PREFACE

National Aboriginal and Torres Strait Islander Survey 1994: Regional Statistics, is a series of 36 publications which present a summary of the results from the 1994 National Aboriginal and Torres Strait Islander Survey. A *Regional Statistics* publication has been produced for each of the ATSIC Regions and the Torres Strait Area. These publications do not present community level statistics; such statistics are available from the Census of Population and Housing.

The 1994 National Aboriginal and Torres Strait Islander Survey provides a wealth of information about the social, economic, and health status of Aboriginal and Torres Strait Islander people. An important use of the statistics from the Survey is to assist Aboriginal and Torres Strait Islander organisations and individuals in making their planning decisions.

The *Regional Statistics* publications result from a joint venture between the Australian Bureau of Statistics and the Aboriginal and Torres Strait Islander Commission.

These publications present summary statistical information in graphical form without explanation. Each publication contains a range of statistics relating to family and culture; health; housing; education and training; employment and income; and law and justice.

The publications in this series are presented in a common format to allow information for different regions to be easily compared.

Lois O'Donoghue CBE AM

February 1996

ACKNOWLEDGEMENTS

The success of the 1994 National Aboriginal and Torres Strait Islander Survey would not have been possible without the contributions of:

- Aboriginal and Torres Strait Islander people who participated in the final survey and the earlier survey trials;
- Aboriginal and Torres Strait Islander interviewers who collected the information throughout Australia;
- members of the Survey Advisory Committee and Technical Reference Groups who provided detailed advice on the survey content and methodology; and
- Aboriginal and Torres Strait Islander organisations, Government departments and other organisations which assisted the ABS and advisory groups to design the survey and lay the groundwork for a successful data collection.

CAUTIONS

- Statistics can have a high level of uncertainty due to small sample sizes. This is indicated by asterisk (**) and must be recognised when interpreting figures and percentages referred to in this publication. The level of uncertainty in statistics can be derived from the standard errors table shown in Appendix C.
- Population projections, based on June 1991 experimental estimates, have been prepared by the ABS for each ATSI region using assumptions agreed to by ATSI. Sampling variation within ATSI regions can result in discrepancies between survey estimates and population projections.
- Statistics based on self-reported information or people's opinions should be interpreted cautiously.

LIST OF FIGURES

CHAPTER 1: FAMILY AND CULTURE

Figure		Page
1.1	Household type	7
1.2	Number of persons in household	7
1.3	Family type	8
1.4	Composition of family	8
1.5	Taken away from natural family	9
1.6	Childcare arrangements	9
1.7	Identification with clan, tribal or language group	10
1.8	Role of elders	10
1.9	Recognition of homelands	11
1.10	Characteristics of persons who recognise homelands	11
1.11	Attendance at cultural activities	12
1.12	Reasons why could not attend all cultural activities	12
1.13	Aboriginal or Torres Strait Islander languages	13
1.14	Main language spoken at home	13

CHAPTER 2: HEALTH

Figure		
2.1	Experienced a recent illness	17
2.2	Type of health related actions	17
2.3	Long term illness conditions	18
2.4	Gone away for treatment	18
2.5	Self assessed health status	19
2.6	Main health problems in local area	19
2.7	Period since last drank alcohol	20
2.8	Cigarette smoking	20
2.9	Attitudes to local health services	21
2.10	Importance of Indigenous involvement in health services	21
2.11	Distance to nearest community health centre	22
2.12	Used bush medicine	22
2.13	Worried about going without food	23
2.14	Relative weight	23

CHAPTER 3: HOUSING

Figure		Page
3.1	Type of dwelling	27
3.2	Nature of occupancy	27
3.3	Type of landlord	28
3.4	Weekly rent	28
3.5	Satisfaction with dwelling	29
3.6	Main problems with dwelling	29
3.7	Level of satisfaction by type of landlord	30
3.8	Utilities not working in last 4 weeks	30
3.9	Dwelling has bathroom or shower	31
3.10	Summary of dwelling characteristics	31
3.11	Number of bedrooms	32
3.12	Housing stress	32
3.13	Condition of houses	33

CHAPTER 4: EDUCATION AND TRAINING

Figure		
4.1	Type of school attended	36
4.2	Level of school attending	36
4.3	School participation rate	37
4.4	Characteristics of schooling	37
4.5	Involvement in decision making at children's school	38
4.6	Preference for children to attend community school	38
4.7	Age left school	39
4.8	Highest level of educational attainment	39
4.9	Post-school study	40
4.10	Main difficulty in undertaking further study/training	40
4.11	Completion of training course in last 12 months	41
4.12	Use made of information gained from recent training course	41

CHAPTER 5: EMPLOYMENT AND INCOME

Figure		Page
5.1	Labour force status	45
5.2	Type of employment	45
5.3	Sector of employment	46
5.4	Number of hours a week usually worked	46
5.5	Number of employed persons in household	47
5.6	Whether work commitments allowed cultural obligations to be met	47
5.7	Length of time unemployed	48
5.8	Main difficulty in finding a job	48
5.9	Main reason not looking for work	49
5.10	Type of voluntary work undertaken	49
5.11	Main source of income	50
5.12	Type of government payments received	50
5.13	Annual personal income	51
5.14	Annual household income	51

CHAPTER 6: LAW AND JUSTICE

Figure		
6.1	Needed legal services in the last 12 months	54
6.2	Types of legal services used	54
6.3	Physically attacked or verbally threatened	55
6.4	Reasons for not reporting last incident to police	55
6.5	Arrested in the last 5 years	56
6.6	Reasons for last arrest	56
6.7	Family violence was a common problem in the local area	57
6.8	Police did a good job dealing with family violence	57
6.9	Police did a good job dealing with crime	58
6.10	Police did a good job dealing with violence	58
6.11	Indigenous police in local area	59
6.12	Local Indigenous police did a good job	59
6.13	Perception of current relations with police	60
6.14	Voted in last elections	60

INTRODUCTION

Map 1 Location of Jabiru ATSI Region

Location The Jabiru ATSIC Region covers an area of 114,200 square kilometres in the north of the Northern Territory and includes the Tiwi Islands of Bathurst and Melville. The Region shares boundaries with Darwin Region to the west, Nhulunbuy Region to the east and Katherine Region to the south.

Jabiru Regional Council The Jabiru Regional Council comprises seventeen Regional Councillors elected by the Aboriginal and Torres Strait Islander voters of the region to look after their interests. Regional Councillors from the Garrak-Jarru, Yilli Rreung, Jabiru and Miwatj Regional Councils elect a Commissioner to represent the Northern Territory North Zone on the Aboriginal and Torres Strait Islander Commission.

Main population centres The Jabiru Region has the second largest Aboriginal and Torres Strait Islander population of the Northern Territory regions. At the time of the 1991 Census the largest centre of Indigenous population in the region was the town of Wadeye (Port Keats) with some 1,230 people. Other major centres of Indigenous population were Nguuu (960 people), Maningrida (890 people), Oenpelli (760 people), Milikapiti (400) and Pularumpi (240).

