MAIN FEATURES (September quarter 1994)

Short-term movement - Overseas visitors

There were 800,400 short-term overseas visitor arrivals to Australia, an increase of 13 per cent compared with the September quarter 1993 (708,600).

The main source countries for visitor arrivals in September quarter 1994 were: Japan (23% of total), New Zealand (19%), the United States of America and the United Kingdom (both 8%). These four countries accounted for 57 per cent of the total visitor arrivals compared with 62 per cent in September quarter 1993 and 65 per cent in September quarter 1992.

The main purpose of journey reported by visitors arriving was 'Holiday' (63%) followed by 'Visiting friends/relatives' (16%) and 'Business or employment' (11%).

The age group with the greatest number of visitor arrivals was 25 to 34 years with 167,700 (21% of total) followed by the 35 to 44 year age group with 154,500 (19%).

All visitors were asked, on completion of their visit to Australia, to report the State or Territory in which they spent most time. Forty-five per cent reported New South Wales, 31 per cent Queensland, 10 per cent Victoria and 9 per cent Western Australia. These figures are similar to those recorded for September quarter 1993.

Of those visitors who reported spending most time in New South Wales, 15 per cent stayed for one month or more. Twenty-seven per cent of visitors to Victoria, and 15 per cent of visitors to Queensland also stayed for one month or more.

Short-term movement - Australian residents

The number of short-term resident departures (640,400) was similar to the number recorded for September quarter 1993 (614,700).

The main destinations of Australian residents departing short-term were: New Zealand (14% of total), the United Kingdom and the United States of America (both 12%), Indonesia (10%) and Hong Kong (5%).

In the September quarter 1994, 52 per cent (compared with 54% in September quarter 1993) of short-term resident departures were for the purpose of 'Holiday', 21 per cent for 'Visiting friends/relatives' (20%) and 18% 'Business or employment' (18%).

Twenty-one per cent of all short-term Australian resident departures were in the 35 to 44 year age group, followed by a further 21 per cent aged 45 to 54 and 19 per cent aged 25 to 34 years.

Australian residents who intended to stay abroad for less than one month accounted for 62 per cent of all short-term resident departures during September quarter 1994, with a further 18 per cent intending to stay for one month and less than two months.

Permanent and long-term movement

The number of permanent and long-term arrivals (58,080) increased by 18 per cent, while permanent and long-term departures (33,070) remained unchanged compared with September quarter 1993. The excess of permanent and long-term arrivals over permanent and long-term departures was 25,010, which is 53 per cent higher than the net gain of 16,330 for September quarter 1993.

The major countries of intended residence recorded for permanent and long-term departures were the United Kingdom (5,940 or 18% of total), the United States of America (3,410 or 10%), New Zealand (3,350 or 10%) and Hong Kong (2,470 or 7%). These countries accounted for 46 per cent of all destinations for permanent and long-term departures.

There were 22,370 permanent (settler) arrivals, 28 per cent more than the 17,530 settler arrivals in September quarter 1993. Increased settler arrivals were recorded for persons born in the United Kingdom (an increase of 640 or 30% over September quarter 1993), New Zealand (580 or 37%), South Africa (400 or 167%), Cambodia (310 or 282%) and Sri Lanka (290 or 78%), while a decrease was recorded for Viet Nam (down 290 or 18% from September quarter 1993).

The major source countries for settlers were the United Kingdom (with 12% of all settler arrivals), New Zealand (10%), Viet Nam (6%) and the Philippines, Hong Kong and China (all 5%).

There were 6,450 permanent departures, 5 per cent down from September quarter 1993 (6,800).

Break in series: changes to 'Purpose of journey'

September 1994 marked the introduction of new passenger cards and represents a break in statistical series for overseas arrival and departure statistics classified by 'Purpose of journey'. Care should be exercised when interpreting purpose of journey data for September quarter 1994 which is based on two different questions asked of short-term travellers (See paragraphs 3, 4 and 17 of the Explanatory Notes for details).

