

CHAPTER V.—LABOUR ORGANIZATIONS.

§ 1. Labour Organizations in Australia.

1. General.—The figures shown in this section are prepared from a special collection of membership of labour organizations at 31st December each year. The affairs of single unions are not disclosed in the published results and this has assisted in securing complete information. The Bureau is indebted to the secretaries of trade unions for their co-operation in supplying information.

This issue contains a comparison of the results of the annual collections for the years 1956 to 1960. Particulars for earlier years will be found in previous issues of the Labour Report.

2. Organizations Registered under the (Commonwealth) Conciliation and Arbitration Act.—Under Part VIII. of the Conciliation and Arbitration Act 1904-1960, any association of employers in any industry who have, or any employer who has, employed, on an average taken per month, not less than 100 employees during the six months preceding application for registration, and any association of not less than 100 employees in any industry, may be registered. However, under the Public Service Arbitration Act an Association of less than 100 employees may be registered as an organization, provided that its members comprise at least three-fifths of all persons engaged in that industry in the Service. Such organizations are included in the figures shown below. Registered unions include both interstate associations and associations operating within one State only. Registration under Commonwealth legislation began in 1906. At the end of 1960 the number of employers' organizations registered under the provisions of the Act was 63. The number of unions registered at the end of 1960 was 154, with membership of 1,558,236, representing 81 per cent. of the total membership of all trade unions in Australia.

3. Particulars regarding Trade Unions.—(i) *Types.*—The trade unions in Australia are very diverse in character, and range from the small independent association to the large interstate organization, which, in its turn, may be a branch of an international body. Broadly speaking, there are four distinct classes of labour organizations:—(a) the local independent; (b) the State; (c) the interstate; and (d) the Australasian or international. The schemes of organization of interstate or federated unions vary greatly in character. In some unions the State organizations are bound together under a system of unification with centralized control, while in others the State units are practically independent and self-governing, the federal bond being loose and existing only for one or two specified purposes.

(ii) *Number and Membership.*—(a) *States.*—The following table gives particulars of the number of separate unions and the number of members at the end of the years 1956 to 1960:—

TRADE UNIONS: NUMBER AND MEMBERSHIP.

Year.	N.S.W.	Vic.	Qld.	S.A.	W.A.	Tas.	N.T.	A.C.T.	Aust.	
NUMBER OF SEPARATE UNIONS.

1960..	..	3.6	3.9	1.6	4.3	1.3	3.5	21.1	18.9	3.3

(a) Without interstate duplication. (See letterpress below.) (b) On preceding year.

Note.—Minus sign (—) denotes decrease.

In the table above, under the heading "Number of Separate Unions", a union with members in a State is counted as one union within that State. The figures by States do not add to the Australian total (shown in the last column) because a union represented in more than one State is included in the figure for each State in which it is represented, but is counted only once in the Australian total.

(b) *Industrial Groups.*—The following table shows the number and membership of trade unions in Australia in industrial groups at the end of the years 1956 to 1960.

TRADE UNIONS: INDUSTRIAL GROUPS, AUSTRALIA.

Industrial Group.	1956.	1957.	1958.	1959.	1960.

Other Industries ^(c)	..	117,601	121,164	125,677	130,569	142,653
Total		1,811,408	1,810,154	1,811,218	1,850,727	1,912,392

(a) Without interstate duplication. See above.

(b) Includes Communication and Municipal, etc.

(c) Includes Community and Business Services.

(iii) *Number of Members and Proportion of Wage and Salary Earners.*—
 (a) *General.*—The following tables show the estimated percentages of wage and salary earners in employment who are members of trade unions. As current estimates of wage and salary earners in employment do not include employees engaged in rural industry or females in private domestic service, the percentages have been calculated on figures obtained by adding to the end of year estimates the numbers of employees in rural industry and female private domestic service recorded at the Census of 30th June, 1954. For this reason and also because the membership of trade unions includes some persons not in employment, the percentages shown in the tables must be regarded as approximations.

