INTRODUCTION

1 This publication contains latest figures for a comprehensive range of economic indicators. Statistics shown in this publication are the latest available at the date of preparation and may be subject to revision in subsequent issues. Reference should therefore always be made to the latest issue or to the statistical publication on the specific subject.

SEASONAL ADJUSTMENT AND TREND ESTIMATION

2 Seasonal adjustment is a means of removing the estimated effects of normal seasonal variation from the series so that the effects of other influences on the series can be more clearly recognised. Seasonal adjustment does not aim to remove the irregular or non-seasonal influences which may be present in any particular month. This means that month-to-month movements of the seasonally adjusted estimates may not be reliable indicators of trend behaviour.

3 The smoothing of seasonally adjusted series reduces the impact of the irregular components of the seasonally adjusted series and creates trend estimates. These trend estimates are derived by applying a 13-term Henderson-weighted moving average to all months except the last six. The last six monthly trend estimates are obtained by applying surrogates of the Henderson average to the seasonally adjusted series.

4 While this smoothing technique enables estimates to be produced for the latest month, it does result in revisions to the most recent months as additional observations become available. Generally, subsequent revisions become smaller and after three months have a negligible impact on the series.

5 ABS statistical series are being impacted by varying degrees as a result of The New Tax System (TNTS), introduced in Australia from 1 July 2000. TNTS includes the removal of Wholesale Sales Tax and the introduction of a Goods and Service Tax (GST), and as a result, a number of ABS data series will reflect significant and subsequent impacts. Further information can be found in *Information Paper: ABS Statistics and The New Tax System* (Cat. no. 1358.0).

SYMBOLS AND OTHER USAGES

n.a.	not available
n.p.	not available for separate publication (but included in totals where applicable)
n.y.a.	not yet available
..	not applicable
—	nil or rounded to zero
p	preliminary — figure or series subject to revision
r	figure or series revised since previous issue

Stevan R. Matheson
Regional Director, Tasmania

MAIN FEATURES

THE LABOUR FORCE

Trend estimates There were an estimated 220,400 persons (based on *trend* estimates) in the labour force in November 2001 and an estimated 373,000 civilian Tasmanians aged 15 years or more, yielding a labour force participation rate of 59.1%, compared to 59.6% in November 2000. The Australian labour force participation rate for November 2001 was 63.7%, compared to 63.5% in November 2000 (see table 39 and *Labour Force, Australia, Preliminary* (Cat. no. 6202.0)).

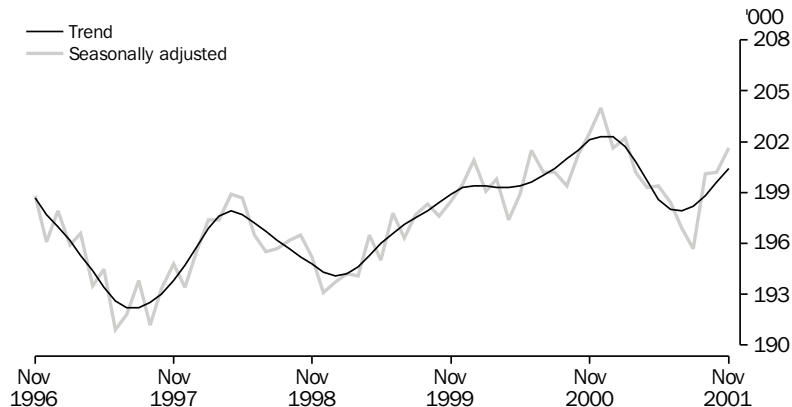

For Tasmanian males, the *trend* estimate of the participation rate was 67.8% in November 2001, compared to 68.7% in November 2000. For Tasmanian females, the *trend* estimate of the participation rate was 50.8% in November 2001, compared to 50.9% in November 2000 (see table 3).

EMPLOYMENT

State comparisons There was a decrease of 0.8% in Tasmania's employment over the 12 months to November 2001. Employment over the period increased in Queensland by 1.4%, Victoria and Western Australia, 0.8%; New South Wales, 0.5%; and South Australia 0.4%. The increase in Australia's employment over the same period was 0.8% (see table 39 and *Labour Force, Australia, Preliminary* (Cat. no. 6202.0)).