Note: December quarter 1994 will be the final issue of *Overseas Arrivals and Departures, Australia, Catalogue No. 3402.0*. Clients requiring quarterly short-term arrival and departure data are referred to the quarterly publication *Tourism Indicators, Catalogue No. 8634.0* and the monthly publication *Overseas Arrivals and Departures, Australia, Catalogue No. 3401.0*. For further information ring Information Inquiries (1800) 620 085.

EXPLANATORY NOTES

Introduction

This publication contains statistics of persons arriving in, and departing from, Australia in summary form for the latest available quarter, together with three year time series for the major characteristics of travellers. More detailed statistics can be made available, on request (see paragraph 25). Monthly statistics have previously been released (see paragraph 22).

Source of the statistics

2. Persons arriving in, or departing from, Australia are required to complete prescribed questionnaires in the form of Incoming and Outgoing Passenger cards (see Appendix A). These cards provide information to the Department of Immigration and Ethnic Affairs for administrative purposes and serve as the source of statistics of overseas arrivals and departures. In accordance with the *Census and Statistics Act 1905*, information relating to individuals, individual flights or ships and individual carriers, which is contained in these cards or other documents, is treated as confidential by the ABS.

3. Implementation of the Migration Reform Act by the Department of Immigration and Ethnic Affairs required that a health and character check be incorporated with the Incoming passenger card. The redesign of both passenger cards followed and new passenger cards were officially introduced on 1 September 1994. The two main statistical changes affect *Marital Status* and *Purpose of Journey* and constitute a break in time series for these data items.

4. In addition to the four *Marital Status* categories of "Never married", "Married", "Widowed" and "Divorced", both passenger cards now include "Separated but not divorced" and "Common law/de facto". The following changes were also made to the *Purpose of Journey* question: on the Incoming passenger card "In transit" has been dropped; on the Outgoing passenger card "Student vacation" has been dropped; and on both cards "Visiting relatives" has been changed to "Visiting friends/relatives", "Convention" has been changed to "Convention/conference" and "Accompanying business visitor" has been dropped.

Scope

5. The statistics in this publication relate to the number of movements of travellers rather than the number of travellers (i.e. the multiple movements of individual persons during a given reference period are each counted separately). The statistics exclude the movements of operational air and ships' crew, of transit passengers who pass through Australia but are not cleared for entry, and of passengers on pleasure cruises commencing and finishing in Australia aboard ships not then engaged on regular voyages.

Definitions*Category of movement*

6. Category of movement is primarily determined by the traveller's selection of their own category on the passenger card. This selection is accepted provided it is consistent with other information on the passenger card.

Permanent movement

7. Permanent arrivals (settlers) comprise travellers who hold migrant visas, (regardless of stated intended period of stay), New Zealand citizens who indicate an intention to

settle and those who are otherwise eligible to settle (e.g. overseas born children of Australian citizens). Permanent departures are Australian residents (including former settlers) who on departure state they do not intend to return to Australia.

Long-term movement

8. Long-term arrivals comprise overseas visitors (except those who hold migrant visas—see paragraph 7 above) who intend to stay in Australia for 12 months or more and Australian residents returning after an absence of 12 months or more overseas. Long-term departures comprise Australian residents who intend to stay abroad for 12 months or more and overseas visitors departing who stayed 12 months or more in Australia.

Short-term movement

9. Movements of travellers whose intended or actual length of stay is less than twelve months are classified as short-term, except those who on arrival hold migrant visas (see paragraph 7 above).

10. A large number of travellers state exactly 12 months or one year as their intended period of stay. Many of these stay for less than that period and on their departure from, or return to, Australia should therefore be classified as short-term. To maintain consistency between arrivals and departures, movements of travellers who report their actual or intended period of stay as being one year exactly are randomly allocated to long-term or short-term, in proportion to the number of movements of travellers who report their actual length of stay as up to one month more, or one month less, than one year.

Country of birth, residence or citizenship

11. The classification of countries in this publication is based on the Australian Standard Classification of Countries for Social Statistics (ASCCSS). For more detailed information refer to the ABS publication *Australian Standard Classification of Countries for Social Statistics* (1269.0).

