# PREFACE.

The Annual Statement of the Oversea Trade of Australia with other countries, and of the Customs and Excise Revenue, for the year 1931-32, together with comparative figures for previous years, has been compiled from documents acquired under the Customs Act and supplied to the Commonwealth Bureau of Census and Statistics by the Department of Trade and Customs.

The Tables of Imports and Exports have been compiled according to an extended Statistical Classification divided into 21 Classes, which came into operation on 1st July, 1922. Since that date the classification has been increased by additional items, and now comprises approximately 523 separate items of Exports and 1,660 items of Imports. An extensive Alphabetical Index of Imports and Exports is given in Table I. (page 7).

Many items are recorded according to value only, but in all cases where quantities are recorded particulars concerning both quantities and values are stated. In the tables of Exports separate details are given of the exports of Australian Produce and Other Produce, whilst in the Imports Table the quantity of goods cleared and particulars concerning the rate of duty are also shown.

Imports of merchandise, bullion and specie, and exports of bullion and specie are recorded in British Currency values and exports of merchandise generally in Australian Currency values. The comparison of export values for 1931-32 with those for previous years is complicated by the varying value of the Australian £ in relation to sterling. In the export tables a footnote has been inserted showing the estimated British Currency value, and in Tables VI. and VII. a summary of the total oversea trade is given in sterling.

In Table XII. the monthly imports and exports of merchandise during the period 1921 to 1932 are now shown separately. The five-year tables containing a classified summary of imports, exports and re-exports which were excluded from Oversea Trade Bulletin, No. 28, owing to reasons of economy, have been restored in this issue of the Bulletin. A table has also been added showing the Average Annual Export Values of the principal commodities over the period 1924-25 to 1931-32.

My best thanks are due to the officers of the Department of Trade and Customs for the prompt supply of the data required for the preparation of this Bulletin, and for their courteous response to numerous inquiries arising from time to time in the course of compilation. I am especially indebted to Mr. H. C. Green, A.I.C.A., A.A.I.S., Supervisor of Trade Statistics in this Bureau for the greater part of the period of tabulation, and to Mr. H. W. Ransom of this Section, for the care and attention which they have given to the compilation of this Bulletin and the work of seeing it through the Press, and to the staff of the Trade Section also for their cordial co-operation.

E. T. McPHEE,  
Commonwealth Statistician.

# EXPORTS

FROM

## THE COMMONWEALTH OF AUSTRALIA DURING 1930-31 AND 1931-32.

**Value of Exports.**—The value of goods exported is, generally, the value in the principal markets of the Commonwealth in the ordinary commercial acceptance of the term, except for the following commodities concerning which an alteration in the method of valuation of exports was made as from the 1st July, 1930, as follows, viz.:—Sugar—the value f.o.b. at which sold to overseas buyers; Butter—the current market value less the amount paid as export bonus; Goods on which bounty or rebate is paid—the value in the principal markets of the Commonwealth less the amount of any bounty or rebate. From the 1st July, 1930, the following basis of valuation was adopted for exports of wool, viz.:—Wool sold in Australia—the actual price paid plus the cost of services incurred in placing the wool on board ship; wool shipped on consignment—the f.o.b. equivalent of ruling prices.

**Exports.**—Goods exported from Australia are shown under two headings—"Australian Produce" and "Other Produce".

"Australian Produce" comprises—(i) Raw materials produced in Australia. (ii) Articles manufactured therefrom. (iii) Articles wholly or partly manufactured in Australia from imported materials.

"Other Produce" represents the re-export of articles produced elsewhere than in Australia.

**Ships' Stores.**—Since the 1st January, 1906, goods shipped as Ships' Stores in Australian Ports on board oversea ships have not been included in Exports. For Ships' Stores see Table V.

**N.E.I.**—Means "not elsewhere included".

**Exporting States.**—Goods transferred from one State of the Commonwealth to another State thereof, for shipment to oversea countries, are shown as exports from the State from which the goods were finally despatched.

