Produced by the Australian Government Publishing Service

PREFACE

South Australian Economic Indicators is a monthly publication which contains the latest available data at the time of preparation for a range of statistical series that have been identified as indicators of economic activity in this State. In a number of cases the figures presented are preliminary and subject to revision in subsequent issues.

Written and graphic commentary have been included for many of the selected series and analysis has been augmented with the calculation of the percentage change from the previous reference period together with the presentation of comparative Australian data.

Time series information has been included to provide a historical perspective on many of the selected indicators. Future issues may be expanded to include further historical data in response to expressed user needs. This product is under continuous review and any suggestions for enhancement will be welcomed.

More detailed information on each series, including explanatory and technical notes, can be obtained from other Australian Bureau of Statistics publications or alternative data sources. To assist those seeking further information a source publication for each of the series has been documented in the statistical summary.

If you have any inquiries concerning this publication please contact the editor, Brian Moody, telephone (08) 237 7315. All requests for statistical information should be directed to the ABS Information Service, GPO Box 2272, Adelaide SA 5001, telephone (08) 237 7100.

REVIEW

Overview

- Gross State Product (trend estimates in 1989-90 prices) grew by 1.3% in the June quarter 1995 and by 2.1% in 1994-95. This compared with national increases of 0.3% and 2.8% respectively.
- The underlying trend estimate for employed persons in South Australia has been increasing since January 1995. The September 1995 estimate was 2.1% above the level of September 1994.
- The trend unemployment rate for South Australia has declined generally over the past twelve months, having fallen to 9.7% in September 1995 compared with 10.5% in September 1994.
- The August 1995 trend estimate for retail sales in South Australia increased by 0.6% from the previous month.
- The South Australian provisional trend estimate for new motor vehicle registrations in August 1995 decreased 0.8% from July 1995. This was the fourth month of trend decline following an eight month period of growth.
- In the September quarter 1995 the All Groups Consumer Price Index for Adelaide increased by 1.1% and this contributed to an annual rise of 4.5%.
- At 31 March 1995 the estimated resident population of South Australia had increased by 0.12% from the December estimate and 0.32% from March 1994. This was well below the national annual growth rate of 1.11%.
- The August 1995 trend estimate for dwelling unit approvals in South Australia was 0.7% below the July estimate and 46.2% lower than in August 1994.
- In August 1995 the total value of overseas exports of commodities produced in South Australia rose 7.7% from the previous month and was 8.4% above the level of August 1994. Merchandise imports into South Australia in August 1995 rose 4.6% from the previous month and were 7.5% higher than in July 1994.

State Accounts

NOTE: Deficiencies in the data sources used to estimate gross operating surplus for recent quarters may at times lead to the current price estimates of Gross State Product(I) being under or over stated for particular states. Consequently, the measured growth rate for constant price GSP(I) for those states will also be affected.

The constant price series for Gross State Product (GSP) have been labelled as 'experimental'. Users are cautioned that these estimates are derived indirectly by calculating a deflator from the expenditure components. It is emphasised that, at times, movements that can not be fully explained may be introduced into the constant price GSP(I) series through the use of this proxy deflator.

Trend Estimates (Current Prices)

The Gross State Product (GSP) trend estimate in current prices for the June quarter 1995 rose 1.5% from the previous quarter to be 4.7% above the estimate for the June quarter 1994.

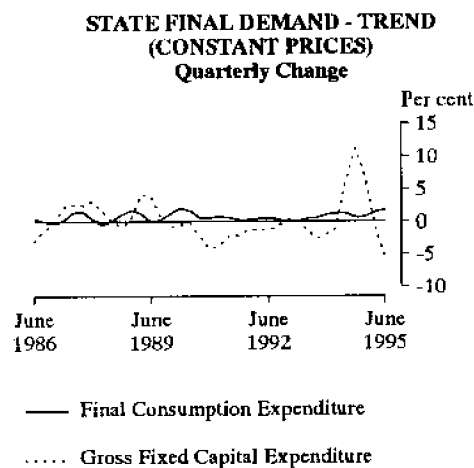

Wages, salaries and supplements increased by 0.7% in the June quarter and had risen by 2.3% over the twelve month period, well below the national increase of 7.7%.