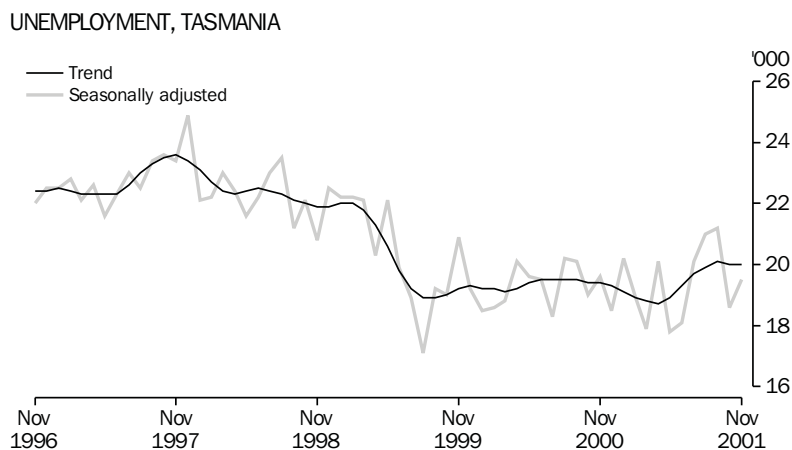

Trend estimates

EMPLOYMENT, TASMANIA

UNEMPLOYMENT

Trend estimates The *trend* estimate of the number of unemployed persons in Tasmania for November 2001 was 20,000, compared to 19,400 in November 2000. The *trend* estimate of the unemployment rate of 9.1% in November 2001 compares to 8.8% in November 2000. The Australian *trend* estimate of the unemployment rate was 6.8% in November 2001, compared to 6.2% in November 2000 (see table 3 and 39, and *Labour Force, Australia, Preliminary* (Cat. no. 6202.0)).

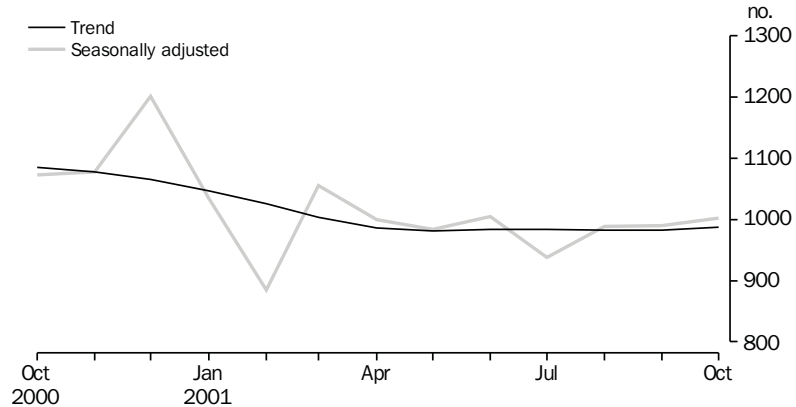

POPULATION

For the second quarter in a row Tasmania experienced a marginal increase in its population. The population at 30 June 2001 was 470,272, marginally lower than the 30 June 2000 population of 470,304. Natural increase (births less deaths) for 2000–01 was 2,400 compared with only 2,100 in 1999–2000. The net interstate migration loss was 2,600 for 2000–01 compared with 3,000 in 1999–2000. Interstate arrivals of 12,500 in 2000–01 were the highest since the record of 13,300 in 1989–90.

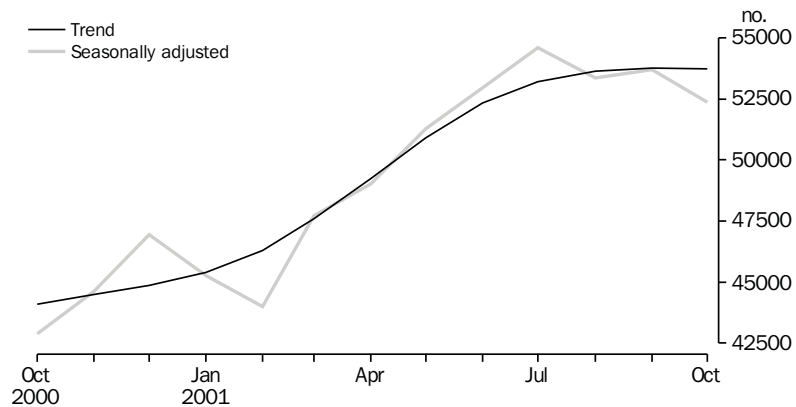

HOUSING FINANCE

Trend estimates The latest *trend* series for the number of housing finance commitments in Tasmania shows an increase of 0.6% between September 2001 and October 2001. The *trend* series shows an overall decrease of 8.9% between October 2000 and October 2001. The national *trend* series shows an increase of 21.9% for the year October 2000 to October 2001, with a decrease of 0.1% between September 2001 and October 2001.

