P R E F A C E

This publication shows, for the State of Tasmania, the numbers of males and females in each Municipality and City, and in each Town with 750 persons or more, classified according to the characteristics of the population recorded at the 1961 Census. The characteristics dealt with in the following pages are:—Age, Conjugal Condition, Birthplace, Period of Residence in Australia of Persons born outside Australia, Nationality, Religion, Industry and Occupational Status.

This is one of five Parts which will constitute the complete Census Volume for the State of Tasmania, viz., Part I.—Analysis of Population in Local Government Areas and in Non-municipal Towns of 750 Persons or More; Part II.—Cross-classifications of the Characteristics of the Population; Part III.—Analysis of Dwellings in Local Government Areas and in Non-municipal Towns of 750 Persons or More; Part IV.—Cross-classifications of the Characteristics of Dwellings and of Householders; and Part V.—Population and Dwellings in Localities.

In addition, a number of supplementary statements in mimeographed form are being issued. A list of printed and mimeographed 1961 Census publications already issued is shown inside the back cover of this Part.

Explanatory notes relative to the contents of this Part and to Statistical Divisions, Non-municipal Towns, the local government system in Tasmania, and various other matters follow the Table of Contents.

EXPLANATORY NOTES

This Part contains particulars of the population in each Tasmanian Municipality and in each Non-municipal Town of 750 persons or more according to various characteristics of the population.

The grouping into Statistical Divisions identical with that used in State statistical publications has involved the splitting of certain Municipalities into two parts, and in such cases particulars are shown in each Statistical Division for the part of the Municipality within that Division. An explanatory note is also added. The Municipalities and the respective Divisions concerned are as follows—

	MUNICIPALITY						STATISTICAL DIVISION
Beaconsfield	{ Launceston and Suburbs North Eastern
Clarence	{ Metropolitan Area of Hobart South Eastern
Kingborough	{ Metropolitan Area of Hobart Southern
Lilydale	{ Launceston and Suburbs North Eastern
St. Leonards	{ Launceston and Suburbs North Midland
Westbury	{ Launceston and Suburbs North Midland

A map showing the location and composition of each Statistical Division and a detailed map of the Metropolitan Area of Hobart, together with an index to facilitate reference to any Local Government Area or Town for which particulars are shown, are inserted at the end of this Part.

Under the system of local government in Tasmania there were, at Census date, 49 Municipalities (including the Cities of Hobart and Launceston) which covered the whole area of Tasmania. Some Municipalities included both urban and rural areas, the former being Non-municipal Towns with a population of 750 persons or more. Tasmanian Municipalities are therefore more akin to the Shires and District Councils than to the Municipalities of other States. Non-municipal Towns (within boundaries defined for Census purposes) are indicated in each table by the letters "N.M."

Statistics shown in this Part relate to Local Government Areas as constituted at 30th June, 1961, and do not take account of boundary changes since that date.

Particulars of full-blood aboriginals are excluded throughout.

Because of the limitation of space and the need for uniform presentation of data, it has not been possible to publish more detailed information for Local Government Areas in every table of this Part.

(a) "Not at Work" includes those who stated that they were usually engaged in work but were not actively seeking a job at the time of the Census by reason of sickness, accident, etc. or because they were on strike, changing jobs or temporarily laid off, etc. It includes also persons able and willing to work but unable to secure employment, as well as casual and seasonal workers not actually in a job at the time of the Census. The numbers shown as "Not at Work" therefore, do not represent the number of unemployed available for work and unable to obtain it.
