful reference for users in interpreting causes of death in Australia. This publication through the use of maps and commentary presents standardised death rates for Statistical Divisions and Statistical Subdivisions in Australia for the period 1997 to 2000. Underlying and multiple causes of death are presented for the top 10 and other topical causes of death. Data presented uses the International Classification of Diseases Tenth Revision (ICD-10) and the Australian Standard Geographic Classification (ASGC).

**41 & 49: SOCIAL STATISTICS — GENERAL**

**4102.0 Australian Social Trends**

*Annual; first issue: 1994; latest issue: 2003 is expected to be released in 2003; 212 pp; \$47.00; ISSN: 1321-1781*

Presents statistical analysis and commentary on a wide range of current social issues. The 30 plus articles are organised into seven chapters, representing the following broad areas of interest: population; families; health; education and training; work; income and housing. Each chapter is supported by a set of summary tables including key social indicators which provide an overview of social change over the past decade, as well as how social conditions differ across Australian states and territories. A set of international tables also compares Australia with 18 other nations.

The style of the report is clear, focused and easy to read. Effective use is made of summary tables and graphics to highlight key information. The annual series, as it builds up over time, will provide an invaluable historical perspective of social change in Australia.

*New issue* **4159.0 General Social Survey, Australia**

*Irregular; first and latest issue: March to July 2002 is expected to be released in 2003; 60 pp; \$25.00*

Presents results of the first General Social Survey, which brings together a wide range of information to enable it to be linked in ways not previously available. The focus is on the relationships between characteristics from different areas of social concern, rather than in depth information about a particular field. Topics include health, housing, education, work, income, financial stress, broad assets and liabilities, transport, family and community, and crime. Provides an overview through summary tables for different population groups and selected themes. More detailed cross classified tables also cover selected themes. Provides a range of information not previously available from household surveys for smaller states.

**4160.0 Measuring Wellbeing: Frameworks for Australian Social Statistics**

*Irregular; first issue: 1992; latest issue: 2001; 308 pp; \$56.00; ISBN: 0 642 27487 8*

*Previously: A Guide to Australian Social Statistics (ISBN: 0 642 16853 9)*

A textbook concerning the conceptual organisation of social statistics in the ABS. After describing an overall system of social statistics, it addresses each major area of concern (i.e. population, family and community, health, education and training, work, economic resources, housing, crime and justice, and culture and leisure). For each of these areas, the book discusses: issues involved in defining the scope and content of the area; the connection of the area to wellbeing; key social issues and population groups of interest; and frameworks and measurement tools used to organise the collection of statistics. The book also provides an overview of key data sources for each area.

**4173.0 Time Use on Culture/Leisure Activities**

Contains a selection of national data on time spent, by persons aged 15 and over, on culture and recreation activities. Data are sourced from the 1997 Time Use Survey.

**4174.0 Sports Attendance, Australia**

*Irregular; first issue: March 1995; latest issue: April 1999; 32 pp; \$18.50; ISBN: 0 642 27484 3*

Contains details on the characteristics of people who attend and their frequency of attendance at various sports.

*Discont'd*

**4177.0 Participation in Sport and Physical Activities, Australia**

*Annual; first issue: 1995–96; final issue: 1999–2000; 36 pp; \$19.50; ISSN: 1441-0214*

Contains details on the number and characteristics of people who participate in a range of sport and physical activities at national and state level, by age, sex, and frequency of participation.

Earlier editions 1995–96 and 1996–97 contained expenditure data for individual sports and physical activities, and participation by children aged 5–14 years in school organised and club organised activities, by age and state.

**4182.0 Australian Housing Survey — Housing Characteristics, Costs and Conditions**

*Five-yearly; first issue: 1994; latest issue: 1999; 80 pp; \$25.00; ISBN: 0 642 54227 5*

In addition to information on the physical characteristics and condition of dwellings, emphasis is given to the costs, affordability and adequacy of housing. These are analysed in relation to various characteristics, such as household composition, tenure status and income levels.

The most recent collection also provides information on people's recent housing history, changes in household composition over time and the number and characteristics of 'visitors' who regularly stay overnight or on a more extended basis.

**4183.0 Cultural Funding by Government, Australia**

*Annual; first issue: 1994–95; latest issue: 2001–02 is expected to be released in 2003; 16 pp; \$19.00; ISSN: 1328-4460*

Contains estimates of funding for arts and cultural activities by the three levels of government in Australia.

*Discont'd* **4186.0.30.001 Australian Housing Survey: Confidentialised Unit Record File on CD-ROM**

*Irregular; first and final issue: 1999; CD-ROM; \$8,000.00; ISBN: 0 642 47780 9*

Contains confidentialised unit record data from the 1999 Australian Housing Survey. The 1999 AHS collected data on the physical characteristics and condition of dwellings, the costs, affordability and adequacy of housing, as well as information on people's recent housing history, changes in household composition over time and the number and characteristics of 'visitors' who regularly stay overnight or on a more extended basis. The file contains no names or addresses and the detail for some items of data has been suppressed or reduced. The file is distributed on compact disc. Subject to the limitation of sample size and the data classifications used, it is possible to manipulate the data, produce tabulations and undertake statistical analyses to individual specifications.

NOTE: This product was previously released in floppy disk (4186.0.15.001) and magnetic tape (4186.0.25.001) format.

**4901.0 Children's Participation in Cultural and Leisure Activities, Australia**

*Irregular; first and latest issue: April 2000; 48 pp; \$22.00; ISBN: 0 642 54252 X*

Presents data on a range of cultural and recreational activities, including participation in organised sports and use of computers, by children aged from 5–14 years inclusive. Both state and National data are presented.

**4902.0 Australian Culture and Leisure Classifications**

*Irregular; first and latest issue: 2001; 188 pp; \$42.00; ISBN: 0 642 54274 0*

Presents three separate classifications for culture and leisure data, covering industries, occupations and products. The development of these three classifications is the first stage in the preparation of a wider framework for managing culture and leisure data. Further work planned includes developing an information model, an information plan, additional classifications and a data directory.

## 42: EDUCATION

**4213.0 Occasional Paper: Measuring Learning in Australia —  
A Framework for Education and Training Statistics**

*Single Issue; first and final issue: 2003 is expected to be released in 2003; 52 pp; \$23.00; ISBN: 0 642 47862 7*

Proposes a framework for statistics on learning. The framework has been developed with input and guidance from the National Education and Training Statistics Unit Management Board, and is the product of extensive consultation with relevant stakeholders. It has been developed to assist relevant bodies and agencies to determine their information requirements, and assist in data collection and analysis.

*Discont'd* **4220.0 Schools, Australia, Preliminary**

*Annual; first issue: 1984; final issue: 2000; 24 pp; \$18.50; ISSN: 1034-5671*

*Previously:* National Schools Statistics Collection, Australia, Preliminary

Preliminary summary statistics of primary and secondary schools, students and staff, classified by state or territory, type and category of school and year of education. Also includes apparent retention rates for students to Year 12.

**4221.0 Schools, Australia**

*Annual; first issue: 1984; latest issue: 2002 is expected to be released in 2003; 36 pp; \$22.00; ISSN: 1035-3461*

*Previously:* National Schools Statistics Collection, Australia

Statistics on schools, students and teaching staff involved in the provision or administration of primary and secondary education, in government and non-government schools for all states and territories. Schools are classified by level of education (primary, secondary) and category (government, non-government); students are classified by level and year of education, age, sex and category of school attended; teaching staff are classified by level of education of school, category of school and sex.

Also includes apparent retention rates for students to Years 9, 10, 11 and 12, plus student/staff ratios, school age participation rates and some information on Indigenous students. Some of the statistical tables are presented in time series format.

NOTE: Note: Detailed tables (not included in the publication Schools, Australia) can be purchased from Companion Data (in Excel spreadsheet format) on the ABS web site at <[www.abs.gov.au](http://www.abs.gov.au)>.

## 42: EDUCATION

*Discont'd* **4224.0 Education and Training in Australia**

*Irregular; first issue: 1991; final issue: 1998; 156 pp; \$31.00; ISBN: 0 642 25797 3*

This publication has been redeveloped and uses the Framework of Education and Training Statistics to describe the national picture of education and training in Australia. The framework provides a structure to understand education and training, ranging from the socioeconomic context, resources and participants through to the transition to work and long-term outcomes. Key information is presented as a series of 40 indicators within that structure.

A wide range of ABS and non-ABS statistics are used, covering schools, higher education, vocational education and training, and training activities. Statistics and commentary describe and analyse the Indicators.

The publication includes historical components and international comparisons, and has been written with an awareness of current trends and policy directions. This publication is an easy to understand reference for anyone interested in education and training in contemporary Australia and how we compare internationally.

**4230.0 Education and Training Indicators, Australia**

*Biennial; first and latest issue: 2002; 128 pp; \$36.00; ISSN: 1446-3121*

*Replaces 4224.0*

Presents a suite of approximately 40 indicators which covers the spectrum of education and training in Australia. The indicators are based on national level data and are aligned to a recently developed framework for education and training statistics 'Measuring Learning in Australia, a suggested framework for Education and Training statistics'. The framework provides a structure to organise education and training statistics, and within this publication the indicators are grouped into context, resources (human and financial), participation, and outputs and outcomes.

A wide range of both ABS and non-ABS statistics are used in the indicators, covering schools, higher education, vocational education and training, and training activities. Each individual indicator includes commentary, tables and/or graphs to describe the data. It also contains some data which will enable international comparisons for some of the indicators. This publication aims to be an easy to understand reference for anyone interested in education and training in Australia.

## 43 &amp; 48: HEALTH

**4306.0 Apparent Consumption of Foodstuffs, Australia**

*Five-yearly; first issue: 1946–47; latest issue: 1997–98 and 1998–99; 40 pp; \$20.00; ISSN: 1329-2056*

*Previously: Apparent Consumption of Foodstuffs and Nutrients, Australia (ISSN: 1031 0533)*

Contains detailed statistics of the apparent consumption of foodstuffs in Australia as well as comparative data for earlier years. Data includes a general overview of the supply and utilisation of approximately 130 basic foodstuffs (e.g. flour, meat, fresh fruit, milk, vegetables, etc.) available for consumption.

NOTE: This publication no longer presents data relating to nutrient intake, compiled by the Australian Institute of Health and Welfare (AIHW). Users of this data should contact AIHW directly. **8922.0 Australia's Young People: Their Health and Wellbeing***Biennial; latest issue: 1999; 300 pp; \$38.00*

Provides comprehensive information from currently available data sources, and is the first in a series of biennial reports on youth health. This report will be relevant for anyone interested in youth health, including health planners and administrators, community and hospital practitioners, academic researchers, as well as the general public.

NOTE: This publication is produced by the Australian Institute of Health and Welfare, with an agreement to sell copies through the ABS Bookshop.

**8926.0 Health and Community Services Labour Force**

*Five-yearly; latest issue: 1996; 20 pp; \$21.50*

Highlights the characteristics of the health and community services workforce and presents statistics showing employment by occupation, age, sex, industry, hours worked, birthplace, income and geographic region based on the 1996 Census.

