EXPLANATORY NOTES

Overseas travellers have been classified for statistical purposes into "permanent and long-term movement" and "short-term movement", the latter being divided into movements of Australian residents and overseas visitors. Table 1 of this review contains statistics of travellers classified in this way since 1946. From 1959, the "permanent and long-term" movement was divided into "permanent movement" (settlers arriving and Australian residents departing permanently) and "long term movement", the latter being further divided into long term movements of Australian residents and overseas visitors. Information in accordance with the extended categories is shown in Table 2 of this Review.

2. The remaining tables in section I contain further statistics of total movement in the quarter and year ended December 1964. Section II contains details of the short-term movement in the quarter and year ended December 1964. Statistics classifying total movement in the six months and year ended December, 1964, according to country of birth and according to age, conjugal condition and sex, are shown in Section III. Such statistics are prepared for six monthly periods only.

3. Part 1 of the overseas arrival and departure statistics for the quarter and year ended December 1964, relating to permanent and long-term movement, appeared in Australian Demographic Review No. 213, issued on 1st April, 1965.

4. The classification into permanent, long-term and short-term is based on the purpose of travel stated by the traveller on arrival in, or departure from, Australia. THESE STATEMENTS REPRESENT THE TRAVELLER'S INTENTION AT THE TIME. MANY TRAVELLERS SUBSEQUENTLY CHANGE THEIR INTENTIONS AND THIS MUST BE BORNE IN MIND IN INTERPRETING THE STATISTICS.

5. Permanent movement consists of persons arriving with stated intent to settle permanently in Australia, and Australian residents departing with stated intent to reside permanently abroad. Settlers are persons who, on arrival in Australia, indicated that they came intending to settle. Former Settlers are persons who, on departure from Australia, stated that they had come to Australia intending to settle, had stayed for a period of twelve months or more and were now departing permanently. Persons who stated a period of less than twelve months are classified to "visitors departing, short-term movement".

6. Long-term movement consists of the arrival of visitors and the departure of residents with stated intent to stay (in Australia or in a country abroad, respectively) for twelve months or more, and the departure of visitors and the return of Australians who have stayed (in Australia or in a country abroad, respectively) for twelve months or more.

7. Short-term movement consists of all other movements, including the movement of Australian troops irrespective of period of stay. Visitors arriving and residents departing are further classified according to stated purpose of travel, the categories being, for visitors, "In transit", "Business", "Holiday", "Education" and "Other purposes", and for residents, "Business", "Holiday", "Education" and "Other purposes". "In transit" visitors include all who state "In transit" as their purpose of journey to Australia provided that their intended length of stay in Australia does not exceed one month. However, the numbers do not include persons passing through Australia on board the same ship or aircraft. These passengers are not included in Australian statistics of arrivals or departures. Persons on a short pleasure cruise commencing and finishing in Australia on a ship not engaged in a regular voyage, and air crew and ships' crew are also excluded from these statistics.