Increases in gross operating surplus exceeded the corresponding national growth rates from the June quarter 1994 following a 2.0% rise in the June quarter 1995. The June quarter 1995 estimate was 7.3% higher than for the same period last year.

The rate of growth in indirect taxes less subsidies increased in the June quarter, with a rise of 3.2%, while growth over the year to the June quarter 1995 was 6.4%.

Trend Estimates (Constant Prices)

The trend estimate for South Australian State Final Demand (SFD) in constant 1989-90 prices increased by 0.4% in the June quarter to a level 5.6% above that of the June quarter 1994.

Private final consumption expenditure increased by 1.6% in the June quarter. Private gross fixed capital expenditure on equipment was the major contributor to the decline in private gross fixed capital expenditure of 7.6%. Private expenditure on dwellings fell for the third consecutive quarter.

The increase of 2.7% in public final demand for the June quarter 1995 was the largest increase for several years. Government consumption rose for the first time since June quarter 1994 and contributed 0.5% to the growth in SFD.

The experimental GSP trend estimate in 1989-90 prices, grew by 1.3% in the June quarter 1995, well above the national average of 0.3% for that quarter. However the South Australian increase of 2.1% for the year was below the national figure of 2.8%.

Experimental estimates of real Gross State Income (real GSI) *i.e.* GSP(I) adjusted for the terms of trade effect, also rose by 1.3% in the June quarter 1995. The terms of trade showed no change.

International Accounts

Exports

The total value of overseas exports of commodities produced in South Australia rose to \$323.0 million in August 1995. This was an increase of 7.7% over the previous month, and 8.4% greater than the value in August 1994. The rise was largely attributable to a \$26.6 million (89.0%) increase in the value of exported metals and metal manufactures and a \$9.3 million (64.0%) rise in the value of exports of petroleum and petroleum products. These rises were partly offset by falls in the value of cereals (\$18.1 million, a fall of 57.6%) and wool and sheepskins (\$12.1 million, 56.9%).

Japan was again the leading destination for South Australian exports, taking 19.4% of the total value. This was closely followed by the ASEAN group of countries, with 18.1% of the value of all goods exported. However, other East Asian countries such as China and Hong Kong showed reductions in their share of South Australian exports from both the previous month and the corresponding month in the previous year.

Imports

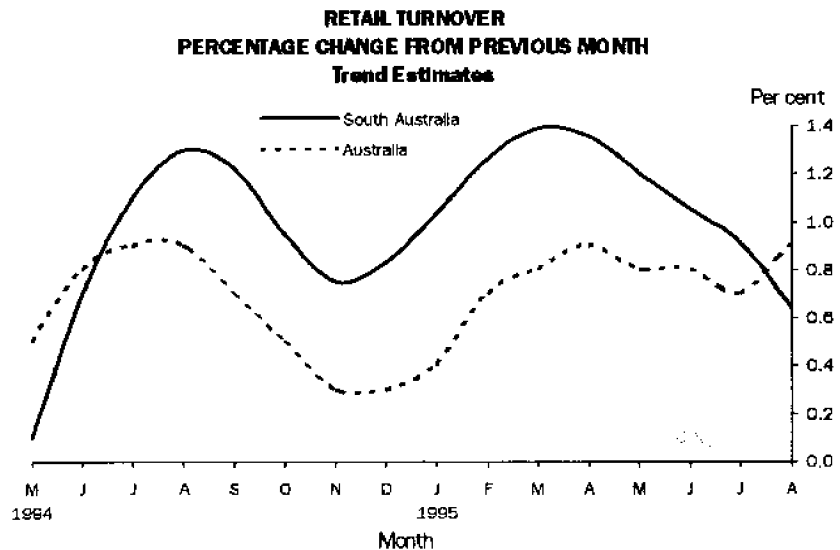

Merchandise valued at \$299.8 million was imported into South Australia (designated as the State of final destination) in August 1995. This was an increase of 4.6% over the previous month, and 7.5% greater than the value of imports in August 1994.