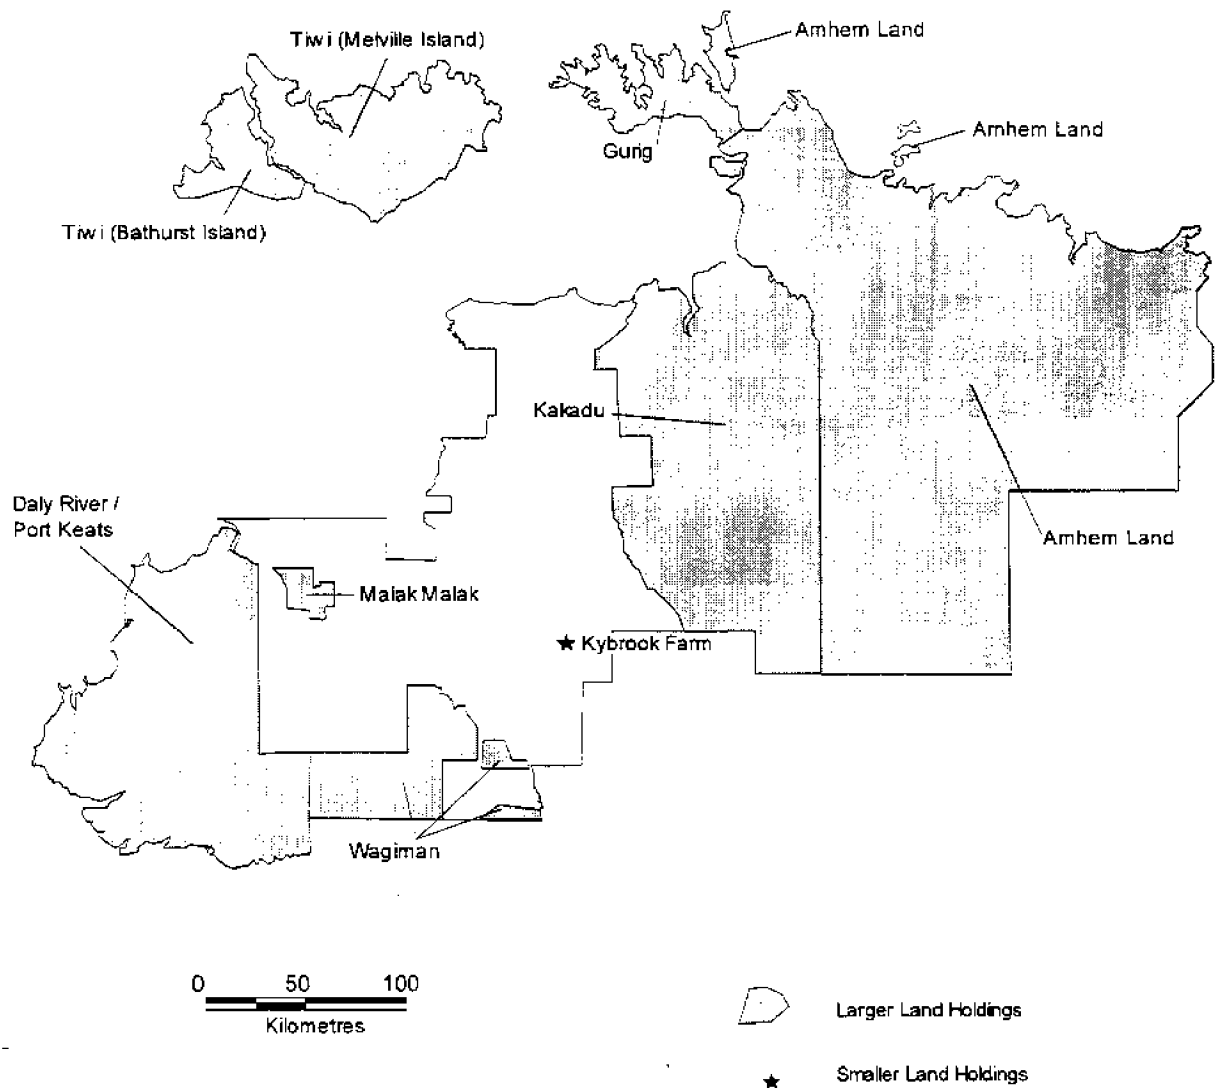

Population growth The Aboriginal and Torres Strait Islander population in the region was projected to be some 8,490 people at 30 June 1994. This was an increase of 5.3 per cent on the June 1991 estimate of 8,060 people.

FIGURE 1.1 HOUSEHOLD TYPE

Households living in private dwellings

Household type

Some 1,140 households were situated in the Jabiru region. The various household types identified were:

- one family (620 households)
 - two family (360 households)
 - three or more families (150 households)
- see page (iv) for explanation of **

Number of people in household

The number of people in these households was estimated to be:

- one or two people (50** households)
- three to five people (300 households)
- six or seven people (280 households)
- eight or more people (520 households)

FIGURE 1.2 NUMBER OF PERSONS IN HOUSEHOLD

Households living in private dwellings

FIGURE 1.3 FAMILY TYPE

All families

Family type

There were some 1,850 families living in the Jabiru region. The various family types identified were:

- one parent families (450 families)
- two parent families (1,050 families)
- couple only (330 families)
- other related individuals only (20** families)

Composition of family

The composition of these families was:

- Indigenous members only (1,820 families)
- both Indigenous and non-Indigenous members (20** families)

FIGURE 1.4 COMPOSITION OF FAMILY

All families

FIGURE 1.5 TAKEN AWAY FROM NATURAL FAMILY

Persons aged 25 years and over

Separation from families Some 70 people aged twenty-five years and over reported that they were taken away from their natural families.

Childcare The childcare arrangements of the 1,230 families with children aged twelve years and under were:

- family and friends only (340 families)
- did not use childcare (840 families)

FIGURE 1.6 CURRENT CHILDCARE ARRANGEMENTS

Families with children aged 12 years and younger

FIGURE 1.7 IDENTIFICATION WITH CLAN, TRIBAL OR LANGUAGE GROUP

Identification with clan, tribal or language group

Some 5,490 of those 5,530 people aged thirteen years and over said that they identified with a clan, tribal or language group.

Role of elders

People aged thirteen years and over stated that the role of elders was:

- important (5,280 people)
- not important (240 people)
- did not know (20** people)

FIGURE 1.8 ROLE OF ELDERS

FIGURE 1.9 RECOGNITION OF HOMELANDS

Persons aged 13 years and over

Recognition of homelands

Of people aged thirteen years and over:

- 5,420 people recognised an area as their homelands
- 110** people did not recognise any area as their homeland

Characteristics of people who recognise homelands

Of those people who reported that they recognise an area as their homelands:

- 4,330 grew up in their homelands
- 2,030 were living on their homelands
- 5,270 said that their ancestors came from the area that they recognise as their homelands

FIGURE 1.10 CHARACTERISTICS OF PERSONS WHO RECOGNISE HOMELANDS

Persons aged 13 years and over who recognise homelands

FIGURE 1.11 ATTENDANCE AT CULTURAL ACTIVITIES (a)

Persons aged 13 years and over

(a) Includes involvement with Indigenous organisations

Attendance at cultural activities

Over the past year 5,040 people aged thirteen years and over reported that they had attended one or more Indigenous cultural activities or were involved with Aboriginal or Torres Strait Islander organisations.

Reasons why could not attend all cultural activities

The main reasons why people could not all attend cultural activities over the past year were:

- no transport (210 people)
- did not want to attend (170 people)
- too far away (160 people)
- not enough money (150 people)

FIGURE 1.12 REASONS WHY COULD NOT ATTEND ALL CULTURAL ACTIVITIES (a)

Persons aged 13 years and over

(a) Persons may have given more than one reason for not being able to attend

FIGURE 1.13 ABORIGINAL OR TORRES STRAIT ISLANDER LANGUAGES

Persons aged 5 years and over

Speaks an Indigenous language

Some 7,000 of the 7,290 people aged five years and over reported that they could speak an Aboriginal or Torres Strait Islander language.

Main language spoken at home

The main language spoken at home by people aged five years and over was:

- Aboriginal or Torres Strait Islander language (6,740 people)
- English (350 people)
- Kriol/Creole or Aboriginal English (90** people)

FIGURE 1.14 MAIN LANGUAGE SPOKEN AT HOME

Persons aged 5 years and over

FIGURE 2.1 EXPERIENCED A RECENT ILLNESS

Recent illness Some 2,800 people experienced an illness in the two weeks prior to the survey.

Health related actions An estimated 3,320 people took one or more health related actions in the two weeks prior to the survey. The most common actions taken were:

- used medication (2,210 people)
- consulted an Aboriginal health worker (1,650 people)
- consulted a nurse (1,400)
- consulted a doctor (950 people)
- visited emergency/outpatients clinic (930 people)

FIGURE 2.2 TYPE OF HEALTH RELATED ACTIONS (a)

(a) Persons may have indicated more than one type of action

FIGURE 2.3 LONG TERM ILLNESS CONDITIONS (a) (b)

(a) Long term conditions are conditions which have lasted for 6 months or more (b) Persons may have indicated more than one condition (c) Excludes eye problems which can be corrected by glasses

Long term illness conditions

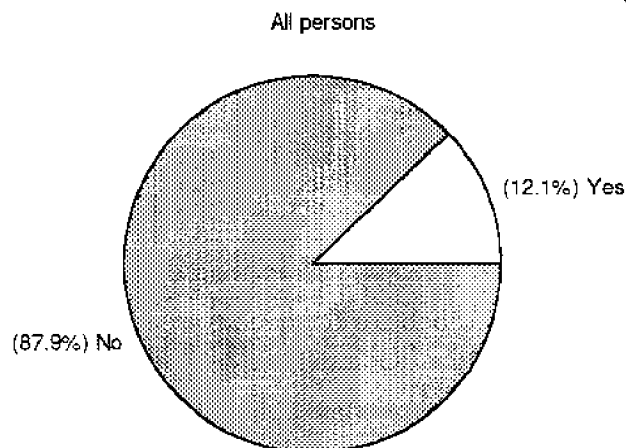

Some 1,870 people, or twenty-two per cent of the total population, reported one or more long term illness conditions. The most common conditions were:

- asthma (720 people)
- chest problems (440 people)
- skin problems (360 people)
- high blood pressure (340 people)
- ear or hearing problems (310 people)
- diabetes (280 people)

