

Labour Force Survey: Introduction of ANZSIC for industry data

Introduction

This paper provides information about a change in the industrial classification used in the Labour Force Survey (LFS). From August 1994, the Australian and New Zealand Standard Industrial Classification (ANZSIC) will replace the Australian Standard Industrial Classification (ASIC). A detailed description of the Classification and its structure is given in *Australian and New Zealand Standard Industrial Classification 1993* (1292.0), published in 1993.

Industry classifications and the Labour Force Survey

The ANZSIC, like the ASIC, is a classification which serves to identify groupings of businesses which carry out similar economic activities and which satisfy other conditions (like economic significance). These groups can be used to define an industry. An individual business can then be assigned to an industry on the basis of its predominant economic activity.

The industry classification can then be used in collections such as the LFS, where employed and unemployed persons are classified to either the industry of the business in which they are employed, or to the industry of the business in which they were previously employed (in the case of unemployed persons who had worked full time for at least two weeks in the last two years).

Development of ANZSIC

The ANZSIC was developed by the Australian Bureau of Statistics and Statistics New Zealand for use in the production and analysis of industry statistics in both countries.

The development of the ANZSIC resulted from the need to improve the comparability of industry statistics between Australia and New Zealand. While the development of ANZSIC reflects changes in the world economy during the last twenty years, it also acknowledges particular circumstances in Australia and New Zealand, such as:

- a shift away from goods-producing industries to service industries;
- the desire for closer alignment with the International Standard Industrial Classification of All Economic Activities (ISIC), Revision 3;

INQUIRIES

- for further information about the contents of this publication or the availability of labour force data products and services, contact Sylvia Sajler on Canberra (06) 252 6525 or any ABS State office.
 - for information about other ABS statistics and services please refer to the back page of this publication.
-

- rapid technological development;
- user requirements for separate industry categories.

Structure of the ANZSIC

The ANZSIC, like the ASIC, has a structure consisting of categories at four levels: Divisions (the broadest level), Subdivisions, Groups and Classes. At the Division level the main purpose is to provide a limited number of categories which will provide a broad overall picture of the economy. There are 17 divisions with the ANZSIC, each identified by an alphabetical character, as follows:

<i>Division</i>	<i>Title</i>
A	Agriculture, Forestry and Fishing
B	Mining
C	Manufacturing
D	Electricity, Gas and Water Supply
E	Construction
F	Wholesale Trade
G	Retail Trade
H	Accommodation, Cafes and Restaurants
I	Transport and Storage
J	Communication Services
K	Finance and Insurance
L	Property and Business Services
M	Government Administration and Defence
N	Education
O	Health and Community Services
P	Cultural and Recreational Services
Q	Personal and Other Services

The Subdivision, Group and Class levels provide increasingly detailed dissections of the broad categories. LFS responses were only coded at the Group (3-digit) level under the ASIC. A similar practice will continue under the ANZSIC, with responses coded at the Group level.

ASIC/ANZSIC concordance

To assist users in making comparisons with previously published data, Appendix 1 provides a concordance of the ASIC Group level compared with the corresponding ANZSIC Group(s). The concordance also shows the estimated proportion of employment attributable to each ANZSIC Group(s), as compared with ASIC Group data using information at the establishment unit level taken from the ABS Business Register as at May 1994.

Historical estimates of employment by ASIC industry group have been compiled after converting unit records using the proportions shown in this concordance to ANZSIC equivalent Groups. See Data availability below for more information about the availability of ANZSIC data from the Labour Force Survey.

Data availability

From the August 1994 LFS, the ANZSIC will be used to classify employed and unemployed persons by industry. Industry data will be available at the Division, Subdivision and Group level (the most detailed level at which industry will be coded for the LFS).

Historical data

Historical data at the ANZSIC Division level, produced using the above concordance, will be available for August 1986 to August 1994. Historical data from February 1978 will be available at a later date. The ABS will also be able to make available more detailed information in the form of customised reports. In general, a charge is applied for providing unpublished information. Inquiries regarding the availability of unpublished labour force data should be made to Sylvia Sajler on Canberra (06) 252 6525 or any ABS State Office.

Seasonally adjusted and trend estimates

Original, seasonally adjusted and trend estimates of employed persons by ANZSIC industry Division will be published from the August issue of *The Labour Force, Australia* (6203.0).

Appendix 2 contains tables showing original, seasonally adjusted and trend estimates of industry (ANZSIC Division level) from May 1986 to May 1994.

For more information ...

The ABS publishes a wide range of statistics and other information on Australia's economic and social conditions. Details of what is available in various publications and other products can be found in the *ABS Catalogue of Publications and Products* available at all ABS Offices (see below for contact details).

Information Consultancy Service

Information tailored to special needs of clients can be obtained from the Information Consultancy Service available at ABS Offices (see Information Inquiries below for contact details).

National Dial-a-Statistic Line

0055 86 400

(Steadycom P/L premium rate 25c/21 4 secs.)

This number gives 24-hour access, 365 days a year for a range of statistics.

Electronic Data Services

A large range of data is available via on-line services, diskette, magnetic tape, tape cartridge and CD ROM. For more details about our electronic data services, contact any ABS Office (see below).

Bookshops and Subscriptions

There are over 400 titles of various publications available from ABS bookshops in all ABS Offices (see below Bookshop Sales for contact details). The ABS also provides a subscription service through which nominated publications are provided by mail on a regular basis at no additional cost (telephone Publications Subscription Service toll free on 008 02 0608 Australia wide).