NOTE: This publication is produced by the Australian Institute of Health and Welfare, with an agreement to sell copies through the ABS Bookshop.

## 44: WELFARE AND SOCIAL SERVICES

**4402.0 Child Care, Australia**

*Triennial; first issue: May 1969; latest issue: June 2002 is expected to be released in 2003; 48 pp; \$23.00; ISSN: 1037-7921*

*Previously: Child Care Arrangements, Australia*

Contains information on children under 12 years of age and family units with children under 12 years of age classified by type and usage of child care and the child care benefit, number and age of children, days and hours of care, labour force status and birthplace of parents, demand for childcare and other demographic and economic attributes of the families, children or parents.

**4430.0 Disability, Ageing and Carers, Australia: Summary of Findings**

*Five-yearly; first issue: 1993; latest issue: 1998; 76 pp; \$22.00; ISBN: 0 642 25739 6*

Includes tables on people with disabilities, their carers and people aged 65 years and over. National and state counts and rates show the prevalence of disability and of restrictions in activities of daily living. The report examines the age, sex, living arrangements and educational and labour force experience of people with disabilities, their social participation, and their need for and receipt of assistance with a range of ordinary life activities. Similar information is presented for people aged 65 years and over, whether they have disabilities or not. Identification of unmet need assists with the planning of support services. Carer information indicates how much of this assistance is provided by family and friends. Counts of carers are presented, and, for primary carers, age, labour force status, housing tenure, income, time spent caring and relationship to, and some characteristics of, the recipient of care.

**4431.0 Disability, Ageing and Carers: User Guide, Australia**

*Five-yearly; first issue: 1993; latest issue: 1998; 160 pp; \$32.00; ISBN: 0 642 27503 3*

Essential reference for understanding data released from the 1998 Survey of Disability, Ageing and Carers. Describes the background, nature and content of the Survey, sampling and estimation, collection and processing, and issues relating to quality. A detailed data item list and information about the coding of health conditions is included.

**4433.0 Disability, Ageing and Carers, Australia: Disability and Long-term Health Conditions**

*Irregular; first issue: 1993; latest issue: 1998; 64 pp; \$23.00; ISBN: 0 642 47701 9*

Contains national statistics on people with disabilities grouped by the type or combination of types of impairments that produced their disabilities; and on people with common long-term conditions. Topics include living arrangements, country of birth, area and severity of core activity restrictions, help needed, difficulty using public transport, labour force status and time in employment, main disabling condition and number of conditions, all analysed by impairment groups; and characteristics of people with common long-term conditions.

## 44: WELFARE AND SOCIAL SERVICES

### **4436.0 Caring in the Community, Australia**

*Irregular; first and latest issue: 1998; 60 pp; \$22.00; ISBN: 0 642 27500 9*

Providing information on informal carers from the 1998 Survey of Disability, Ageing and Carers, this publication is valuable for researchers in the fields of caring, disability and related community services. Topics included are need for, receipt and provision of assistance because of disability; characteristics of carers, and in particular primary carers; activities for which care is provided; the effects of caring on labour force experience and other aspects of the lives of primary carers; and the availability and use of support.

### **4441.0 Voluntary Work, Australia**

*Irregular; first issue: June 1995; latest issue: 2000; 48 pp; \$22.00; ISBN: 0 642 47723 X*

Contains information about participation in unpaid voluntary work through an organisation or group. This publication includes data about the types of organisation with which the voluntary work is associated, the types of activities carried out, time spent volunteering, the characteristics of the volunteer, and the reason for volunteering. Also includes information about monetary donations made to various organisations.

NOTE: See also 4440.0.

### **8905.0 Australia's Welfare**

*Biennial; latest issue: 2001; 505 pp; \$40.00; ISSN: 1321-1455*

The most comprehensive and authoritative source of national information on services in Australia. Topics include welfare services expenditure, children's and family services, child protection, housing assistance, crisis accommodation and support services, aged care services and disability services. Featured is a special chapter on the interactions between changing work patterns and demand for, and supply of, welfare services. Both formal and informal care services are explored, as well as changes in the nature of the welfare labour force.

NOTE: This publication is produced by the Australian Institute of Health and Welfare, with an agreement to sell copies through the ABS Bookshop.

## 45: CRIME AND JUSTICE

**4509.0 Crime and Safety, Australia**

*Irregular; first issue: April 1993; latest issue: April 2002 is expected to be released in 2003; 48 pp; \$23.00; ISBN: 0 642 47838 4*

Contains summary data on household break-ins, attempted break-ins and motor vehicle theft; and personal robberies, assaults and sexual assaults, in the 12 months prior to the survey. Provides information on the most recent incident including whether it was reported to the police and offender information. Data are classified by demographic characteristics. Includes some state and territory data and some limited comparisons with the 1993, 1995 and 1998 Crime and Safety Surveys.

NOTE: It is expected that state level standard datasets will be available, where appropriate, for the tables included in 4509.0.

**4510.0 Recorded Crime, Australia**

*Annual; first issue: January to December 1993; latest issue: 2002 is expected to be released in 2003; 44 pp; \$23.00; ISSN: 1329-203X*

*Previously: National Crime Statistics (ISSN: 1320-6532)*

Contains uniform national crime statistics relating to a selected range of offences that have become known to and recorded by police. The statistics provide indicators of the level and nature of recorded crime in Australia and a basis for measuring change over time.

National crime statistics are compiled on a victim basis and measure the number of victims for each offence category rather than the breaches of criminal law. This publication provides a breakdown of the offences by victim details (age of victim, sex of victim, relationship of offender to victim) and includes type of location, use of weapon, and outcome of police investigations statistics. As the national collection progressively expands, future publications will provide additional details on reported offences.

NOTE: Companion tables with detailed state/territory information are available separately. Price on application.

**4512.0 Corrective Services, Australia**

*Quarterly; first issue: March 1998; 40 pp; \$22.00; ISSN: 1440-5997*

Contains national information on persons in custodial corrective services in Australia. Monthly information is presented for each state and territory. Numbers and imprisonment rates are presented by open and secure custody and periodic detention, for all prisoners and for Indigenous prisoners. Information is also presented on prisoner numbers by legal status (sentenced or unsentenced), and by sentence type ('fine default only' or 'other sentenced'). The number of sentenced receptions, the number of federal prisoners in each state and territory, information on numbers received into custody, and number of persons serving community-based corrective service orders are also included.

**4513.0 Criminal Courts, Australia**

*Annual; first issue: 1995; latest issue: 2001–02 is expected to be released in 2003; 80 pp; \$27.00; ISSN: 1441-2608*

*Previously:* Australian Criminal Courts (ISSN: 1325-541X)

Provides nationally comparable data showing the number of defendants dealt with by the higher (Supreme and Intermediate) and lower (Magistrates) criminal courts, details on the characteristics of those defendants (such as age and sex), and outcomes associated with adjudicated defendants (including penalty type and quantum) by the type of offence committed. Information is presented for each state or territory (including the aggregate total for Australia) and for each court level (including the aggregate total for higher courts combined).

**4517.0 Prisoners in Australia**

*Annual; first issue: 2000; latest issue: 2002 is expected to be released in 2003; 60 pp; \$25.00; ISSN: 1444-710X*

Contains national information on prisoners who were in custody on 30 June each year. The statistics are derived from information collected by the ABS from corrective services agencies in each state and territory. Provides details on the number of people in correctional institutions (including people on remand), imprisonment rates, most serious offence and sentence length. A range of information is also presented on prisoner characteristics (age, sex, Indigenous status) and on the type of prisoner (all prisoners, sentenced prisoners, and unsentenced prisoners (remandees)).

NOTE: Prior to the 2000 reference period, the data was presented as an annual report for the Corrective Services Ministers' Council by the National Corrective Services Statistics Unit.

Companion tables with detailed state/territory information are available separately. Price on application.

*New issue* **4518.0 Information Paper: Sexual Assault Information Development Plan**

*Single Issue; first and latest issue: 2003 is expected to be released in 2003; 36 pp; \$10.00; ISBN: 0 642 47856 2*

Contains an information development plan for data relating to sexual assault. Provides a conceptual framework, lists data currently available, identified gaps in data and proposed strategies to fill the gaps.

## 46: ENVIRONMENT

**4602.0 Environmental Issues: People's Views and Practices**

*Annual; first issue: May 1992; latest issue: March 2003 is expected to be released in 2003; 80 pp; \$27.00; ISSN: 1324-9029*

Contains information on household practices and behaviour with regard to household waste management and transport use. Data available on recycling and hazardous waste, motor vehicle ownership and maintenance, and the use of private and public transport.

NOTE: The March 2003 publication contains information on household waste management and transport use. Data is comparable with those in March 1996 and March 2000.

**4603.0 Environment Protection, Mining and Manufacturing Industries, Australia**

*Biennial; first issue: 1990–91; latest issue: 2000–2001; 44 pp; \$25.00; ISSN: 1445-7563*

*Previously: Cost of Environment Protection, Australia: Selected Industries (ISSN: 1038-7617) and Environment Protection Expenditure, Australia (ISSN: 1325-0914)*

Contains information about the environment protection and management activities of the mining and manufacturing industries by state, ANZSIC subdivision and business size. Includes data for both current and capital expenditure for various areas of environment protection (solid waste, liquid waste, air emissions and minesite rehabilitation); administration expenditure; measures of water use; measures for energy, water and material input savings and waste minimisation; types of waste and recyclables; and environment plans.

**4604.0 Energy and Greenhouse Gas Emissions Accounts, Australia**

*Irregular; first issue: 1993–94; latest issue: 1992–93 to 1997–98; 124 pp; \$34.00; ISBN: 0 642 25751 5*

*Previously: Energy Accounts for Australia*

Part of a series of physical environmental accounts. This publication focuses on Australian energy bearing resources such as petroleum, coal, uranium and wood fuel, in physical units. Detailed accounts of resource quantities, production and consumption are presented. Flow accounts show the movement of energy in quantity terms through economic sectors, and experimental studies on the impact of economic activities on energy consumption and greenhouse gas emissions.

**4607.0 Fish Account, Australia**

*Irregular; first issue: 1997; latest issue: 1998; 72 pp; \$24.00; ISBN: 0 642 25658 6*

Comprises part of a series of physical environmental accounts that are being developed. This publication provides information on Australian fish resources in physical terms. The statistics cover Australian fish stocks, production and consumption of fish products. The focus is on Australian commercial fish stock and common fish species.

## 46: ENVIRONMENT

### **4610.0 Water Account for Australia**

*Irregular; first and latest issue: 1993–94 to 1996–97; 108 pp; \$26.50; ISBN: 0 642 25662 4*

Part of a series of physical environmental accounts that are being developed and is focused on the physical characteristics of Australia's water resources. Where available, quantitative data are compiled on a national and state level. Detailed statistics on the volume of surface and ground water assets (stocks), the supply and use of water by various industries and sectors, water re-use and discharge data are presented. Monetary data linked to the use of water resources are supplied. A compilation of water supply and use sustainability indicators are also presented.