Health related travel

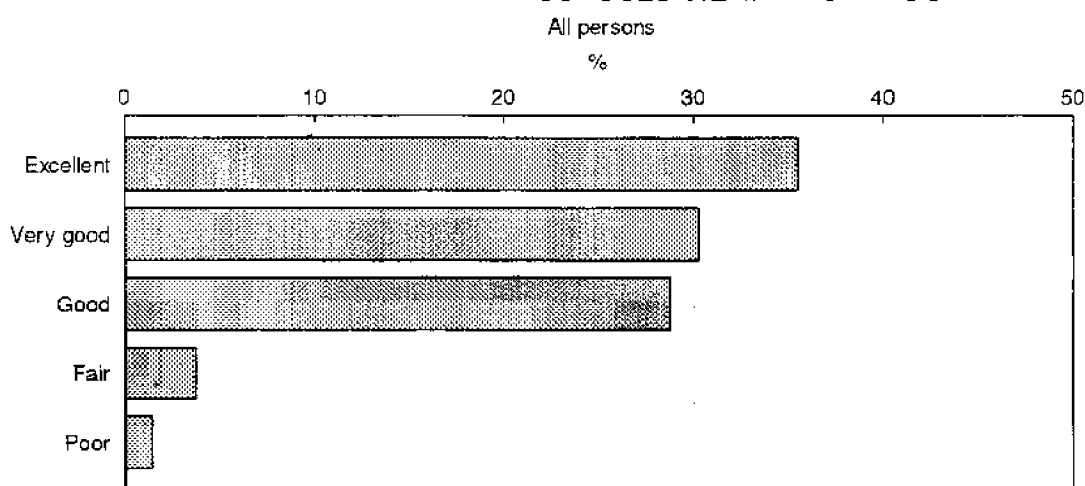

Some 1,030 people reported that during the last twelve months they had gone away from the area for treatment of a health problem.

FIGURE 2.4 GONE AWAY FOR TREATMENT (a)

(a) Refers to health related treatment during the last 12 months

FIGURE 2.5 SELF ASSESSED HEALTH STATUS

Self-assessed health status The self-assessed health status of the 8,470 people in the Jabiru region was:

- excellent or very good (5,570 people)
- good or fair (2,760 people)
- poor (120 people)

Local health problems The main local health problems identified by the 5,530 people aged thirteen years and over in the Jabiru region were:

- alcohol (3,090 people)
- diet/nutrition (930 people)
- heart problems (890 people)
- diabetes (750 people)
- skin problems (530)

FIGURE 2.6 MAIN HEALTH PROBLEMS IN LOCAL AREA (a)

(a) Persons may have indicated more than one health problem

FIGURE 2.7 PERIOD SINCE LAST DRANK ALCOHOL

Person aged 13 years and over

Alcohol consumption People aged thirteen years and over reported that the period since they last drank alcohol was:

- one week or less (2,400 people)
- more than one week but less than one month (520 people)
- one month or more but less than three months (60** people)
- three months or more but less than twelve months (30** people)
- twelve months or more (360 people)
- never drank (2,170 people)

Tobacco use Some 3,400 people aged thirteen years and over reported that they smoked cigarettes.

FIGURE 2.8 CIGARETTE SMOKING

Persons aged 13 years and over

FIGURE 2.9 ATTITUDES TO LOCAL HEALTH SERVICES

Persons aged 13 years and over

Attitudes to local health services

People aged thirteen years and over said they were:

- happy with local health services (5,020 people)
- sometimes happy (230 people)
- not happy (110** people)

Involvement in health services

Some 4,900 people aged thirteen years and over thought that it was important for Aboriginal and Torres Strait Islander people to be involved in local health services.

FIGURE 2.10 IMPORTANCE OF INDIGENOUS INVOLVEMENT IN HEALTH SERVICES

Persons aged 13 years and over

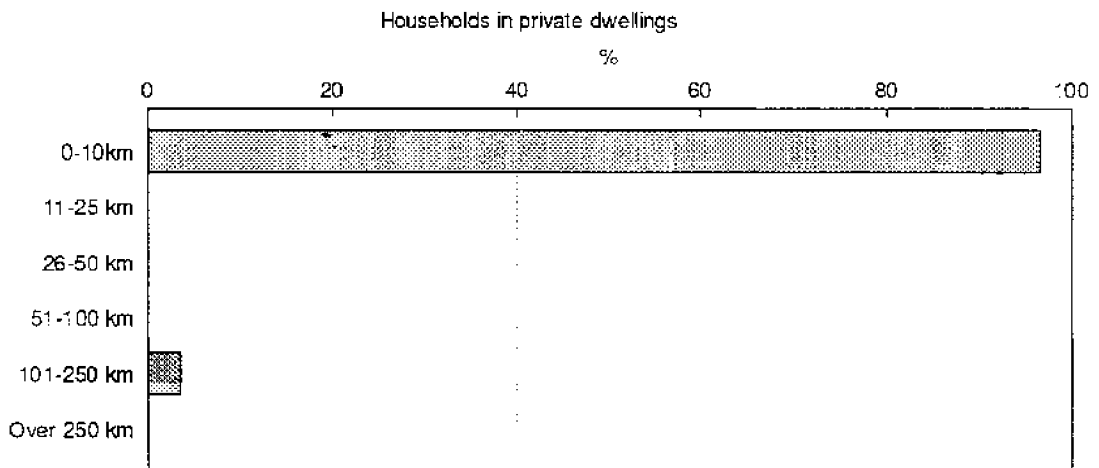

FIGURE 2.11 DISTANCE TO NEAREST COMMUNITY HEALTH CENTRE

Nearest health centre

The distance that the 1,140 households had to travel to attend the nearest community health centre was estimated to be:

- less than 10 km (1,100 households)
- between 101 and 250 km (40** households)

Bush medicine

Some 2,550 people reported using bush medicine in the last six months.

FIGURE 2.12 USED BUSH MEDICINE (a)

All Persons

(a) Refers to the last six months

FIGURE 2.13 WORRIED ABOUT GOING WITHOUT FOOD

Persons aged 13 years and over

Food security Some 2,080 people aged thirteen years and over said that they worried, or sometimes worried, about going without food.

Relative weight The 4,790 people aged eighteen years and over were grouped according to their body mass index (BMI) scores. On this basis:

- 480 people were underweight
- 1,030 people were an acceptable weight
- 880 people were overweight
- 200 people were obese
- 2,190 people chose not to have their weight and height measurements taken

FIGURE 2.14 RELATIVE WEIGHT (a)

Persons aged 18 years and over

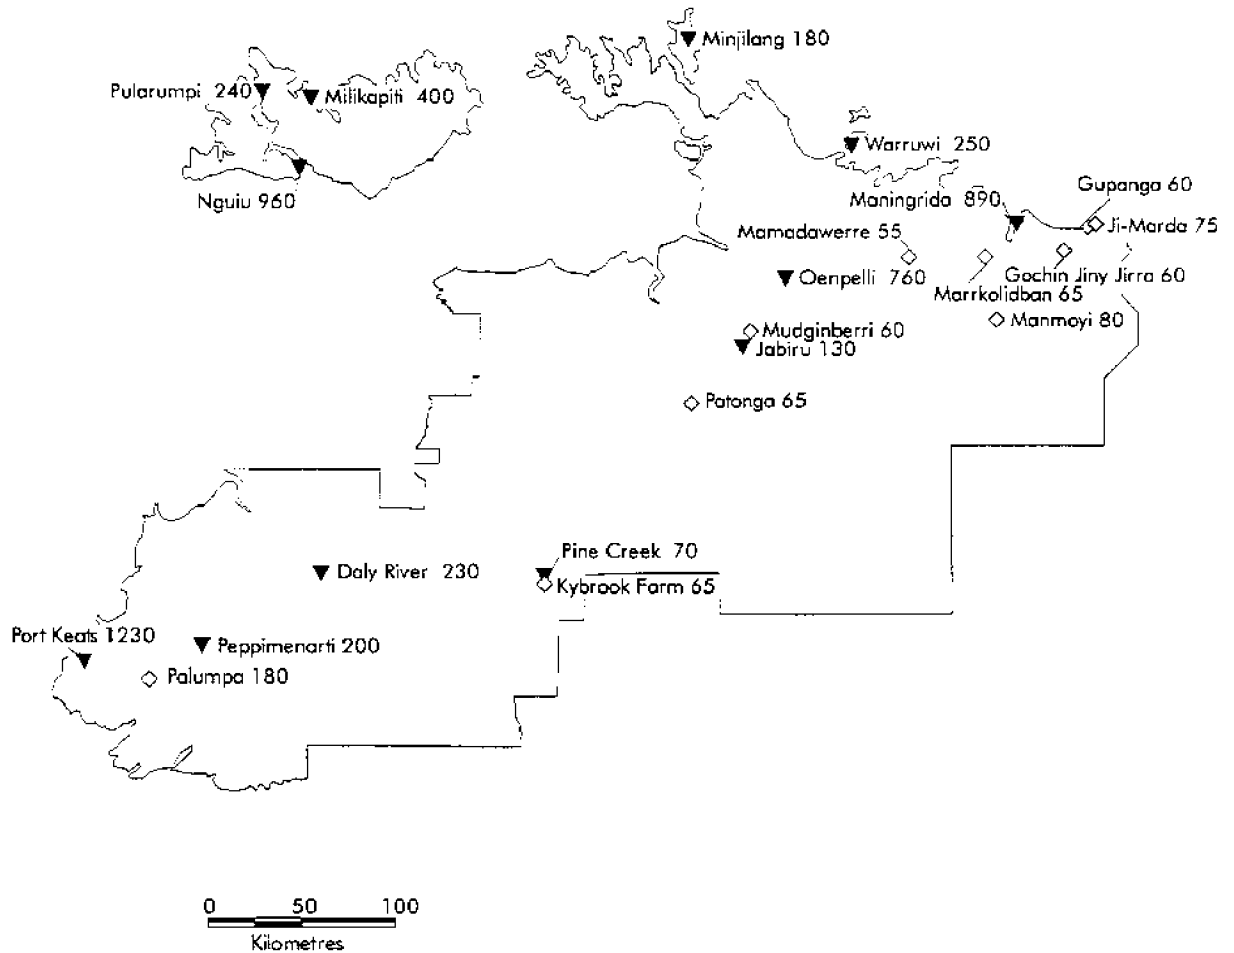

(a) Based on body mass index (BMI) score. The BMI equals a person's weight in kilograms divided by the square of the person's height in metres.

