

COMMONWEALTH BUREAU OF CENSUS AND STATISTICS, CANBERRA,
AUSTRALIA.

DEMOGRAPHY.

1955.

BULLETIN No. 73.

PREPARED UNDER INSTRUCTIONS FROM THE RIGHT HONORABLE THE TREASURER,

BY

S. R. CARVER,

COMMONWEALTH STATISTICIAN.

DEMOGRAPHY, 1955.

PREFACE

The present issue, which is the seventy-third in the series, furnishes detailed statistics relating to the year 1955. Some comparative tables are included in each Section, but where the comparison is on the basis of individual years the period covered is necessarily limited. The more widely used totals and rates for each State and Territory for each year from 1881 to 1955 are given in a separate Statistical Summary included as Section VIII.

All statistics contained in this Bulletin are exclusive of full-blood aboriginals.

Section I., which presents population statistics up to 31st December, 1955, contains a summary of certain Census results up to and including the Census of 30th June, 1954, together with population estimates for selected dates and estimates of the mean population for selected periods. All population statistics for dates up to 30th June, 1954, and all mean populations for calendar years up to 1953 and financial years up to 1953-54, inclusive, are final, having been adjusted to accord with Census results. Population statistics for dates or years subsequent to these are subject to revision in accordance with the results of the next Census.

For the period September, 1939 to March, 1947, estimates of population include Australian defence personnel, irrespective of their location, in the States and Territories from which they enlisted. Allied defence personnel and internees and enemy prisoners of war sent to Australia from overseas are excluded from the estimates of population.

Detailed statistics of oversea migration are included in Section II., in which the figures relate to oversea passenger-journeys whether by sea or air. The statistics for the period September, 1939 to June, 1947, exclude movements of defence personnel and internees and enemy prisoners of war from overseas. In the tables showing migration according to countries limitation of space prevents the inclusion of the full list of countries used in original tabulations but the additional information is available in the Bureau for reference.

The deaths as recorded in Section VI. include deaths of defence personnel which were registered with civil registrars in the period September, 1939 to December, 1941, but from January, 1942 to June 1947, deaths of Australian and Allied defence personnel and internees and enemy prisoners of war from overseas are excluded. The figures shown in this Section for the latter period thus relate to the Australian civilian population. Death rates for the years 1939 to 1947 are calculated on total population and must be regarded as approximate.

Commencing with 1950 the classification of causes of death has been made according to the International Statistical Classification of Diseases, Injuries and Causes of Death (Sixth Revision, 1948, of the International List of Causes of Death) together with the international rules for selecting the underlying cause of death, as explained more fully in *Official Year Book* No. 39, Chapter XIV.—Vital Statistics. Although the classification is made in accordance with the full detailed list of three-digit categories (with some fourth-digit sub-categories) the tables presented in this Bulletin have been shortened by grouping categories which are not important as causes of death. This grouping has been arranged so as to preserve comparability with past statistics as much as possible and to permit re-grouping into the Intermediate List of 150 Causes.

For convenience in presentation and economy of space the Statistical Summary in Section VIII. has been restricted to the 75 years, 1881 to 1955. Similar statistics for each year from 1860 to 1880 will be found in *Demography*, Bulletin No. 67, 1949.

The graphs have been continued and appear at the end of this Bulletin.

Thanks are expressed to the various State Statisticians, State Government Departments responsible for the registration of births, deaths and marriages and to the Department of Territories for the valuable assistance rendered by them in furnishing the data for the compilation of the vital statistics. For the work done in the preparation of this Bulletin special thanks are due to Mr. R. C. Gilligan, B.Com., Supervisor of the Demography Branch, and the staff under his control.

S. R. CARVER,
Commonwealth Statistician.

(a) For total increase recorded for each year commencing with 1881. *See* Section VIII.—Statistical Summary. (b) Included with South Australia prior to 1901. (c) Part of New South Wales prior to 1911. (d) For the period September, 1939 to June, 1947 troop movements have been excluded and deaths of Australian defence personnel, whether in Australia or overseas, included.