### **4611.0 Environment Expenditure, Local Government, Australia**

*Annual; first issue: 1997–98; latest issue: 2000–01; 36 pp; \$24.00; ISSN: 1444-3902*

*Previously:* Environment Expenditure, Local Government, (Experimental Estimates), Australia (ISSN: 1442-8377)

Focuses on local governments and their role in providing environmental management for their jurisdiction. Developed from *Environment Protection Expenditure Account, Australia* (4603.0) and highlights financial transactions made by local government on environmental issues.

For the financial year 2001–02 presents the fourth set of results collected under the Census and Statistics Act 1905 and follows two voluntary surveys and extensive consultation with local governments and associated groups.

### **4612.0 Concepts, Sources and Methods for Australia's Water, Energy and Greenhouse Gas Emissions Accounts**

*Irregular; first issue: 2001; latest issue: 2002 is expected to be released in 2003; 52 pp; \$27.00; ISBN: 0 642 47703 5*

Describes the methodology and conceptual frameworks used for developing Australia's environmental accounts on water (4610.0) and energy (4604.0). The methodology describes stock and flow (supply and use) tables and how they are developed with reference to Australia's objectives and priorities, and the physical characteristics of resources. Linkages with the United Nations System for Integrating Environmental and Economic Accounts (SEEA), and Input–Output frameworks and concepts are discussed. For a number of years the environmental accounts have been developed as an integrated information system for Australia that links environmental and resource issues to the national accounts, with the water and energy being the most comprehensive.

NOTE: Describes the data sources and methods used to compile statistics in 4610.0 and 4604.0.

**4613.0 Australia's Environment: Issues and Trends**

*Annual; first issue: 2001; latest issue: 2002 is expected to be released in 2003; 180 pp; \$40.00; ISSN: 1443-7155*

Presents a broad selection of environmental statistics and information which illustrate topical environmental issues. Each year the subject matter covered will vary, as new environmental issues emerge or more current data sources become available. While ABS data forms a core component of the statistical information, data from other government agencies, international organisations, industry, and individual researchers is also included. Value is added to these widely sourced datasets by bringing them together and analysing their import for selected environmental issues.

Each year the publication will explore some of the relationships that exist between our use of the natural environment in Australia for socioeconomic benefit and the impacts that some of these activities have on our ecology and stocks of natural resources. The publication aims to meet the information needs of a general readership.

*New issue* **4614.0 Information Paper: An Alternate Industry View of the Environment Industry: Waste Management and Recycling Services**

*Single Issue; first and latest issue: 2003 is expected to be released in 2003; 40 pp; \$10.00; ISBN: 0 642 47827 9*

Presents two proposed alternate industry views of the environment industry, a supply view and a demand view, concentrating on the waste management and recycling services components of the environment industry. The purpose of the alternate industry views is to provide information on the separate parts of the waste management and recycling services industries, assist policy formulation, and provide users with an opportunity to comment. The proposed views will provide both state and national level break-ups. ABS industry statistics are traditionally presented according to the Australian and New Zealand Standard Industrial Classification (ANZSIC). However, the ABSs alternate industry view papers address changes to industry structure and policy focus that necessitate measurements of economic activity that cut across the boundaries of ANZSIC classes.

**4615.0 Salinity on Australian Farms**

*Irregular; first and latest issue: 2002; 40 pp; \$24.00; ISBN: 0 642 47890 2*

Information on salinity and land management was collected in the 2002 Land Management and Salinity Survey and the 2001 Agricultural Census. This included data on the extent of salinity, the use of trees, crops, pastures and earthworks for salinity management, as well as the factors influencing land management decisions on farms.

Data is available for each state and for the regions identified in the National Action Plan for Salinity and Water Quality. It is also available by agricultural sector, by irrigator/non-irrigator, by EVAO and by farm size.

**47: INDIGENOUS STATISTICS**

**4324.0.30.001 1995 National Health Survey: Indigenous Persons Output Development File on CD-ROM**

*Irregular; first and latest issue: 1995; CD-ROM; varies with requirements — price on application*

Contains a selection of confidentialised Indigenous person records from the 1995 National Health Survey. Each record contains selected demographic and socioeconomic characteristics, together with a wide range of health characteristics obtained in the survey. The file is designed to enable users to investigate and manipulate the data, in order to develop and refine data output requirements, and to prepare and test computer code enabling ABS to produce the output required.

**4704.0 The Health and Welfare of Australia's Aboriginal and Torres Strait Islander Peoples**

*Biennial; first issue: 1997; latest issue: 2001; 212 pp; \$44.00; ISSN: 1441-2004*

Provides a comprehensive statistical overview, largely at the national level, of Aboriginal and Torres Strait Islander health and welfare. Among the topics included are: mortality; ill health; risk factors; access to, and use of, services; and recent developments in health and welfare information.

NOTE: This publication is a joint venture between the ABS and Australian Institute of Health and Welfare.

**4705.0 Population Distribution, Aboriginal and Torres Strait Islander Australians**

*Five-yearly; first issue: 1996; latest issue: 2001; 100 pp; \$32.00; ISBN: 0 642 47786 8*

Presents counts for Indigenous Australians from the 2001 Census, accompanied by information on data quality to help interpret the data. Population estimates of the Indigenous population based on the 2001 Census are also included. Census counts of the Indigenous Australian population are also provided for small areas (Indigenous Areas and Locations) and Aboriginal and Torres Strait Islander Commission regions.

**4706.0.30.001 Australian Indigenous Geographical Classification Maps and Census Profiles**

*Five-yearly; first issue: 1996; latest issue: 2001; CD-ROM; \$65.00; ISBN: 0 642 47855 4*

The Australian Indigenous Geographical Classification provides a geographic standard for the publication of statistics about Aboriginal and Torres Strait Islander Australians.

Maps in this product provide a visual representation of the geographic levels in the Australian Indigenous Geographical Classification which comprises Aboriginal and Torres Strait Islander Commission (ATSIC) Regions, Indigenous Areas, and Indigenous Locations. Maps are provided, in Adobe Acrobat format, for each ATSIC Region with multiple maps to provide more detail where necessary.

The Classification and its structure are incorporated into the product. In addition there are three geographic concordance tables.

This product also provides Indigenous Profiles from the 2001 Census showing key characteristics of Aboriginal and Torres Strait Islander Australians for each ATSIC Region and Indigenous Area.

**4708.0 Occasional Paper: Population Issues, Indigenous Australians**

*Five-yearly; first and latest issue: 1996; 100 pp; \$25.00; ISBN: 0 642 25684 5*

Australia's Indigenous population has experienced large increases in population counts in recent Censuses. This paper examines the issues underlying Indigenous population growth and attempts to quantify elements of population increase.

**4710.0 Housing and Infrastructure in Aboriginal and Torres Strait Islander Communities, Australia**

*Five-yearly; first issue: 1999; latest issue: 2001; 112 pp; \$34.00; ISBN: 0 642 47815 5*

Provides summary results from the Community Housing and Infrastructure Needs Survey (CHINS) enumerated from March to June, 2001.

Information presented includes: details of current housing stock, management practices and financial arrangements of Indigenous organisations that provide housing to Aboriginal and Torres Strait Islander people; and details of housing and related infrastructure such as water, electricity, sewerage, drainage and solid waste disposal, as well as other facilities available in discrete Aboriginal and Torres Strait Islander communities such as transport, communication, education, sport and health services.

It also includes time series information incorporating selected results from the 1999 CHINS as well as maps showing the distribution of Indigenous housing organisations and discrete communities across Australia.

## 47: INDIGENOUS STATISTICS

### **4711.0 Occasional Paper: Hospital Statistics, Aboriginal and Torres Strait Islander Australians**

*Irregular; first issue: 1997–98; latest issue: 1999–2000; 72 pp; \$26.00; ISBN: 0 642 47841 4*

Provides information about the reasons for which Indigenous people are hospitalised, the characteristics of Indigenous people who are hospitalised, the procedures which are performed on them in hospital and how this compares with the rest of the Australian population. Information will be presented at Australia and state/territory geographic level for public and private hospitals.

### **4712.0 Australian Housing Survey — Aboriginal and Torres Strait Islander Results**

*Irregular; first and latest issue: 1999; 72 pp; \$25.00; ISBN: 0 642 47700 0*

Presents information on Aboriginal and Torres Strait Islander housing from the Australian Housing Survey. In addition to information on physical characteristics and condition of dwellings, emphasis is given to the costs, affordability and adequacy of housing. These are analysed in relation to various characteristics such as household composition, tenure status and income levels. Includes comparisons with the non-Indigenous population.

*New issue* **4713.0 Population Characteristics, Aboriginal and Torres Strait Islander Australians**

*Five-yearly; first and latest issue: 2001 is expected to be released in 2003; 108 pp; \$34.00; ISBN: 0 642 47840 6*

Presents information on Aboriginal and Torres Strait Islander Australians based on information from the 2001 Census. The whole range of information available from the census is covered in a general overview of the characteristics of Indigenous Australians. Topics covered include: the demographic and geographic distribution of the population and its growth in recent years; living arrangements; language and religion; education and IT use; work; income; and housing and transport. Also includes information on how to interpret census data on Indigenous people.

NOTE: *Replaces: 2034.0*

*New issue* **4714.0 Indigenous Social Survey**

*Irregular; first and latest issue: 2002 is expected to be released in 2003; 100 pp; \$30.00; ISBN: 0 642 47852 X*

Presents summary results from the 2002 Indigenous Social Survey, which brings together a wide range of information about the Aboriginal and Torres Strait Islander population in Australia. Topics include culture and language, family and community, health, housing, education, employment, income, financial stress, transport and mobility, as well as crime and justice. It provides an overview through commentary and summary tables for different population groups and themes. More detailed information are presented in cross classified tables. The publication provides a range of information at the national level with an emphasis on comparisons with the non-indigenous population where possible. Some time series information, as well as information at a state/territory level is also provided.

**4715.0 National Health Survey: Aboriginal and Torres Strait Islander Results, Australia**

*Irregular; first and latest issue: 2001; 80 pp; \$30.00; ISBN: 0 642 47872 4*

Presents selected data from the 2001 National Health Survey about the health of Indigenous and non-Indigenous Australians. Topics include measures of health status, health actions taken, and lifestyle factors which may influence health.

NOTE: Data contained in this publication was previously published in 4806.0.

*New issue* **4716.0 Information Paper: Issues in Monitoring Trends in Indigenous Mortality, Australia**

*Single Issue; first and latest issue: 2001 is expected to be released in 2003; 90 pp; \$10.00; ISBN: 0 642 47891 0*

Discusses the possibilities and limitations of using best available estimates of Indigenous mortality for assessing year to year trends in Indigenous mortality at national and sub-national levels. As the underlying death registration data are known to be limited (albeit improving over time) the estimates of mortality produced by the ABS should be understood to be 'best estimates' which are based on a range of assumptions about the quality of the deaths and population data used to produce the measures. The objective of the paper is to show how sensitive the best estimates are to assumptions adopted. Several 'what if' scenarios are presented to illustrate the issues involved.