12. Political developments in Europe and the Former USSR have resulted in a number of changes to the ASCSS, detailed in Revisions 1.01 and 1.02 of the ASCSS. Further developments in Europe and Africa have affected some of the categories in this publication and are detailed in Revision 1.03 of the ASCSS. These changes came into effect for March 1994 data.

13. Statistics on country of birth, residence or citizenship have certain limitations because of inadequate reporting on passenger cards. For instance, it is not possible to identify separately England, Scotland and Wales. Similarly 'Korea' includes both the Republic of Korea and the Democratic People's Republic of Korea. United States of America includes 'America (undefined)'.

State or Territory of clearance

14. State or Territory of clearance refers to the State or Territory in which a passenger is cleared by Customs and Immigration authorities. Embarkation or disembarkation and clearance are usually, but not necessarily, in the same State.

State or country of residence

15. State of residence or country of residence refers to the State or country in which travellers regard themselves as living or as last having lived. State of intended residence is derived from the intended address given by settlers and Australian residents returning after a journey abroad. Particularly in the case of the former, this information does not necessarily relate to the State in which a traveller will eventually establish a permanent residence.

State of stay and country of intended stay for short-term travellers

16. Overseas visitors are asked on arrival for their intended address and on departure for the name of the State in which they spent most time. Australian residents travelling overseas are asked on departure for the name of the country in which they intend to spend most time and on their return for the name of the country in which they spent most time.

Purpose of journey

17. Overseas visitors are asked on arrival their main reason for coming to Australia and Australian residents are asked on departure their main reason for going abroad. From September 1994, all statistics relating to *Purpose of journey* will be published using the following categories: "Convention/conference", "Business", "Visiting friends/relatives", "Holiday", "Employment", "Education" and "Other". In tabulations of data collected before September 1994, the "Other" category will include "In transit" and "Holiday" will include "Student vacation" and "Accompanying business visitor".

Estimation method

18. Overseas arrival and departure statistics are derived from a combination of full enumeration and sampling. All permanent movements and all movements with a duration of stay of one year or more are fully enumerated. All movements with a duration of stay of less than one year are sampled. Statistics relating to these movements are therefore estimates which may differ from statistics which would have been obtained if details of all these movements had been processed. Details of the sampling method and comments on the sampling errors associated with the estimates are contained in the Technical Note, Appendix B.

19. The statistics in this publication have been rounded, to the nearest 100 for short-term movements and to the nearest 10 for permanent and long-term movements. In tables showing both short-term and permanent and long-term movements the total movements have been rounded to the nearest 100. The sums of the components may, due to rounding, not add exactly to totals.

Corrections and imputations

20. The imprecision due to sampling errors should not be confused with errors arising from imperfections in reporting, which may occur in any data collection, whether

sampled or not. Every effort is made to minimise such errors, both through careful design of the passenger cards and through checks on the information once it is received. During the edit process some items are corrected where they conflict with other known information. Missing replies to certain items such as age and country of birth are also imputed by reference to other related items.

21. Errors of this kind differ from discrepancies arising from the fact that certain information reflects the travellers intentions, at the time the passenger cards were completed. These intentions are of course subject to change. Particularly affected is the distinction between permanent and temporary movement and in the latter case, length of intended stay, country in which most time will be spent and purpose of journey.

Related publications

22. Users may also wish to refer to the following ABS publications:

Overseas Arrivals and Departures, Australia (3401.0)—issued monthly

Overseas Arrivals and Departures, Australia (3404.0)—issued annually

Australian Demographic Statistics, (3101.0)—issued quarterly

23. Related statistics are also published by the Department of Immigration and Ethnic Affairs and the Department of Transport and Communications.

24. Current publications produced by the ABS are listed in the *Catalogue of Publications and Products, Australia* (1101.0). The ABS also issues, on Tuesdays and Fridays, a *Publications Advice* (1105.0) which lists publications to be released in the next few days. The Catalogue and Publications Advice are available from any ABS office.

Additional statistics available

25. In some cases, the ABS can make available information which is not published. This information may be made available in one or more of the following forms: microfiche, photocopy, data tape, floppy disk, computer printout, clerically-extracted tabulations. Generally, a charge is made for providing unpublished information. A full list of unpublished Overseas Arrival and Departure tabulations is available on request.