(b) *States.*—The table below shows, for each State and the Northern Territory, the number of males, females and persons who were members of trade unions at 31st December, 1960 and the estimated percentages as described above. In interpreting these, it should be noted that certain employees such as those in professional occupations may not be eligible for membership of a specified union, while others may not reside in a locality covered by a union devoted to their particular trade or occupation. The percentages are not directly comparable with those published in issues of the Labour Report prior to No. 44.

TRADE UNIONS: NUMBER OF MEMBERS AND PROPORTION OF TOTAL WAGE AND SALARY EARNERS, 31st DECEMBER, 1960.

State.	Number of Members.			Proportion of Total Wage and Salary Earners. (Per cent.)

(a) Certain unions have, in addition to branches in the States, branches in the Northern Territory and in the Australian Capital Territory.

4. **Central Labour Organizations.**—Delegate organizations, consisting of representatives from a group of trade unions, have been established in each of the capital cities, and in a number of industrial centres elsewhere. Their revenue is raised by means of a *per capita* tax on the members of each affiliated union. In the majority of the towns where such central organizations exist, most of the local unions are affiliated with the central organization, which is usually known as the Labour or the Trades Hall Council. In Western Australia a unified system of organization extends over the industrial centres throughout the State, and there is a provincial branch of the Australian Labour Party, having a central council and executive, and metropolitan and branch district councils with which the local bodies are affiliated. The central council, on which all district councils are represented, meets periodically. In the other States, however, the organization is not so close, and while provision usually exists in the rules of the central council at the capital city of each State for the organization of district councils, or for the representation on the central council of the local councils in the smaller industrial centres of the State, the councils in each State are generally independent bodies. The following table shows, for each State and Territory, the number of metropolitan and district or local labour councils, together with the number of unions and branches of unions affiliated therewith, at the end of the years 1956 to 1960.

CENTRAL LABOUR ORGANIZATIONS : NUMBER AND UNIONS AND BRANCH UNIONS AFFILIATED.

Year.	N.S.W.	Vic.	Qld.	S.A.	W.A.	Tas.	N.T.	A.C.T.	Aust.

1960..	..	305	289	178	157	386	115	..	24	1,454

The figures for number of unions do not necessarily represent separate unions, since the branches of a large union may be affiliated with the local trades councils in the several towns in which they are represented.

Between the trade union and the central organization of unions may be classed certain State or district councils organized on trade lines and composed of delegates from separate unions whose members' interests are closely connected by reason of their occupations. Delegate councils of bakers, bread carters and mill employees, or of unions connected directly or indirectly with the metal trades, or with the building trades, may be so classed.

A Central Labour Organization, now called the Australian Council of Trade Unions, came into being during 1927. The Council was created to function on behalf of the trade unions of Australia, and was founded at an All-Australian Trade Union Congress held in Melbourne in May, 1927. The A.C.T.U. consists of affiliated unions and affiliated Metropolitan and/or State Labour Councils and Provincial Councils. The Metropolitan or State Labour Council in each State is the State Branch of the A.C.T.U. and it has the right to appoint one representative to act on the executive of the Council. In addition to the representatives of the State Branches of the A.C.T.U., six delegates are elected by and from Congress, one from each of the following industry groups:—Building, Food and Distributive Services, Manufacturing, Metal, Services and Transport. To this Executive are added the four officers, namely, President, two Vice-Presidents, and Secretary, who are elected by and from the Australian Congress of Trade Unions.

The ordinary meetings of Congress are held in alternate years. Special meetings of Congress shall be held whenever deemed advisable by decision of the Executive, as approved by the majority of its branches, or by resolution of unions representing one-third of the total membership of the A.C.T.U.

The objectives of the A.C.T.U. are the socialization of industry, i.e., production, distribution and exchange, and the utilization of the resources of Australia for the benefit of the people—ensuring full employment, with rising standards of living, real security and full cultural opportunities for all. The methods to be adopted are:—the closer organization of the workers by the transformation of the Australian trade union movement from the craft

to an industrial basis, by grouping of unions in their respective industries; and by the establishment of one union in each industry; the consolidation of the Australian Labour Movement with the object of unified control, administration, and action; the centralized control of industrial disputes; educational propaganda among unions; and political action to secure satisfactory working-class legislation.