**52: NATIONAL ACCOUNTS**

**5204.0 Australian System of National Accounts**

*Annual; first issue: 1948–49 to 1961–62; latest issue: 2002–03 is expected to be released in 2003; 124 pp; \$33.00; ISSN: 1441-1075*

*Previously:* Australian National Accounts: National Income and Expenditure (ISSN: 0067-1983)

*Previously:* Australian National Accounts: National Income, Expenditure and Product (ISSN: 1322-5006)

Detailed presentation of annual national accounts data. Includes: main aggregates and productivity measures; sectoral accounts for households, financial and non-financial corporations, general government and the rest of the world; estimates of product, operating surplus, compensation of employees and other aggregates dissected by industry; tables of capital formation and capital stock; national balance sheets; flow of funds tables. Includes both current price and chain volume measures.

NOTE: For state details see 5220.0. Includes data from 5221.0, 5234.0 and 5241.0 as from the 1997–98 issue.

**5206.0 Australian National Accounts: National Income, Expenditure and Product**

*Quarterly; first issue: September 1960; 96 pp; \$30.00; ISSN: 1031-5128*

*Previously:* Australian National Accounts: National Income and Expenditure (ISSN: 1031-5128)

*Absorbs:* 5222.0

Detailed presentation of quarterly national accounts showing both current price estimates and chain volume measures in original, seasonally adjusted and trend terms. State details for components of state final demand are also included.

**5209.0 Australian National Accounts: Input-Output Tables**

*Annual; first issue: 1958–59; latest issue: 1996–97; 108 pp; \$29.00; ISSN: 0727-9434*

Shows input by industry and output by product group; industry-by-industry flow matrices; direct and total requirement coefficient matrices, employment by industry and multipliers. Also provides detailed definitions and explanations of the concepts and structure of Australian input-output tables; appendixes show Input–Output classification in terms of Australian and New Zealand Standard Industrial Classification, a key between Input–Output industries and industry groups used in detailed and aggregated tables respectively.

NOTE: See also 5215.0.

Detailed data from the collection are also available. Please contact the ABS National Information and Referral Service on 1300 135 070 for further information.

**5215.0 Australian National Accounts: Input-Output Tables  
(Product Details)**

*Irregular; first issue: 1968–69; latest issue: 1996–97; 76 pp; \$25.00; ISSN: 0727-1476*

Provides detailed information about the Input-Output Product Classification. Also shows the value of Australian production, imports and exports for over 1,000 commodities classified to the industry from which each originates, such as agriculture, manufacturing, business services and personal services.

NOTE: See also 5209.0 and 5237.0. Detailed data from the collection are also available. Please contact the ABS National Information and Referral Service on 1300 135 070 for further information.

**5216.0 Australian System of National Accounts: Concepts, Sources and Methods**

*Irregular; first issue: 1981; latest issue: 2000; 500 pp; \$75.00; ISBN: 0 642 54212 0*

History; conceptual framework; structure of the accounts; chain volume measures; sector accounts; capital formation; capital stock; Input–Output statistics; state accounts; flow of funds accounts; sources and methods of estimation of aggregates at current prices and chain volume measures; reliability and revisions.

NOTE: An updated version of this publication is available on the Statistical Concepts Reference Library on CD-ROM (1361.0.30.001).

**5220.0 Australian National Accounts: State Accounts**

*Annual; first issue: 1985–86; latest issue: 2002–03 is expected to be released in 2003; 68 pp; \$26.00; ISSN: 0819-7423*

Dissections for the last nine years of various national accounting aggregates by state and territory including household income, household final consumption expenditure, government final consumption expenditure, private gross fixed capital formation, public gross fixed capital formation, international trade in exports and imports of goods and services, State Final Demand, agricultural income, Gross State Product at market prices, total factor income by industry, compensation of employees, gross operating surplus and gross mixed income by industry. Includes estimates of Gross State Product and State Final Demand and its major components in chain volume terms.

NOTE: The 1996–97 issue of this publication is only available as a standard data service (5220.0.40.001).

## 52: NATIONAL ACCOUNTS

### **5232.0 Australian National Accounts: Financial Accounts**

*Quarterly; first issue: March to June 1989; 80 pp; \$27.00; ISSN: 1038-4286*

Contains information about the level (stock) of financial assets and liabilities of each sector of the economy, as well as information about financial transactions (i.e. flows of funds) between the sectors. Tables show the characteristics of the market for each financial instrument (e.g. which sectors borrow by issuing bills of exchange and which buy bills as investments).

NOTE: This publication has been assigned the same ABS catalogue number as *Information Paper: Australian National Accounts: Flow of Funds, Developmental Estimates* (ISSN: 1034-0475).

### **5240.0 Unpaid Work and the Australian Economy**

*Irregular; first issue: 1992; latest issue: 1997; 52 pp; \$21.00; ISBN: 0 642 54298 8*

Provides a range of experimental estimates of the value of total unpaid work in 1997 based on data from the 1997 Time Use Survey. Discusses the issues involved in measuring unpaid household work and volunteer and community work. Also outlines the issues involved in developing further household satellite accounts.

*Discont'd*

Contains experimental estimates of the total number of wage and salary earners and their average wage and salary income for Local Government Areas, Statistical Local Areas, Statistical Subdivisions and Statistical Divisions in each state and territory of Australia for the years 1995–96 to 1998–99. Estimates for the total Metropolitan and Non-Metropolitan areas by state and territory are also included. The statistics presented have been compiled from information provided to the Australian Taxation Office in individual income tax returns and are part of an ABS initiative to increase the availability of regional or small area statistical information through the use of administrative data held by other government agencies.

**5675.0 Experimental Estimates, Regional Small Business Statistics, Australia**

*Irregular; first issue: 1995–96 to 1997–98; latest issue: 1995–96 to 1999–00; 44 pp; \$22.00; ISBN: 0 642 47851 1*

The ABS is undertaking an investigation into the use of Australian Taxation Office (ATO) business income tax data to improve the range of regional economic statistics. The main aim of this work is to satisfy the demand from regional organisations and from all levels of government for regional business indicators.

This investigation has now progressed to a stage where the ABS has produced experimental estimates of regional business economic activity using the ATO business income tax data.

This paper presents details of the investigations to date, preliminary findings and the experimental estimates for statistical divisions for 1995–96, 1996–97, 1997–98, 1998–99 and 1999–2000.

**5676.0 Business Indicators, Australia**

*Quarterly; first issue: September 2001; 40 pp; \$22.00; ISSN: 1445-3762*

*Replaces: 5651.0 and 5629.0*

Contains quarterly estimates of profits, income from the sale of goods and services, wages and salaries, and the book value of inventories. These data are classified by broad industry, and original, seasonally adjusted and trend estimates are included for Australia, in current price terms. Volume measures are published for sales and inventories. State/territory data will also be included for sales, and wages and salaries, in current price terms.

**5677.0 Information Paper: Improvements to Australian Bureau of Statistics Quarterly Business Indicators**

*Single Issue; first and latest issue: 2001; 20 pp; \$10.00; ISBN: 0 642 47785 X*

Describes improvements to Australian Bureau of Statistics quarterly business indicators implemented in 2001. These improvements resulted from the integration of the surveys of Company Profits; Inventories, Sales and Services; and the private sector component of Employment and Earnings into a single survey called the Quarterly Economic Activity Survey. Details future developments, along with implications for time series and the publication and release strategy.

Presents information for users of statistics published in: *Company Profits, Australia, 5651.0; Inventories and Sales, Selected Industries, Australia, 5629.0; Wage and Salary Earners, Australia, 6248.0; and Australian National Accounts: National Income, Expenditure and Product, 5206.0.*

**5678.0 Venture Capital, Australia**

*Single Issue; first and final issue: 2000–2001; 20 pp; \$19.00; ISBN: 0 642 47824 4*

The survey provides details of venture capital activity from venture capital fund managers. The information includes in broad terms fund commitments and drawdowns by source of funds, assets and liabilities of the venture capital fund, financing flows between the fund and its investors and investee companies and the stage and industry characteristics of venture capital deals undertaken during the latest financial year.

NOTE: Venture Capital statistics were first published in a feature article in the December 2000 release of Managed Funds 5655.0

**5679.0 Information Paper: Using the ASGC Remoteness Structure to Analyse Characteristics of Wage and Salary Earners of Australia**

Contains estimates of the total number of wage and salary earners and their median wage and salary income for Remoteness Structure regions for 1999–2000. Estimates are presented for a range of variables including sex, age and occupation. The statistics presented have been compiled from information provided to the Australian Taxation Office in individual income tax returns and are part of an ABS initiative to increase the availability of regional or small area statistical information through the use of administrative data held by other government agencies.

## 61: LABOUR STATISTICS — GENERAL

### 61: LABOUR STATISTICS — GENERAL

#### **6102.0 Labour Statistics: Concepts, Sources and Methods**

*Irregular; first issue: 1986; latest issue: 2001; 352 pp; \$62.00; ISBN: 0 642 54250 3*

A comprehensive discussion and description of the concepts and definitions underpinning Australian labour statistics and the data sources and methods used in the collection and compilation of these statistics. It explains what the statistics measure, how the various measures relate to each other and how they are produced. It also discusses the factors influencing their accuracy and reliability.

#### **6104.0 Labour Statistics in Brief, Australia**

*Annual; first issue: 1986; latest issue: 2003 is expected to be released in 2003; brochure; free; ISSN: 1031-041X*

Presents a range of summary statistics with the emphasis on simple tabular and graphical presentations. Most of the ABS labour collections are covered, including the Labour Force Survey, the range of employer surveys and the industrial disputes collection. Australian data are compared with those of the major Organisation for Economic Co-operation and Development member countries.

#### *New Issue* **6105.0 Australian Labour Market Statistics**

*Quarterly; first issue: April 2003; expected to be released in 2003; 96 pp; \$30.00; ISSN: 1446-540X*

*Replaces: Labour Force, Australia 6203.0*

This publication is the flagship release for all ABS labour statistics. It draws together data from a range of sources, mostly ABS household and business surveys, to provide an overall picture of the labour market. The key purpose of this publication is to raise awareness of the data available, so that users will be able to use it more effectively.

It contains tables for core data items, presenting the most recent data available at a particular date (rather than relating to a particular reference period). It is also able to be used to announce the release of supplementary surveys and infrequent surveys. Note that, in addition to a brief article in this publication, these would also have separate releases, which would not be delayed by the release in this publication.

The publication is also used to release annual data on Indigenous labour force status, and annual supplementary measures of labour underutilisation. It includes a range of feature articles, both analytical and technical, which will assist users in understanding and interpreting the data and will also promote the range of data available from the ABS labour statistics program. It will be used to announce any changes to labour series or releases.