HOUSING FINANCE, TASMANIA, Number of dwellings

HOUSING FINANCE, AUSTRALIA, Number of dwellings

The latest *trend* series for the total value of commitments for Tasmania shows a 2.4% increase between September 2001 and October 2001. The *trend* series from October 2000 to October 2001 showed an increase of 10.3%. The national *trend* series shows the value of commitments having increased by 0.9% between September 2001 and October 2001. An increase of 45.1% is shown for the 12 months from October 2000 to October 2001 (see table 28 and *Housing Finance for Owner Occupation, Australia* (Cat. no. 5609.0)).

BUILDING APPROVALS

Original terms There were 170 dwelling units approved during October 2001, including 165 new houses. The number of dwelling units approved during October 2001 was 10.5% below the September 2001 figure of 190, and 40.5% above the October 2000 figure of 121. The number of dwelling units approved in the 12 months to October 2001 (1,414) fell 18.9% from those approved in the 12 months to October 2000 (1,744).

At current prices, the value of total building was \$51.4m in October 2001, 34.9% above the September 2001 figure of \$38.1m and 67.4% above the October 2000 figure of \$30.7m. Residential building contributed \$22.5m and non-residential building \$29.0m in October 2001 (see table 27 and *Building Approvals, Australia* (Cat. no. 8731.0)).

HOUSING FINANCE

Trend estimates The latest *trend* series for the number of housing finance commitments in Tasmania shows a decrease of 0.7% between August 2001 and September 2001. The *trend* series shows an overall decrease of 10.4% between September 2000 and September 2001. The national *trend* series shows an increase of 24.6% for the year September 2000 to September 2001, with an increase of 0.4% between August 2001 and September 2001.

NEW MOTOR VEHICLE REGISTRATIONS

Original terms There were 1,476 new motor vehicles (excluding motorcycles) registered in Tasmania during October 2001. This was 29.8% above the 1,137 registered in September 2001 and 18.9% above the October 2000 figure of 1,241. Of the new motor vehicles (excluding motorcycles) registered in October 2001, some 1,277 were passenger vehicles (984 in September 2001 and 1,028 in October 2000). There were 347 vehicles registered by vehicle rental businesses, compared to 395 in September 2001 and 213 in October 2000 (see table 34).

RETAIL

Trend estimates In *trend* terms, the estimate of retail turnover in Australia for October 2001 was \$13,767.7m, 8.4% above the figure recorded in October 2000 (\$12,697.5m). In *trend* terms, the estimate of retail turnover in Tasmania for October 2001 was \$289.5m, 3.9% above the figure recorded in October 2000 (\$278.7m) (see table 35 and *Retail Trade, Australia* (Cat. no. 8501.0)).

LIVESTOCK SLAUGHTERING

Trend estimates Monthly movements of *trend* estimates showed increases in all three livestock slaughtering series, with cattle and calves up by 1.9%, sheep and lambs up by 3.6% and pigs up by 2.8%.

In October 2001, the *trend* estimate for the number of cattle and calves slaughtered was 17,900. This was down by 5.2% on the estimated number for October 2000 and down by 25.5% on the number for October 1999.

In October 2001, the *trend* estimate for the number of sheep and lambs slaughtered was 80,300. This was up by 11.2% on the estimate for October 2000 but down by 5.8% on the estimate for October 1999.

In October 2001, the *trend* estimate for the number of pigs slaughtered was 5,000. This was 4.9% more than for October 2000 but 17.7% less than for October 1999 (see table 21).

HOUSE PRICE INDEX

The September quarter 2001 established house price index for Hobart decreased by 0.1% over the previous quarter, but increased by 0.4% in annual terms. In the year to September quarter 2001, all capital cities recorded increases. Melbourne recorded the highest increase (30.3%) followed by Canberra (12.3%), while Hobart recorded the lowest increase of 0.4%.

OVERSEAS TRADE

The value of Tasmania's exports for the month of October 2001 was \$200m, an increase of 17.8% over the month of September. Australia's exports for the month of October 2001 totalled \$10,879m, an increase of 2.4% on the previous month.

Tasmania's major export destinations for the month of October 2001 were Japan (\$59.7m), United States of America (\$23.8m) and Korea (\$20.1m). Major commodity groups exported for the month of October 2001 were non-ferrous metals (\$59.0m), Metallic ores and metal scrap (\$19.6m) and Fish, crustaceans and molluscs (\$12.9m).

(a) Usual residents of Tasmania.

(b) Deaths of children under one year of age.

(c) Total fertility rate. The sum of age specific fertility rates (live births at each age of a mother per female population of that age). It represents the number of children a woman would bear during her lifetime if she experienced age-specific fertility rates at each age of her reproductive life.

(d) Standardised death rate. The overall death rate, per 1,000 persons, that would have prevailed in a standard population if it had experienced at each age the death rates of the population being studied. The standard population used in these calculations is all persons in the 1991 Australian population.

(e) Rate per 1,000 live births.

(f) Crude marriage rate is the number of marriages registered during the financial year, per 1,000 estimated resident population at 31 December of that year.

(a) Source: Australian Dairy Corporation.

(b) Includes the whole milk equivalent of farm cream intake.

(c) Includes butter equivalent of butter oil.

(d) Includes spinning, weaving and carpet making. Reported by establishments which manufacture textiles only, or manufacture clothing and textiles in the one plant.

(e) Metallurgical refining index (Base year: 1979-80 = 100.0). Output from selected establishments covering the smelting and refining of ferro-alloys, zinc and aluminium. The weighting pattern is based on the establishments' value added as derived from the 1979-80 manufacturing Census. For multi product establishments, value added was apportioned to products on the basis of gross receipts from each product.

(a) Both hardwoods and softwoods, separate details are not available.

(b) With recent acquisitions, resulting in increased concentration of ownership in the woodchip industry, production data collected by the ABS are no longer releasable. Alternative data sources are being explored.

(c) Data reported by weight, converted to cubic measure by the factor of 0.95 m³ per tonne.

(d) Capable of producing at end of year or actually producing during quarter.

(e) Includes log equivalent of limbwood and billets.

Source: ABS data available on request, Forest Products Survey.

(a) Value data from July 2000 reference month onward are recorded inclusive of GST. See Cat. no. 8731.0 or page 2 of this publication for more details.

(b) Comprises non-residential building (new plus alterations and additions) valued at \$50,000 and over.

(c) New individual dwelling units (e.g. flats, home units and villa units).

(d) From alterations and additions to residential building, new or alteration and addition work on non-residential building or conversions of non-residential building to residential building.

(e) Valued at \$10,000 and over. Includes conversions and dwelling units approved as part of alterations and additions or as part of the construction of non-residential building.

(a) Includes State and Commonwealth Government owned motor vehicles other than those belonging to the defence services. Excludes tractors, plant and equipment, caravans and trailers.

(b) Comprises utilities, panel vans, rigid and articulated trucks and other truck type vehicles (i.e. motor vehicles designed for purposes other than freight carrying, e.g. campervans, tow trucks, ambulances and hearses) and buses.

(c) These figures are included in previous columns.

(a) Excludes motor vehicles, parts, petrol, etc.

(b) ABS retail seasonally adjusted and trend estimates for earlier periods are revised each month. See Cat. no. 8501.0 for more details.

(c) Data from July 2000 reference month onwards are recorded inclusive of GST. See Cat. no. 8501.0 and page 2 of this publication for more details.

A break in the trend series occurred between June and July 2000 because of the impact of The New Tax System on Retail turnover.

(d) Includes Department stores and Other retailing.

Source: Retail Trade, Australia (Cat. no. 8501.0).

(a) It is difficult to get a complete picture of Tasmania's trade performance as imports recorded by the ABS include only goods imported directly into the State from overseas, and reported by the Australian Customs Service. Many of Tasmania's goods imported for direct consumption, or input into further processing industries, arrive via interstate ports, and are not included in this table.

(b) Includes re-exports.