The A.C.T.U. was the first interstate body in Australia with authority to deal with industrial matters of an interstate character affecting the trade union movement generally. It is also the body responsible for submitting to the Commonwealth Government the names of persons suitable for selection as the Australian workers' delegate to the annual International Labour Conference.

All the major unions are affiliated with the A.C.T.U., with the exception of the largest, the Australian Workers' Union, which is itself virtually a central organization of branches catering in the main for employees in rural and constructional pursuits.

§ 2. International Labour Organization.

1. General.—The International Labour Organization (I.L.O.) was established on 11th April, 1919, as an autonomous institution associated with the League of Nations. Its original constitution was adopted as Part XIII. of the Treaty of Versailles and formed part of other treaties of peace. During the years between its establishment and the outbreak of the 1939–45 War, the I.L.O., with head-quarters at Geneva, played a leading role in promoting the improvement of labour conditions throughout the world.

In 1940, in order to ensure that the I.L.O. should be able to continue to function freely, a working centre was established at Montreal, Canada. In 1946 the Organization became the first of the specialized agencies of the United Nations. Under the terms of agreement, the United Nations recognizes the I.L.O. as a specialized agency having responsibility in the field defined by its constitution, which embraces labour conditions, industrial relations, employment organization, social security and other aspects of social policy. The Organization has three basic parts. These are the International Labour Conference, its highest authority, which as a rule meets annually; the Governing Body, its executive council, which usually meets three times each year; and the International Labour Office, which provides the Secretariat of the Organization. The Conference is composed of delegations from the Member States of the Organization. At the end of 1960 there were 83 Member States, each of which is entitled to be represented by four delegates—two Government, one representing employers and one representing workers, together with their advisers. Each delegate speaks and votes independently, so that all points of view in each country are fully expressed. The Governing Body consists of the representatives of twenty governments, and ten employers' and ten workers' representatives. Of the twenty government representatives, half are from the ten countries of major industrial importance and ten are elected by the remaining governments. These latter ten government representatives and the ten employers' and ten workers' titular delegates and the deputy members of the three groups are elected by their groups at the Conference every three years. Particulars are given in previous issues of the Labour Report of the proceedings of International Labour Conferences up to the 43rd Session held in Geneva in June, 1959.

2. The International Labour Conference.—(i) *General.*—These Conferences are composed of government, employer and worker delegations from member countries. The employer and worker delegates to the International Labour Conferences must be chosen, under the provisions of the I.L.O. Constitution, by each Government in agreement with the most representative employer and worker organizations of the country. The principal function of the Conference (which meets at least once a year) is to draft international minimum social and labour standards which take the form of International Labour Convention and Recommendations.

(ii) *Recent Sessions.*—The 44th Session of the Conference was held in Geneva in June, 1960. The Australian delegation was:—Government delegates, The Hon. W. McMahon, Minister for Labour and National Service; Mr. H. A. Bland, C.B.E., and Mr. L. J. Arnott; Employers' delegate, Mr. H. W. Robinson; Workers' delegate, Mr. A. E. Monk.

The main topics were:—Protection of workers against ionizing radiations; co-operation between public authorities and employers' and workers' organizations at the industrial and national levels; reduction of hours of work; workers' housing; the contribution of the I.L.O. to the raising of incomes and living conditions in rural communities in Asia; measures to protect the living and working conditions of young workers; the setting up of a standing committee on discrimination, and the International Institute for Labour Studies.

The contribution of the I.L.O. to the raising of incomes and living conditions in rural communities in Asia was also considered at the 10th Session of the I.L.O. Asian Advisory Committee in November, 1960. Australia has been a member since the committee's inception in 1950.