CHAPTER THREE

HOUSING

Map 4 Major Communities and Population Jabiru Region

- ▼ Source: ABS 1991 Census of Population and Housing, Urban Centre/ Localities with a population greater than 50 persons and ABS Aboriginal Communities locations.
- ◇ Source: 1992 Community Housing and Infrastructure Needs Survey, Communities with a population greater than 50 persons.

FIGURE 3.1 TYPE OF DWELLING

Households living in private dwellings

Type of dwelling

The types of dwellings occupied by the 1,140 households living in the Jabiru region were:

- house with own facilities (1,030 households)
- house with shared facilities (60** households)
- improvised dwelling (20** households)

Nature of occupancy

The nature of occupancy of these dwellings was:

- rented (990 households)
- owned (10** households)
- other arrangements (70** households)

FIGURE 3.2 NATURE OF OCCUPANCY

Households living in private dwellings

FIGURE 3.3 TYPE OF LANDLORD

Households living in rented private dwellings

(a) Includes employer provided housing and not stated

Type of landlord

The 990 households that were renting their dwelling reported that they were renting from:

- community organisations (780 households)
- other government agencies (10** households)
- other (210** households)

Weekly rent

These households reported that their weekly rent was:

- less than \$48 (800 households)
- \$48-\$77 (100** households)
- \$78-\$107 (90** households)

FIGURE 3.4 WEEKLY RENT

Households living in rented private dwellings

FIGURE 3.5 SATISFACTION WITH DWELLING
Households living in private dwellings

Satisfaction with dwelling

Some 250 households reported that their current dwelling satisfied the needs of the household.

Main problems with dwelling

The 830 households that were not satisfied with their current dwelling reported that the main problems with the dwelling were:

- needs repair (700 households)
- inadequate bathing facilities (380 households)
- needs better insulation/ventilation (280 households)
- not enough bedrooms (700 households)
- not enough living area (610 households)

FIGURE 3.6 MAIN PROBLEMS WITH DWELLING (a)

Households living in private dwellings and dissatisfied with their dwelling

(a) Households may have indicated more than one problem with dwelling

FIGURE 3.7 LEVEL OF SATISFACTION BY TYPE OF LANDLORD
Households living in rented private dwellings

(a) Includes employer provided housing and not stated

Level of satisfaction by type of landlord

Of those 250 households that were satisfied with their current dwelling, some 240 were renting their accommodation from:

- community organisations (150 households)
- other landlords/employer provided housing (90** households)

Utilities not working in last 4 weeks

Some 170 of the 1,140 households reported utilities not working in the last four weeks. The utilities not working were (in order):

- toilet
- electricity/gas
- water

FIGURE 3.8 UTILITIES NOT WORKING IN LAST 4 WEEKS

The number in each category and in this figure have not been printed because all entries have high standard errors (**).

FIGURE 3.9 DWELLING HAS BATHROOM OR SHOWER
Households living in private dwellings

Bathroom or shower

Some 1,000 households living in private dwellings had their own bathroom or shower. A further 40** households had access to a communal bathroom or shower.

Summary of dwelling characteristics

In summary, the dwelling characteristics of the 1,140 households living in private dwellings were:

- running water connected (1,020 households)
- electricity/gas connected (1,000 households)
- garbage collected (1,120 households)
- dwelling situated on sealed road (520 households)
- satisfied needs of household (250 households)
- being rented (990 households)

FIGURE 3.10 SUMMARY OF DWELLING CHARACTERISTICS
Households living in private dwellings

FIGURE 3.11 NUMBER OF BEDROOMS

Households living in private dwellings

Number of bedrooms

The number of bedrooms in the private dwellings was:

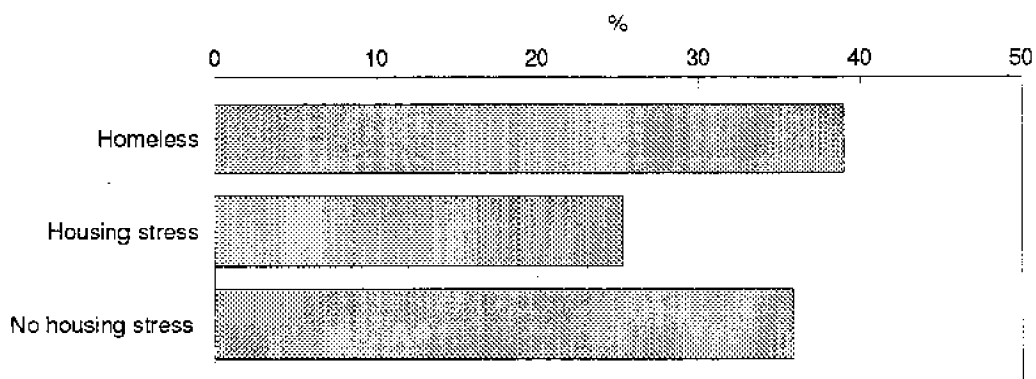

- none or one (80** households)
- two (220 households)
- three (740 households)
- four (30** households)

Housing stress

Detailed analysis of the 1991 Census of Population and Housing results for the Jabiru region (Jones, R (1994) *The Housing Need of Indigenous Australians, 1991*. Canberra: Centre for Aboriginal Economic Policy Research, ANU) concluded that some 500 families were homeless and a further 320 families were in housing stress from overcrowding.

FIGURE 3.12 HOUSING STRESS

All families

Source: 1991 Census of Population and Housing; Jones, 1994.

**1992 ATSC
Housing and
Community
Infrastructure
Needs Survey**

Another source of information about the condition of community infrastructure in the Jabiru Region is the final report of Stage 1 of the 1992 ATSC Housing and Community Infrastructure Needs Survey. This report identified:

- 40 per cent of discrete communities surveyed (including homelands/outstations) in which the quality of water available for human consumption complied with National Health and Medical Research Council guidelines.
- 73 per cent of discrete communities (excluding homelands/outstations) in which the sewerage system normally worked satisfactorily.
- 20 per cent of discrete communities (excluding homelands/outstations) in which the internal roads were at least 50 per cent sealed.

**Condition
of houses**

At the time of the Needs Survey, it was estimated that there were some 970 houses in the Jabiru region owned and/or administered by Indigenous organisations. The condition of these houses was found to be:

- no repairs required (360 houses)
- minor repairs required (260 houses)
- major repairs required (270 houses)
- replacement required (80 houses)

FIGURE 3.13 CONDITION OF HOUSES (a)

Owned and/or administered by Aboriginal or Torres Strait Islander organisations

(a) Relates only to Centres surveyed

CHAPTER FOUR

EDUCATION AND TRAINING

FIGURE 4.1 TYPE OF SCHOOL ATTENDED

Primary and secondary school students

Type of school attended The type of school attended by the 2,080 primary and secondary school students was:

- government (1,440 students)
- Catholic (620 students)

Level of school attended The level of school these students attended was:

- primary (1,840 students)
- secondary (190 students)
- combined primary/secondary (50** students)

FIGURE 4.2 LEVEL OF SCHOOL ATTENDED

Primary and secondary school students

FIGURE 4.3 SCHOOL PARTICIPATION RATE (a)

Persons aged 13 to 18 years

(a) the number of enrolled school students of a particular age, expressed as a proportion of the population of the same age.

School participation rates

The overall school participation rate was calculated to be slightly less than 50 per cent. For thirteen year olds the participation rate was 100 per cent, while for seventeen year olds the rate had fallen to around 40 per cent.

