#### OVERSEAS ARRIVALS AND DEFARTURES,

#### APRIL 1971

Reference No. 4.3

This publication provides summary statistics of overseas arrivals in and departures from Australia during the month of April 1971 and the ten months ended April 1971, with comparable statistics for earlier periods. More detailed statistics are published quarterly - see "Overseas Arrivals and Departures", (Reference No. 4.1).

#### CONTENTS

Table		Page
• •	Explanatory notes	1
1.	Arrivals and departures : recent annual and monthly totals	2
2.	Arrivals and departures by category of traveller	3
3•	Permanent movement by month of arrival or departure	3
4.	Long-term movement by month of arrival or departure	4
5•	Short-term movement by month of arrival or departure	4
6.	Settlers arriving by nationality and by occupation	5
7.	Australian residents departing permanently by country of birth and by occupation	6
8.	Visitors arriving - short-term movement; by sex, mode of transport, intended length of stay, stated purpose of journey and country of residence	7
9.	Australian residents departing - short-term movement; by sex, mode of transport, intended length of stay, stated purpose of journey and country of disembarkation	8

#### EXPLANATORY NOTES

Permanent movement consists of persons arriving in Australia with the stated intention of settling permanently in Australia, and Australian residents departing with the stated intention of residing permanently abroad. Settlers are persons who, on arrival in Australia, indicated that they came intending to settle. Former Settlers are persons who, on departure from Australia, stated that they had come to Australia intending to settle, had stayed for a period of twelve months or more, and were now departing permanently.

- 2. <u>Long-term movement</u> (which is distinct from permanent movement) consists of the arrival of visitors and the departure of Australian residents with the stated intention of staying (in Australia or in a country abroad, respectively) for twelve months or more and the departure of visitors and the return of Australian residents who have stayed (in Australia or in a country abroad, respectively) for twelve months or more.
- 3. Short-term movement consists of all other movements, including the movement of Australian troops irrespective of period of stay, and U.S. troops visiting Australia on rest and recreation leave.
- 4. Seasonally adjusted figures of total and short-term arrivals and departures are shown in Tables 1 and 5. In the adjustments, account is taken of "trading day" effects as well as normal seasonal factors. Details of the methods used and selected measures of variability are available on request and were published in "Seasonally Adjusted Indicators 1971" (Reference No.1.10).

Statistics of characteristics of travellers in the short-term movement as from April 1971 are estimates derived from a fifty per cent sample of short-term travellers. While the total number of such travellers and statistics of their mode of transport are fully known, statistics in various classifications, e.g. nationality, may differ from those that would be obtained from complete processing. A measure of this difference is given by the standard error. There are about 2 chances in 3 that the difference will be less than 1 standard error, and 19 chances in 20 that it will be less than 2 standard errors. The standard error varies with the size of the estimate and the following table shows the standard errors of various estimate sizes.

Size of quantity estimated	Approximate standard error of estimate				
(persons)	Persons	Per cent of estimate			
10,000 1,000 500 100	100 32 23 10	1.0 3.2 4.5 10.0			

6. Statistics of permanent and long-term movement are based on records of all travellers in this movement and therefore do not contain sampling errors. However, since short-term movement is a component of total movement, statistics of characteristics of travellers in total movement are subject to such errors. The magnitude of standard errors in total movement is about 20 per cent less than in short-term movement.

7. A fuller description of the sampling procedures will be published in "Overseas Arrivals and Departures, June Quarter 1971" (Reference No. 4.1).
