

DWELLING UNIT COMMENCEMENTS

Reported by Approving Authorities

WESTERN AUSTRALIA

June 1995

MAIN FEATURES

The number of houses commenced in June 1995 increased by 5.6 per cent when compared with May 1995 and decreased by 25.2 per cent when compared with June 1994.

The number of total dwelling units commenced in June 1995 increased by 17.1 per cent when compared with May 1995 and decreased by 30.5 per cent when compared with June 1994.

The number of houses commenced in the 1994-95 financial year decreased by 10.8 per cent when compared with the 1993-94 financial year.

The number of total dwelling units commenced in the 1994-95 financial year decreased by 10.7 per cent when compared with the 1993-94 financial year.

Comparisons with previous periods are:

<i>Period</i>	<i>Houses</i>	<i>% change</i>	<i>Total dwelling units</i>	<i>% change</i>
June 1994	1,543		2,265	
June 1995	1,154	-25.2	1,574	-30.5
May 1995	1,093		1,344	
June 1995	1,154	5.6	1,574	17.1

NOTES

This publication contains monthly details of the number of new dwellings reported by approving authorities as having commenced in each statistical local area.

Explanatory notes are included at the back of this publication.

P.C. Kelly
Deputy Commonwealth Statistician
and Government Statistician

INQUIRIES

- Contact Mr David Brown on (09) 360 5129 for further information about statistics in this publication and the availability of related unpublished statistics.
- For information about other ABS statistics and services please refer to the back page of this publication.

(a) In July 1994 the City of Perth (previously comprising 5 Statistical Local Areas) was restructured to form the 3 new towns of Cambridges, Shepperton (renamed Victoria Park on the 2 November 1994) and Vincent, the residual area remaining the City of Perth (comprising 2 Statistical Local Areas). Please refer to the Explanatory notes on page 22 for greater detail. (b) From July 1993 the Shire of Boddington is located in the South-West Statistical Division. It was previously located in the Upper Great Southern Statistical Division. Data for this cell may be found in the Upper Great Southern SD or vice versa. (c) In July 1993 the Shire of Wiluna was split into the Shires of Wiluna and Ngaanyatjaraku. Data for Wiluna prior to July 1993 includes that for the area occupied by Ngaanyatjaraku.

(a) Cancelled approvals are those which have been notified by the approving authority as cancelled. Cancellations can occur for a variety of reasons and may not always indicate non commencement of building activity, e.g. after an approval is granted, plans may be resubmitted and another approval recorded. These figures should be used with caution.

(b) Lapsed approvals are those which have not commenced within thirteen months of the month approved.

EXPLANATORY NOTES

Comparability of statistics

Because of the difference in data sources, collection methodologies and timing of notification of commencements, care should be exercised in comparing quarterly data derived from monthly dwelling unit commencements statistics with the quarterly dwelling unit commencements statistics from the Building Activity Survey.

Scope and coverage

The statistics are compiled from monthly reports provided by local and other government authorities, of commencements of new houses and new other residential buildings for which :

- (a) building permits were issued by local government authorities in areas subject to building control by those authorities, or
- (b) contracts were let or day labour work was authorised by Commonwealth, State, Semi-government and local government authorities, or
- (c) approvals were issued by the Rural Housing Authority in areas not subject to building control by local government authorities.

Major residential building commencements in areas not subject to the normal administrative approval processes (e.g. buildings on remote mine sites) are also included. The number of dwelling units created by alterations and additions to existing buildings, and through the construction of new 'non residential buildings', is not included.

Definitions

A *dwelling unit* is defined as a self-contained suite of rooms, including cooking and bathing facilities and intended for *long term* residential use. Units (whether self-contained or not) within buildings offering institutional care such as hospitals or temporary accommodation such as motels, hostels and holiday apartments, are not defined as dwelling units.

A *residential building* is defined as a building predominantly consisting of one or more dwelling units. Residential buildings can be either *houses* or *other residential buildings* as follows :

- (a) a *house* is defined as a detached building predominantly used for long term residential purposes and consisting of only one dwelling unit. Thus detached 'granny flats' and detached dwelling units (such as caretakers' residences) associated with non residential buildings are defined as houses for the purpose of these statistics.
- (b) an *other residential building* is defined as a building which is predominantly used for long term residential purposes and which contains (or has attached to it) more than one dwelling unit (e.g. includes townhouses, duplexes, apartment buildings, etc.).

Commencements. For the purposes of this statistical series, a residential building is regarded as being commenced on the date when:

- (a) the building work is first inspected by a local government or other government authority building inspector or surveyor, whether the work is passed or not. In general, the first inspection is undertaken at the foundations or footings stage of construction; or
- (b) the building work is determined as commenced by a building inspector or surveyor.

Ownership. The ownership of a building is classified as either *public sector* or *private sector* according to the sector of the intended owner of the completed building as evident at the time of approval. Residential buildings being constructed by private sector builders under government housing authority schemes whereby the authority has contracted, or intends to contract, to purchase the buildings on or before completion, are classified as public sector.

Australian Standard Geographical Classification

Area statistics are classified according to the Australian Standard Geographical Classification. Figures previously published for local government areas and statistical divisions are directly comparable with this classification except for the cities of Perth, Fremantle and Stirling which are obtained by aggregating the component statistical local areas.

An index list of statistical local areas is shown on page 20. In this publication City councils are marked (C), Town councils (T) and Shire councils (S).

Perth City Council Re-structure

From July 1994, Perth City Council has been split. Although there are still five SLA's, only two retain the same boundaries. The new Town of Victoria Park (renamed on 2 November 1994) comprises the whole of the SLA previously known as Perth(C) South. The City of Perth is now comprised of two SLAs: Perth(C) Inner and Perth(C) Remainder. Perth(C) Inner boundaries have not changed. Perth(C) Remainder comprises the majority of Perth(C) Outer. The new Town of Vincent comprises the major part of Perth(C) North and a small part of Perth(C) Outer. The new Town of Cambridge comprises the remainder of Perth(C) North as well as all of Perth(C) Wembley-Coastal. For maps showing the new SLA boundaries, please contact the relevant councils.

Unpublished data and related publications

The ABS can also make available certain dwelling unit commencement data which are not published. These data include details of materials used, size and approval value of dwelling units commenced in statistical local areas.

Where it is not practicable to provide the required information by telephone, data can be provided in the following forms: photocopy, computer printout and clerically extracted tabulation. A charge may be made for providing unpublished information in these forms.

Users may also wish to refer to the following related publications which are available on request:

For more information...

The ABS publishes a wide range of information on Australia's economic and social conditions. Details are available in the *Catalogue of Publications and Products* is available from any of our Offices (see below for contact details).

Information Consultancy

Information tailored to special needs of clients or in-depth data investigations are provided by the ABS Information Consultancy Services in each of our Offices (available via the contacts below).

National Dial-a-Statistic Line

0055 86 400

(Steadycom P/L premium rate 25c/21.4 secs.)

This number gives 24 hours access, 365 days a year for a range of statistics.

Electronic Data Services

A growing range of our data is available on electronic media. Our Telestats service delivers major economic publications ready to download into your computer on the day of release. Our Ausstats service enables on-line access to a data base of thousands of up-to-date time series. Selected datasets are also available on diskette or CD-rom. For more details on our electronic services, contact Information Services in any of our Offices on the numbers below.

Bookshops and Subscriptions

There are now over 500 titles available from the ABS Bookshops in each of our Offices. The ABS also provides a subscription mailing service through which nominated publications are provided by mail at no additional cost. (Telephone Publications Subscription Service toll free on 008 02 0608 Australia wide).