Characteristics of schooling

Students in the Jabiru region reported that they were:

- taught about Indigenous culture (1,960 students)
- not taught about culture but want to be (30** students)
- taught by an Indigenous teacher (1,710 students)
- taught by an Indigenous education worker (430 students)
- taught by a community member (350 students)
- taught Indigenous languages (1,780 students)

FIGURE 4.4 CHARACTERISTICS OF SCHOOLING

Primary and secondary school students

FIGURE 4.5 INVOLVEMENT IN DECISION MAKING AT CHILDREN'S SCHOOL

Persons with children attending primary or secondary school

Involvement in decision making

Some 460 of the 1,740 people with children attending primary or secondary school felt that they were involved in decision making at their children's school.

Preference for children to attend community school

Parents' preference for sending their children to an Aboriginal community controlled school was:

- yes (980 parents)
- no (370 parents)
- already attends (340 parents)

FIGURE 4.6 PREFERENCE FOR CHILDREN TO ATTEND COMMUNITY SCHOOL

Persons with children attending primary or secondary school

FIGURE 4.7 AGE LEFT SCHOOL

Persons aged 15 years and over who had left school

Age left school The 3,010 people aged fifteen years and over who had left school reported that the age they left school was:

- 13 years or less (160** people)
- 14 years (140** people)
- 15 or 16 years (2,160 people)
- 17 years or more (2,070 people)

Some 520 people reported that they had never attended school.

Highest level of educational attainment The highest level of education attained by people aged fifteen years and over who had left school was:

- post-school qualifications (200 people)
- year 12 school certificate (220 people)
- year 10 school certificate (1,420 people)
- below year 10 (3,190 people)

FIGURE 4.8 HIGHEST LEVEL OF EDUCATIONAL ATTAINMENT

Persons aged 15 years and over who had left school

FIGURE 4.9 POST-SCHOOL STUDY
Persons aged 15 years and over who had left school

Post-school study Some 110 people aged fifteen years and over who had left school were studying for a qualification.

Main difficulty in undertaking further study or training Some 850** of those 940 people who had left school and wanted to do further study felt they would have problems attending study or training courses. The main difficulties were expected to be:

- no courses available (390 people)
- lack of transport or travel problems (160 people)
- no childcare available (160 people)
- lack of pre-requisites (40** people)

FIGURE 4.10 MAIN DIFFICULTY IN UNDERTAKING FURTHER STUDY/TRAINING
Persons aged 15 years and over who had left school and felt they would have difficulty undertaking further study/training

**FIGURE 4.11 COMPLETION OF TRAINING COURSE IN
LAST 12 MONTHS**

The number in each category and this figure have not been printed because all entries have high standard errors (**).

Completion of training course attended in last 12 months Some 40 people aged fifteen years and over who had left school reported that they had attended at least one training course in the last 12 months.

Use made of information gained from recent training course These people reported that the information they gained from the course was used (in order):

- for work
- to get a job
- for personal development

CHAPTER FIVE

EMPLOYMENT AND INCOME

Map 5 Community Development Employment Projects Jabiru Region

Source: Aboriginal and Torres Strait Islander Commission, 1994.

FIGURE 5.1 LABOUR FORCE STATUS

Persons aged 15 years and over

(a) Community Development Employment Projects

Labour force status

There were some 5,370 people aged fifteen years and over in the Jabiru region. The labour force status of these people was:

- employed (1,440 people)
- unemployed (1,670 people)
- not in labour force (2,260 people)

Nature of jobs

Some 600 of the 1,440 employed people reported that they were working in a Community Development Employment Project (CDEP) scheme.

Type of employment

Those employed people reported that their type of employment was:

- full-time (460 people)
- part-time (970 people)

FIGURE 5.2 TYPE OF EMPLOYMENT

Employed persons aged 15 years and over

FIGURE 5.3 SECTOR OF EMPLOYMENT

Employed persons aged 15 years and over

Sector of employment

The 1,440 employed people reported that their employer was:

- Commonwealth government (70** people)
- State/Territory government (210 people)
- local government (420 people)
- Indigenous community organisation (460 people)
- other private organisation (290 people)

Number of hours a week usually worked

Employed people reported that the number of hours a week they usually worked was:

- 16-24 (570 people)
- 25-34 (400 people)
- 35 or more (460 people)

FIGURE 5.4 NUMBER OF HOURS A WEEK USUALLY WORKED

Employed persons aged 15 years and over

FIGURE 5.5 NUMBER OF EMPLOYED PERSONS IN HOUSEHOLD

Households living in private dwellings

Number of employed persons in household It was estimated that there were 320 households in which no one was working. For the remaining 830 households one or more people reported that they were working.

Whether work commitments allowed cultural obligations to be met The 1,440 employed people reported that their work commitments meant that they:

- could meet cultural obligations (1,120 people)
- could not meet cultural obligations (80** people)

There were 170 people who reported that they did not have cultural obligations.

FIGURE 5.6 WHETHER WORK COMMITMENTS ALLOWED CULTURAL OBLIGATIONS TO BE MET

Employed persons aged 15 years and over

FIGURE 5.7 LENGTH OF TIME UNEMPLOYED

Unemployed persons aged 15 years and over

Length of time unemployed

The 1,670 unemployed people reported that the length of time they had been unemployed was:

- less than 3 months (110** people)
- 3 months to less than 6 months (130** people)
- 6 months to less than 12 months (370 people)
- 12 months or more (1,060 people)

Main difficulty in finding a job

The main difficulty that these unemployed people experienced in finding a job was:

- no jobs at all (1,130 people)
- no jobs in local area or line of work (390 people)
- insufficient education, training or skills (70** people)

FIGURE 5.8 MAIN DIFFICULTY IN FINDING A JOB

Unemployed persons aged 15 years and over

FIGURE 5.9 MAIN REASON NOT LOOKING FOR WORK

Persons aged 15 years and over not in the labour force but who wanted a job

Persons not in the labour force who want a job

Some 430 of those 2,260 people not in the labour force, that is, not working and not looking for work, said they wanted a job. The main reason for not looking for work was:

- no jobs at all (170 people)
- childcare and other family responsibilities (120 people)
- no jobs in local area/line of work (30** people)

Voluntary work

Some 2,310 people aged fifteen years and older said that they were engaged in voluntary work. The type of voluntary work undertaken was:

- caring for sick or aged people (650 people)
- working for community or sporting organisation (170 people)
- working at a school or with youth groups (20** people)
- working on committees (170 people)
- hunting, fishing or gathering bush food (2,100 people)

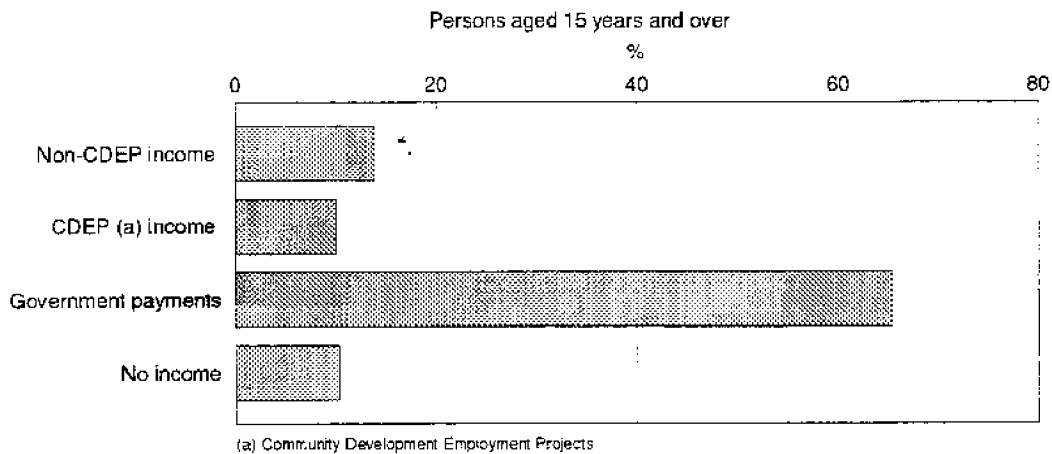

FIGURE 5.10 TYPE OF VOLUNTARY WORK UNDERTAKEN (a)

Persons aged 15 years and over who undertook voluntary work

(a) Persons may have given more than one answer

FIGURE 5.11 MAIN SOURCE OF INCOME

Main source of income The 5,370 people aged fifteen years and over reported that their main source of income was:

- non-CDEP employment (740 people)
- CDEP employment (540 people)
- government payments (3,520 people)
- no income (550 people)

Government payments received It was estimated that some 3,670 people aged fifteen years and over received government allowances, pensions and other payments. The main types of payments received were:

- Jobsearch allowance (1,290 people)
- family payment (1,090 people)
- Newstart allowance (990 people)
- sole parent pension (350 people)
- age pension (320 people)
- disability support (140 people)