3. Governing Body.—The Governing Body has 40 members, of whom 20 represent governments, 10 employers and 10 workers throughout the world. Since 1945, Australia has alternated as a Member and Deputy Member of the government group, but in 1960 failed to secure re-election. Mr. A. E. Monk, President of the A.C.T.U., is a titular member of the workers' group. Sir Lewis Burne, C.B.E., did not stand for re-election as titular member of the employers' group and was elected a deputy member.

4. Industrial Committees.—During 1960 an Australian tripartite delegation, representing the government, the employers and the workers attended a meeting of specialists in civil aviation held in Geneva from 26th September to 7th October, 1960.

5. I.L.O. Conventions and Recommendations.—(i) *General.*—An I.L.O. Convention is an international treaty which has to be approved by two-thirds of the delegates at the Conference before it is adopted. As part of their Constitutional obligations as Member States of the Organization, Governments are required to bring Conventions adopted by Sessions of the Conference to the attention of their competent national authorities (Parliament) to be considered for ratification. After a Government ratifies an I.L.O. Convention, not only does it enter into a formal treaty obligation to ensure compliance with its provisions, but also it must report annually to the International Labour Office (the I.L.O. Secretariat) on the measures it is taking to give effect to its provisions, and must furnish copies of these Reports to the national representative workers' and employers' organizations. Countries which do not ratify Conventions are still obliged to examine them, to report back to the I.L.O. about the state of their law and practice and give reasons why they have not ratified them.

Recommendations do not require ratification, but Governments are obliged to bring them to the attention of the competent national authorities for consideration. These authorities must in turn weigh the possibility of adopting legislation or taking any other action that may be necessary to give effect to the provisions of Recommendations. A Report describing the way in which these obligations have been discharged must be sent to the I.L.O.

The International Labour Conference, during its 44 Sessions between 1919 and 1960, has adopted 115 Conventions and 114 Recommendations setting forth international minimum standards. These constitute what has become known as the International Labour Code. The Code covers a wide range of subjects, including wages, hours of work, annual holidays with pay, age of admission to employment, medical examination for fitness for employment, maternity protection, industrial health, safety and welfare, social insurance and assistance, unemployment insurance, compensation for employment injuries, freedom of association, right to organize and bargain collectively, employment conditions of seamen, etc. The Code has played an important part in the improvement of working and living conditions all over the world since 1919.

As far as Australia is concerned, the provisions of the Constitution are such that only the Commonwealth Government, under the "external affairs" power, may ratify international treaties, including I.L.O. Conventions, on behalf of Australia. The Commonwealth Government thus becomes internationally responsible for ensuring their observance. However, the Constitutional division of powers as between the Commonwealth and the States is such that although the subject matter of some I.L.O. Conventions is solely within the legislative competence of the Commonwealth, the subject matter of the great majority is the joint responsibility of the Commonwealth and the States. In the case of this latter category of Conventions it is necessary, before such Conventions can be ratified by Australia, that the law and practice in each State should already be precisely (and not just generally) in accord with their provisions. In addition, the Commonwealth Government has to ensure that its own law and practice in the Northern Territory and the Australian Capital Territory and, in some instances, in the general Commonwealth legislative field as well, are satisfactory. In other words, in respect of most I.L.O. Conventions, the law and practice in nine separate jurisdictions have to be precisely in accord with their provisions before they can be ratified by Australia. Moreover, it has been the policy of the Commonwealth Government since 1919, irrespective of party, not to proceed with ratification (on behalf of Australia as a whole) of I.L.O. Conventions that concern the States until each of the States has not only introduced satisfactory law and practice, but also formally agreed to ratification by the Commonwealth.

Further, the I.L.O. Constitution provides that I.L.O. Conventions, once ratified by a member country, have to be considered from the point of view of extending the ratification to that country's non-metropolitan territories (where such exist), and a Declaration indicating that country's attitude to such extensions has to be submitted to the I.L.O. In other words, as far as Australia is concerned, once an I.L.O. Convention has been ratified in respect of the mainland, consideration has to be given to its extension to the Territories of Papua and New Guinea, Nauru and Norfolk Island. In passing, it could be added that there are a few I.L.O. Conventions which apply only to non-metropolitan territories.

(ii) *Conventions ratified by Australia.*—As at 1st January, 1961, Australia had ratified 25 I.L.O. Conventions—18 based exclusively on the law and practice of the Commonwealth Government. A summary of the purpose and main

provisions of each Convention ratified to the end of 1959 was published in Labour Report No. 47, 1959. The following Conventions were ratified during 1960:—

No. 12—*Workmen's Compensation (Agriculture)*, 1921.—This Convention provides that each member of the I.L.O. which ratifies the Convention undertakes to extend to all agricultural wage earners its laws and regulations which provide for the compensation of workers for personal injury by accident arising out of or in the course of their employment.

Ratified by Australia 7th June, 1960.

No. 105—*Abolition of Forced Labour*, 1957.—Each member which ratifies this Convention undertakes to suppress and not to make use of any form of forced or compulsory labour; (a) as a means of political coercion or education or as a punishment for holding or expressing political views or views ideologically opposed to the established political, social or economic system; (b) as a method of mobilizing and using labour for purposes of economic development; (c) as a means of labour discipline; (d) as a punishment for having participated in strikes; (e) as a means of racial, social, national or religious discrimination.

Ratified by Australia 7th June, 1960.

(a) Apricot jam.

(b) Home killed.

SECTION III.

The following is a reproduction of the bulletin of 10th May, 1961, containing the first issue of transitional "C" Series Retail Price Index Numbers. (See Chapter I., §4, para. 1 (iii) of this Labour Report.)

TRANSITIONAL "C" SERIES RETAIL PRICE INDEX NUMBERS.

Before general publication of the "C" Series Retail Price Index was discontinued on 20th April, 1961, action was taken to ascertain the extent of demand for it.

2. In general, it had come to be realized over the previous six months that most needs for a reliable measure of current trends in retail prices are best met by the Consumer Price Index, first published on 12th August, 1960. Therefore the residual demand for index numbers on the "C" Series level is for special uses of a transitional nature.

3. The Consumer Series Index has the same original purpose as did the "C" Series Index, viz., to measure retail price changes in the general field of wage-earner household expenditures. But it provides a better measure for current purposes, because the Consumer Index is modern; that is, not only are its item-weights and group-weights closely related to current patterns of household expenditure, but also its list of items is consistent with current usage in wage-earner households.

4. But although the residual demands for transitional indexes on the "C" Series level are relatively small, some of them are very significant:—

(a) Some current statutes, awards, and industrial agreements as to wages as well as some contracts as to rentals under leases, options of purchase, options of renewals of leases, and in a few cases prices of goods and services, require for their continued operation "C" Series retail price indexes issued by the Commonwealth Statistician and (*ipso facto*) certified by him as valid. The most appropriate means by which the terms of these arrangements can be fulfilled, without dislocation, is to continue the last published "C" Series Index numbers of December quarter, 1960 for future quarters in ratio to retail price variations shown by relevant Consumer Series. "C" Series Index numbers compiled on this basis for March quarter, 1961 are shown on the annexure in comparison with the last "C" Series Index published on the old formula. Where "C" Series Indexes are required for "five towns" and other combinations subsequent to December quarter, 1960 price movements in capital cities are imputed to country towns.

(b) Hypothetical indexes on the old "C" Series formula for March quarter, 1961 are supplied when required for consideration by tribunals and parties to industrial proceedings. But these, being unreliable, cannot be issued as "C" Series Retail Price Indexes certified by the Commonwealth Statistician and are therefore not made available for publication.

5. Provision of a long-term retail price index linking the "C" Series to the Consumer Series is under consideration. This is akin to the linking provided between the "A" Series and the "C" Series Indexes.

"C" SERIES RETAIL PRICE INDEX.

(Base: Weighted Average of Six Capital Cities 1923-27 = 1,000.)

