

Appendix B

Historical Statistics

The following tables provide a historical summary of some statistics relating to Victoria. They are based on tables appearing in previous *Victorian Year Books*, the publication *Historical Statistics of Victoria* 1986 (ABS Cat. No. 1309.2), and other ABS sources. It has been necessary to convert certain previously published historical series into metric units.

A blank space indicates that the figures are not available. A line drawn across a column between two consecutive figures indicates a break in the continuity of the series.

DEMOGRAPHY

POPULATION, VICTORIA

Year	Population at 31 December (a) (b)				Population of Melbourne (b) (d)
	Males	Females	Total persons	Masculinity (c)	
1836	186	38	224	489.47	200

(a) All estimates have been corrected for discrepancies disclosed by the various censuses up to the census of 30 June 1991.

(b) Figures for 1961 and subsequent years include full-blood Aboriginals.

(c) Number of males per 100 females.

(d) Figures shown for the population of Melbourne from 1921 to 1960 relate to the population of the City of Melbourne and adjoining municipal areas within boundaries defined for census purposes at the respective censuses of 1921, 1933, 1947, and 1954. From 1961 onwards, the figures relate to the population within a new fixed outer boundary embracing an area referred to as the Melbourne Statistical Division.

(e) From 1971 onwards, figures are estimated resident population.

(f) The Melbourne Statistical Division boundary was extended in 1991. Figures for 1981 onwards reflect this change.

(g) The population of Melbourne is calculated at 30 June.

MARRIAGES, DIVORCES, BIRTHS, AND DEATHS (a)(b), VICTORIA

Year	Marriages		Divorces (c)		Births		Deaths		Infant mortality

(a) The Registration Act providing for the legal registration of births, deaths, and marriages in Victoria was passed in 1853. Prior to this date Victorian vital statistics were obtained from parish and church records which were regarded as being incomplete for statistical purposes. For this reason, the numbers of vital events and their corresponding rates for this period must be treated with caution. In particular, it is thought that in the year in which the new registration system was introduced (1853) both births and deaths were understated, the correct totals in each case would probably have exceeded 5,000. Figures for 1966 and subsequent years include particulars of full-blood Aboriginals. From 1972 onwards figures for births and deaths are compiled on a State of usual residence basis.

(b) The rates are referred to as crude rates because they do not take into account important factors such as age structure, sex, and marital status of the population.

(c) The *Commonwealth Family Law Act 1975* came into operation on 5 January 1976 repealing the previous *Matrimonial Causes Act 1959*.

(d) Number of deaths under one year per 1,000 registered live births.

POPULATION INCREASE, VICTORIA

1994 p	32 474	-21 197	11 277	7.3	-4.7	0.25

- (a) For the period September 1939 to June 1947 troop movements were excluded and deaths of defence personnel, whether in Australia or overseas, included. Thus, for these years, the figures for natural increase and net migration do not equal the total increase figure.
- (b) Excess of live births (where mother's State of usual residence is Victoria) over deaths (where deceased's State of usual residence is Victoria).
- (c) Figures for 1966 and subsequent years include full-blood Aboriginals.
- (d) See footnote (a) to preceding table. For reasons stated there, the natural increase and apparent net migration, together with their corresponding rates for this period, must be treated with caution.
- (e) Not calculated. See footnote (a) to preceding table.
- (f) Figures for 1991 and 1992 are calculated based on estimated resident population (ERP) as at 30 June.

(a) Refers only to disputes involving a stoppage of work of 10 staff-days or more in the establishments where the stoppage occurred. Disputes not settled at the end of a year are included as new disputes in the figures for the following year. Statistical collection commenced in 1913.

(b) Includes persons stood down from work at the establishments where the stoppages occurred but were not themselves parties to the dispute.

(c) From 1985 the reporting rate was changed from 31 December to 30 June. Published figures show total membership from that date. Prior to 1985 a mixture of total and financial membership was used.

(a) Care should be taken in interpreting the data in this table. Comparability between years and between government and non-government schools is affected by differences in the organisation of grades, policy on student advancement flows from secondary to vocational education and the recruitment and employment of teachers. In addition, the census date has differed in some years. From 1980 the census has been at 1 July or the first school day thereafter.

