IMPORTS

INTO

THE COMMONWEALTH OF AUSTRALIA DURING 1907.

Value of Imports.—The value of goods imported from Countries beyond the Commonwealth represents the amount on which Duty is payable or would be payable if the duty were *ad valorem*. The value of goods subject to Duty is taken to be the fair market value in the principal markets of the country whence the same were exported, with an addition of 10 per cent. to such market value.

Quantities.—Generally, but not invariably, quantities have been shewn in the ordinary trade unit. Where Imports have been declared in packages without an indication being given of the number, capacity, or weight of the articles imported, only the *values* have been inserted.

N.E.I. means "not elsewhere included."

Import Duties.—The Duties charged on Imports into the Commonwealth of Australia were collected under the Customs Act, 1901 (No. 6 of 1901), the Customs Tariff, 1902 (No. 14 of 1902), the Customs Tariff, 1906 (No. 14 of 1906—Harvesters and other Agricultural Implements), the Customs Tariff, 1906 (No. 17 of 1906—South African Preference), and the Resolution proposed in Committee of Ways and Means, by the Honorable Sir William Lyne, Treasurer of the Commonwealth, on the 8th August, 1907, and alterations thereof (Customs Tariff, 1908).

Classification of Items.—In the following table commodities of analogous character have been arranged under categories. The position of any item will be readily found by reference to the alphabetical index on page 7.

EXPORTS

FROM

THE COMMONWEALTH OF AUSTRALIA DURING 1907.

Value of Exports.—The value of goods exported is the value in the principal markets of the Commonwealth in the ordinary commercial acceptance of the term.

Exports—Australian Produce.—Articles which were partly or entirely manufactured in Australia from imported materials are shewn under the heading "Australian Produce."

Quantities.—Generally, though not invariably, quantities have been shewn in the ordinary trade unit. Where exports have been declared in packages without an indication being given of the number, capacity, or weight of the articles exported, only the values have been inserted.

Ships' Stores.—Since the 1st January, 1906, goods shipped as Ships' Stores in Australian Ports, on board oversea ships, have not been included in Exports. For Ships' Stores see Table IV.

N.E.I.—Means "not elsewhere included."

Classification of Articles.—The position of any item in the following table will be found on reference to the Alphabetical Index on Page 7.

*The proportions of the Gold Specie shown as the produce of Australia and the produce of other countries are given as approximate only. The net value of Gold Bullion and Gold Ore of foreign origin introduced—by transfer or importation—into the minting States of the Commonwealth, with the addition of the imports of foreign Specie, has been taken to represent the value of the exports of Specie of other than Australian origin.

* Owing to the failure to record, as oversea Imports, goods received in one State of the Commonwealth for transshipment to another State thereof, it has been estimated that the value of Imports given in this Table are understated by the following amounts:—1901, £2,121,500; 1902, £1,546,924; 1903, £1,024,211.

† Does not include the value of Stores shipped in Australian Ports on board Oversea Ships. The value of Ships' Stores was in 1906 £875,966, and in 1907 £998,897.

In order to ensure a correct record of the Export Trade of the Commonwealth it has been the practice of the Department of Trade and Customs, since the 1st September, 1903, to record goods transferred by sea from one State to another State of the Commonwealth for transhipment abroad in the following manner:—(i.) As an Outward Inter-State Transfer from the State from which the goods are originally moved. (ii.) As an Inward Inter-State Transfer to the State in which the goods are transhipped abroad. (iii.) As an Export (Oversea) from the State in which the goods are transhipped abroad.

The record thus obtained in each of the several States does not indicate the proportion of the Export Trade of the Commonwealth actually contributed by each State, nor does it correctly indicate the value of the Inter-State Trade.

The following Tables, viz., XV. and XVI., shew respectively the Oversea and Inter-State Trade of each State as recorded, and the actual Oversea and Inter-State Trade of each State, after the necessary adjustments for transhipped goods have been made.

Goods transferred overland from one State to another and subsequently exported to oversea countries are included in the Exports from the State in which the goods are shipped oversea. In such instances no adjustment can be made, because the necessary data are not available.

TABLE shewing the Gross Imports and Exports of each State of the Commonwealth from and to Oversea Countries direct, and from and to other States of the Commonwealth during the Year 1907.

NOTE.—In the above Table the value of goods transferred *by sea*, from one State of the Commonwealth to another State thereof, for transhipment to oversea countries, has been included in the oversea exports of the State from which the goods were originally despatched, and has, also, been excluded from the value of the Inter-State Trade.

There being no adequate official record by means of which goods transferred *overland*, and afterwards exported oversea, can be referred to the State of origin, such goods are included in the oversea exports of the State in which the goods were shipped.

Oversea Trade at each Port of the Commonwealth of Australia, and Revenue collected thereat, 1907.