Contains brief explanatory notes, outlining each data source, but referring to the relevant releases, and to *Labour Statistics: Concepts, Sources and Methods* 6102.0, for more detail.

## 62: LABOUR FORCE

**6202.0 Labour Force, Australia, Preliminary**

These factors are revised as part of the annual re-analysis of Labour Force Survey seasonally adjusted data.

**6293.0.00.001 Occasional Paper: A Risk Index Approach to Unemployment — An Application Using the Survey of Employment and Unemployment Patterns**

*Irregular; first and latest issue: 1998; 92 pp; \$24.00; ISBN: 0 642 27586 6*

Data from the Survey of Employment and Unemployment Patterns are used to model the incidence of unemployment in Australia. Estimates from these models are used to categorise individuals according to their risk (high, medium, low) of unemployment.

NOTE: This is part of a series of Occasional Papers by research fellows for the Survey of Employment and Unemployment Patterns. See also 6286.0.

**6293.0.00.002 Occasional Paper: Labour Market Programs, Unemployment and Employment Hazards**

*Irregular; first and latest issue: 1997; 64 pp; \$21.00; ISBN: 0 642 54236 8*

Estimates the effectiveness of major labour market programs in assisting persons to make a transition out of job search and into sustained employment.

NOTE: This is part of a series of Occasional Papers by research fellows for the Survey of Employment and Unemployment Patterns.

**6293.0.00.003 Occasional Paper: Job Quality and Churning of the Pool of the Unemployed**

*Irregular; first and latest issue: 1997; 172 pp; \$33.00; ISBN: 0 642 54237 6*

Examines the determinants of occupational status and wages, and identifies the factors contributing to job churning among individuals with a marginal attachment to the labour market.

NOTE: This is part of a series of Occasional Papers for the Survey of Employment and Unemployment Patterns.

**6293.0.00.004 Occasional Paper: The Dynamics of Labour Market State and Benefit Receipt**

*Single Issue; first and final issue: 1997; 88 pp; \$26.00; ISBN: 0 642 54238 4*

The mobility of people between different labour market states and benefit receipt is explored. Specifically the questions addressed are: What are the characteristics associated with the different labour market states and benefit receipt? Who is at risk of long term unemployment? What are the effect of the benefits on unemployment duration? What characteristics affect the subsequent employment duration? What characteristics are associated with labour market churning?

NOTE: This is part of a series of Occasional Papers for the Survey of Employment and Unemployment Patterns.

**6293.0.00.005 Occasional Paper: Labour Market Outcomes of Low Paid Adult Workers**

*Irregular; first and latest issue: 1997; 72 pp; \$22.00; ISBN: 0 642 47705 1*

This study examines the incidence of low pay, earnings mobility and transition patterns of low paid adult wage and salary earners. A feature of the paper is that it examines how recent joblessness impacts on the subsequent labour market transitions of these people.

NOTE: This is part of a series of Occasional Papers for the Survey of Employment and Unemployment Patterns.

**6293.0.00.006 Occasional Paper: Labour Market Dynamics in Australia — An Application Using the Survey of Employment and Unemployment Patterns**

*Irregular; first and latest issue: 1994 to 1997; 68 pp; \$23.00; ISBN: 0 642 47714 0*

A description of how labour market dynamics vary across the Australian population depending on different characteristics such as age, sex, industry and occupation is presented. Modelling techniques are then used to tell us how important particular characteristics are in affecting people's labour market transitions.

NOTE: This is part of a series of Occasional Papers for the Survey of Employment and Unemployment Patterns.

**6293.0.00.007 Occasional Paper: Dynamics of Earned Income in Australia — An Application Using the Survey of Employment and Unemployment Patterns**

*Single Issue; first and final issue: 1994 to 1997; 52 pp; \$22.00; ISBN: 0 642 47725 6*

Describes the extent and pattern of movement in earnings revealed by the Summary of Employment and Unemployment Patterns (SEUP) data, including the association of earnings dynamics with labour market status and the level of earnings. The paper then goes on to develop regression models that relate changes in earnings to a number of personal and labour market related characteristics.

**6294.0 Information Paper: Labour Force Survey Questionnaire Redesign**

*Irregular; first and latest issue: 2000; 12 pp; \$10.00; ISSN: 1442-7133*

The monthly Labour Force Survey (LFS) questionnaire is currently being redesigned and is due to be implemented in March and April 2001. The last time a major redesign of the LFS questionnaire was undertaken was prior to the introduction of monthly surveys in 1978. While the current questionnaire continues to provide a wide range of relevant labour force information, there is a need to update the questionnaire to better reflect current labour market phenomena and contemporary user needs. This information paper provides background information about the questionnaire redesign including: the context and objectives of the redesign; proposed changes to existing data series and additional data that will be available; and planned testing and implementation strategies.

**6295.0 Information Paper: Implementing the Redesigned Labour Force Survey Questionnaire**

*Irregular; first and latest issue: 2001; 36 pp; \$10.00; ISBN: 0 642 54249 X*

A redesigned Labour Force Survey (LFS) questionnaire will be implemented in April 2001. This is the first major redesign of the questionnaire since the inception of the monthly survey in February 1978. This information paper will provide users of labour force statistics with information about the redesigned LFS questionnaire, including the changes and additions to labour force statistics resulting from the questionnaire redesign. Changes to Labour Force output products to be introduced from April 2001 will be advised, as well as arrangements for the provision of revised historical data and new data items that will be collected in the new questionnaire.

**6296.0 Information Paper: Measures of Labour Underutilisation**

*Single Issue; first and final issue: 2001; 52 pp; \$10.00; ISBN: 0 642 47832 5*

The number of unemployed persons and the unemployment rate are widely used as measures of the extent of underutilisation of labour resources in the economy. While the ABS continues its commitment to producing employment statistics based on internationally accepted definitions, it also recognises that the headline unemployment rate cannot satisfy all the purposes for which such data are required.

The ABS provides a wide range of data on available labour resources and the extent of labour utilisation. Supplementary measures based on these data can be used to give a broader perspective on the meaning and measurement of unemployment and underutilised labour. In particular, measures are available of underemployment and of persons who, although not currently economically active, have some of the characteristics of the unemployed (i.e. persons marginally attached to the labour force).

This Information Paper discusses ABS measures of labour underutilisation and proposes four indicators of labour underutilisation. It also identifies and discusses population groups, within the wider groups of unemployed, underemployed and marginally attached persons, that were used to develop these indicators.

**6297.0 Information Paper: Changes to Labour Force Statistics Products**

*Irregular; first issue: 2002; latest issue 2003 is expected to be released in 2003; 20 pp; \$10.00; ISBN: 0 642 47858 9*

This is the second release of the Information Paper: Changes to Labour Force Survey (LFS) products. Contains details of the new format of Labour Force, Australia, Preliminary (cat. no. 6202.0), which will be introduced for the June 2003 reference period. The first release of this Information Paper (in December 2002) set out the new LFS product set to be implemented beginning April 2003.

## 62: LABOUR FORCE

*New issue* **6298.0 Information Paper: Labour Force Survey Standard Errors**

*Five-yearly; first and latest issue: 2003 is expected to be released in 2003; 20 pp; \$10.00; ISBN: 0 642 47850 3*

Provides a comprehensive discussion of the reliability of estimates from the Labour Force Survey. It includes an explanation of how to calculate standard errors for Labour Force Survey estimates.

NOTE: This Information Paper relates to data from the Labour Force Survey, as available in 6202.0, 6202.0.40.001, 6291.0.40.001 and 6105.0. This Information Paper will replace material on sampling error in the Technical Notes of 6203.0.

**6359.0 Forms of Employment, Australia**

*Irregular; first issue: August 1998; latest issue: November 2001; 48 pp; \$23.00; ISBN: 0 642 54245 7*

Presents information on the nature and extent of various forms of employment in the Australian labour market. Information will be presented on identified sub-groups by selected job characteristics, selected socioeconomic characteristics and dependency upon client or employer.

## 63: EARNINGS, HOURS AND EMPLOYMENT CONDITIONS

### **6310.0 Employee Earnings, Benefits and Trade Union Membership, Australia**

*Annual; first issue: August 1975; latest issue: August 2002 is expected to be released in 2003; 72 pp; \$26.00; ISSN: 1442-0171*

Contains information from three survey topics: weekly earnings of employees, core employment benefits and trade union members. Weekly earnings data shows the distribution of weekly earnings of all wage and salary earners classified by full-time/part-time status, permanent or casual employee, sector, hours worked and hours paid. Core employment benefits data includes information relating to sick leave, annual leave, long-service leave and superannuation coverage. Information about the level of trade union membership is also provided. For each of these topics estimates can be cross-classified by demographics such as state, sex, age, marital status, birthplace; and by labour force characteristics such as industry of main job and occupation of main job.

NOTE: From the August 1998 issue, the publication title has been changed to reflect the permanent inclusion of data relating to employment benefits and trade union membership.

The August 1997 issue also contains information about core employment benefits, and trade union membership. Data for August 1994 and August 1995 are available as a standard data service (6310.0.40.001).

Regarding the three survey topics covered by this publication, weekly earnings data have been collected annually since 1975, except in 1996. Core employment benefits data have been collected annually since 1983. From 1983 to 1992 the survey collected a broader range of non-wage employment benefits. These are now collected on an irregular basis, with the next full survey in August 1999. Information about the level of trade union membership in Australia was first collected in 1982, then two-yearly from 1986 to 1990, and annually from 1992.

### **6321.0 Industrial Disputes, Australia**

*Monthly; first issue: October 1970; 16 pp; \$19.00; ISSN: 1031-0347*

Number of disputes, employees involved, working days lost and working days lost per 1,000 employees in industrial disputes involving stoppages of work of 10 working days or more, classified by state, industry, duration, cause and method of settlement.

NOTE: More detailed data are released on request.

### *Discont'd* **6322.0 Industrial Disputes, Australia**

*Annual; first issue: 1982 and 1983; final issue: 1999; 28 pp; \$17.00; ISSN: 1031-0355*

Number of disputes, employees involved, working days lost and working days lost per thousand employees in disputes involving stoppages of work of 10 working days or more, classified by state and industry. Includes duration, cause and method of settlement of disputes. Separate tables classified by the above variables are included for industrial disputes which occurred during the year and for industrial disputes which ended during the year.

NOTE: Data for 1994 are available as a standard data service (6322.0.40.001).

**6324.0 Work-Related Injuries, Australia**

*Irregular; first and latest issue: September 2000; 32 pp; \$19.50; ISBN: 0 642 47778 7*

Provides information on persons who worked at some time in the previous 12 months and who suffered a work-related injury or illness. These people were asked whether they suffered the injury in their current or previous job; the number of illnesses or injuries suffered; the number of days/shifts absent from work due to the injury/illness; sources of financial assistance; whether they applied for workers' compensation; and the reason they did not apply for workers' compensation. Estimates can be cross-classified with labour force characteristics and demographics such as state, sex, relationship in household, marital status, birthplace, occupation, industry.

