COMMONWEALTH STATISTICIAN.

PREFACE.

The Annual Statement of the Trade of the Commonwealth of Australia with other countries, and of the Customs and Excise Revenue, for the year 1918-19, has been compiled from documents acquired under the Customs Act and supplied to the Commonwealth Bureau of Census and Statistics by the Department of Trade and Customs.

In the Tables of Imports and Exports herein, commodities of analogous character have been brought together under categories in accordance with a Statistical Classification specially designed to this end. This will be found, together with an extensive Alphabetical Index, in Table I., page 7 (Imports); and Table III., page 255 (Exports).

Owing to the exigencies of the war, it has been necessary hitherto to withhold information relating to the Imports and Exports of Gold during the years 1917-18 and 1918-19. All restrictions of publication having now been removed, the figures relating to the movements of gold to and from the Commonwealth during the years mentioned are given in Table XXXIII., page 605. To ascertain the total trade of the Commonwealth for those years it will be necessary to add the values of gold to the amounts of imports and exports as shewn in Tables VII. and VIII.

G. H. KNIBBS,
Commonwealth Statistician.

IMPORTS

INTO

THE COMMONWEALTH OF AUSTRALIA DURING 1918-19.

Value of Imports.—The value of goods imported from Countries beyond the Commonwealth represents the amount on which Duty is payable or would be payable if the duty were *ad valorem*. The value of goods subject to Duty is taken to be the fair market value in the principal markets of the country whence the same were exported, with an addition of 10 per cent. to such market value.

Quantities.—Generally, but not invariably, quantities have been shown in the ordinary trade unit. Where Imports have been declared in packages without an indication being given of the number, capacity, or weight of the articles imported, the values only have been inserted.

N.E.I. means "not elsewhere included."

Import Duties.—The Duties charged on Imports into the Commonwealth of Australia during the Year 1918-19 were collected in accordance with the Schedule of the proposed Tariff of 1914, which was placed on the Table of the House of Representatives on the 3rd December, 1914, and which was confirmed by the *Customs Tariff Validation Act* of 1917. When, however, the rates of duty imposed under the 1908-11 Tariff were higher than those imposed by the proposed Tariff of 1914, the higher rates were collected. Duties on Tobacco of South African origin were also charged in accordance with a Schedule tabled on the 3rd December, 1914, and ratified by the *Customs Tariff Validation Act* referred to. Preferential rates of duty were collected on certain other imports of South African produce, under the *South African Preference Act* (Customs Tariff 1906).

Classification of Items.—In the following table commodities of analogous character have been arranged under categories. The position of any item will be readily found by reference to the alphabetical index on page 7.

EXPORTS

FROM

THE COMMONWEALTH OF AUSTRALIA DURING 1918-19.

Value of Exports.—The value of goods exported is, generally, the value in the principal markets of the Commonwealth in the ordinary commercial acceptance of the term. Some modification of this practice has, however, been necessary in consequence of the policy of price fixing arising from the war.

Exports—Australian Produce.—Articles which were partly or entirely manufactured in Australia from imported materials are shewn under the heading "Australian Produce."

Ships' Stores.—Since the 1st January, 1906, goods shipped as Ships' Stores in Australian Ports, on board oversea ships, have not been included in Exports. For Ships' Stores see Table VI.

N.E.I.—Means "not elsewhere included."

Exporting States.—In this Table the value of goods transferred from one State of the Commonwealth to another State thereof, for shipment to oversea countries, is shown as an export from the State from which the goods were finally despatched.

Classification of Articles.—The position of any item in the following table will be found on reference to the Alphabetical Index on page 255.

* The figures given in this Summary represent the gross Exports of Australian produce from each State, i.e., the whole of such goods shipped overseas direct from each State. Owing to the abandonment by the Customs Department, in September, 1910, of the records of inter-State trade, it is no longer possible to make any adjustment on account of goods transferred from one State to another for transshipment to an overseas country.

† The proportion of exported Gold Specie of Australian origin is approximate only. ‡ Exports of Gold cannot be disclosed.

Classified List of Articles of Foreign Produce Re-exported (exclusive of Ships' Stores) from the Commonwealth of Australia, 1914-15-1918-19.

* The figures given in this Summary represent the gross Re-exports from each State, i.e., the whole of such goods shipped overseas direct from each State. Owing to the abandonment by the Customs Department, in September, 1910, of the records of inter-State trade, it is no longer possible to make any adjustment on account of goods transferred from one State to another for transshipment to an overseas country.

† The proportion of re-exported Gold Specie is approximate only. ‡ Exports of Gold cannot be disclosed.

* The figures given in this Summary represent the gross exports from each State, i.e., the whole of the goods shipped oversea direct from each State. Owing to the abandonment by the Customs Department in September, 1910, of the records of Inter-State trade, it is no longer possible to make any adjustment on account of goods transferred from one State to another for transshipment to an oversea country. † Exports of Gold cannot be disclosed.