Symbols and other usages

- nil or rounded to zero
- . . not applicable
- n.a. not available
- n.f.d. not further defined

APPENDIX A

FACSIMILE OF INCOMING AND OUTGOING PASSENGER CARDS (a)

INCOMING PASSENGER CARD

One of these cards must be answered for each passenger.
Complete in ENGLISH using BLOCK LETTERS.

**AUSTRALIA
INCOMING PASSENGER CARD**

1 Family/Surname

2 Given names

3 Passport number

4 Nationality as shown in passport

5 Country of birth

6 Date of birth Day Month Year

7 Sex Male Female

8 Current marital status: Never married Widowed Separated but not divorced
Married Divorced Common law / de facto

9 Please and answer **only one** of A or B or C

A Migrating permanently to Australia

(1) Previous country of residence

(2) Main reason for coming to Australia (one only)
 Convention/conference Business
 Visiting friends/relatives Holiday
 Employment Education Other

(3) Country of residence

B Visitor or temporary entrant

(1) Intended length of stay in Australia
 Years Months Days
 OR
 (2) Country where you spent most time while abroad

C Resident returning to Australia

(1) Time you have been away from Australia
 Years Months Days
 OR
 (2) Country where you spent most time while abroad

10 Usual occupation

11 Overseas address in Australia State

12 Flight number or name of ship

13 Country where boarded this flight/ship

Questions continue **▶**

14 Are you an Australian CITIZEN?

Yes **▶ Go straight to 'Please sign here' at 15**

No **▶ Please answer the following questions:**

	Yes	No	
(a) Do you currently suffer from tuberculosis?	<input type="radio"/>	<input type="radio"/>	Or, if applicable no change to the answer you gave on your last Australian visa application
(b) Have you any criminal conviction/s for which the sentence/s (whether served or not) totalled 12 months imprisonment or more?	<input type="radio"/>	<input type="radio"/>	
(c) Have you ever been found guilty, or acquitted of committing a crime because you were of unsound mind?	<input type="radio"/>	<input type="radio"/>	
(d) Have you ever been deported, removed, or excluded from any country (including Australia)?	<input type="radio"/>	<input type="radio"/>	
(e) Do you owe \$1000 or more to the Australian Government?	<input type="radio"/>	<input type="radio"/>	

15 Please sign here to declare that the information you have given on this card is complete. Migration legislation requires that you answer all questions truthfully.

OUTGOING PASSENGER CARD

One of these cards must be answered for each passenger.
Complete in ENGLISH using BLOCK LETTERS.

**AUSTRALIA
OUTGOING PASSENGER CARD**

1 Family/Surname

2 Given names

3 Passport number

4 Nationality as shown in passport

5 Country of birth

6 Date of birth Day Month Year

7 Sex Male Female

8 Current marital status: Never married Widowed Separated but not divorced
Married Divorced Common law / de facto

9 Please and answer **only one** of D or E or F

D Visitor or temporary entrant departing

(1) Length of time you have been in Australia this visit
 Years Months Days
 OR
 (2) Australian city or State where you spent most time
 (3) Country of residence

E Resident departing temporarily

(1) Intended length of stay abroad
 Years Months Days
 (2) Main reason for going abroad (one only)
 Convention/conference Business
 Visiting friends/relatives Holiday
 Employment Education Other
 (3) Country in which you will spend most time while abroad
 (4) Australian State where you live

F Resident departing permanently

(1) Country of future residence
 (2) Australian State where you lived
 (3) If you were not born in Australia:
 • How long ago did you come to live in Australia?
 Years Months
 • Did you intend to settle permanently?
 Yes No

10 Usual occupation

11 Flight number or name of ship

12 Overseas Country where you will get off this flight/ship

APPENDIX B

TECHNICAL NOTE : METHOD OF SAMPLING AND RELIABILITY OF ESTIMATES

Method of sampling

All movements with a duration of stay less than one year are sampled using the following stratification:

<i>Country of Citizenship</i>	<i>Sample</i>
Australia, New Zealand, Japan, United Kingdom (excl. Ireland), and the United States of America	1 in 40
Canada, Germany, Malaysia and Singapore	1 in 15
Any other individual country depending on the number of movements	1 in 1 or 1 in 4 or 1 in 10

Reliability of estimates

Estimates based on a sample are subject to sampling variability, i.e. they may differ from those that would be obtained from a full enumeration.