(a) There were four universities in Victoria in 1989: the University of Melbourne opened 1855, Monash University opened 1961, La Trobe University opened 1967, and Deakin University opened 1977. All institutions now fall under the Unified National System, and can no longer be split into Universities and Colleges of Advanced Education. A number of institutional amalgamations and name changes occurred in the 12 months prior to the commencement of the 1992 academic year. The policy of merging Colleges of Advanced Education with Universities was completed by the end of 1993.

(b) 1855 to 1956 gross enrolments in courses.

1957 to 1971 net enrolments (students in two courses counted once).

(c) Includes external students.

(d) From 1961 all part-time staff are expressed in full-time equivalent (FTE).

(e) Course completions data to 1986 refers to year ended 30 June. 1987 data refer to year ended 31 December.

(f) From 1991 onwards, total enrolments includes full-time, part-time and external enrolments.

NON-UNIVERSITY TERTIARY EDUCATION (a), VICTORIA

- (a) Matriculation was first held in 1855 primarily as a qualification for university entrance.
 1906: title changed to senior and junior public examinations.
 1917: title changed to School Leaving Certificate.
 1944: title changed to Matriculation.
 1970: title changed to Higher School Certificate (HSC).
 1987: title changed to Victorian Certificate of Education (VCE) - a combination of school based and external assessment.
- (b) Included in Junior Public figures.
- (c) 1963 to 1967 Intermediate was a subject examination (one in which the candidate is presented with a certificate listing the subjects he or she passed, i.e. the candidate does not pass or fail the examination as a whole). The only available figures show the total number of entries (persons) regardless of the number of subjects each is sitting for and have been excluded. Includes candidates with Headmaster's Certificates which were accepted as satisfying the requirements of the examination. 1967 was the last year in which the examination was held.
- (d) Since 1964 known as a subject examination. In 1971 the Leaving Certificate commenced to be phased out. A large number of schools conducted their own 5th year secondary examinations.

(a) This table provides data relating to general hospitals, special hospitals (those that have accommodation for specific cases only or for women and/or children exclusively and the Cancer Institute which was established in 1949), sanatoria, auxiliary hospitals, convalescent hospitals, and hospitals for the aged. The table excludes mental hospitals, psychiatric and informal hospitals (except those hospitals recognised as acute care hospitals under the Medicare agreement), intellectual deficiency training centres and schools, founding homes and hospitals, bush nursing centres and convalescent homes. Also excluded are hospitals operated by the Department of Veteran's Affairs and other Commonwealth authorities.

(b) From 1984-85 the number represents outpatient attendances. The outpatient attendance for 1983-84 was 4,719,606.

(c) From 1985-86 the number of beds represents the average number over the year which were staffed and available.

(d) Subsequently affected by amalgamations, closures and inclusion of psychiatric hospitals recognised as acute care hospitals under the Medicare agreement.

(e) From 1990-91 the number of outpatients treated represents non-inpatient occasions of service.

NOTE: The following factors should be considered when interpreting data from 1948-49 onwards:

- i) All years cover a full twelve month period, with the exception of 1948-49 (9 months) and 1954-55 (15 months).
- ii) The source of data is the Health Department of Victoria or its predecessors.
- iii) Figures for most years in the 1950s are slightly understated due to the failure of some hospitals to submit statistical returns.
- iv) The basis of reporting of public hospital data changed with effect from 1 July 1993 as a result of the introduction of new funding and reporting arrangements under the National Health Information Agreement and the 1993 Medicare Agreement. These revised arrangements resulted in the exclusion from reporting arrangements of nine psychiatric hospitals (680 beds). The effect of this and other definitional changes was to create an artefactual decrease of 2.5% in the number of inpatients reported in 1993-94 compared with 1992-93.

The reporting of outpatient activity was also affected by a number of reporting changes involving the exclusion of approximately 2,665,000 domiciliary and other occasions of service funded through Commonwealth programs.

AGRICULTURE

The scope of the Agricultural Census has changed over time. In recent years the ABS began to gradually exclude from the statistics those establishments which made only a small contribution to overall agricultural production. Commencing in 1976-77 only those establishments with an Estimated Value of Agricultural Operations (EVAO) of \$1,500 or more were included. In 1981-82 the EVAO criterion was increased to \$2,500. Further changes followed, the most recent being in 1993-94 when the EVAO was actually reduced from \$22,500 to \$5,000.

1992-93 (c)	11 692	284 000	8 974	54 969	21 688	

(a) All manufacturing establishment owned by multi-establishment enterprises and single establishment manufacturing enterprises with four or more persons employed. Figures from 1975-76 to 1989-90 do not include data for single establishment enterprises with fewer than four persons employed.