NOTE.—Differences between the figures above and totals of figures for each element of increase shown separately in Tables Nos. 9, 10 and 11 (natural increase, recorded net interstate and overseas migration and deaths of Australian defence personnel respectively) represent adjustments for differences disclosed by the results of the 1947 and 1954 Censuses. Particulars of total increase have been adjusted for these differences, but no separate adjustment has been applied to individual elements of increase. Intercensal discrepancies disclosed by previous Censuses were adjusted on recorded departures. *See* Table No. 12 for summary.

Minus sign (-) denotes decrease.

POPULATION.

9

No. 9.—Population : Natural Increase (Excess of Births over Deaths).(a)

Period.	New South Wales.	Victoria.	Queensland.	South Australia.	Western Australia.	Tasmania.	Northern Territory.	Australian Capital Territory.	Australia.

(a) Excess of arrivals over departures. Minus sign (-) denotes excess of departures over arrivals. Recorded interstate migration relates to movements by rail, sea and air and certain special movements by road. For net migration recorded for each year commencing with 1881, see Section Y111.—Statistical Summary. (b) Included with South Australia prior to 1901. (c) Part of New South Wales prior to 1911. (d) Excludes troop movements for period September, 1939 to June, 1947. (e) Excludes interstate migration from July, 1943 to June, 1947.

(a) Deaths of serving members of the Forces, whether occurring in Australia or overseas. The figures above are provisional and show the State or Territory in which the deceased members of the Forces resided prior to enlistment. The final total for Australia for deaths of defence personnel from September, 1939 to June, 1947 was 37,599 males, 179 females, 37,778 persons. It is not possible to show a dissection of these figures by State or Territory of residence.

(a) Deaths of defence personnel were recorded separately for population purposes for the period September, 1939 to June, 1947 and include deaths whether overseas or within Australia. (b) Excludes troop movements for the period September, 1939 to June, 1947. Minus sign (-) denotes excess of departures over arrivals. (c) Adjustment of population on the basis of final results of the 1947 and 1954 Censuses. Prior to 30th June, 1933, discrepancies disclosed by the various censuses were corrected by adjusting recorded overseas departures. (d) Includes deaths of defence personnel registered in civil registers, and also counted in the totals of deaths of defence personnel, as follows:—1940, 272 males; 1941, 418 males.

NOTE.—The Metropolitan Urban Divisions relate to the capital cities of the States and Canberra, the capital city of Australia, together with adjoining urban municipal areas within boundaries used for Census purposes.
 Other Urban Divisions comprise the capital city of the Northern Territory, all other municipal areas and non-municipal towns with a population of 1,000 persons or more (750 or more in Tasmania).
 Rural Divisions comprise the remaining portion of each State and Territory, including not-incorporated areas.
 "Migratory" relates to persons not elsewhere enumerated who, at midnight between 30th June and 1st July, 1954 were travelling on ships or on long-distance trains or aircraft.

(a) Based on the age distribution at the Census of 30th June, 1954 (adjusted only for "not stated" ages) and on subsequent births, recorded ages at death and recorded ages of migrants.

SECTION II.—OVERSEA MIGRATION.

19

NOTE.—(1) This section relates to oversea migration (i.e., arrivals from and departures to places outside Australia) by sea and air. Prior to 1st July, 1922, crew members as well as passengers were included in the statistics but since that date the figures relate to passengers only.

(2) Troop movements were excluded from oversea migration statistics for the period September, 1939 to June, 1947. Since June, 1947, Australian troops have been included in the temporary migration figures irrespective of the length of their stay overseas.

(3) "Permanent movement" refers to persons intending residence for one year or longer in Australia in the case of arrivals and abroad in the case of departures, irrespective of the stated intention of the passenger as to permanency. Australian residents returning after an absence of a year or more and visitors intending to stay in Australia for a year or more are by this definition included in the permanent movement of arrivals. Similarly Australian residents departing for a year or more and visitors departing after a stay of a year or more are included in the permanent movement of departures. "Temporary movement" refers to persons intending, or returning from, residence for shorter periods.

