OF THE

FOR THE YEAR

PREFACE.

1. *General.*—The Annual Statement of the Trade of the Commonwealth of Australia with other countries, and the Customs and Excise Revenue, for the year 1909 has been compiled from documents acquired under the Customs Act and supplied to the Commonwealth Bureau of Census and Statistics by the Department of Trade and Customs.

2. *Classification.*—In the Tables of Imports and Exports herein, commodities of analogous character have been brought together under categories in accordance with a Statistical Classification specially designed to this end. This will be found, together with an extensive Alphabetical Index, in Table I., page 7 (Imports); and Table III., page 288 (Exports).

3. *Changes in Tables.*—(a) *Exports of Spelter, Concentrates, &c.*—In the Tables of Exports, the item formerly shown as “Spelter, Concentrates (other than Gold), Dross, and Ashes” has been divided, and the exports of Spelter and of Concentrates of principal metals are now shown separately. A supplementary table has also been inserted in this issue, showing the metallic contents of Ores and Concentrates exported (Table V., page 496).

(b) *Oversea Trade of States.*—Owing to the great area of the Commonwealth, the mercantile community's appreciation of the Statistical Returns is greatly increased by showing the Imports into, and the Exports from, each State of the Commonwealth. Tables II. and IV. have been amplified in this direction. Experience has already shown that this information meets a practical need of the mercantile community. In the Table of Exports (Table IV.), goods transferred from one Commonwealth State to another Commonwealth State for transshipment abroad are in all cases referred to the State whence the goods were originally moved.

4. *Statistics of Interstate Trade.*—A statement, showing in detail the Interstate Trade of the Commonwealth during 1909, is given in Table XL. (page 752). Owing to the discontinuance of the records of Interstate Trade during the current year, in consequence of the abolition of the “Bookkeeping System” as between the Commonwealth and the several States therein, which system required the keeping of accounts of Customs and Excise Revenue, it will not now be possible to furnish similar tables to these in future.

IMPORTS

INTO

THE COMMONWEALTH OF AUSTRALIA DURING 1909.

Value of Imports.—The value of goods imported from Countries beyond the Commonwealth represents the amount on which Duty is payable or would be payable if the duty were *ad valorem*. The value of goods subject to Duty is taken to be the fair market value in the principal markets of the country whence the same were exported, with an addition of 10 per cent. to such market value.

Quantities.—Generally, but not invariably, quantities have been shown in the ordinary trade unit. Where Imports have been declared in packages without an indication being given of the number, capacity, or weight of the articles imported, only the values have been inserted.

N.E.I. means “not elsewhere included.”

Import Duties.—The Duties charged on Imports into the Commonwealth of Australia were collected under the *Customs Tariff* 1908 (No. 7 of 1908), the *Customs Tariff Amendment Act* 1908 (No. 13 of 1908), and the *Customs Tariff* 1906 (South African Preference), No. 17 of 1906.

Classification of Items.—In the following table commodities of analogous character have been arranged under categories. The position of any item will be readily found by reference to the alphabetical index on page 7.

EXPORTS

FROM

THE COMMONWEALTH OF AUSTRALIA DURING 1909.

Value of Exports.—The value of goods exported is the value in the principal markets of the Commonwealth in the ordinary commercial acceptance of the term.

Exports—Australian Produce.—Articles which were partly or entirely manufactured in Australia, from imported materials are shewn under the heading “Australian Produce.”

Quantities.—Generally, though not invariably, quantities have been shewn in the ordinary trade unit. Where exports have been declared in packages without an indication being given of the number, capacity, or weight of the articles exported, only the values have been inserted.

Ships' Stores.—Since the 1st January, 1906, goods shipped as Ships' Stores in Australian Ports, on board oversea ships, have not been included in Exports. For Ships' Stores see Table VI.

N.E.I.—Means “not elsewhere included.”