**Classification of Articles.**—An Alphabetical Index of the Articles included in the following table will be found on page 7. The items are shown according to the revised Statistical Classification of Exports which came into operation on 1st July, 1922. In all cases where an item was not exported during the year, the Classification number of the item has been omitted from the following table.

# IMPORTS

INTO

## THE COMMONWEALTH OF AUSTRALIA DURING 1930-31 AND 1931-32.

**Value of Imports.**—The value of goods imported from Countries beyond Australia represents the amount on which duty is payable or would be payable if the duty were *ad valorem*. Section 154 (1) of the *Customs Act 1901-1930* provides that "when any duty is imposed according to value, the value for duty shall be the sum of the following:—

- (a) (i) the actual money price paid or to be paid for the goods by the Australian importer plus any special deduction; or
- (ii) the current domestic value of the goods, whichever is the higher;
- (b) all charges payable or ordinarily payable for placing the goods free on board at the port of export; and
- (c) ten per centum of the amounts specified under paragraphs (a) and (b) of this sub-section."

"Current domestic value" is defined as "the amount for which the seller of the goods to the purchaser in Australia is selling or would be prepared to sell for cash, at the date of exportation of these goods, the same quantity of identically similar goods to any and every purchaser in the country of export for consumption in that country."

**Quantities.**—Generally, but not invariably, quantities have been shown in the ordinary trade unit. Where the cental is used, the unit equals 100 pounds avoirdupois. Where imports have been declared in packages without an indication being given of the number, capacity, or weight of the articles imported, the values only have been inserted.

**Import Duties.**—The duties charged on Imports into the Commonwealth of Australia during the year 1931-32 were collected in accordance with the Customs Tariff 1921-1930. Dumping duties on certain imports were charged under the provisions of the Customs Tariff (Industries Preservation) Act 1921-1922.

**Extra Duty.**—The amounts shown under the heading "Rate of Duty and Gross Amount Received" as "extra duty" are amounts which were lodged on deposit pending the ratification of higher duties, paid into Trust Funds, and brought to revenue at a later date.

**Special Duty.**—As from the 3rd April, 1930, a special duty was imposed of 50 per cent. on the amount of duty already imposed on certain items. This special duty was removed in regard to ten items on the 25th February, 1932, and a further twelve items on the 24th May, 1932.

**Primage Duty.**—From the 10th July, 1930, a primage duty of 2½ per cent. *ad valorem* was imposed on all goods, whether dutiable or not dutiable, in addition to the duties collected in accordance with the Customs Tariff, excepting bullion, specie, radium and certain Governmental and other special imports. The rate of primage duty was subsequently increased to 4 per cent. as from the 6th November, 1930. On the 11th July, 1931, a further amendment came into operation (a) exempting certain aids to primary production and minor imports from primage duty (b) providing for a rate of 4 per cent. *ad valorem* on a few other items, mainly aids to production and (c) increasing the *ad valorem* rate of primage duty to 10 per cent. on all other articles imported.

**Classification of Items.**—In the following table commodities of analogous character have been arranged under categories. The position of any item will be readily found by reference to the alphabetical index on page 7. The items in the table are shown according to the revised Statistical Classification of Imports, which came into operation on 1st July, 1922, and comparative figures are given for the two years 1930-31 and 1931-32. Separate particulars relating to the imports of a large number of new items have been recorded since 1st July, 1922. In all cases where there was no import of a classified item during the year the classification number has been omitted.

**N.E.I.** means "not elsewhere included"; **(G)**, General Tariff; **(P)**, British Preferential Tariff; **(C)**, Canadian Preferential Tariff; **(N.Z.)**, New Zealand Preferential Tariff; and **(R.I.)**, Re-imported.

**I. P. Act** means Industries Preservation Act (*vide* Duty column in detailed table of Imports).