(4) "Country of last permanent residence" means the country in which the passenger was last resident for one year or longer. "Country of intended future permanent residence" means the country in which the passenger intends to reside for one year or longer.

(5) "Country of embarkation" refers to the country in which the passenger embarked on the particular ship or aircraft which brought him to Australia. "Country of disembarkation" refers to the intended country of disembarkation from the particular ship or aircraft which takes the passenger from Australia.

NOTE.—This table indicates the State or Territory where passengers embarked on or disembarked from the ship or aircraft. The figures do not indicate the full effect of migration on the populations of the States as numbers of passengers use interstate transport to commence or complete their journey. This is particularly so in respect of air passengers.

(a) See NOTE (3) on page 19.

Total to end of 1940 (a) ..	347,705	256,090	236,413	115,994	87,015	25,022	72	1,068,311

(a) Assisted migration was discontinued during the 1939-45 War and was not recommenced until 31st March, 1947.

No. 39b.—Oversea Migration: Number of Nominated and Selected Immigrants, Australia.

Year.	Males.	Females.	Persons.
Total to end of 1940 (a) ..	(b)	(b)	1,068,311
1947	4,137	2,166	6,303
1948	17,837	11,106	28,943
1949	68,976	49,864	118,840
1950	68,990	50,119	119,109
1951	37,071	29,603	66,674
1952	38,000	22,531	60,531
1953	14,555	12,755	27,310
1954	30,272	23,766	54,038
1955	38,315	28,373	66,688
Total to end of 1955	(b)	(b)	1,616,747

(a) Assisted migration was discontinued during the 1939-45 War and was not recommenced until 31st March, 1947. (b) Not available.

NOTE.—Under the migration schemes in operation up to 1940 it was possible to show the number of migrants according to State or Territory of destination with reasonable accuracy. Such statistics are shown in Table No. 39a. Under the various migration schemes which came into operation in 1947 and subsequent years it is not possible to show, from information obtained at time of disembarkation, the number of migrants destined for the various States and Territories because of the practice of accommodating certain categories of migrants in Immigrant Reception and Holding Camps and subsequently allocating them to another State or Territory. Therefore these statistics for the years 1947 to 1955 have been confined to the Australian total as shown in Table No. 39b.

SECTION III.—MARRIAGES.

NOTE.—(1) In the cases of multiple births included above the following stillbirths were recorded:—Twins, Nuptial—New South Wales, 56; Victoria, 10; Queensland, 15; South Australia, 5; Western Australia, 14; Tasmania, 5; Australian Capital Territory, 2; Australia, 107; Twins, Ex-nuptial—New South Wales, 2; Victoria, 1; Australia, 3; Triplets, Nuptial—Queensland, 1; Tasmania, 1; Australia, 2.
 (2) In Queensland and Tasmania the registration of stillbirths is not compulsory and it is possible that in some cases where one child of twins is stillborn the live-born child is registered as a single birth and that similar variations are made in the case of triplets, etc., not all live-born. This is actually the practice in South Australia even though stillbirths are registered.

1955 ..	21.31	22.30	24.16	22.55	25.23	25.59	30.22	26.56	22.57

(a) Number of live births per 1,000 of mean population. (b) Included with South Australia prior to 1901. (c) Part of New South Wales prior to 1911.

NOTE.—(1) For crude birth rates recorded for each year commencing with 1881 see Section VIII.—Statistical Summary.
 (2) The birth rates in the table above are based on live births registered in the respective States and Territories. Prior to 1939 a large proportion of births in respect of which the mother's usual residence was the Australian Capital Territory took place in Queanbeyan, just over the New South Wales border. With improved hospital facilities in the Territory the position was reversed until late in 1952, when maternity accommodation was again provided in Queanbeyan. The following rates, based on births in respect of which the mother's usual residence is the Australian Capital Territory, are a truer measure of crude birth rates in the Australian Capital Territory:—

Average Annual Rates.		Annual Rates.	
1931-35 ..	19.53	1951 ..	28.51
1936-40 ..	19.29	1952 ..	31.09
1941-45 ..	23.06	1953 ..	27.61
1946-50 ..	27.13	1954 ..	28.67
1951-55 ..	23.39	1955 ..	26.53

The variations similarly caused in the birth rates for the States and the Northern Territory by referring the birth registrations to the State or Territory in which the mother was usually resident are shown by the following corrected rates for 1955:—New South Wales, 21.29; Victoria, 23.28; Queensland, 24.24; South Australia, 22.46; Western Australia, 25.26; Tasmania, 25.66; and Northern Territory, 30.93.

