PREFACE

This publication shows, for the State of South Australia, the numbers of occupied and unoccupied dwellings in each Municipality and District Council, and in each Non-municipal Town with 1,000 persons or more, classified according to the characteristics of dwellings recorded at the 1961 Census. The characteristics of occupied dwellings dealt with in the following pages are:— Class of Dwelling (i.e. whether Private House, Flat, etc.); Material of Outer Walls; Number of Rooms; Number of Inmates; Nature of Occupancy; Date of Building; and Weekly Rent (Unfurnished). For unoccupied dwellings the reason for being unoccupied has been shown.

This is one of five Parts which will constitute the complete Census Volume for the State of South Australia, viz., Part I.—Analysis of Population in Local Government Areas and in Non-municipal Towns of 1,000 Persons or More; Part II.—Cross-classifications of the Characteristics of the Population; Part III.—Analysis of Dwellings in Local Government Areas and in Non-municipal Towns of 1,000 Persons or More; Part IV.—Cross-classifications of the Characteristics of Dwellings and of Householders; and Part V.—Population and Dwellings in Localities.

In addition, a number of supplementary statements in mimeographed form are being issued. A list of printed and mimeographed 1961 Census publications already issued is shown inside the back cover of this Part.

Explanatory notes relative to the contents of this Part and to Statistical Divisions, Non-municipal Towns and various other matters follow the Table of Contents.

EXPLANATORY NOTES

This Part contains particulars of the dwellings in each Municipality and District Council and in each Non-municipal Town of 1,000 persons or more in South Australia according to various characteristics of the dwellings.

The grouping into Statistical Divisions is identical with that used in State statistical publications.

A map showing the location and composition of each Statistical Division and a detailed map of the Metropolitan Area of Adelaide is inserted at the end of Part I. of the Census Volume for South Australia. At the end of this Part there is an index to facilitate reference to any Local Government Area or Town for which particulars are shown.

Under the system of local government in South Australia there were, at Census date, 42 Municipalities and 100 District Councils.

Municipalities are usually urban in nature, but some are, for Census purposes, classified as rural or partly rural. In these cases, any Municipality or part of a Municipality which is regarded as rural has been clearly indicated in each table.

District Councils, on the other hand, are usually rural in nature, but within District Councils, Non-municipal Towns of 1,000 persons or more are, for Census purposes, regarded as urban and shown separately. They are indicated in each table by the letters "N.M."

Only about 15 per cent. of the area of South Australia was covered by the local government system, the remaining 85 per cent. being unincorporated for local government purposes.

Statistics shown in this Part relate to Local Government Areas and unincorporated areas as constituted at 30th June, 1961, and do not take account of boundary changes since that date.

Particulars of dwellings occupied solely by full-blood aboriginals are excluded throughout.

Because of the limitation of space and the need for uniform presentation of data it has not been possible to publish more detailed information for Local Government Areas in every table of this Part.

DEFINITIONS

Occupied Dwelling.—An occupied dwelling is any habitation occupied by a household group living together as a domestic unit, whether comprising the whole or only part of a building. The term has therefore a very wide reference and includes, in addition to houses and flats, a great variety of "dwellings" ranging from a single-roomed shack to a multi-roomed hotel or institution. Occupied dwellings are classified into "private" and "other than private" dwellings.

Private Dwelling.—Private dwellings are further classified into the following four categories:—

Private House.—Private Houses include houses, sheds, huts, garages, etc., used for dwelling purposes, and shared private houses for which only one Householder's Schedule was received.

Share of Private House.—A Share of a Private House is a portion of a shared private house which is occupied separately and for which portion a separate Householder's Schedule was received.

Flat.—A Flat is part of a house or other building which can be completely closed off and which has its own cooking and bathing facilities.

Other Private Dwelling.—These include private dwellings such as rooms, apartments, etc., which are parts of buildings but are not self-contained units.

Other than Private Dwelling.—These include Hotels; Motels; Boarding Houses, Lodging Houses and Hostels; Educational, Religious and Charitable Institutions; Hospitals; Defence and Penal Establishments; Police and Fire Stations; Clubs; Staff Barracks and Quarters, etc.

Unoccupied Dwellings.—These include vacant dwellings available for sale or renting; dwellings such as "week-ender", "holiday home", "second home", "seasonal workers' quarters", which were not occupied on the night of the Census; dwellings normally occupied but whose usual occupants were temporarily absent on the night of the Census; newly completed dwellings whose owners or tenants had not entered into occupation on the night of the Census; dwellings described as "to be demolished", "condemned", "deceased estate", "exhibition home", etc.; and buildings constructed as dwellings but used for non-dwelling purposes on the night of the Census. The total number of unoccupied dwellings shown for any area must not, therefore, be read as representing the number of vacant houses and flats available for sale or renting.

Rooms.—These include kitchen and permanently enclosed sleep-out, but do not include bathroom, pantry, laundry or storehouse. Rooms in non-attached buildings are included only if used for living or sleeping purposes by the household group. Rooms recorded for a "share of private house" include only those used by the occupier of the share. A shared kitchen or living room is recorded only for the share occupied by the owner or principal tenant.