(b) Single establishment manufacturing enterprises with fewer than four persons employed.

(c) All Manufacturing establishments.

NOTE:

- This series of factory statistics has not always been compiled on the same basis. The definition of the unit classified the industrial classification of manufacturing establishments, and the content of the returns have all changed during the period covered by the table.
- A June-July financial year was adopted in respect of 1916-17 (previously a calendar year was used). Within the very broad headings of various industrial classifications, differences in administrative practices and coverage were also responsible for minor differences. Revisions, when introduced, could not always be carried through to statistics for earlier years.
- Returns were first collected through municipal authorities and for the period 1902 to 1954 by the Victorian Police under the supervision of the Government Statist. Between 1955 and 1958 dispatch and receipt of returns by mail was progressively introduced and the involvement of the Police ceased.
- As foreshadowed above, the series can be regarded as divisible into a number of series of varying time spans rather than as a continuous series. Between 1902 and 1967-68 the definition of the unit was treated unchanged, although a number of changes took place in the classification of the units during that period.
- In 1968-69 the first of the integrated economic censuses was conducted of manufacturing, mining, electricity and gas, wholesale, and retail establishments. The integration of these economic censuses meant that, for the first time, they were being conducted on the basis of a common framework of reporting units and data concepts and in accordance with a standard industrial classification. For details see *Victorian Year Book* 1971, pages 368-89.
- No Census of Manufacturing Establishments was conducted for the years ending 30 June 1971 and 30 June 1986.
- From the 1975-76 Census of Manufacturing Establishments onwards, only a limited range of data (employment and wages and salaries) was collected from single establishment manufacturing enterprises with fewer than four persons employed. This procedure has significantly reduced the statistical reporting obligations of small businesses.
- Further steps to reduce respondent burden were taken for the 1986-87 Manufacturing Census when single establishment enterprises with fewer than 20 employees were made subject to sampling. Those enterprises selected in the sample provided detailed information of employment, wages and salaries, turnover, stocks, expenses and goods produced. Establishments not subject to sampling provided less detailed information for employment, wages and salaries, turnover, and goods produced.
- From 1986-87 onwards, data relating to value added and fixed capital expenditure less disposals are only available triennially.

(a) Excludes value of land.

(b) Individual dwelling units.

(c) Includes houses and flats.

(d) Prior to 1973-74 additions and alterations to dwellings valued at \$10 000 or more were included in the figures.

(e) There was a change in scope and methodology in 1980-81 with further modification in 1981-82.

(f) From 1980-81 figures for houses are rounded to the nearest ten units.

(a) 1862 to 1870 and 1877 to 1884 year ended 31 December.

1871 six months ended 30 June

1872 to 1875 and 1885 to 1983 year ended 30 June.

1876 eighteen months ended 31 December.

(b) 1886 to 1915 Melbourne Tramway and Omnibus Company.

1916 to 1982 Melbourne and Metropolitan Tramways Board.

1983 to 1989 Metropolitan Transit Authority.

1990 Public Transport Corporation

(c) Ten months only.

(d) Nine months only.

(e) Six months only.

(f) Multimodal ticket system introduced and metropolitan component redefined to represent vehicle boardings rather than journeys (from 1982 onwards).

(g) Estimated to nearest million only.

(h) Represents services of State Transport Authority only until reunited with metropolitan rail services (1 July 1989).

(i) Non-metropolitan component redefined to represent vehicle boardings rather than journeys (from 1994 onwards).

(j) In December 1993 the majority of bus services operated by the Public Transport Corporation were transferred to private contractors.

(k) Excludes interstate passenger services (contracted to interstate rail authorities)

(l) Excludes interstate passenger services and passenger services privately managed on the Shepparton and Warrnambool corridors.

(m) Excludes interstate freight: management transferred to National Rail Corporation.

(a) Domestic aircraft movements commenced at Melbourne Airport on 20 June 1971. Domestic aircraft previously used Essendon airport.

(b) International aircraft movements commenced at Melbourne Airport on 1 July 1970. International aircraft previously used Essendon airport. Scheduled international flights were suspended into Melbourne from 1965 to 30 June 1970. Melbourne returned to international status on 1 July 1970 as the new Melbourne airport was capable of handling larger modern aircraft.