**6342.0 Working Arrangements, Australia**

*Triennial; first issue: August 1993; latest issue: November 2000; 48 pp; \$22.00; ISSN: 1326-9054*

Provides information on characteristics of working arrangements of employed persons, including the flexibility of working arrangements and shift work. Among the topics covered are full-time/part-time status, industry, occupation, hours worked, flex time, rostered days off, overtime, absences from work, types of leave used, weekly earnings, availability of child care and information about core employment benefits, such as leave entitlements. Estimates can be cross-classified by labour force demographics such as state, sex, age, marital status and birthplace.

NOTE: Data for August 1995 are available as a standard data service (6342.0.40.001).

**6345.0 Wage Cost Index, Australia**

*Quarterly; first issue: December 1997; 24 pp; \$20.00; ISSN: 1327-5356*

The Wage Cost Index (WCI) is a pure price index designed to measure changes over time in wage and salary rates of pay. Index numbers for the WCI are compiled from hourly wage and salary rates and are unaffected by shifts in the distribution of employees across occupations and industries, and between full-time and part-time jobs. Individual indexes are published for various combinations of state and territory, public and private sectors, broad industry groups and broad occupation groups.

**6346.0 Information Paper: Wage Cost Index, Australia**

*Irregular; first issue: 1998; latest issue: 2000; 32 pp; \$10.00; ISBN: 0 642 54282 1*

Describes the development and implementation of the new Wage Cost Index in the context of the Australian labour market. It describes the statistical design and collection and compilation methodologies, highlighting changes introduced in 1999–2000.

## 63: EARNINGS, HOURS AND EMPLOYMENT CONDITIONS

### **6354.0 Job Vacancies, Australia**

*Quarterly; first issue: August 1989; 16 pp; \$19.00; ISSN: 1442-973X*

*Merger of: 6231.0 and 6330.0*

Contains estimates of the number of job vacancies, and job vacancy rates, with state and territory and industry dissections.

NOTE: Overtime statistics will be no longer collected in the quarterly Job Vacancies and Overtime Survey. For information about the availability of other statistics in relation to overtime contact Perth on (08) 9360 5304.

### **6360.0 Superannuation: Coverage and Financial Characteristics, Australia**

*Irregular; first and latest issue: April to June 2000; 60 pp; \$23.00; ISBN: 0 642 47745 0*

Presents superannuation coverage and financial information from the Survey of Employment Arrangements and Superannuation. Contains socio-demographic and employment characteristics of people with and without superannuation and reasons for not contributing to, or not having superannuation. Financial information includes the types and amounts of contributions being made to superannuation, how much superannuation has been accumulated and income from superannuation, including lump sums, pensions and annuities.

### **6361.0 Employment Arrangements and Superannuation, Australia**

*Irregular; first and latest issue: April to June 2000; 64 pp; \$24.00; ISBN: 0 642 47746 9*

Presents first results from the Survey of Employment Arrangements and Superannuation by selected socio-demographic characteristics. Contains information about people's employment arrangements such as type of worker (e.g. casuals, owner managers); job duration and expected job duration; working patterns; extra paid and unpaid hours worked; and people's work preferences. Also presents information on whether people are contributing to superannuation (through personal, employer and/or spouse contributions), whether they are receiving a pension or annuity from superannuation, and the characteristics of people with different types of superannuation coverage.

### *New issue* **6362.0 Employer Training Expenditure and Practices, Australia**

*Irregular; first and latest issue: 2001–02 is expected to be released in 2003; 48 pp; \$23.00; ISBN: 0 642 47836 8*

*Replaces:* Employer Training Expenditure, Australia 6353.0 and Employer Training Practices, Australia 6356.0

Contains information on employer provided training in Australia. Statistics on the direct costs incurred by organisations in providing structured training to employees are presented by industry, state and employer size for both the private and public sectors. Statistics on the proportion of businesses providing structured, unstructured and no training are also presented by industry, state, sector and employer size, and by workforce composition, Registered Training Organisation status and years of operation. Methods and types of training, details of training providers used, reasons for training, change in the level of training and factors affecting training are also included.

NOTE: More detailed data are available on request.

**6401.0 Consumer Price Index, Australia**

*Quarterly; first issue: June 1960; 32 pp; \$21.00; ISSN: 1442-3987*

*Previously: Consumer Price Index (ISSN: 1031-0207)*

Movements in retail prices of goods and services commonly purchased by metropolitan households. The goods and services are divided into the following groups: food; alcohol and tobacco; clothing and footwear; housing; household furnishings, supplies and services; health; transportation; communication; recreation; education; and miscellaneous. Indexes for each of these groups and for 'All Groups' are published for each of the state capitals along with Canberra and Darwin, and for the weighted average of the eight capital cities. Details are also shown for about 54 sub-groups and special and analytical series, for the weighted average of the eight capital cities.

NOTE: See also 6454.0.

**6403.0 Average Retail Prices of Selected Items, Eight Capital Cities**

*Quarterly; first issue: March 1962; 4 pp; \$18.50; ISSN: 0812-5546*

Average retail prices of selected items included in the Consumer Price Index for each of the six state capitals, Canberra and Darwin.

*Discont'd* **6405.0 Export Price Index, Australia**

*Quarterly; first issue: January 1937; final issue: March 2001; 12 pp; \$17.00; ISSN: 1031-0290*

*Replaced by: 6457.0*

Measures free-on-board, port-of-export, price movements for Australian merchandise exports. Index numbers are published for 'All Groups'; 10 groups defined in terms of sections of the Australian Harmonised Export Commodity Classification; 'Industry of Origin' groups based on divisions and subdivisions of the Australian and New Zealand Standard Industrial Classification, and seven selected sections of the Standard International Trade Classification.

NOTE: The frequency of this publication changed from monthly to quarterly after the June 1997 issue.

*Discont'd* **6407.0 Price Index of Materials Used in Building Other Than House Building, Six State Capital Cities**

*Quarterly; first issue: January 1969; final issue: March 2001; 28 pp; \$19.00; ISSN: 1325-2151*

*Previously:* Price Index Of Materials Used In Building Other Than House Building, Six State Capital Cities and Canberra (ISSN: 1321-4861)

Measures price movements of materials delivered on site for use in the construction of buildings other than houses. Index numbers are published for each state capital city separately, and for the weighted average of the six state capital cities. Index numbers are published for a range of selected building materials; electrical materials; mechanical services components; plumbing materials; and 'All Groups'. For the weighted average of the six state capital cities, index numbers are also published for materials classified by major Australian and New Zealand Standard Industrial Classification groups.

NOTE: The frequency of this publication changed from monthly to quarterly after the June 1997 issue.

*Discont'd* **6408.0 Price Index of Materials Used in House Building, Six State Capital Cities**

*Quarterly; first issue: September 1970; final issue: March 2001; 12 pp; \$17.00; ISSN: 1031-394X*

*Previously:* Price Index of Materials Used in House Building, Six State Capital Cities and Canberra

Measures price movements of materials delivered on site for use in constructing houses. Index numbers are published for each state capital city and for the weighted average of the six state capital cities. For the weighted average of the six state capital cities, index numbers are also published for a range of groups and building materials.

NOTE: The frequency of this publication changed from monthly to quarterly after the June 1997 issue.

*Discont'd* **6410.0 Price Indexes of Copper Materials, Australia**

*Quarterly; first issue: October 1972; final issue: March 2001; 4 pp; \$17.00; ISSN: 0818-3422*

*Previously:* Price Indexes of Metallic Materials, Australia (ISSN: 0818-3449)

*Replaced by:* 6427.0

These indexes measure price movements in copper materials used in the manufacturing of electrical equipment. Index numbers are published for industrial electric motors, distribution transformers and power transformers.

NOTE: The frequency of this publication changed from monthly to quarterly after the June 1997 issue.

## 64: PRICES

*Discont'd*    **6411.0**            **Price Indexes of Materials Used in Manufacturing Industries, Australia**

*Quarterly; first issue: April 1975; final issue: March 2001; 16 pp; \$17.50; ISSN: 1031-0649*

*Previously: Price Indexes of Materials Used in Manufacturing Industry, Australia*

*Replaced by: 6427.0*

Measures price movements of materials used by manufacturing industry. Indexes are published separately for materials used in the manufacturing division of the Australian and New Zealand Standard Industrial Classification (ANZSIC), four of the ANZSIC manufacturing subdivisions and thirteen ANZSIC group combinations. Indexes are also presented (for the manufacturing division) for imported and domestically sourced materials.

NOTE: The frequency of this publication changed from monthly to quarterly after the June 1997 issue.

*Discont'd*    **6412.0**            **Price Indexes of Articles Produced by Manufacturing Industry, Australia**

*Quarterly; first issue: June 1976; final issue: March 2001; 12 pp; \$17.00; ISSN: 1031-0029*

*Replaced by: 6427.0*

The All Manufacturing Industry Index measures price movements of articles produced by manufacturers for sale or transfer outside the manufacturing division of Australian and New Zealand Standard Industrial Classification (ANZSIC). Separate indexes are also published for each manufacturing subdivision. These indexes measure price movements for articles sold to establishments in other manufacturing subdivisions of ANZSIC or outside the manufacturing division. Index numbers are published for the manufacturing division, selected subdivisions and groups.

NOTE: The frequency of this publication changed from monthly to quarterly after the June 1997 issue.

*Discont'd*    **6414.0**            **Import Price Index, Australia**

*Quarterly; first issue: December 1982; final issue: March 2001; 20 pp; \$18.00; ISSN: 0812-7247*

*Replaced by: 6457.0*

Measures price movements of imports of merchandise landed in Australia. Indexes are shown for four major Australian international trade classifications.

NOTE: See also 6427.0.

The frequency of this publication has been changed from quarterly to monthly following the June 1991 issue, and then back to quarterly after the June 1997 issue.

**Discont'd 6415.0 Price Indexes of Materials Used in Coal Mining, Australia**

*Quarterly; first issue: November 1988; final issue: March 2001; 4 pp; \$17.00; ISSN: 1030-9039*

*Replaced by: 6427.0*

Measures price movements of materials used in the mining of coal. Indexes are published separately for materials used in underground mining and in open-cut mining.

NOTE: See also 6457.0.

The frequency of this publication changed from monthly to quarterly after the June 1997 issue.

**6416.0 House Price Indexes: Eight Capital Cities**

*Quarterly; first issue: June 1989; 12 pp; \$18.50; ISSN: 1034-1897*

Provides estimates of changes in housing prices in each of the eight capital cities of Australia. The information is presented in the form of price indexes constructed separately for established houses and for project homes.

**6422.0 Information Paper: Producer Price Index Developments**

*Irregular; first and latest issue: 1999; 50 pp; \$10.00; ISBN: 0 642 542 15 5*

Introduces experimental producer, and international trade, price indexes within a Stage of Production framework. The framework represents an important element of the strategy for the systematic analysis of inflation.

The paper also contains experimental producer price indexes for the output of a selection of transport and storage, and property and business services industries.

