(a) From December quarter 1993, establishments with fewer than 5 rooms have been formally excluded from the scope of this collection. See Explanatory Note 2 (page 22).

(b) Star gradings refer to the grading of hotels, motels and guest houses with facilities by members of the Australian Automobile Association (AAA), published in the RACV-RAASA members' publication *Accommodation Australia*. Note that numerous changes in the grading of individual establishments were effected in the Winter Edition of *Accommodation Australia* released in May 1993 including the grading of a significant number of previously ungraded, small establishments. The net effect of these changes has been a significant increase in 3, 4 and 5 star establishment numbers and a corresponding decrease in numbers of lower classified establishments as reflected in Accommodation Survey figures from June quarter 1993.

(a) The following persons are not included in these statistics : passengers under three years of age accompanied by an adult ; passengers travelling on chartered flights with minor carriers ; passengers travelling on private or VIP flights.

(b) The proportion of departing passengers who were visitors was shown to be about 58 per cent in the 1981 Tasmanian Visitor Survey, around 55 per cent in the 1984 TVS, about 53 per cent in the 1986 TVS, nearly 60 per cent in the 1988 TVS, close to 65 per cent in the 1990 TVS, almost 58 per cent in the 1991 TVS and almost 55 per cent in the 1992 TVS.

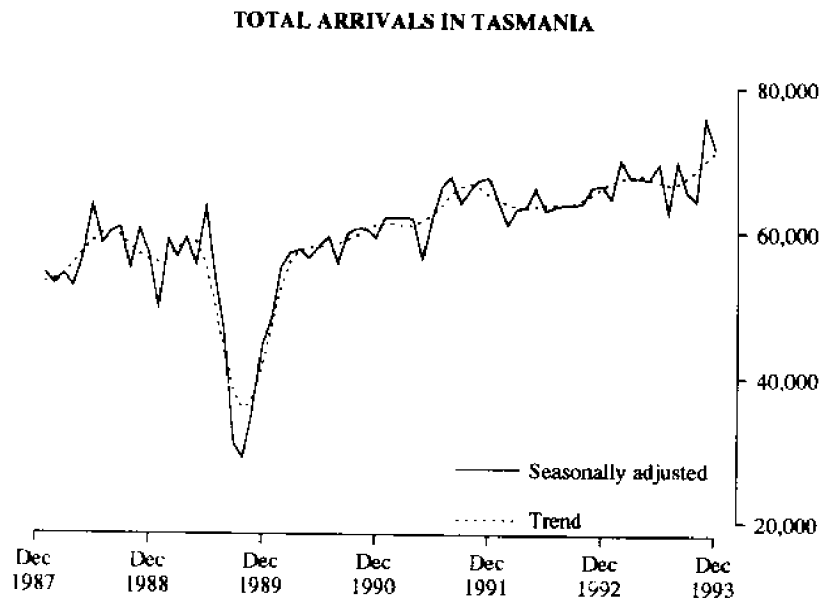

(c) Cruise ship statistics were not collected before November 1986 and are not included in Total Arrivals and Total Departures.

(d) The domestic airline pilots dispute commenced on 18 August 1989 with the pilots working restricted hours (9 a.m to 5 p.m). The pilots were suspended on 23 August 1989.

- (a) There is an annual recalculation of seasonal adjustment factors to include the most recent year's arrivals. This occurs at the end of each financial year and may cause revisions to previously-published seasonally-adjusted and trend figures, as can be seen in Table 11. A full printout of seasonally-adjusted and trend series figures dating back to 1971 can be obtained through the publication officer for this publication (Graeme Lakin).
- (b) The domestic airline dispute commenced on 18 August 1989 with the pilots working restricted hours (9 a.m. to 5 p.m.). The pilots were suspended on 23 August 1989.

CHANGES TO GEOGRAPHIC BOUNDARIES, TASMANIA (Effective 1 July 1993)

As from 1 July 1993, substantial changes have been made to Local Government Area (LGA) boundaries in Tasmania. The changes include amalgamations and major and minor boundary changes and involve an overall reduction in the number of LGAs from 46 to 29. The changes as they affect Statistical Divisions and Subdivisions are detailed below.

EXPLANATORY NOTES

INTRODUCTION

1 This publication contains data for Tasmania from a quarterly survey of tourist accommodation establishments. The period covered by the latest survey is the 3 months ended 31 December 1993.

SCOPE

2 Tourist accommodation establishments currently included in the survey comprise two groups:

- Establishments which provide predominantly short-term accommodation (i.e. for periods of less than 2 months) to the general public. These include:

Hotels, motels and guest houses, with facilities being hotels licensed to operate a public bar and motels, private hotels and guest houses all of which provide a bath (or shower) and toilet in most guest rooms and have breakfast available for guests.

NOTE: From December quarter 1993, hotel, motel and guest house establishments with fewer than five rooms have been formally excluded from the scope of this statistical collection. This change in scope resulted in the exclusion of 13 establishments which in the September quarter 1993 Survey aggregates for Tasmania represented 6.8 per cent of hotel, motel and guest house establishments but accounted for only 0.7 per cent or less of accommodation capacity, occupancy and takings respectively.

Holiday flats, units and houses (excluding establishments predominantly operated on a time share basis) which are operated by owners or managers who have sole letting rights to at least five flats, units or houses or by real estate agents for short-term letting. They are mainly self-contained in terms of cooking, bath (or shower) and toilet facilities and do not have breakfast available for guests. Data for holiday flats, units and houses include short-term owner occupation as well as paying guest occupation.

Visitor hostels which provide accommodation to visitors on a bed basis (rather than by the room). This category does not include establishments providing charity type accommodation (e.g. Salvation Army hostels) nor hotels, motels and guest houses without in-room facilities which provide accommodation on a per room basis.