No. 68.—Masculinity(a) of Live Births.

(a) Number of male births per 100 female births.

No. 69.—Gross and Net Reproduction Rates (a): Australia.

Year.	Gross Reproduction Rate.(b)	Net Reproduction Rate.(c)	
		Based on 1932-34 Mortality Experience.	Based on 1946-48 Mortality Experience.
1945 ..	1.337	1.220	1.267
1946 ..	1.455	1.328	1.379
1947 ..	1.493	1.364	1.416
1948 ..	1.451	..	1.376
1949 ..	1.457	..	1.382
1950 ..	1.491	..	1.415
1951 ..	1.485	..	1.409
1952 ..	1.547	..	1.468
1953 ..	1.556	..	1.477
1954 ..	1.558	..	1.478
1955 ..	1.594	..	1.513

(a) The rate for each year is calculated on the basis of births in each year. (b) The "gross" reproduction rate is a measure of the average number of female children who, according to the fertility rates on which the calculation is based, would be born to women during their lifetime. (c) The "net" reproduction rate is a measure of the average number of female children who would be born to women during their lifetime if they were subject at each age to the fertility and mortality rates on which the calculation is based.

NOTE.—The numbers of females of child-bearing age on which the rates above are based for the years 1945 to 1953 have not been adjusted in accordance with the results of the Censuses of 30th June, 1947 and 30th June, 1954.

1954	9	4	13	8	4	12	12.74
1955	6	3	9	6	3	9	10.23

(a) Number of deaths per 1,000 of mid-year population. (b) Number of deaths under one year per 1,000 live births. (c) Not available.

PAPUA.

NOTE.—Because of the outbreak of hostilities in the Pacific during the 1939-45 War, civil administration in Papua was suspended on 11th February, 1942, and was not re-established until 30th October, 1945. Registration of births, deaths and marriages was resumed in 1946 and since then there have been many delayed registrations of vital events which occurred during the period of suspension; also, owing to geographic conditions, there is some delay at any time. For these reasons the birth and death tables below have been designed to show both the number of births and deaths registered in each year and the number of births and deaths which actually occurred in each year, irrespective of the date of registration.

No. 136.—Population: Indigenous and Non-indigenous.

At 30th June—	Estimated Population.		
	Indigenous.	Non-Indigenous.	Total.
1946	(a)	(a)	(a)
1947	(a)	(b)3,239	(a)

NEW GUINEA.

(TRUST TERRITORY.)

NOTE.—Because of the outbreak of hostilities in the Pacific during the 1939–45 War, civil administration in New Guinea was suspended on 11th February, 1942. Part of the Territory was returned to civil administration on 30th October, 1945, and, as circumstances permitted, civil control was extended until the whole of the Territory came under control of civil authorities on 24th June, 1946. Registration of births, deaths and marriages was resumed in 1946 and since then there have been many delayed registrations of vital events which occurred during the period of suspension; also, owing to geographic conditions there is some delay at any time. For these reasons the birth and death tables below have been designed to show both the number of births and deaths registered in each year and the number of births and deaths which actually occurred in each year, irrespective of the date of registration.

No. 140.—Population: Indigenous and Non-indigenous.

At 30th June—	Estimated Population.		
	Indigenous.	Non-indigenous.	Total.
1946	(a)	(a)	(a)
1947	(a)	(b) 6,200	(a)
1948	1,000,000	7,026	1,007,026
1949	978,000	7,764	985,764
1950	1,071,000	8,680	1,079,680
1951	1,094,000	8,956	1,102,956
1952	1,090,000	9,926	1,099,926
1953	1,144,000	11,064	1,155,064
1954	1,195,000	(b) 11,442	1,206,442
1955	1,242,000	12,545	1,254,545

(a) Not available.

