Analysis of Table 1.2

In the March quarter 1995 the total increase in population of 9,900 was higher than for any quarter since March 1990. Between December 1994 and March 1995 quarters, all three components of population change increased.

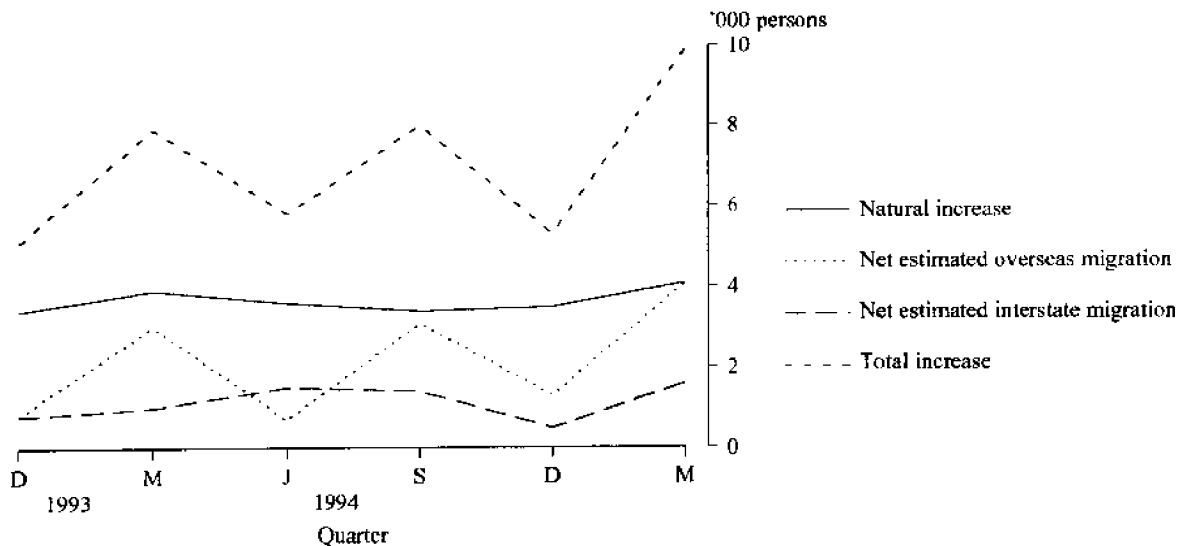

There was no change in the natural increase between 1993 and 1994. However, net estimated overseas migration jumped from 5,500 in 1993 to 8,100 in 1994, and net estimated interstate migration increased from 600 to 4,500 persons.