The leading commodity groups were machinery (22.6% of total) and road vehicles, parts and accessories (19.3%). The greatest movements were in the commodities petroleum and petroleum products (down 54.9% on the previous month, and 46.7% on the corresponding month in 1994) and metals and metal manufactures, which showed an increase over July of \$8.0 million (48.8%).

Consumption and Investment

Retail Turnover

The retail trade trend estimate indicates that retail sales in South Australia increased by 0.6% in August 1995 compared with an Australian rise of 0.9%. Over the past three months the trend estimate has increased by \$19.7 million of which \$6.8 million has been attributable to the food retailing group, \$5.3 million to the hospitality and services group and \$2.9 million to household good retailing. Strong growth in these industry groups has been partly offset by the decline in the clothing and soft furnishing group.

In seasonally adjusted terms South Australian retail trade in August 1995 increased 1.4% from July 1995. In original terms retail turnover was \$744.8 million in August 1995, an increase of 14.6% over the August 1994 aggregate.

New Motor Vehicle Registrations

The South Australian provisional trend estimate for new motor vehicle registrations in August 1995 decreased 0.8% from July 1995. This was the fourth month of trend decline following an eight month period of growth. The seasonally adjusted estimate for August 1995 increased by 23.5% from July 1995 and 16.2% from August 1994.

In original terms there were 3,963 new motor vehicles registered in August 1995, an increase of 32.5% from July 1995 and 17.2% above August 1994. For new passenger vehicles only, the leading makes registered in August 1995 were Ford (984 vehicles), Holden (927), Mitsubishi (480), Toyota (400) and Hyundai (128).

Tourist Accommodation

When the June quarter 1995 is compared with the June quarter 1994, the number of holiday flats, units and houses available for short-term letting increased by 0.6%. Unit nights occupied increased by 0.1% while the unit occupancy rate fell from 36.1% to 35.9%. Accommodation takings rose by 6.0% from \$2.3m to \$2.5m while average takings per unit night occupied rose from \$53 to \$56.

Private New Capital Expenditure

The trend estimate (in seasonally adjusted current price terms) for private new capital expenditure in South Australia for the March quarter 1995 was \$563 million. The rise of 3.0% from the previous quarter followed rises of 9.5%, 17.7% and 15.2% in the December, September and June 1994 quarters respectively and is an indicator of strong growth over this period. However, the last quarter has seen a flattening in the series, and the South Australian total for the quarter represented only 6.4% of the national figure.

Private new capital expenditure in original terms for the March quarter 1995 was \$483 million, a decrease of 24.0% from the December 1994 quarter. Buildings and structures accounted for \$85 million, and equipment, plant and machinery \$399 million.

Production

Dwelling Approvals

The August 1995 trend estimate for dwelling unit approvals in South Australia was 536, a slight fall from July and 46.2% lower than August 1994. In original terms, the number of dwelling unit approvals was 671, an increase of 16.5% from July 1995.

DWELLING UNITS APPROVED

The national trend estimate for the total number of dwelling units approved in August 1995 (10,753) was 3.2% lower than the estimate for July and 35.7% below August 1994. In original terms, South Australia accounted for 5.8% of the total dwelling units approved in Australia during August 1995.

Dwelling Commencements

From the Building Activity Survey, it was estimated that 1,767 dwelling units were commenced in South Australia during the June quarter 1995, the lowest for 14 years. The latest figure represented a further fall of 297 dwelling units (14.4%) from the previous quarter and can be compared with a small rise of 1.9% nationally. The latest figure for South Australia was 38.6% below the total for the June quarter 1994 while the national decrease over the twelve month period was 23.1%.

NEW DWELLING UNITS COMMENCED

Value of Non-residential Building Approvals

In August 1995 the value of non-residential building projects approved in South Australia was \$31.5 million. This was 13.2% lower than the July 1995 total and 3.4% lower than the August 1994 total for South Australia.

Expressed in average 1989-90 prices the value of non-residential building approvals in South Australia for the June quarter 1995 was \$157.8 million, a 34.0% increase from the March quarter.

