EXPLANATORY NOTES

This bulletin contains preliminary summary figures of university students. The statistics are derived from information supplied by the universities and refer to 1967 enrolments up to the end of March. The figures are of enrolments for courses, i.e. a student enrolled for more than one course is counted more than once. They will be superseded by a bulletin showing final and more detailed figures to be published in due course.

2. The universities were also asked to provide estimates of likely enrolments during the remainder of the academic year. Their replies are summarized below:
