EXPLANATORY NOTES

Introduction

This publication presents statistics of secured finance provided by banks to individuals for the construction or purchase of dwellings, for owner occupation, and details of other selected items relating to the provision of housing finance.

2. While the statistics are described as being for calendar months, it should be noted that:

(a) *for trading banks* the data relate to the period ending on the second Wednesday of the month following the month stated and may cover either a 4 or 5 week period.

(b) *for savings banks* the data relate to the period ending on either the last Monday (one bank), the last Wednesday (six banks) or the last day (five banks) of the month stated and may cover either a 4 or 5 week period.

Seasonal adjustment

3. Details of the methods used in seasonally adjusting these series are given in *Seasonally Adjusted Indicators, Australia* (1308.0).

4. Large fluctuations occurring in series as a result of irregular influences, such as interest rate changes, are not removed by seasonal adjustment. Particular care should therefore be taken in interpreting individual month-to-month movements.

Scope

5. For detailed information on the scope and coverage of these statistics and definitions of items refer to the July 1980 issue of this publication.

6. This publication incorporates revisions made to previous statistics in this series.