FIGURE 5.12 TYPE OF GOVERNMENT PAYMENTS RECEIVED

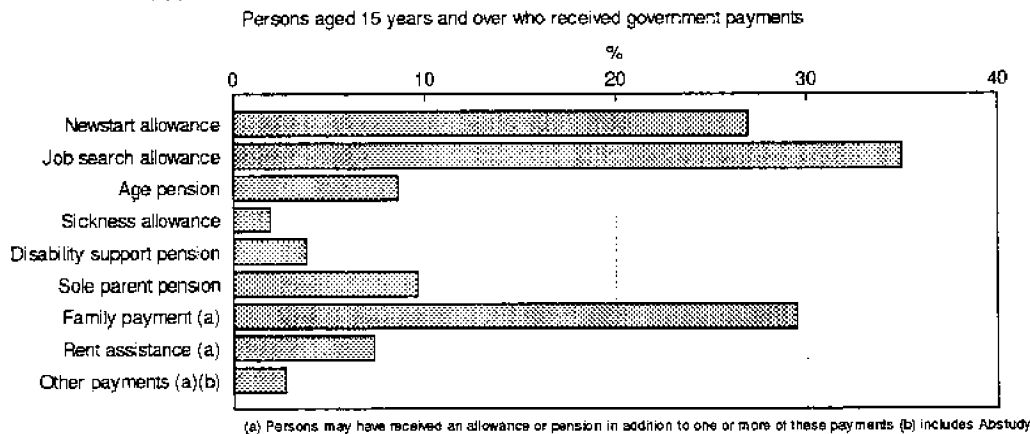

FIGURE 5.13 ANNUAL PERSONAL INCOME (\$)

Persons aged 15 years and over

Personal income The 5,370 people aged fifteen years and older reported that their annual personal income (\$) was:

- less than 3,000 (600 people)
- 3,001 - 8,000 (2,650 people)
- 8,001 - 12,000 (1,080 people)
- 12,001 - 16,000 (490 people)
- 16,001 - 25,000 (380 people)
- 25,001 - 35,000 (120** people)
- 35,001 or more (40** people)

Household income The annual income (\$) of the 1,140 households was estimated to be:

- less than 12,000 (70** h'holds)
- 16,001 - 20,000 (20** h'holds)
- 20,001 - 25,000 (90** h'holds)
- 25,001 - 30,000 (50** h'holds)
- 30,001 - 40,000 (200 h'holds)
- 40,001 - 50,000 (110** h'holds)
- 50,001 - 60,000 (160 h'holds)
- 60,001 or more (130** h'holds)
- Inadequately described (330 h'holds)

FIGURE 5.14 ANNUAL HOUSEHOLD INCOME (\$)

CHAPTER SIX

LAW AND JUSTICE

FIGURE 6.1 NEEDED LEGAL SERVICES IN THE LAST 12 MONTHS

Persons aged 13 years and over

Needed legal services

Some 610 of the 5,530 people aged thirteen years and over reported that they needed to use legal services in the last twelve months.

Types of legal services used

The types of legal services used by these people were:

- Aboriginal legal service (530 people)
- legal aid commission (60** people)
- other legal services (20** people)

FIGURE 6.2 TYPES OF LEGAL SERVICES USED (a)

Persons aged 13 years and over who needed legal services in the last 12 months

(a) Persons may have indicated more than one type of legal service.

FIGURE 6.3 PHYSICALLY ATTACKED OR VERBALLY THREATENED (a)

Persons aged 13 years and over

(a) During the last 12 months

Personal safety Some 480 people aged thirteen years and over reported being physically attacked or verbally threatened in the last twelve months.

Reasons for not reporting last incident to police Some 310 of those people who said they were physically attacked or verbally threatened did not report their last attack to the police. The main reasons for not doing so were:

- not serious enough (170 people)
- solved it themselves/perpetrator known to them (80** people)
- fear/dislike of police (70** people)

FIGURE 6.4 REASONS FOR NOT REPORTING LAST INCIDENT TO POLICE (a)

Persons aged 13 years and over and who had been attacked in the last 12 months but did not report last incident to police

(a) Persons may indicate more than one reason

FIGURE 6.5 ARRESTED IN THE LAST 5 YEARS

Persons aged 13 years and over

Arrested in last 5 years

Some 1,050 people aged thirteen years and over said that they had been arrested in the last five years. The number of times they reported they had been arrested was:

- one (490 people)
- two (320 people)
- three (70** people)
- four or more (180** people)

Reasons for last arrest

Those people who had been arrested reported that the main reasons for their last arrest were:

- disorderly conduct/drinking in a public place (720 people)
- assault/assault with grievous bodily harm (150 people)
- theft/burglary (140 people)

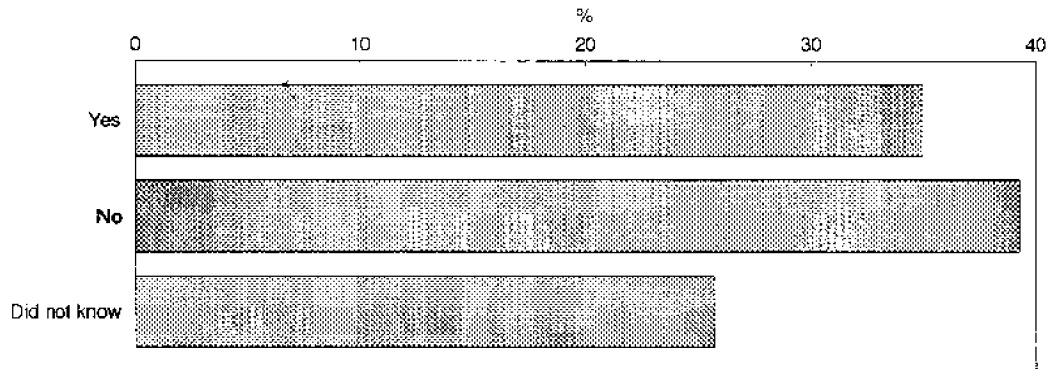

FIGURE 6.6 REASONS FOR LAST ARREST(a)

Persons aged 13 years and over who had been arrested in the last 5 years

(a) Persons may have indicated more than one reason

FIGURE 6.7 FAMILY VIOLENCE WAS A COMMON PROBLEM IN THE LOCAL AREA
Persons aged 13 years and over

Whether family violence was a common problem

When asked whether they thought family violence was a common problem in the Jabiru Region:

- 1,940 people aged 13 years and over said yes
- 2,180 people said no
- 1,420 people said they did not know

Whether police did a good job dealing with family violence

When asked if they thought police did a good job dealing with family violence:

- 160 people aged 13 years and over said no
- 2,800 people said yes
- 1,810 people said police sometimes did a good job
- 770 people said they did not know

FIGURE 6.8 POLICE DID A GOOD JOB DEALING WITH FAMILY VIOLENCE
Persons aged 13 years and over

FIGURE 6.9 POLICE DID A GOOD JOB DEALING WITH CRIME

Perceptions of police dealing with crime

When asked if they thought police did a good job dealing with crime:

- 160 people aged 13 years and over said no
- 2,800 people said yes
- 1,810 people said sometimes
- 770 people said they did not know

Perceptions of police dealing with violence

When asked if they thought police did a good job dealing with violence:

- 210 people aged 13 years and over said no
- 2,830 people said yes
- 1,850 people said sometimes
- 630 people said they did not know

FIGURE 6.10 POLICE DID A GOOD JOB DEALING WITH VIOLENCE

FIGURE 6.11 INDIGENOUS POLICE IN LOCAL AREA

Persons aged 13 years and over

Whether there were Indigenous police in local area

People aged thirteen years and over were asked whether there were Indigenous people working in their local area as police aides, police liaison officers or police officers. The responses were:

- yes (4,620 people)
- no (900 people)

Whether local Indigenous police did a good job

The views of the 4,620 people on whether Indigenous police aides, police liaison officers and police officers did a good job were:

- yes (4,030 people)
- no (10** people)
- sometimes (240 people)
- did not know (200 people)

FIGURE 6.12 LOCAL INDIGENOUS POLICE DID A GOOD JOB

Persons aged 13 years and over who reported that there were Indigenous police in the local area

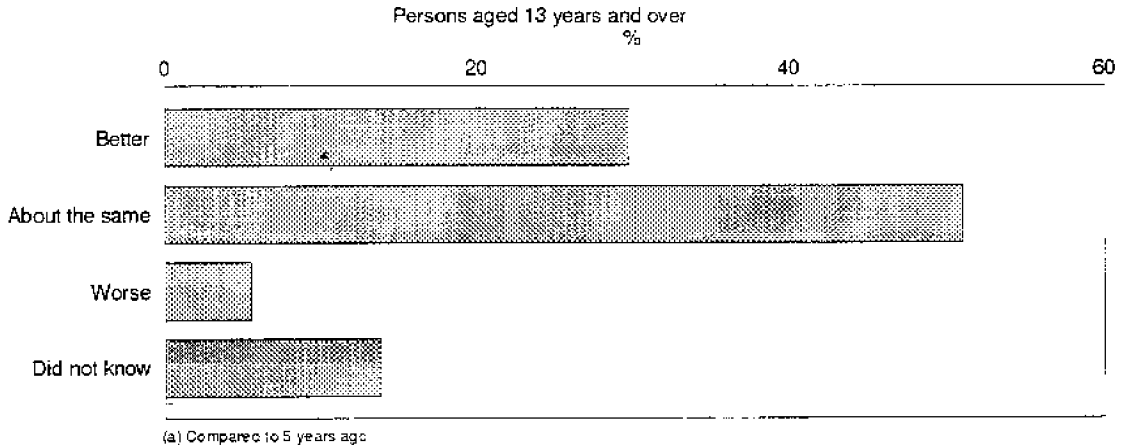

FIGURE 6.13 PERCEPTION OF CURRENT RELATIONS WITH POLICE (a)

