SUMMARY OF FINDINGS

HOUSING FINANCE FOR OWNER OCCUPATION

In October 1997, the monthly trend estimate for the value of finance commitments for owner occupied dwellings was \$4 543.2 million, up 0.8% on September and continuing the upward movement since early 1996.

Seasonally adjusted, the value of commitments increased by 0.9% to \$4 613.4 million, up 15.1% on October 1996.

PERSONAL FINANCE

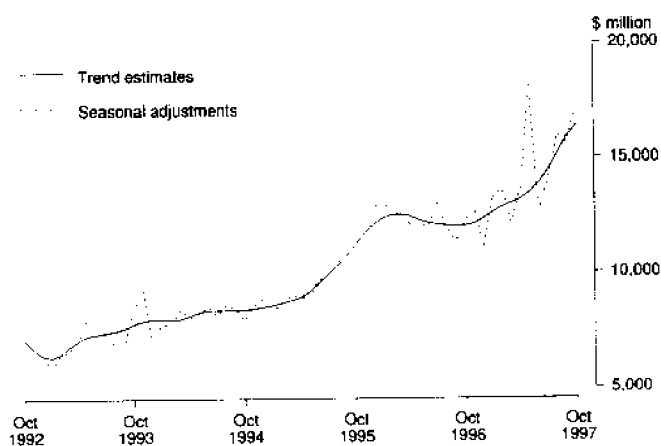

The trend estimate for personal finance increased by 1.8% to \$3 603.4 million in October 1997. This series has shown a 28.8% increase over the 12 months since October 1996, largely as a result of a 62.6% rise in revolving credit.

Seasonally adjusted, commitments were \$3 691.1 million in October 1997, which was an increase of 6.0% on September 1997 and up 35.1% on October 1996. Secured revolving credit commitments are the major source of this increase.

COMMERCIAL FINANCE

The trend estimate for commercial finance was \$16 421.8 million in October 1997, 3.4% higher than last month. This overall increase in October was a result of fixed lending commitments rising by 4.2% and revolving credit commitments rising by 2.7%. Both fixed lending and revolving credit commitments have increased by more than 35% since October 1996.

Readers should exercise care when interpreting the seasonally adjusted data. For further information, see Explanatory Note 14.

LEASE FINANCE

The trend for lease finance fell in October 1997 after several months of growth. The value of commitments was \$809.9 million, 38.1% higher than the level recorded in October 1996.

Seasonally adjusted, lease finance commitments were \$704.3 million in October 1997, a 0.8% increase on September.

EXPLANATORY NOTES

INTRODUCTION

1 This publication presents summary statistics of lending commitments made by significant lenders to individuals, government, private and public enterprises and non-profit organisations.

SCOPE

2 Commitments made by the following types of lenders are included in these statistics:

- Banks;
- Permanent building societies;
- Credit unions/co-operative credit societies;
- Life or general insurance companies;
- General government enterprises;
- Organisations raising funds through the secondary mortgage market for approved home buyers under State government housing schemes;
- Superannuation funds;
- Other corporations registered under the *Financial Corporations Act 1974*; and
- Other providers of consumer finance registered with State credit tribunals, including mortgage managers.

COVERAGE

3 The statistics cover significant lenders only. Significant lenders account in aggregate for at least 95% of the Australian total and at least 90% of each State total of the value of commitments for secured housing finance for owner occupation, other personal finance, commercial finance and lease finance, each calculated separately.

4 An annual collection is conducted to maintain coverage of significant lenders. In addition, new lenders are included in the series as their level of lending becomes significant.

5 All banks qualify as significant lenders and are therefore covered by these statistics.

CATEGORIES OF LENDING FINANCE

6 *Secured housing finance for owner occupation* is secured finance to individuals for purchase or construction of dwellings for owner occupation, and for alterations and additions to existing owner-occupied dwellings. Refinancing, involving a change of lender, is also included.

7 *Personal finance* is finance provided to individuals for their personal, non-business, use. Both fixed loans and revolving credit finance are included; secured housing finance and loans for investment purposes are excluded.