Exporting States.—In this Table the value of goods transferred *by sea* from one State of the Commonwealth to another State thereof, for transshipment to oversea countries is shewn as an export from the State from which the goods were originally despatched.

Classification of Articles.—The position of any item in the following table will be found on reference to the Alphabetical Index on page 288.

* Owing to the failure to record, as Oversea Imports, goods received in one State of the Commonwealth for transhipment to another State thereof, it has been estimated that the value of Imports given in this Table is understated by the following amounts:—1901, £2,121,500; 1902, £1,546,924; 1903, £1,024,211.

† Does not include the value of Stores shipped in Australian Ports on board Oversea Ships. The value of Ships' Stores was in 1906, £875,966; 1907, £998,897; 1908, £1,196,106; 1909, £1,071,677.

* From 1st January, 1908, the following items, which were formerly included in Division IV., have been transferred to Division I.:—Wine (Grape), unfermented; Limejuice and other Fruit Juices and Fruit Syrups containing not more than 2 per cent. of Proof Spirit; Table Waters (Aerated or Mineral) and Preparations, N.E.L., packed for household use for the production thereof; Ale, Porter, and other Beer, Cider, and Perry, containing not more than 2 per cent. of Proof Spirit; Non-spirituous Ethereal Fruit Essences and Artificial Fruit Essences, Ethereal Aromas, and Flavours.

‡ The increase in this Division is mainly due to changes in the Tariff Classification whereby articles which, under the Tariff of 1902, were included in other Divisions, have, under the Tariff of 1908, been transferred to Division XVI. The principal articles affected are "Manures" (transferred from Division IV.), and "Minor Articles for use in the manufacture of goods" (transferred from Divisions V., X., XII., and XIV.).

TRADE OF EACH STATE, YEAR 1909.

In order to insure a correct record of the Export Trade of the Commonwealth, it has been the practice of the Department of Trade and Customs, since the 1st September, 1903, to record goods transferred by sea from one State to another State of the Commonwealth for transshipment abroad in the following manner:—(i.) As an Outward Inter-State Transfer from the State from which the goods are originally moved. (ii.) As an Inward Inter-State Transfer to the State in which the goods are transhipped abroad. (iii.) As an Export (Oversea) from the State in which the goods are transhipped abroad.

The record thus obtained in each of the several States does not indicate the proportion of the Export Trade of the Commonwealth actually contributed by each State, nor does it correctly indicate the value of the Inter-State Trade.

The following tables, viz.:—XVII. and XVIII., shew respectively the Oversea and Inter-State Trade of each State as recorded, and the actual Oversea and Inter-State Trade of each State, after the necessary adjustments for transhipped goods have been made.

Goods transferred overland from one State to another and subsequently exported to oversea countries are included in the Exports from the State in which the goods are shipped oversea. In such instances no adjustment can be made, because the necessary data are not available.

Table shewing the Gross Imports and Exports of each State of the Commonwealth from and to Oversea Countries direct, and from and to other States of the Commonwealth during the Years 1906-1909.

NOTE.—The Inter-State Transfers as shewn in the above Table include the value of goods transferred from one State of the Commonwealth to another for transshipment abroad, and the value of these goods is shewn as an oversea export of the State from which they were finally despatched oversea. The trade of each State after adjustments for transshipments have been made is shewn in the following Table.

Table showing the Imports and Exports of each State of the Commonwealth from and to Oversea Countries and from and to other States of the Commonwealth—adjustments having been made for transhipments—during the years 1906-1909.

NOTE.—In the above table the value of goods transferred *by sea*, from one State of the Commonwealth to another State thereof, for transhipment to oversea countries, has been included in the oversea exports of the State from which the goods were originally despatched, and has, also, been excluded from the value of the Inter-State trade.

There being no adequate official record by means of which goods transferred *overland*, and afterwards exported oversea, can be referred to the State of origin, such goods are included in the oversea exports of the State in which the goods were shipped.