The sampling error associated with any estimate can be estimated from the sample results and one measure so derived is the standard error. Given an estimate and the standard error on that estimate, there are about two chances in three that the sample estimate will differ by less than one standard error from the figure that would have been obtained from full enumeration, and about nineteen chances in twenty that the difference will be less than two standard errors. Another measure of the sampling error is the relative standard error which is obtained by expressing the standard error as a percentage of the estimate.

It would be impracticable to publish estimates of standard errors for all figures in individual tables. However, the following tables of standard errors and relative standard errors gives an indication of the magnitude of the sampling error associated with any estimate of a particular size for short-term and total movement.

APPROXIMATE STANDARD ERRORS OR ESTIMATES FOR STRATIFIED SAMPLE

<i>Estimated number of persons</i>	<i>Short-term movement</i>				<i>Total movement</i>	
	<i>Departure or arrival of Australian residents</i>		<i>Arrival or departure of overseas visitors</i>		<i>Arrivals or departures</i>	
	<i>Standard error</i>	<i>Relative standard error</i>	<i>Standard error</i>	<i>Relative standard error</i>	<i>Standard error</i>	<i>Relative standard error</i>
		%		%		%
10,000	550	6	490	5	550	6
5,000	450	9	330	7	410	8
2,000	280	14	230	11	250	13
1,000	200	20	150	15	170	17
750	180	24	140	19	150	20
500	130	26	110	22	125	25
400	120	30	100	25	115	29
300	110	36	84	28	97	32
200	90	45	70	35	80	40
100	63	63	49	49	56	56

An example of the use of this table is as follows: if the estimate of the number of the Australian resident departures for short-term visits is 500, then the standard error on this estimate is 130, i.e. there are two chances in three that the actual number of Australian resident departures for a short-term visit will lie between 370 and 630 and nineteen chances in twenty that it will lie between 240 and 760.

As the table shows, the larger the size of an estimate the smaller the relative standard error. For any estimate of greater than 10,000 the relative standard error will be less than 6 per cent and so the sampling error can be assumed to be negligible for most practical purposes.

The estimate of the difference between an estimate in two different periods or between estimates from the same

period is also subject to sampling error. The standard error on the difference between any two estimates which are subject to sampling error can be approximated by using the larger standard error of the estimates inflated by a factor of 1.4. An example of the use of this procedure is as follows:

Assume the estimates of the number of arrivals to Australia of visitors who stated 'attending convention' as the purpose of journey in January 1992 and 1993 are 1,500 and 750 respectively. The difference between the 1992 and 1993 figures is 750 and the standard errors on these estimates are approximately 190 and 140. The standard error on the difference is approximately $(1.4 \times 190) = 266$, and there are nineteen chances in twenty that the estimate of the difference between the two years will lie between 218 and 1,282.

For more information ...

The ABS publishes a wide range of statistics and other information on Australia's economic and social conditions. Details of what is available in various publications and other products can be found in the *ABS Catalogue of Publications and Products* available at all ABS Offices (see below for contact details).

Information Consultancy Service

Information tailored to special needs of clients can be obtained from the Information Consultancy Service available at ABS Offices (see Information Inquiries below for contact details).

National Dial-a-Statistic Line

0055 86 400

(Steadycom P/L premium rate 25c/21.4 secs.)

This number gives 24-hour access, 365 days a year for a range of statistics.

Electronic Data Services

A large range of data is available via on-line services, diskette, magnetic tape, tape cartridge and CD ROM. For more details about our electronic data services, contact any ABS Office (see below).

Bookshops and Subscriptions

There are over 400 titles of various publications available from ABS bookshops in all ABS Offices (see below Bookshop Sales for contact details). The ABS also provides a subscription service through which nominated publications are provided by mail on a regular basis at no additional cost (telephone Publications Subscription Service toll free on 008 02 0608 Australia wide).