Value of Total Building Activity

The total value of *building work commenced* in South Australia during the June quarter 1995 recorded a 37.8% recovery to \$394.7 million from the previous quarter's low of more than 8 years. Recovery was confined to the non-residential sector and was mainly due to two large public sector jobs, one for \$48.0 million and one for \$55.0 million in the offices and educational categories respectively. Compared with the June quarter 1994, the latest figure for South Australia represented a 17.1% increase in building commencements while the corresponding national movement was a 12.3% decrease. However, the State's share of the national total of building commencements in the June quarter was only 6.1%.

The total value of *building work done* during the June quarter 1995 increased by a relatively modest 4.9% from the March quarter to \$333.0 million. This movement compared with an increase of 9.1% nationally and resulted in a fall in this State's share of the total Australian value to 4.8%. Compared with the June quarter 1994, the latest figure for South Australia represented a 6.8% decrease in the value of total building work done, while there was a corresponding 1.4% increase nationally.

VALUE OF BUILDING ACTIVITY

After falling for 11 successive quarters, *building work yet to be done* in South Australia was valued at \$350.9 million at the end of June 1995, a rise of 23.7% from the previous quarter and compared with a decrease of 1.8% nationally. However, work yet to be done in South Australia comprised only 3.7% of the national figure at the end of June 1995 and was 1.05 times the work done for the June quarter 1995 compared with 1.36 times nationally.

Value of Engineering Construction

In the June quarter 1995 engineering construction work done in South Australia increased by 27.9% (23.1% nationally) from the previous quarter to \$201.0 million, which resulted in the State's share of the national total increasing slightly to 5.4%. At \$186.2 million the value of work commenced during the quarter was 6.4% of the national total.

WORK DONE

Prices

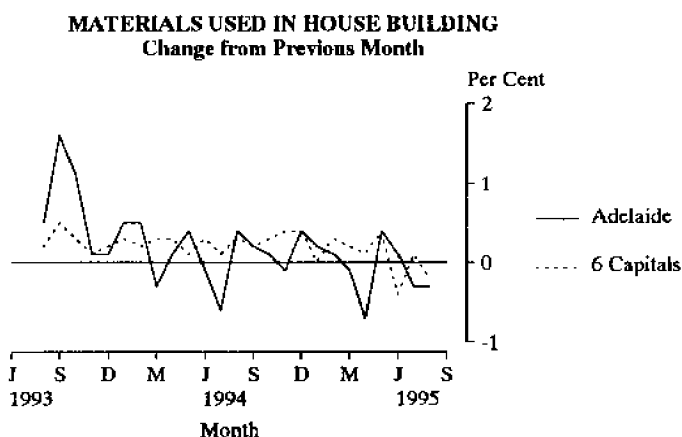

Consumer Price Index

In the September quarter 1995 the all groups Consumer Price Index increased by 1.2% nationally and this contributed to an annual increase of 5.1%. For Adelaide, the quarterly movement was 1.1% while the annual increase was 4.5%. Darwin, with increases of 1.0% and 4.4% respectively was the only Capital city to record rises below the Adelaide movements.

House Building Materials

In August 1995 Sydney, Melbourne and Adelaide recorded falls in the Price Index of Materials Used in House Building from the previous month of 0.4%, 0.2% and 0.3% respectively. The highest rise was recorded in Perth (0.3%) followed by Hobart (0.1%). Brisbane recorded no change. Over the past twelve months Adelaide recorded the lowest price rise at 0.1%. The other State capitals rises for the same period were: Sydney 2.2%; Melbourne 1.3%; Brisbane 1.6%; Perth 3.1%; and Hobart 4.6%.

Non-house Building Materials

In August 1995 Sydney (-0.1%) was the only State capital to record a fall from the previous month in the Price Index of Building Material Used in Building other than House Building. Brisbane recorded no change, while the other State capitals each recorded an increase of 0.2%. Over the twelve months to August 1995 the respective rises for each Capital were Sydney 3.1%; Melbourne 2.4%; Brisbane 3.6%; Adelaide 2.7%; Perth 3.7%; and Hobart 3.6%.

**MATERIALS USED IN BUILDING
OTHER THAN HOUSE BUILDING**
Change from Previous Month

House Prices

Between the March and June quarters 1995 the price index of established houses in Australia fell by 0.7% while project home prices increased by 0.6%. Over the same period, prices of established houses in Adelaide decreased by 0.4%, while project home prices rose by 0.2%.