—	December Quarter, 1960.(a)	March Quarter, 1961.(b)
Capital Cities—		
Sydney	2,885	2,906
Melbourne	3,075	3,090
Brisbane	2,726	2,761
Adelaide	2,873	2,896
Perth	2,964	2,991
Hobart	3,104	3,133
Weighted Average Six Capital Cities ..	2,939	2,960
Weighted Averages—		
Five Towns (N.S.W.)	2,878	2,899(c)
Five Towns (Vic.)	3,062	3,077
Five Towns (Qld.)	2,727	2,762
Five Towns (S.A.)	2,857	2,880
Five Towns (W.A.)	2,961	2,988
Five Towns (Tas.)	3,038	3,067

(a) As issued for the information of Industrial Tribunals on 20th January, 1961. (b) Compiled in accordance with the movement shown by the Consumer Price Index from December quarter, 1960 to March quarter, 1961 for the respective capital cities. (c) Including individual index number for Broken Hill.

SECTION IV.

WEIGHTED AVERAGE MINIMUM WEEKLY WAGE RATES: ADULT MALES.

NOTE.—The wage rates shown in the tables in this section are weighted average minimum weekly rates payable for a full week's work (excluding overtime), as prescribed in awards, determinations and agreements.

For an explanation of the methods by which the data for the indexes of minimum weekly wage rates were obtained and of the system of weighting, see page 57.

SECTION V.

WEIGHTED AVERAGE MINIMUM WEEKLY WAGE RATES: ADULT FEMALES.

Note.—The wage rates shown in the tables in this section are weighted average minimum weekly rates payable for a full week's work (excluding overtime), as prescribed in awards, determinations and agreements.

For an explanation of the methods by which the data for the new indexes of minimum weekly wage rates were obtained and of the system of weighting, see pages 57 and 58.

WEIGHTED AVERAGE MINIMUM WEEKLY WAGE RATES(a): ADULT FEMALES, ALL GROUPS.

(a) See note (a) on page 201.

SECTION VI.

AVERAGE EARNINGS.

NOTE.—The figures shown in the tables in this section are derived from employment and wages and salaries recorded on Pay-roll Tax returns, from other direct collections and from estimates of the unrecorded balance. Pay of the members of the Defence Forces is not included. The money amounts are not seasonally adjusted. Seasonally adjusted quarterly indexes of average earnings are shown in the table on page 208.

(a) Total wages and salaries, etc., divided by total civilian employment expressed in male units. The total of wages and salaries includes, in addition to wages at award rates, earnings of salaried employees, overtime earnings, over-award and bonus payments, etc. Male units represent total male employment plus a proportion of female employment based on the approximate ratio of female to male earnings. As it is not possible to estimate the ratio of female to male earnings in the several States, the same ratio has been used for each State. Because the actual ratio may vary between States, precise comparisons between average earnings in different States cannot be made on the basis of the figures above.

(b) Includes the Australian Capital Territory. (c) Includes the Northern Territory.

Note.—Comparisons as to trend should be made for complete years or corresponding periods of incomplete years. Quarterly totals and averages are affected by seasonal influences.

March ..	95.9	95.4			
June ..	96.3	96.5			

(a) See note (a) on page 205. (b) Average earnings per male unit employed. Male units represent total male employment plus a proportion of female employment based on the approximate ratio of female to male earnings. The "All Industries" index is based on Pay-roll Tax returns and other data. (c) The index for manufacturing industries is based on the average earnings of male wage and salary earners employed in factories as disclosed by annual Factory Censuses.

Note.—The index numbers for "All Industries" and "Manufacturing" show the movement in average earnings over a period of time. However, they do not give, at any point of time, a comparison of actual earnings in the two groups.

SECTION VII.

MINIMUM RATES OF WAGE FOR ADULT MALE WORKERS IN THE MAIN OCCUPATIONS IN THE CAPITAL CITY OF EACH STATE FOR A FULL WEEK'S WORK (EXCLUDING OVERTIME) AT 31st DECEMBER, 1960.

Note.—The wage rates in this Section have been taken from awards, determinations and agreements of industrial tribunals, and in some cases from unregistered agreements. The occupations shown are broadly representative of the occupations in the various industries in each State. Rates shown are generally those payable in the capital cities and this has been indicated by showing the names of the capital cities at the head of the columns. Where rates other than those for capital cities have been quoted, column headings have been changed to show the names of the several States.