Perceptions of current relations with police compared to 5 years ago

People aged thirteen years and over stated that current relations with police compared to five years ago were:

- better (1,650 people)
- about the same (2,820 people)
- worse (300 people)
- did not know (770 people)

Whether voted in last elections

The reported voting patterns of the 4,790 people aged eighteen years and over were:

- 3,490 people voted in the last Federal election
- 3,960 people voted in the last Territory election
- 3,480 people voted in the last ATSIC election

FIGURE 6.14 VOTED IN LAST ELECTIONS

Note: Population projections for ATSI Regions have been prepared by ABS using assumptions agreed to by ATSI. As these regional projections were prepared at a later date using more up-to-date assumptions than the State population projections presented in this attachment, minor discrepancies can exist between these State totals and the sums of component Regions.

CAUTION: For ATSI Regions discrepancies may occur between survey estimates and population projections.

APPENDIX C: STANDARD ERRORS

Two types of error are possible in an estimate based on a sample survey: sampling error and non-sampling error. The sampling error is a measure of the variability that occurs by chance because a sample, rather than the entire population, is surveyed. The estimates in the survey are subject to sampling variability. One measure of the likely difference between survey estimates and true values is given by the standard error, which indicates the extent to which an estimate might have varied by chance because only a sample of dwellings was included. There are about two chances in three that the sample estimate will differ by less than one standard error from the figure that would have been obtained if all the dwellings had been included.

Another measure of the likely difference is the relative standard error which is obtained by expressing the standard error as a percentage of the estimate. The relative standard error is a useful measure in that it provides an immediate indication of the percentage errors likely to have occurred due to sampling.

The size of the standard error of an estimate of a number of persons increases with the level of the estimate, so that the larger the estimate the larger is the standard error. However, it should be noted that the larger the sample estimate the smaller will be the standard error in percentage terms. Thus, larger sample estimates will be relatively more reliable than smaller estimates.

As the standard errors in the following table show, very small estimates are subject to such high standard errors (relative to the size of the estimate) as to detract seriously from their value for most reasonable purposes. Estimates and percentages with larger relative standard errors have been included and are preceded by two asterisks if it is greater than 25 per cent (e.g., **2.5), indicating they are subject to high standard errors and should be used with caution.

GLOSSARY

Aboriginal	Persons 13 years and over, who identified themselves to be of Aboriginal origin. Persons 12 years and under were identified by a responsible adult in the household, usually a parent.
Aboriginal community controlled school	Where Aboriginal and Torres Strait Islander people make decisions on the curricula, teachers employed, school budget and school policy.
Aboriginal English	Includes Broken English, Pidgin English and Kriol/Greoles.
Aboriginal Independent School	A school run solely by Aboriginal people, who make decisions on school policy, staffing, curricula, and school budget.
Aboriginal Legal Service	Established to assist Aboriginal and Torres Strait Islander people with legal matters.
Aboriginality	Where a person identifies as being of Aboriginal or non-Aboriginal origin. Persons 12 years and under were identified by a responsible adult in the household, usually a parent.
Actions taken	Refers to specific actions persons took with regard to their health in the two weeks prior to interview.
ATSIC Regions & Torres Strait Area	Refers to 36 defined geographic areas, each represented by an ATSIC Regional Council or the Torres Strait Regional Authority.
Attack	Where a person has suffered physical force from another person(s), for example, pushed, hit, kicked or speared.
CDEP	See Community Development Employment Projects.
Clan, tribal or language group	Refers to Aboriginal and Torres Strait Islander groups within Australia.

Combined primary & secondary school	A school which teaches students at both primary and secondary levels.
Community landlord	Refers to dwellings owned by community organisations, predominantly Aboriginal or Torres Strait Islander organisations. It includes housing associations, land councils and community councils.
Community Development Employment Projects	The Community Development Employment Projects (CDEP), operate through grants from ATSIC to Indigenous community organisations to enable individuals to undertake community managed activities in return for wages.
Couple only family	Two persons who are in a registered or de facto marriage without children present in the household.
Crime	Includes crimes relating to drugs, thefts, vandalism as well as violence.
Cultural activities	Includes funerals, ceremonies, Indigenous festivals and carnivals and involvement with Aboriginal or Torres Strait Islander organisations.
Cultural obligations	Refers to attending Indigenous cultural activities such as funerals, ceremonies and festivals and extended family responsibilities.
Earned income	Income derived from wages and salaries, or from own business, trade or profession.
Education worker	A person who assists a teacher during class lessons and may give some lessons such as story telling.
Employed	Persons aged 15 years and over who in the week prior to the interview worked for pay, profit, commission or payment in kind in a job or business, or on a farm (comprising employees, employers and self-employed persons).

Family	Two or more persons who live in the same household and are related to each other by blood, marriage (including de facto marriage), fostering or adoption. For the purpose of this survey, one or more members of the family had identified as being of Aboriginal or Torres Strait Islander origin.
Family violence	Includes verbal threats, intimidation, fear of physical attacks and actual physical attacks, occurring between family members within a household.
Formal childcare	Refers to regulated care such as pre-school/kindergarten before and after school care program, long day care centres, family day care and other formal care.
Government payments	Includes Newstart allowance, Jobsearch, age pension, sickness allowance, disability support pension, sole parent pension, family payments, rent assistance, ABSTUDY and other Government payments.
Homelands	An area of land to which Aboriginal or Torres Strait Islander people have ancestral and/or cultural links.
Household	Consists of a person living alone, or two or more related or unrelated persons who live and eat together in private residential accommodation. For the purpose of this survey, one or more members of the household had identified as being of Aboriginal and/or Torres Strait Islander origin.
Household income	Refers to the total gross income from wages and salaries and Government payments of all persons 15 years and over who usually live in the household. The total household income was not calculated if usual residents of the household were missing at the time of the interview.
Indigenous	Persons 13 years and over, who identified themselves to be of Aboriginal or Torres Strait Islander origin. Persons 12 years and under were identified by a responsible adult in the household, usually a parent.

Indigenous language	Aboriginal and Torres Strait Islander languages. Excludes Aboriginal English and Kriol/Creoles.
Labour force	Persons aged 15 years and over who were either employed or unemployed.
Labour force status	A classification of persons 15 years and over into employed, unemployed or not in the labour force.
Language spoken	A person was considered to be able to speak a language (such as an Aboriginal language) if they could hold a conversation in that language.
Last year	12 month period prior to interview.
Long-term condition	Condition (illness, injury, or disability) which had lasted for six months or more.
Main language	Refers to the language the person is most comfortable with or speaks most fluently.
Making decisions at the school	Includes involvement in the Aboriginal Student Support and Parent Awareness Program (ASSPA) and Parents and Citizens (P&C) school meetings where decisions about fund raising and maintenance of the school are made.
Non-family household	A lone person household or a household consisting of two or more unrelated people.
Not in the labour force	Persons aged 15 years and over who were not employed or unemployed as defined.
One parent family	Family that consists of one parent and that parent's child(ren) plus all other people in the household related to them, provided those people do not have a spouse or child of their own.

Other government landlord	Refers to dwellings owned by Commonwealth, State/Territory and local governments other than housing authorities and employer provided housing.
Other legal services	Includes private solicitors and barristers.
Perceived health problems	A respondents' opinions of the main health problems confronting people in their local area.
Personal income	Refers to the gross income a person received at the time of interview in the form of wages and salaries and Government payments.
Post-school study	Attendance at a course at the time of a survey to gain a qualification.
Private landlord	All privately owned dwellings rented directly or through a real estate agent.
Private dwelling	The premises occupied by a household and includes houses, flats, home units, garages, tents and improvised houses. It excludes hostels, hospitals, prisons and so on.
Private sector	Non-government organisations. The private sector has been split into 'Community organisations' and 'Other private'. Community organisations are those private organisations that have been declared to be eligible for ATSI funding.
Public sector	Includes all government authorities, departments, agencies and authorities created by the Commonwealth or State/Territory Parliaments. Also covered are organisations such as the Northern or Central Land Councils which were created by Commonwealth legislation and the NSW Land Council which was created by NSW legislation.
Recent illness	Conditions (illness, injury or disability) experienced in the two weeks prior to interview. It may include long-term conditions experienced in the period.

