NEW PUBLICATIONS AND PRODUCTS RELEASED IN JULY 1998	
8148.0	<p><i>Telecommunication Services, Australia, Preliminary, 1996-97 (\$15.00)</i></p> <p>Provides preliminary details of the operations and structure of the telecommunication services industry in Australia. It covers carriers, service providers, including Internet service providers, and other businesses.</p>
8651.0	<p><i>Commercial Art Galleries, Australia, 1996-97 (\$15.50)</i></p> <p>Contains detailed information on the commercial art gallery industry in Australia. Includes sources of income and expenditure, characteristics of employment and persons working, State and Territory data, details of artworks sold, as well as a range of performance ratios for the industry.</p>
8635.1.40.001 to 8635.7.40.001	<p><i>Tourist Accommodation, Small Area Data, March Quarter 1998: New South Wales, Victoria, Queensland, South Australia, Western Australia, Tasmania and the Northern Territory (\$40.00)</i></p> <p>Represents detailed geographical information on the supply of ,and demand for tourist accommodation facilities. This is a useful reference for policy makers and industry monitors and advisers. Details are provided by type of establishment, and by star grading, for local areas and tourism regions in the State, and includes capacity and employment for the quarter and monthly occupancy rates, and takings from accommodation for hotels, motels and guest houses and serviced apartments providing short-term accommodation with 15 or more rooms or units.</p> <p>Output from March quarter 1998 involves substantial "breaks in series" from previous quarterly Survey of Tourist Accommodation (STA) output published in 8635.1 up to and including December quarter 1997. Some retabulated "bridging" data for 1997 are incorporated variously into the tabulations. Note that 1997 data presented in these tabulations will therefore differ from previously published data.</p> <p>Break in series STA changes which have occurred are: The survey no longer collects data on caravan parks, holiday flats, units and houses or visitor hostels on an ongoing basis. The size cut-off for hotels, motels and guest houses has been increased and the survey now excludes establishments with fewer than 15 rooms, whereas the previous size cut-off was five rooms. Serviced apartments are included in the collection as a separate category for the first time, with a minimum size cut-off of 15 or more units. Some establishments formerly included as hotels, motels or holiday flats and units are now classified as serviced apartments; while a small number of establishments previously classified as motels have been reclassified as holiday flats and units and are therefore no longer in the regular scope of the STA. Employment information on males and females is no longer separately collected, but casual employee numbers are now collected separately from full-time and part-time employee numbers; and monthly employment data are being collected on a trial basis for four quarters. Unpublished information on employment may be available on request.</p>