Nationally, over the twelve month period from the June quarter 1994, prices for established houses rose by 1.4% while the increase for project homes was 1.7%. In Adelaide there was a price increase of 0.5% for established houses and a rise of 2.0% for project homes.

Labour Force and Demography

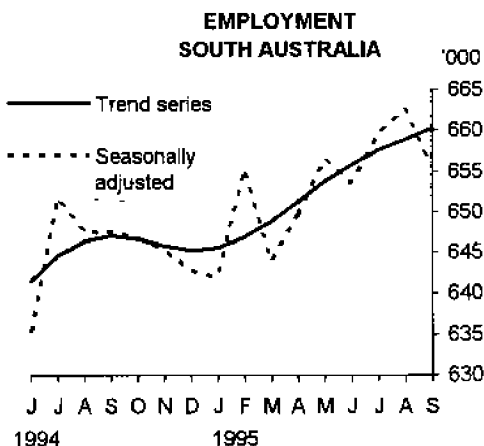

Population

At 31 March 1995 the estimated resident population of South Australia was 1,473,002. This was an increase of 0.12% (1,751) from the December quarter, and 0.32% from the March quarter 1994, well below the national annual growth rate of 1.11%. The low growth rate in this State was mainly attributable to a net outflow of 2,054 persons in interstate migration during the March quarter. This is the highest recorded quarterly interstate migration loss from South Australia.

Employment

The underlying trend estimate of employed persons in Australia has been increasing since February 1993, reaching 8,279,400 in September 1995. Over the past 12 months full-time and part-time employment have increased by 3.4% and 4.5 % respectively.

The underlying trend estimate of employed persons in South Australia has been increasing since January 1995. The September 1995 estimate (660,200) was 2.1% higher than the level 12 months previously.

Unemployment

The trend unemployment rate for South Australia has declined generally over the past twelve months, reaching 9.7% in September 1995 compared with 10.5% in September 1994. Over the same period the trend unemployment rate for males has fallen from 10.9% to 10.7%, while the rate for females has declined from 10.0% to 8.3%.

The provisional trend estimate for the unemployment rate in Australia has remained at 8.3% over the past three months, arresting the general downward movement evident since January 1993.

Overtime

The proportion of employees who worked overtime in South Australia in August 1995 was 15.9% compared with 18.5% in August 1994.

Industrial Disputes

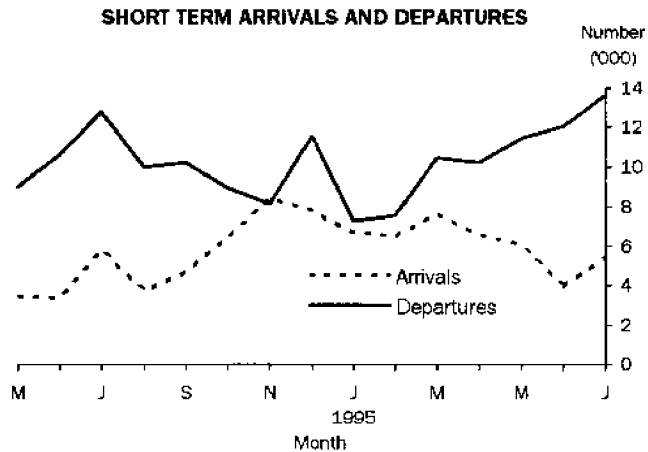

There were 1,126 working days lost through industrial disputes in South Australia during July 1995. There were 3 recorded disputes which involved loss of working days for 700 employees.

In the twelve months to July 1995, 32,100 employees were involved in disputes in South Australia which resulted in the loss of 23,300 working days.

Short-term Overseas Visitor Arrivals

There were 5,408 short-term overseas visitor arrivals to South Australia in July 1995. This was a rise of 34.9% over the number of visitors in the previous month but a fall of 7.2% from the number in July 1994.

Short-term Resident Departures

The number of short term departures of South Australian residents in July 1995 was 13,647, 13.5% more than in June, and 6.9% more than in July 1994.