NOTE: See also 6421.0.

**Discont'd 6423.0 Producer Price Indexes for Selected Service Industries, Australia**

*Quarterly; first issue: March 2000; final issue: March 2001; 20 pp; \$18.00; ISSN: 1442-8342*

*Replaced by: 6427.0*

Presents producer price indexes for the output of a selection of transport and storage, and property and business services industries. These series are the release of indexes compiled under a long-term development program which will progressively expand coverage of the services sector of the economy.

## 64: PRICES

### **6424.0 Information Paper: Review of the Import Price Index and Export Price Index, Australia**

*Irregular; first and latest issue: 1999; 24 pp; \$10.00; ISBN: 0 642 54297 X*

The Import Price Index and the Export Price Index are subject to periodic review. While an important objective of these reviews is to update item weights, the opportunity is also taken to reassess methodological aspects of the indexes. The information paper seeks user input on clarifying the key uses of the IPI and EPI, how well the indexes satisfy these uses and determining how the indexes can be improved. In addition, user views are sought on a number of technical changes which are proposed for the indexes. Submissions to the review were sought by 26 November 1999. Results of the review are expected to be implemented in the September quarter 2000 release of each of the index publications (6414.0 and 6405.0).

### **6425.0 Information Paper: Price Indexes and The New Tax System**

*Irregular; first and latest issue: 2000; 56 pp; \$10.00; ISBN: 0 642 47715 9*

Identifies and discusses the statistical issues arising from tax reform for the suite of ABS price indexes (both producer and consumer).

*Discont'd*

### **6426.0 Stage of Production Producer Price Indexes, Australia**

*Quarterly; first issue: June 2000; final issue: March 2001; 16 pp; \$17.50; ISSN: 1444-125X*

*Replaced by: 6427.0*

Presents producer price index numbers for the supply of commodities (goods and services) to the Australian economy in a 'stage of production' (SOP) framework as discussed in the *Information Paper: Producer Price Index Developments*, 6422.0 released on 25 March 1999. The indexes cover both domestically produced and imported commodities, individually and in aggregate, and represent an alternative arrangement of largely existing ABS producer price index series.

This publication is the first release of new economy-wide price measures designed to support the study of inflation, compiled within the statistical framework outlined in the 1997 *Information Paper: An Analytical Framework for Price Indexes in Australia*, 6421.0. A further publication dealing with Domestic Final Purchases is planned for release in 2001.

NOTE: See also 6428.0.

### **6427.0 Producer Price Indexes, Australia**

*Quarterly; first issue: June 2001; 52 pp; \$24.00; ISSN: 1445-2618*

*Replaces: 6407.0, 6408.0, 6410.0, 6411.0, 6412.0, 6415.0, 6423.0 and 6426.0 from the June quarter 2001.*

Contains a range of producer price indexes. Firstly, economy-wide indexes are presented within a Stage of Production (SOP) framework, followed by a set of partial, stand-alone measures relating to specific industry sectors of the economy (selected manufacturing, construction, mining and service industries).

**6428.0 Information Paper: Price Index of Domestic Final Purchases, Australia**

*Single Issue; first and final issue: 2001; 40 pp; \$10.00; ISBN: 0 642 47781 7*

Introduces experimental index numbers for a new economy-wide Price Index of Domestic Final Purchases. It represents the last major element of the system of price indexes articulated in the earlier *Information Paper: An Analytical Framework for Price Indexes in Australia* 6421.0. The focus of this system of indexes is on the analysis of inflation.

The experimental Domestic Final Purchases index is intended to complement other available indexes, in particular the Stage of Production Producer Price Indexes, the Wage Cost Index and the Export Price Index.

The system of complementary indexes is designed to enhance the means of studying price transmission processes in the Australian economy by providing analysts with measures which are presented from the perspectives of both producers and purchasers.

**6440.0 A Guide to the Consumer Price Index: 14th Series**

*Irregular; first issue: 1978; latest issue: 2000; 40 pp; \$10.00; ISBN: 0 642 47477 7*

Designed to promote understanding of the Consumer Price Index (CPI) among general users. Briefly covers such topics as: what is the CPI; to whom does the CPI relate; the composition of the CPI 'basket'; collecting the prices; how the CPI is calculated; and using the CPI. Also contains a table showing the weighting pattern of the 14th series CPI and examples of the items priced for the CPI.

*Discont'd*

**6444.0 Consumer Price Index: Effect of Changes in Prices of Imported Items**

*Quarterly; first issue: March 1985; final issue: June 1999; data report hardcopy; \$105.00*

Provides information on the price movements of wholly or predominantly imported items included in the Consumer Price Index (CPI), together with information about their effect on the CPI as a whole.

**6446.0.55.001 Consumer Price Index: Concordance with Household Expenditure Classification, Australia**

*Irregular; first and latest issue: September 2000; electronic delivery; free*

The Household Expenditure Survey (HES) is the major source of data used to derive weights for the Consumer Price Index (CPI). In deriving these weights the detailed commodity items identified in the HES must be mapped to the CPI expenditure classes. This spreadsheet provides the concordance between the expenditure classes of the 14th series CPI (introduced in respect of the September quarter 2000) and the Household Expenditure Classification (HEC) at the 10 digit level used for the 1998–99 HES.

**8132.0.45.001 Business Register Consultancy — Management Units**

*Price on application*

The Management Unit is the largest unit within a business for which detailed accounts are kept on at least a quarterly basis. For most businesses, particularly the smaller ones, it will equate with the legal entity owning the business (i.e. the sole proprietor, partnership, incorporated company, etc.). For larger businesses, there may be a Management Unit for each 'line of business' or 'division' that the business operates. Structurally, Management Units consist of one or more Locations, so their industry code will reflect the predominant activity of their Locations, and their employment will be the sum of the employment of their Locations.

This consultancy service provides a count of businesses (as recorded on the ABS Business Register Extract) at the Management Unit level. Information can be output in the form of tables, maps, reports or files, tailored to a client's specific needs.

Business counts can be requested cross-classified by:

employment size ranges — both standard and customised

aggregate employment (confidentialised)

industry (Australian Standard Industry Classification for Extract's prior to March 1994 or Australian and New Zealand Industrial Classification)

geographic area (Australian Standard Geographical Classification) including Local Government Areas and Australia Post postcodes

type of legal organisation

public/private sector.

## 81: INDUSTRY AND ECONOMY WIDE STATISTICS

### 8132.0.45.002 Business Register Consultancy — Locations

*Price on application*

The Location is the physical site from which a business engages in productive activity on a relatively permanent basis (e.g. a shop, a factory, or a suite of offices in a multi-occupancy building). For an agricultural unit, the Location is usually the property, even though this may consist of a number of separate holdings. The Location is the lowest-level business unit recorded on the Register.

This consultancy service provides a count of businesses (as recorded on the ABS Business Register Extract) at the Location level. Information can be output in the form of tables, maps, reports or files, tailored to a client's specific needs.

Business counts can be requested cross-classified by:

employment size ranges — both standard and customised

aggregate employment (confidentialised)

industry (Australian Standard Industry Classification for Extract's prior to March 1994 or Australian and New Zealand Industrial Classification)

geographic area (Australian Standard Geographical Classification) including Local Government Areas and Australia Post postcodes

type of legal organisation

public/private sector.

Provides statistics on the use of Information Technology (IT) on farms in Australia. Includes details on current computer and Internet usage.

**8136.0.55.001 Australian Business Register Counts of Single Business Locations, ANZSIC Industry Division by Postcode**

*Irregular; first issue: October 2000; latest issue: June 2001; electronic delivery; varies with requirements — price on application*

Population for this dataset is all single location ABNs registered and active for GST on the ABR as at June 2001, i.e. data excludes multi location entities and businesses not both registered and active for GST. Data in this table is suppressed if less than five ABNs are contributing to that cell or the publication of the cell would identify the contents of another cell with less than five ABNs. It is not possible to aggregate postcodes into larger areas apart from states and Australia using this data. This dataset can provide counts of ABNs by postcode in Australia or counts of ABNs by postcode within a state or counts of ABNs by states in Australia. Industry classification in this table is restricted to ANZSIC Division. Approximately 1,000,000 non-employing ABNs on the ABR in June 2001 were not ANZSIC coded. Where this is the case, the ANZSIC Division has been determined from which tick box the business marked in the industry description tick box on the ABR registration form. Turnover size range is the sizing variable used in this dataset.

**8137.0.55.001 Business Register Counts of Business Locations, Part ANZSIC (A - D) by Statistical Local Areas**

*Irregular; first and latest issue: December 1999; electronic delivery; varies with requirements — price on application*

The December 1999 extract is an abridged version (ANZSIC A-D) as Business Frames are no longer supporting location data for ANZSICs E-Q. The geography has been backcast to ASGC 1998 to be in line with September 1998 Extract (ANZSIC E-Q).

**8138.0.55.001 Australian Business Register, ANZSIC Industry Class by State**

*Irregular; first issue: October 2000; latest issue: June 2001; electronic delivery; varies with requirements — price on application*

Population for this dataset is employing single state ABNs registered and active for GST on the ABR as at June 2001, i.e. data excludes multi state entities and businesses not both registered and active for GST. Data in this table is suppressed if less than five ABNs are contributing to that cell or the publication of the cell would identify the contents of another cell with less than five ABNs. Industry classification in this table is at all ANZSIC levels. Turnover size range is the sizing variable used in this dataset.

### **8153.0 Internet Activity, Australia**

*Half-yearly; first issue: September 2000; 32 pp; \$21.00; ISSN: 1443-5063*

Contains details of Internet activity facilitated by Internet Service Providers (ISPs) in Australia. It includes characteristics and location of ISP customers and their Internet usage, and the nature of related telecommunications infrastructure. Broad level statistics include the number of business and private Internet subscribers, the number and types of accounts offered by ISPs, the volume of traffic through ISPs to Internet subscribers, the number of lines providing Internet connectivity to subscribers, subscriber to infrastructure ratios etc.

The half-yearly frequency of the collection provides an indication of the growth/rationalisation of ISPs and the number of Australians and Australian businesses obtaining access to the Internet through ISPs. It also indicates movements in the type and amount of infrastructure available to provide connectivity to the Internet.

NOTE: The frequency of this publication changed from quarterly to half yearly with the release of the September 2001 issue.

**8635.0 Tourist Accommodation, Australia**

*Quarterly; first issue: September 1975; 40 pp; \$22.00; ISSN: 1031-0770*

Contains the results from the ongoing quarterly Survey of Tourist Accommodation. Data provide information on the supply of, and demand for, tourist accommodation facilities. Data include number of establishments, capacity and employment for the quarter and occupancy and takings from accommodation for each month; by type of establishment and by star grading. This is a useful reference for policy makers and industry monitors and advisers. Information is presented for each state/territory and Australia and by Tourism Regions as defined by the respective state/territory tourism commissions.