8 *Commercial finance* is finance provided to individuals and corporations for business or investment purposes. Fixed loans, revolving credit and commercial hire purchase are included.

9 *Lease finance* includes finance and leverage leases. Operating lease finance data, though excluded, is available from the ABS on request.

CLASSIFICATION BY INDUSTRY

10 The Industry of Borrower used to classify commercial and lease finance commitments in Table 11 is based on Australian and New Zealand Standard Industrial Classification (ANZSIC) Division or combinations of ANZSIC Divisions.

11 For more information, users are referred to *Australian and New Zealand Standard Industrial Classification 1993, ANZSIC, (1292.0)*.

REVISIONS

12 Revisions to previously published statistics are included as they occur.

SEASONAL ADJUSTMENT

13 Seasonal adjustment is a means of removing the estimated effects of normal seasonal variation and 'trading day effects' (arising from the varying amounts of activity on different days of the week and the varying reporting practices of the lenders). Adjustment is also made for Easter which may affect the March and April estimates differently. Seasonal adjustment does not remove the effect of irregular or non-seasonal influences (for example, a change in interest rates) from the series.

14 There is some evidence that a change may be occurring in the seasonal and trading day patterns of the revolving credit component of commercial finance. In these circumstances especially, the trend estimate data provide the more reliable indicator of underlying movement in commitments.

TREND ESTIMATES

15 Smoothing seasonally adjusted series reduces the impact of the irregular component of the seasonally adjusted series and creates trend estimates. These trend estimates are derived by applying a 13-term Henderson-weighted moving average to all months of the respective seasonally adjusted series except the last six months. Trend series are created for the last six months by applying surrogates of the Henderson moving average to the seasonally adjusted series. For further information, refer to *A Guide to Interpreting Time Series—Monitoring 'Trends': an Overview* (1348.0) or contact the Assistant Director, Time Series Analysis on Canberra (06) 252 6345.

16 While the smoothing technique described in paragraph 15 enables trend estimates to be produced for the latest few months, it does result in revisions to the trend estimates as new data become available. Generally, revisions become smaller over time and, after three months, usually have a negligible impact on the series. Changes in the original data and re-estimation of seasonal factors may also lead to revisions to the trend.

RELATED PUBLICATIONS

- 17** Users may also wish to refer to the following publications:
- *Building Activity Australia: Dwelling Unit Commencements* (8750.0)
 - *Building Approvals, Australia* (8731.0)
 - *Housing Finance for Owner Occupation, Australia* (5609.0)
 - *Private New Capital Expenditure and Expected Expenditure, Australia* (5625.0)
 - *New Motor Vehicle Registrations, Australia: Preliminary* (9301.0)

18 Users may also wish to refer to the *Reserve Bank of Australia, Bulletin* for further information on the lending position of banks and other financial institutions.

UNPUBLISHED DATA

19 As well as the statistics included in this and related publications, the ABS has other relevant unpublished data available. A charge may be made for providing unpublished data.