Incomes

Average Weekly Earnings

Average weekly ordinary time earnings of full-time adult employees in South Australia decreased from \$619.90 in February 1995 to \$611.70 in May 1995. Male full-time ordinary time earnings fell from \$648.40 in February 1995 to \$635.10 in May 1995. Over the same period the comparable level for females increased from \$560.80 to \$563.90.

Between February 1995 and May 1995, average weekly total earnings of all employees in South Australia decreased from \$527.90 to \$513.30.

The trend estimate for average weekly ordinary time earnings of full-time adult employees in South Australia rose from \$611.10 in February 1995 to \$616.70 in May 1995. Male full-time ordinary time earnings increased from \$636.60 in February 1995 to \$643.40 in May 1995. Over the same period, the comparable level for females increased from \$560.80 to \$563.40.

Between February 1995 and May 1995, the trend estimate of average weekly total earnings of all employees in South Australia increased from \$515.50 to \$518.00.

Since it is an average of earnings across all employees, changes in average weekly earnings may occur through changes in employment as well as changes in pay levels.

Award Rates of Pay

Over the 12 months to August 1995, the weekly award rates of pay index for full-time employees in South Australia increased by 1.4%.

For full-time adult male employees, the largest annual movement of the index occurred in the recreation, personal and other services industry (an increase of 2.7% since August 1994).

For full-time adult female employees, the largest annual movement of the index occurred in the public administration and defence industry (an increase of 2.9% since August 1994).

Financial Markets

Housing Finance

In August 1995 the South Australian trend estimate for the total value of housing finance commitments (excluding alterations and additions) increased by \$6.1 million (2.6%) to \$243.3 million from July, but was down \$19.3 million (7.3%) from August 1994. The national trend estimate was up 1.1% for the month but down by 8.5% compared with the previous August, with both Victoria and Western Australia exhibiting a percentage decline in commitments approximately double that of South Australia over the twelve month period.

State trend estimates are available only for total value of commitments (excluding alterations and additions) and therefore the commentary on individual categories which follows is based on the original series.

In August 1995 the total value of housing finance commitments (original figures including alterations and additions) rose by \$11.8 million (4.5%) from the previous month to \$274.6 million. This was \$26.5 million (8.8%) below the August 1994 aggregate.

SECURED HOUSING FINANCE COMMITMENTS
TO INDIVIDUALS (ALL LENDERS)
(Excluding Alterations and Additions)
Monthly Total

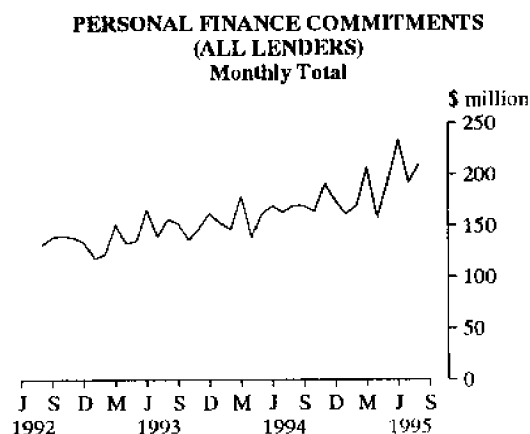

Finance commitments for the construction of dwellings over the past eight months were significantly below the equivalent months of the previous two years although the August total was \$4.1 million (13.7%) higher than the July figure. Finance commitments for the purchase of established dwellings, the largest category, were marginally higher (by \$2.6 million) at \$156.4 million compared with the previous month but \$28.7 million (15.5%) down from August 1994. Commitments for the purchase of newly erected dwellings increased by \$5.0 million (35.5%) to \$19.1 million, the highest monthly total since May 1994.

Personal Finance

Personal finance commitments in South Australia increased by \$16.9 million (8.8%) to \$209.6 million in August 1995. This was a continuation of the relatively high figures recorded from the beginning of 1995.

Total personal finance commitments under fixed loan commitments increased by \$18.6 million (15.6%) to \$137.4 million in August 1995, \$13.2 million (10.6%) higher than in August 1994. Sales of used motor vehicles and station wagons, the largest category under fixed loan commitments, increased by \$6.6 million (17.2%) to a record high \$45.2 million during the month of August compared with \$41.0 million in August 1994. Sales of new motor vehicles and station wagons increased during the month by \$1.3 million (11.0%) to \$13.4 million, \$0.6 million (4.0%) down from the previous August.