NOTE: Output from March quarter 1998 involves substantial 'break in series' changes from previous quarterly Survey of Tourist Accommodation (STA) output. Some retabulated 'bridging' data for 1997 are incorporated into the published tabulations.

From the March quarter 1998 the size cut-off for hotels, motels and guest houses has been increased and the survey now excludes establishments with fewer than 15 rooms, whereas the previous size cut-off was five rooms. Serviced apartments are included in the collection as a separate category, with a minimum size cut-off of 15 or more units. Employment information on casual employee numbers are collected separately from full-time and part-time employee numbers. The survey no longer collects data on caravan parks, holiday flats, units and houses or visitor hostels on an ongoing basis. For the year 2000 only, the data also includes caravan parks with 40 or more powered sites, visitor hostels with 25 or more beds and holiday flats and units operated by owners, managers or real estate agents with sole letting rights to 15 or more units.

The state and territory Tourist Accommodation publications, cat. nos 8635.1–8, have been discontinued. Special Data Services, incorporating most of the previously published information, are available for all states and Northern Territory — 8635.1.40.001 to 8635.7.40.001. Data classified at a lower geographic level than Tourism Region may be available on request.

### **2019.5.30.001 Census of Population and Housing: CDATA 2001 — Full GIS, Western Australia**

*Five-yearly; first issue: 1996 (First Release); latest issue: 2001; CD-ROM; \$8,000.00*

CDATA 2001 — Full GIS will use MapInfo Professional, Geographic Information System (GIS) as the mapping engine which allows users to conduct detailed analysis using Structured Query Language (SQL), allows the export of statistical data for use in other applications, and the import of other data in a variety of formats.

CDATA 2001 is a CD-ROM product which provides a large volume of Census small area data (from Collection District level) combined with digital geographic and topographic data. It includes sophisticated manipulation, report generation and mapping software to provide a tool to analyse, integrate and visualise a multitude of research and planning needs.

CDATA 2001 provides instant access to valuable information — the latest figures on Australian society — age, education, housing, income, transport, religion, ethnicity, occupation, computer usage and more, from a single Collection District to an entire state or total Australia. CDATA 2001 — Full GIS can be purchased for the whole of Australia, or for a particular state or territory.

### **2019.5.30.002 Census of Population and Housing: CDATA 2001 — Detailed Base Map Data, Western Australia**

*Five-yearly; first issue: 1996; latest issue: 2001; CD-ROM; \$4,000.00*

Clients purchasing either 2019.0.30.001, or any state version of the product, will have an option to purchase an additional datapack. It contains a detailed level of base map data which includes streets, town centres, rivers and features such as post offices, police stations, schools, caravan parks, churches, hospitals etc.

NOTE: This product is an add-on module to 2019.5.30.001 and is only available to purchasers of CDATA2001. See also 2019.0.30.001–2019.8.30.001 and 2044.0.30.001–2044.8.30.001.

### **2029.5 Census of Population and Housing: Selected Social and Housing Characteristics for Suburbs and Postal Areas, Western Australia**

*Irregular; first issue: 1996; latest issue: 2001; 60 pp; \$27.00; ISBN: 0 642 47896 1*

Provides social and housing characteristics for all 'census-derived' suburbs in the Perth/Mandurah region and all 'census-derived' postal areas in Western Australia at the time of the 2001 Census. Includes ranking tables.

**2030.5 Perth ... A Social Atlas**

*Irregular; first issue: 1996; latest issue: 2001; 52 pp; \$55.00; ISBN: 0 642 47868 6*

Presents colour maps of the key social, demographic and economic characteristics of Perth, at the time of the 2001 Census. The maps are easy to interpret as the distribution of the data are represented by different colours or shadings. A brief commentary explaining the main features and characteristics also accompanies each map.

The *Social Atlas* series has a common core set of maps including population, ethnicity, education, families, income, labour force and dwellings. Each *Social Atlas* also includes maps that highlight any unique attributes pertaining to that particular capital city.

**2044.5.30.001 Census of Population and Housing: CDATE 2001 — Quickbuild, Western Australia**

*Five-yearly; first and latest issue: 2001; CD-ROM; \$4,500.00*

CDATA 2001 — Quickbuild contains reduced GIS software functionality when compared to that available in CDATE 2001 — Full GIS, but with complete access to all statistical and boundary data. Users are able to quickly select the geography and data they need to produce reports, thematic maps, graphs or data views. CDATE 2001 — Quickbuild allows for the export of statistical data for use in other applications.

CDATA 2001 — Quickbuild includes a basic base map layer containing major roads, rivers and railways. The more complex GIS facilities such as SQL, importing of external data, geocoding and point creation is not available in CDATE 2001 — Quickbuild. However, the ABS offers an upgrade path for users of this product to upgrade to the full GIS version at a later stage.

### **2019.6.30.001 Census of Population and Housing: CDATA 2001 — Full GIS, Tasmania**

*Five-yearly; first issue: 1996 (First Release); latest issue: 2001; CD-ROM; \$7,000.00*

CDATA 2001 — Full GIS will use MapInfo Professional, Geographic Information System (GIS) as the mapping engine which allows users to conduct detailed analysis using Structured Query Language (SQL), allows the export of statistical data for use in other applications, and the import of other data in a variety of formats.

CDATA 2001 is a CD-ROM product which provides a large volume of Census small area data (from Collection District level) combined with digital geographic and topographic data. It includes sophisticated manipulation, report generation and mapping software to provide a tool to analyse, integrate and visualise a multitude of research and planning needs.

CDATA 2001 provides instant access to valuable information — the latest figures on Australian society — age, education, housing, income, transport, religion, ethnicity, occupation, computer usage and more, from a single Collection District to an entire state or total Australia. CDATA 2001 — Full GIS can be purchased for the whole of Australia, or for a particular state or territory.

### **2019.6.30.002 Census of Population and Housing: CDATA 2001 — Detailed Base Map Data, Tasmania**

*Five-yearly; first issue: 1996; latest issue: 2001; CD-ROM; \$4,000.00*

Clients purchasing either 2019.0.30.001, or any state version of the product, will have an option to purchase an additional datapack. It contains a detailed level of base map data which includes streets, town centres, rivers and features such as post offices, police stations, schools, caravan parks, churches, hospitals etc.

NOTE: This product is an add-on module to 2019.6.30.001 and is only available to purchasers of CDATA 2001. See also 2019.0.30.001–2019.8.30.001 and 2044.0.30.001–2044.8.30.001.

### **2030.6 Hobart ... A Social Atlas**

*Irregular; first issue: 1996; latest issue: 2001; 52 pp; \$55.00; ISBN: 0 642 47869 4*

Presents colour maps of the key social, demographic and economic characteristics of Hobart, at the time of the 2001 Census. The maps are easy to interpret as the distribution of the data are represented by different colours or shadings. A brief commentary explaining the main features and characteristics also accompanies each map.

The *Social Atlas* series has a common core set of maps including population, ethnicity, education, families, income, labour force and dwellings. Each *Social Atlas* also includes maps that highlight any unique attributes pertaining to that particular capital city.

**2044.6.30.001 Census of Population and Housing: CDATA 2001 — Quickbuild, Tasmania**

*Five-yearly; first and latest issue: 2001; CD-ROM; \$4,000.00*

CDATA 2001 — Quickbuild contains reduced GIS software functionality when compared to that available in CDATA 2001 — Full GIS, but with complete access to all statistical and boundary data. Users are able to quickly select the geography and data they need to produce reports, thematic maps, graphs or data views. CDATA 2001 — Quickbuild allows for the export of statistical data for use in other applications.

CDATA 2001 — Quickbuild includes a basic base map layer containing major roads, rivers and railways. The more complex GIS facilities such as SQL, importing of external data, geocoding and point creation is not available in CDATA 2001 — Quickbuild. However, the ABS offers an upgrade path for users of this product to upgrade to the full GIS version at a later stage.

## AUSTRALIAN CAPITAL TERRITORY

### **2019.8.30.001 Census of Population and Housing: CDATA 2001 — Full GIS, Australian Capital Territory**

*Five-yearly; first issue: 1996 (first release); latest issue: 2001; CD-ROM; \$7,000.00*

CDATA 2001 — Full GIS will use MapInfo Professional, Geographic Information System (GIS) as the mapping engine which allows users to conduct detailed analysis using Structured Query Language (SQL), allows the export of statistical data for use in other applications, and the import of other data in a variety of formats.

CDATA 2001 is a CD-ROM product which provides a large volume of Census small area data (from Collection District level) combined with digital geographic and topographic data. It includes sophisticated manipulation, report generation and mapping software to provide a tool to analyse, integrate and visualise a multitude of research and planning needs.

CDATA 2001 provides instant access to valuable information — the latest figures on Australian society — age, education, housing, income, transport, religion, ethnicity, occupation, computer usage and more, from a single Collection District to an entire state or total Australia. CDATA 2001 — Full GIS can be purchased for the whole of Australia, or for a particular state or territory.

### **2019.8.30.002 Census of Population and Housing: CDATA 2001 — Detailed Base Map Data, Australian Capital Territory**

*Five-yearly; first issue: 1996; latest issue: 2001; CD-ROM; \$4,000.00*

Clients purchasing either 2019.0.30.001, or any state version of the product, will have an option to purchase an additional datapack. It contains a detailed level of base map data which includes streets, town centres, rivers and features such as post offices, police stations, schools, caravan parks, churches, hospitals etc.

NOTE: This product is an add-on module to 2019.8.30.001 and is only available to purchasers of CDATA 2001. See also 2019.0.30.001–2019.8.30.001 and 2044.0.30.001–2044.8.30.001.

### **2030.8 Canberra ... A Social Atlas**

*Irregular; first issue: 1996; latest issue: 2001 is expected to be released in 2003; 52 pp; \$55.00; ISBN: 0 642 47863 5*

Presents colour maps of the key social, demographic and economic characteristics of Canberra, at the time of the 2001 Census. The maps are easy to interpret as the distribution of the data are represented by different colours or shadings. A brief commentary explaining the main features and characteristics also accompanies each map.

The *Social Atlas* series has a common core set of maps including population, ethnicity, education, families, income, labour force and dwellings. Each *Social Atlas* also includes maps that highlight any unique attributes pertaining to that particular capital city.

**2044.8.30.001 Census of Population and Housing: CDATE 2001 — Quickbuild, Australian Capital Territory**

*Five-yearly; first and latest issue: 2001; CD-ROM; \$4,000.00*

CDATA 2001 — Quickbuild contains reduced GIS software functionality when compared to that available in CDATE 2001 — Full GIS, but with complete access to all statistical and boundary data. Users are able to quickly select the geography and data they need to produce reports, thematic maps, graphs or data views. CDATE 2001 — Quickbuild allows for the export of statistical data for use in other applications.

CDATA 2001 — Quickbuild includes a basic base map layer containing major roads, rivers and railways. The more complex GIS facilities such as SQL, importing of external data, geocoding and point creation is not available in CDATE 2001 — Quickbuild. However, the ABS offers an upgrade path for users of this product to upgrade to the full GIS version at a later stage.