- *Caravan parks* which provide either predominantly short-term (i.e. for periods of less than 2 months) or predominantly long-term (i.e. for periods of 2 months or more) accommodation to the general public and which provide powered sites for caravans and toilet, shower and laundry facilities for guests.

3 Data collected and published for each type of establishment (other than holiday flats, units and houses) include both long-term and short-term guests at these establishments.

4 Establishments which provide more than one type of accommodation (e.g. a motel with attached caravan park) are treated as two or more separate establishments. However, self-contained units, flats, cabins, etc. attached to hotels, motels or to caravan parks are included in the capacity for those establishments and not treated as separate holiday flat, unit or house establishments.

DEFINITIONS

5 *Number of establishments.* For hotels, motels and guest houses, caravan parks and visitor hostels, the number of establishments within the scope of the survey which operated for any part of the survey period, or which closed temporarily for the quarter for seasonal reasons.

6 *Number of letting entities.* For holiday flats, units and houses, the number of owners, managers or real estate agents within the scope of the survey who operated for any part of the survey period.

7 Capacity in terms of *Guest rooms, Bed spaces, Holiday units or Caravan park sites, etc.* is the maximum number available to accommodate paying guests during the survey period. Capacity closed temporarily for seasonal reasons is included.

8 *Bed spaces.* Three-quarter beds are counted as one bed space; double beds as two bed spaces. Cots are excluded.

9 *Total caravan park capacity* comprises *On-site vans, Other powered sites, Unpowered sites and Cabins, etc.*

EXPLANATORY NOTES—continued

DEFINITIONS—continued

10 *Room nights available.* The number of guest rooms available multiplied by the number of days for which they were available during the survey period. Includes operating periods only for establishments closing (other than for seasonal reasons) or opening during the survey period.

11 Occupancy in terms of *Room nights*, *Unit nights* or *Site nights occupied* refers to the total number of nights each guest room, holiday unit or caravan park site, etc. was occupied during the survey period.

NOTE: From September quarter 1992, caravan park sites, etc. permanently reserved for 2 months or more at the end of the survey period but only casually occupied by their tenants have been recorded continuously as *Site nights occupied* irrespective of whether the tenants of individual sites were in residence on any particular night. (See also paragraph 14 below). Previously, usage of these sites was recorded as *Site nights occupied* only when their tenants were in the park. Total site occupancy rates from September quarter 1992 are therefore not comparable with those from previous quarters.

12 Occupancy in terms of *Guest nights* refers to the total number of nights each paying guest stayed during the survey period.

13 *Sites occupied by long-term guests.* The total number of sites, etc. occupied at the end of the survey period by guests who have stayed continuously for 2 months or more.

14 *Other sites permanently reserved.* The total number of powered and unpowered sites, on-site vans and cabins, etc. continuously let for 2 months or more by the end of the survey period to tenants who occupy the sites only on a casual or sporadic basis. Separate data for this item are available only from September quarter 1992.

15 *Occupancy rates* represent occupancy expressed as a percentage of total capacity available during the survey period - e.g.

$$\text{Room occupancy rate (\%)} \text{ for the period} = \frac{\text{Room nights occupied}}{(\text{Guest rooms}) \times (\text{No. of days in the period})} \times 100$$

providing that, for establishments closing (other than for seasonal reasons) or opening during the period, the denominator of the above expression includes only operating periods.

16 *Guest arrivals.* The total number of paying guests counted only on the first night they stayed at the accommodation establishment.

17 *Unit lettings.* The total number of times a holiday flat, unit or house was occupied by a new tenant, counted only on the first night it was occupied by the new tenant.

18 *Average length of stay* is expressed in number of days and calculated:

- for hotels, motels and guest houses and for visitor hostels, by dividing *Guest nights* by *Guest arrivals* and
- for holiday flats, units and houses, by dividing *Unit nights occupied* by *Unit lettings*.

19 *Takings from accommodation.* Revenue received from the provision of accommodation. Takings from meals are excluded. Takings from accommodation for each month generally represent the takings received during that month. Where payments are received in advance of, or after, the provision of accommodation to guests, the monthly figure for takings from accommodation may not necessarily bear a direct relationship to the number of guests accommodated during the month. Rental and storage fees paid to caravan parks for the keeping of private vans in parks are included in the takings of the month they are received.

20 *Star grading.* The grading of hotels and motels with facilities based on the classification system used by members of the Australian Automobile Association (AAA). The gradings are allocated according to a points system based on the amenities and facilities available to guests. Details of the grading scheme are contained in the RACV-RAASA members' publication *Accommodation Australia*, or the individual tour guides produced by members of the AAA. For the purpose of classifying establishments to a star

EXPLANATORY NOTES —continued

grading in this publication, 'half' star gradings are ignored (e.g. a two and a half star grading has been shown as two star).

21 *Employment.* The number of persons working at accommodation establishments at the end of the survey period (including working proprietors and those working on other than accommodation activities).

AUSTRALIAN STANDARD
GEOGRAPHICAL
CLASSIFICATION

22. Statistics presented in this publication have been classified according to the Australian Standard Geographical Classification (ASGC), Edition 2.3. This classification incorporates a number of hierarchic structures of geographic areas. The appropriate spatial units of the main structure of the ASGC used in this publication are:

Statistical Local Areas (SLAs), which are legal Local Government Areas or parts thereof, which serve as the smallest type of spatial unit considered appropriate for the presentation of statistics and which add, without gaps or overlaps, to;

Statistical Subdivisions (SSDs) which in turn represent another, higher hierarchic level and add, without gaps or overlaps, to;