For some occupations more than one wage rate is quoted, indicating that there were different classes or grades of work or that different rates were payable according to locality. Where only two rates are specified, they are shown in the form "328s. Od. & 338s. Od.". In other cases the rates are shown in the form "319s. Od. to 367s. Od.", indicating that, in addition to the two rates specified, certain intermediate rates were also prescribed.

In the majority of cases, the rates shown are those payable for a full week's work (excluding overtime). Where it was not possible to quote such rates, hourly, daily or monthly rates are shown. For most occupations the hours constituting a full week's work (excluding overtime) are 40; where the hours prescribed differ from 40 they are shown in footnotes to the tables.

The wage rates and hours of work shown in this Section have been compiled for statistical purposes only, and any inquiries regarding actual rates payable for particular occupations should be addressed to the appropriate industrial tribunal.

The list of occupations has been revised since the previous issue of the Labour Report in order to provide a more representative coverage. However, occupations shown are not necessarily included in the Minimum Wage Rate Index.

SECTION X.

**COMMONWEALTH CONCILIATION AND ARBITRATION COMMISSION.
BASIC WAGE AND STANDARD HOURS INQUIRY, 1961.**

In this case two applications to vary the Metal Trades Award were before the Commission. In the first the employers sought to increase the number of ordinary working hours per week from 40 to 42, with a concomitant increase in weekly wages by an amount equivalent to two hours pay at ordinary rates and to effect certain other consequential variations. In the second the unions applied for an increase in the basic wage on a six capital cities basis by the amount of 49s. (which was amended during the hearing to 52s.) and for the re-introduction of automatic quarterly adjustments based on the "C" Series Retail Price Index. The amount claimed represented 27s. (30s.) for cost of living increases since 1953 and 22s. to reflect increases in productivity since that time.

The inquiry opened on 14th February, 1961 before Kirby, C.J., Ashburner and Moore JJ., and the judgment was delivered on 4th July, 1961.

The following is an extract from a statement made by Kirby, C.J. on 4th July, 1961:—

"The members of the bench have reached unanimous decisions which, with the reasons for the decisions, are published in the judgment which is now handed down.

Decisions.

1. The employers' claim for an increase in the standard hours of work from forty to forty-two with a concomitant increase in the weekly wage equivalent to two hours pay at ordinary rates is refused.

2. The unions' claim for restoration of automatic quarterly adjustments is refused.

3. The basic wages of adult male employees covered by federal awards will be increased by a uniform amount of 12s. per week.

4. The new rates will come into effect from the beginning of the first pay-period commencing on or after 7th July instant subject to special cases.

5. For the specific reasons set out in the judgment we consider that in February next the only issue in regard to the basic wage should be why the money wages fixed as a result of our decisions should not be adjusted in accordance with any change in the Consumer Price Index and for the purpose of deciding that issue the Order giving effect to the decisions hereby announced will also provide for the adjournment of the application of the unions for increase of the basic wages under the Metal Trades Award to Tuesday, 20th February, 1962, in Melbourne, when such submissions thereon as are desired to be made will be heard.

6. The decisions regarding increases in basic wages is applicable to all the applications which have been ordered by the Commission to be joined for hearing and decision with the original application and those joined applications are stood over to a date after 20th February, 1962, to be fixed by the Commission."

In the Metal Trades Award and in federal awards generally the basic wage for adult females was increased by 9s. a week. Proportionate increases for juniors and apprentices were also granted.