Total personal finance commitments under revolving credit commitments decreased marginally to \$72.2 million during August, but were still the fourth highest over the past decade.

Forward Outlook

Composite Leading Indicator

The Composite Leading Indicator (CLI) is a single time series produced by aggregating eight individual economic indicators, and has been developed by the ABS as an experimental series to supplement existing forms of economic analysis and modelling.

The CLI summarises the early signals contained in a selection of economic indicators and is designed to help in the detection of turning points between successive expansions and contractions of economic activity but does not attempt to forecast the level of economic activity.

The main features of the Australian June quarter 1995 data were:

- confirmation of the narrowing in the deviation of GDP(A) from its long-term trend (predicted by the December 1994 CLI);
- a continuation of the downward movement in the CLI evident since the September quarter 1994 peak, and the acceleration in this downward movement (-0.28% in the December quarter 1994, -0.62% in the March quarter 1995 and -0.72% in the June quarter 1995).

The quarterly data are released in more detail in the *Australian Economic Indicators* (1350.0). The CLI was the topic of the Focus article in the September 1993 edition of *South Australian Economic Indicators* (1307.4).

Australian Business Expectations

Surveys of business expectations have been a feature of the economic intelligence available to decision makers for a number of years. The main output from these surveys has been a qualitative indicator which provides the net proportion of businesses predicting a rise or fall in future business conditions. Further details about these surveys which are conducted quarterly by the ABS are available in *Australian Business Expectations* (1250.0), the September 1994 edition of *Australian Economic Indicators* (1350.0) and the May 1994 edition of *South Australian Economic Indicators* (1307.4).

AUSTRALIAN BUSINESS EXPECTATIONS SOUTH AUSTRALIA AND AUSTRALIA SALES OF GOODS AND SERVICES EXPECTED PERCENTAGE AGGREGATE CHANGE

Reference Period	Short term(a)		Medium term(b)	
	South Australia	Australia	South Australia	Australia
1994				
June quarter	2.0	1.9	4.1	3.3
September quarter	4.5	2.3	3.2	4.1
December quarter	-0.1	-0.5	2.8	3.3
1995				
March quarter	1.8	1.4	1.1	3.0
June quarter	0.2	1.3	0.8	2.3
September quarter	1.6	2.1	2.4	3.4

(a) Short term is the following quarter.

(b) Medium term is the same quarter in the following year.

Short term

Businesses in South Australia expected a rise of 1.6% in sales in the December quarter compared with the September quarter 1995 while the national expectation was a 2.1% increase.

Medium term

Businesses in South Australia anticipated a lower growth in sales (2.4%) than the national expectation of 3.4% for the September quarter 1996 compared with the September quarter 1995.

ABS PUBLICATIONS AND PRODUCTS

Statistics collected by the ABS are generally made available to clients in published form. Some, including those not published, are available in one or more of the following forms: microfiche, magnetic tape, computer printout, CD, floppy disk, photocopy and clerically extracted tabulation.

Current publications produced by the ABS are listed in the *Catalogue of Publications and Products, Australia* (1101.0). The ABS also issues on Tuesdays and Fridays a *Release Advice* (1105.0) which lists publications to be released within the next few days. The Catalogue and Publications Advice are available from any ABS Office.

To receive ABS publications on a regular basis contact the ABS *Publication Mailing Service* on (008) 02 0608.

A large range of data is available via on-line services, diskette, magnetic tape, tape cartridge and CD ROM. For more details about our electronic data services, contact any ABS Office.

The *ABS Information Consultancy Service* has specialist staff to assist and advise clients with their

statistical inquiries. For more detailed information about these services call at the ABS, 55 Currie Street, Adelaide, telephone the Information Officer on (08) 237 7100, or write to Information Service, ABS, GPO Box 2272, Adelaide 5001.

The ABS also provides a *Statistical Consultancy Service*, for expert assistance in survey, sample and questionnaire design, data collection, processing and analysis, and statistical modelling. For more information contact Gary Niedorfer, telephone (08) 237 7379.