(b) Population recorded at Census.

No. 141.—Marriages (Non-indigenous Population only).

Year.	Number of Marriages Registered during Year.			Crude Marriage Rate. (a)
	By Ministers of Religion.	By Civil Officers.	Total.	
1946	13	4	17	(b)
1947	30	13	43	6.94

1955	43	20	63	41	18	59	4.70	4	6	10	35.34

(a) Number of deaths per 1,000 of mid-year population.

(b) Number of deaths under one year per 1,000 live births.

(c) Not available.

NAURU.

(TRUST TERRITORY.)

NOTE.—With the occupation of Nauru by enemy forces during the 1939–45 War, the registration of births, deaths and marriages was completely disorganized. Registration was resumed in October, 1945, when civil administration was re-established, and since then there have been many delayed registrations of vital events which occurred during the period of enemy occupation. For this reason the birth and death tables below have been designed to show both the number of births and deaths registered in each year and the number of births and deaths which actually occurred in each year, irrespective of the date of registration.

(a) For years prior to 1881 see Demography Bulletin No. 67, 1949. (b) Northern Territory figures included with those for South Australia prior to 1901. (c) Part of New South Wales prior to 1911. (d) See note (d) to Table No. 148c. (e) For the period September, 1939 to June, 1947, troop movements were excluded and deaths of defence personnel, whether in Australia or overseas, included.

NOTE.—Differences between the figures above and totals of figures for elements of increase shown separately in the following two tables (natural increase and recorded net interstate and overseas migration) represent, after taking into account deaths of defence personnel, differences disclosed by the final results of the 1947 and 1954 Censuses. Particulars of total increase have been adjusted for these differences, but no separate adjustment has been applied to individual elements of increase. Intercensal discrepancies disclosed by the 1933 and earlier Censuses were adjusted on recorded departures.

Minus sign (-) denotes decrease.

No. 152.—Natural Increase (Excess of Births over Deaths).(a)

1955	1.84	2.99	2.11	3.27	3.29	1.97	5.37	7.47	2.45

(a) Rate represents percentage growth for each year, based on the population at the previous 31st December. See NOTE to Table No. 148a. For years prior to 1881 see Demography Bulletin No. 67, 1949. (b) Included with South Australia prior to 1901. (c) Part of New South Wales prior to 1911. (d) Population increased by 156 males and 126 females owing to the transfer of the Jervis Bay area to the Australian Capital Territory. (e) For the period September, 1939 to June, 1947, troop movements were excluded and deaths of defence personnel, whether in Australia or overseas, included.

NOTE.—Minus sign (-) denotes rate of decrease.

(a) Excess of recorded interstate and overseas arrivals over departures per 1,000 of mean population. For years prior to 1881 see Demography Bulletin No. 67, 1949. (b) Included with South Australia prior to 1901. (c) Part of New South Wales prior to 1911. (d) Increase due principally to inclusion of the Jervis Bay area in the Australian Capital Territory. (e) Excludes troop movements for the period September, 1939 to June, 1947. (f) Excludes interstate migration from July, 1943 to June, 1947.

NOTE.—Minus sign (-) denotes rate of decrease.

(a) Number of deaths per 1,000 live births registered. (b) Not available prior to 1941.

NOTE.—For particulars of total deaths under one year of age and total infant mortality rates see Tables Nos. 164 and 165.

SECTION IX.—AUSTRALIAN LIFE TABLES.

No. 167.—Australian Male Lives, 1946 to 1948—Elementary Values.

A^{M47}

A^{M47}

l_x = Number Surviving at each Age out of 100,000 Born.

d_x = Number Dying in each Year of Age out of 100,000 Born.

p_x = Probability of Surviving One Year at each Age.

q_x = Probability of Dying within One Year at each Age.

μ_x = Force of Mortality at each Age.

e_x = Complete Expectation of Life at each Age.