EXPLANATORY NOTES *continued*

20 Detailed data are also available from PC Ausstats, the ABS on-line time series data service.

EFFECTS OF ROUNDING

21 Where figures have been rounded, discrepancies may occur between sums of the component items and totals.

G L O S S A R Y

Agricultural machinery and equipment	Includes tractors, tillage implements, seeding planting and fertilising equipment, agricultural mowers, harvesters, etc.
Alterations and additions	Comprise all structural and non-structural changes which are integral to the functional and structural design of a dwelling. Examples are garages, carports, pergolas, reroofing, recladding, etc. Alterations and additions do not include swimming pools, ongoing repairs, or maintenance and home improvements which do not involve building work.
Commitment	A lending commitment is a firm offer of finance. It either has been, or is normally expected to be, accepted. Commitments accepted and cancelled in the same month are included. Commitments to non-residents are excluded.
Construction and earth moving equipment	Includes concrete mixers and pumpers, dozers, graders, mobile cranes, crawler tractors, dumpers, road rollers, earth packers, scarifiers, rippers, etc.
Construction of dwellings	For secured housing finance, comprises commitments made to individuals to finance, by way of progress payments, the construction of owner-occupied dwellings.
Debt consolidation	For personal finance, comprises commitments whose principle purpose is to consolidate and pay out amounts owing by the borrower to third parties.
Dwelling	Is a place of residence such as a house, semi-detached house, flat, home unit, town house, terrace house, etc. which includes bathing and cooking facilities.
Electronic data processing equipment	Includes computers, computer peripherals, data entry devices, word processing machines, etc.
Established dwelling	Is a dwelling which has been completed for more than 12 months prior to the lodgement of a loan application, or which has been previously occupied.
Finance lease	A finance lease refers to the leasing or hiring of tangible assets under an agreement, other than a hire purchase agreement, which transfers from the lessor to the lessee substantially all the risks and benefits incident to ownership of the asset without transferring the legal ownership.
Fixed loan facilities	Fixed loan facilities generally involve: <ul style="list-style-type: none">▪ a commitment for a fixed amount for a fixed period for a specific purpose;▪ a schedule of repayments over a fixed period; and▪ repayments which reduce the liability of the borrower but do not act to make further finance available.
Heavy trucks	Comprises all vehicles with a gross combination mass rating in excess of 3.5 tonnes, including prime movers registered without trailers.
Light trucks	Comprises vehicles constructed primarily for the carriage of goods which do not exceed 3.5 tonnes gross vehicle mass such as utilities, panel vans, trucks, cab-chassis, forward control vans and four-wheel drives used to carry goods.
Manufacturing equipment	Includes all plant and equipment used in the manufacture of goods except motor vehicles such as forklifts, work trucks and tractors.
Motor cars and station wagons	Includes cars, station wagons, four-wheel drive and forward control passenger vehicles with up to nine seats (including the driver).

GLOSSARY *continued*

Motor cycles	Includes two and three wheeled motor cycles and mopeds, scooters and motor cycles with side cars.
Newly erected dwelling	A new dwelling that has been completed within 12 months of the lodgement of a loan application, and the borrower will be the first occupant.
Office machines	Includes telephone systems (including PABX equipment), facsimile machines, cash registers, photocopiers, etc.
Purpose	The purpose of the loan is that specified by the borrower. Where possible multiple purpose loans are split and each component is reported in the appropriate purpose category; otherwise the whole loan is classified to the major purpose.
Refinancing	For personal and commercial finance, represents a commitment to refinance an existing loan. For secured housing finance, only those loans where the refinancing lender is not the original lender and the security is unchanged are included. The refinancing of a loan to fund a change of residence is treated as a new lending commitment.
Revolving credit facilities	Revolving credit facilities generally have the following characteristics: <ul style="list-style-type: none">▪ a commitment for a credit or borrowing limit is given for a specific period after which the commitment is reviewed;▪ the extent of the borrowing used at any time during the period may be for any amount up to the authorised limit; and▪ repayments (other than of charges and interest) made during the period reduce the extent of the borrowing used and thereby increase the amount of unused credit available up to the authorised limit. Examples include credit cards, lines of credit and approved overdrafts.
Secured credit limits	Includes overdrafts, lines of credit, credit cards etc. backed by a mortgage or other assets owned by the borrower.
Secured housing finance	This comprises all secured commitments to individuals for the construction or purchase of dwellings for owner occupation, regardless of type of security. Commitments for housing that will be occupied by persons other than the owner(s) are excluded.
Significant lenders	Significant lenders are those lenders who, Australia wide during the calendar year 1996, committed funds of more than: <ul style="list-style-type: none">▪ \$27 million for Secured housing finance for owner-occupation; or▪ \$47 million for Personal finance; or▪ \$570 million for Commercial finance; or▪ \$10 million for Lease finance.
Total credit limits at end of period	Comprises total approved credit limits available at the end of the reference month. In principle, this can be derived by adding new and increased lending commitments during the period less cancellations and reductions of credit limits during the period to the balance of credit limits at the end of the previous period. In practice, however, revisions and other adjustments such as the transfer of an existing fixed credit facility to a revolving credit facility will mean that such a derivation is inexact.
Wholesale finance	Comprises finance for the purchase of goods by retailers and wholesalers.