The effect of the decision in para. 5 above was set out more fully in the reasons for judgment. After giving reasons why it was not prepared to restore the system of automatic quarterly adjustments and for its preference for the Consumer Price Index over the "C" Series Index, the Commission made the following statement:—

"We consider it desirable that the application of the Consumer Price Index should always be subject to control by the Commission and that the Commission should be able to decide whether a particular increase or decrease in the figures as disclosed in the Consumer Price Index should be applied to the basic wage. Our present opinion is that this consideration of prices should take place annually. We will each year make the assumption that the effect of movements in the Consumer Price Index should be reflected in the basic wage unless we are persuaded to the contrary by those seeking to oppose the change. As the basis of our decision is the desirability of maintaining the value of the real wage based on the concept of national capacity, the appropriate matter for consideration would appear to be what should be the effect on the six capital cities basic wage of movements in the six capital cities index. The resulting figure will be applied to all federal basic wages.

Since such a consideration of price movements is to take place annually the question remains whether the Commission should at the annual hearing continue to review all factors in the economy to decide whether or not to change the level of the real basic wage. It seems to us that once the question of prices is dealt with otherwise a review of the economy generally and in particular of productivity increases could more properly take place at longer periods of time, say, every three or four years."

SECTION XI.

COMMONWEALTH BASIC WAGE RATES—1923 TO 1961.

The following table shows the basic weekly wage rates prescribed for adult males under periodical decisions of the Commonwealth Court of Conciliation and Arbitration and the Commonwealth Conciliation and Arbitration Commission, including automatic variations made prior to 12th September, 1953 in accordance with quarterly changes in the retail price index for the city or combination of cities shown at the head of the table. On that date the Court announced its decision to discontinue the system of automatic adjustment of the basic wage in accordance with variations occurring in retail price index numbers. The amount *legally* payable in any specific instance must be determined by reference to the appropriate award.

- (1) The rates of wage shown include "Powers 3s." (or the equivalent thereof) and "Prosperity" loadings, where applicable.
- (2) The 10 per cent. reduction operative from February, 1931, to May, 1934, has been applied.
- (3) Until August, 1953 the rates generally operated from the beginning of the first pay-period commencing in the month indicated.

			November ..	15 1 0	11 5 6

(a) From February, 1914 to April, 1937, rates shown are those declared by the appropriate industrial tribunal in New South Wales. (b) From October, 1937 to August, 1953, male rates are those of the Commonwealth Court of Conciliation and Arbitration. (c) From October, 1937 to November, 1950, female rates were 54 per cent. of male rates. (d) Female rate 75 per cent. of male rate. See p. 80. (e) Automatic adjustments discontinued. (f) Automatic adjustments reintroduced. (g) See p. 107 regarding legislation providing for equal pay for females.

NOTE.—Except where dates are quoted, rates were operative from the beginning of the first pay-period commencing in the month shown.

VICTORIAN STATE JURISDICTION: MELBOURNE RATES.

NOTE.—Although there is no provision in Victorian industrial legislation for the declaration of a State basic wage, Wages Boards have generally adopted a basic wage in determining minimum rates. Prior to November, 1953, Wages Boards usually adopted Commonwealth basic wage rates (see page 108). Rates generally adopted thereafter are shown below.

(a) Within a radius of 15 miles of the G.P.O., Perth. Other rates are declared for the South-West Land Division and for the Goldfields area and all other parts of the State. (b) Operative from the beginning of the first pay period commencing in the month. (c) Female rates increased to 65 per cent. of male rates. (d) Female rates increased to 75 per cent. of male rates.

TASMANIAN STATE JURISDICTION: HOBART RATES.

Note.—No provision is made in Tasmanian industrial legislation for the declaration of a State basic wage. Prior to February, 1956, most Wages Boards generally adopted Commonwealth basic wage rates (see page 114). Rates generally adopted thereafter are shown below.

(a) Refers only to disputes involving a stoppage of work of 10 man-days or more.
(b) Persons thrown out of work at the establishments where the stoppages occurred but not themselves parties to the dispute.

Note.—Particulars of all disputes in progress during any year are included in the annual figures whether the dispute commenced in that year or was in progress at the beginning of the year. Consequently, details of the number of disputes and workers involved in disputes which commenced in any year and were still in progress during the following year are included in the figures for both years.

SECTION XIV.
TRADE UNIONS: NUMBER AND MEMBERSHIP(a); AUSTRALIA.

Year.	Number of Unions.	Number of Members.