Relative weight	Weight and height measurements taken during interview have been used to derive a person's body mass. The body mass index equals a person's weight in kilograms divided by the square of the person's height in metres. The categories used are consistent with recommendations of the National Health and Medical Research Council.
School participation rate	The number of enrolled school students of a particular age, expressed as a proportion of the population of the same age.
Self-assessed health status	Refers to the overall level of health as reported by respondents 13 years and over. For persons 12 years and under information was provided by the child's parent or a responsible adult member of the household.
Specific long term condition	Where a person had one of the following conditions which had lasted for six months or more; asthma, diabetes, heart problems, chest problems, skin problems, high blood pressure, ear or hearing problems, eye or sight problems not corrected by glasses, and/or kidney problems.
State housing (landlord)	Refers to dwellings owned by State/Territory housing authorities.
Taken away from natural family	People who have been removed from their natural family as a child as part of a government policy. 'Family' may include parents and siblings and extended family members such as aunts, uncles and grandparents. Excludes people who were removed from their family for less than 6 months.
Taught Aboriginal or Torres Strait Islander languages	Students who are taught to speak, read or write an Aboriginal or Torres Strait Islander language.
Taught about Indigenous cultures	Includes subjects which give an understanding of Aboriginal or Torres Strait Islander cultures, eg. history and language.
Taught by a community member	Where community members teach at least once in a month or on 10 or more occasions over the school year.

Torres Strait Islander	Persons 13 years and over, who identified themselves to be of Torres Strait Islander origin. Persons 12 years and under were identified by a responsible adult in the household, usually a parent.
Training course	Includes courses which are planned to develop skills or assist in learning about a subject. Excludes courses leading to an educational qualification and on-the-job training.
Type of landlord	Refers to the legal entity to which rent is paid.
Unemployed persons	Persons aged 15 years and over who were not employed during the week prior to interview, and who had actively looked for work at any time during the last four weeks prior to interview, and who were available to start work in the last week.
Usual residents	Persons who live in a particular private dwelling and regard it as their own or main home.
Verbal threats	Any verbal abuse to a person where no weapon was seen and no physical violence occurred. It includes verbal threats to harm the respondent or his/her property.
Violence	Refers to violence in the community, that is streets, hotels, schools, etc. It includes fights, bashing, rape, murder or any act which involves violence.
Voluntary work	Includes any unpaid community work such as caring for sick or aged people, working for community or sporting organisations, working at a school or with youth groups, working on committees and hunting, fishing or gathering bush food.
Year 10 Certificate	Completion of a Year 10 Certificate, Aboriginal Access Course or equivalent.
Year 12 Certificate	Completion of a Year 12 Certificate, General Certificate of Education or equivalent.

**1991 CENSUS OF POPULATION AND HOUSING
ABORIGINAL AND TORRES STRAIT ISLANDER
COMMUNITY PROFILE**

**JABIRU
ATSIC REGION**

Explanatory Notes

The **Aboriginal Community Profile** is available as a standard product for communities of 80 or more Aboriginal and Torres Strait Islander persons, Statistical Local Areas of 80 or more Aboriginal and Torres Strait Islander persons and ATSIIC regions. Also available are Section of State, Statistical Divisions and Territories. It is based on place of enumeration.

Each table title in the Aboriginal Community Profile consists of two parts. The first part lists the variables included in the table. The second part describes the table population.

Figures in proportion columns have been rounded, so discrepancies may occur between the totals and the sums of the component items.

A glossary of the terms and concepts used in the Community Profiles appears below. For more information see the 1991 Census Dictionary (Cat. No. 2901.0) and the 1991 Census Directory of Classifications (Cat. No. 2904.0).

Glossary

Caravans etc. in caravan parks includes occupied tents, cabins, camper vans etc in caravan parks, and occupied boats in marinas.

A **census household** is either a person living alone or people who usually reside and eat together. A household resides in a private dwelling. The household type is based on information about relationships between residents present and persons temporarily absent. The relationships of visitors to one another or to any resident are not considered.

An **Aboriginal/Torres Strait Islander household**, for the purpose of this publication, is one in which the reference person (person number one on the Census form) or spouse of the reference person identifies as being of Aboriginal or Torres Strait Islander origin. This definition excludes *Lone Person households* where the person was of Aboriginal or Torres Strait Islander origin. There were just over 7,000 Lone Person Aboriginal and Torres Strait Islander households in Australia in 1991.

Employed full-time means that the person worked 35 hours or more in the main job held in the week before the Census.

Employed part-time means that the person worked 0-34 hours in the main job held in the week before the Census.

A **family** is a group of related individuals in a household where at least one person is aged 15 years or more. A census household can contain up to three families. Census families do not include visitors to dwellings. If a family was at a holiday home or a non-private dwelling on census night, it was not counted as a census family.

A **primary Aboriginal/Torres Strait Islander family** is one in which the reference person or spouse of the reference person in the primary family identifies as being of Aboriginal or Torres Strait Islander origin. In a multiple family household the family with dependent children is designated as the primary family. If there was more than one family, or no children were present, then the primary family is arbitrarily chosen.

Family income is the sum of the personal incomes of each resident family member aged 15 years or more. If any of these family members has an income 'not stated', or a spouse or offspring is temporarily absent, family income is classified as 'partial income stated' in Community Profile tables. Parental income is similar to family income except that only the income of the parent(s) is included. Parental income compares most closely with the family income variable of the 1986 Census.

Household income is the sum of the personal incomes of each resident household member aged 15 years or more. If any of these residents has an income 'not stated', or a spouse, offspring or co-tenant is temporarily absent, household income is classified as 'partial income stated' in Community Profile tables.

n.e.i. means 'not elsewhere included'.

n.f.d. means 'not further defined'.

An **occupied private dwelling** is defined as the premises occupied by a household on census night. A private dwelling is normally a house, flat, part of a house, or even a room; but can also be a house attached to, or rooms above shops or offices; an occupied caravan in a caravan park or on a residential allotment or boat in a marina; a houseboat; or a tent if it is standing on its own block of land.

An **Aboriginal/Torres Strait Islander dwelling**, for the purpose of this publication, is one in which the reference person or spouse of the reference person identifies as being of Aboriginal or Torres Strait Islander origin. This definition excludes *Lone Person households* where the person was of Aboriginal or Torres Strait Islander origin. There were just over 7,000 Lone Person Aboriginal or Torres Strait Islander households in Australia in 1991.

Dependent offspring are 0-14 years of age, or are full-time students aged 15-24 years. (In the 1986 Census, 21-24 year olds were excluded from this category). Unrelated children can be classified as dependent offspring.

Other offspring are 15-24 years of age and not full-time students, or 25 years of age or more. In the 1986 Census, these 21-24 year old full-time students were classified as 'related adults'. As a result, sole parents with adult children were classified as families of related adults: in the 1991 Census, these cases are classified as one parent families.

The census count based on **place of enumeration** is a count of every person who spent census night in Australia. People are counted where they are on census night, which may not be where they usually live. In determining family and household type visitors to dwellings are excluded and usual residents who are temporarily absent are included. (See *temporarily absent*).

The **table population** is a description of what the table is counting. For example, tables containing marital status usually have a table population of persons aged 15 years or more. It appears under the table title.

Temporarily absent spouses, offspring and co-tenants are considered when determining household and family types. Other persons temporarily absent are not considered.

Data Quality

The Census is subject to a number of inaccuracies resulting from errors by respondents or mistakes in collection or processing of the data. Some of these are overcome or 'repaired' by careful processing procedures and quality control measures applied to the processing itself. The effect of those that remain is generally slight, although it may be more important for small groups in the population. The main kinds of error to keep in mind are:

Partial non-response: In some cases where an answer was not provided to a question an answer was imputed (often from other information on the form). In other cases a 'not stated' code was allocated.

Processing error: While such errors can occur in any processing system, careful quality control measures are used to keep errors to an acceptable level.

Random adjustment: Cells containing small values are randomly adjusted to avoid releasing information about particular individuals, families, or households. The effect of random adjustment is statistically insignificant.

Respondent error: Because processing procedures cannot detect or repair all errors made by persons in completing the form, some remain in final data.

Undercount: Although the census aims to count each person once, there are some people who are missed and others are counted more than once. The data are not adjusted for the net undercount which is estimated to be 1.9% for Australia in the 1991 Census.

Further information on data quality will be provided progressively in Census Update and in 1991 Census data quality working papers.

Section of State Data: Data for the Migratory section of each state/territory has been combined with the Other Rural section to avoid the release of confidential data. The number of Aboriginal and Torres Strait Islander people in migratory sections was small.

A01 SELECTED CHARACTERISTICS
Aboriginal and Torres Strait Islander persons

	Males	Females	Persons
Aboriginal persons	3597	3615	7212
