(a) Imports relate to the State where the import entry was lodged with the Australian Customs Service. From January 1988, foreign import data are compiled on the Harmonised Commodity Description Coding System (HCDCS), not the Standard International Trade Classification (Revision 2). (b) Excluding non-merchandise trade. (c) These are selected major groups only and therefore do not add to the totals shown. Imports are recorded statistically in the calendar month in which the import entries are both finalised by the Australian Customs Service and passed to the ABS for further processing. (d) Manufactured goods not included in the other selected commodity groups listed in this table.

(a) From June quarter 1989, September quarter 1991 and September quarter 1992, respectively, data are not comparable with those for previous periods as some caravan parks previously classified as short-term were reclassified as long-term. (b) Including both on-site van sites and other powered sites. (c) From September quarter 1992, caravan park sites, etc. permanently reserved but only casually occupied by their tenants have been recorded continuously as site nights occupied irrespective of whether the tenants of individual sites were in residence on any particular night. Occupancy measures from September quarter 1992 are not therefore comparable with those from previous quarters.

# Gold Coast Region...a social atlas

*Gold Coast Region...a social atlas* contains 1991 Census data, in the format of 36 A3 size colour maps with expert commentary. It shows the spatial distribution of social, economic, and demographic characteristics of the resident population in the Gold Coast Region.

The Atlas divides the region of the Gold Coast City, Albert Shire and part of Tweed Shire, into over 600 collection districts and presents a highly detailed picture of the population under the following broad categories.

- Population Density
- Population Change
- Age
- Ethnicity
- Education
- Families
- Income
- Labour Force
- Dwellings
