INTRODUCTION

This publication contains latest figures for a comprehensive range of economic indicators. Statistics shown in this publication are the latest available at the date of preparation and may be subject to revision in subsequent issues. Reference should therefore always be made to the latest issue or to the statistical publication on the specific subject.

SFASONAL ADJUSTMENT AND TREND ESTIMATION

- Seasonal adjustment is a means of removing the estimated effects of normal seasonal variation from the series so that the effects of other influences on the series can be more clearly recognised. Seasonal adjustment does not aim to remove the irregular or non-seasonal influences which may be present in any particular month. This means that month-to-month movements of the seasonally adjusted estimates may not be reliable indicators of trend behaviour.
- The smoothing of seasonally adjusted series reduces the impact of the irregular components of the seasonally adjusted series and creates trend estimates. These trend estimates are derived by applying a 13-term Henderson-weighted moving average to all months except the last six. The last six monthly trend estimates are obtained by applying surrogates of the Henderson average to the seasonally adjusted series.
- While this smoothing technique enables estimates to be produced for the latest month, it does result in revisions to the most recent months as additional observations become available. Generally, subsequent revisions become smaller and after 3 months have a negligible impact on the series.
- A number of ABS data series will reflect significent and subsequent impacts of The New Tax System (TNTS), introduced in Australia from 1 July 2000. Further information can be found in *Information Paper*: ABS Statistics and The New Tax System (cat.no.1358.0).

MAIN FEATURES

THE LABOUR FORCE

Trend estimates

There were an estimated 217,100 persons (based on *trend* estimates) in the labour force in November 2002 and an estimated 374,900 civilian Tasmanians aged 15 years or more, yielding a labour force participation rate of 57.9%, compared to 58.7% in November 2001. The Australian labour force participation rate for November 2002 was 63.6%, a decrease from the November 2001 estimate of 63.7% (see table 36 and *Labour Force, Australia, Preliminary* (cat. no. 6202.0)).

For Tasmanian males, the *trend* estimate of the participation rate was 66.6% in November 2002 compared to 67.5% in November 2001. For Tasmanian females, the *trend* estimate of the participation rate was 49.7% in November 2002, compared to 50.4% in November 2001 (see table 3).

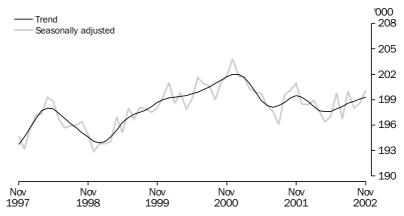

EMPLOYMENT

State comparisons

Trend estimates

The *trend* estimate of the total number of employed persons in Tasmania in November 2002 was 199,300, compared to 199,500 in November 2001, a decrease of 0.1%. Employment over the same period increased in New South Wales by 1.9%, Victoria by 1.9%, Queensland by 3.1%, South Australia by 2.2% and Western Australia by 2.1%. The increase in the national employment figure over the same period was 2.1% (see table 36 and *Labour Force, Australia, Preliminary* (cat. no. 6202.0).

EMPLOYMENT, TASMANIA

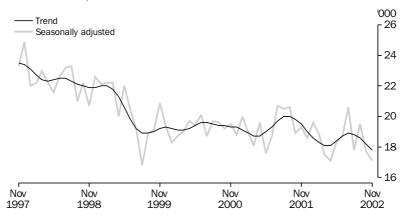

UNEMPLOYMENT

Trend estimates

The *trend* estimate of the number of unemployed persons in Tasmania for November 2002 was 17,800, compared to 19,500 in November 2001. The *trend* estimate of the unemployment rate for November 2002 was 8.2% compared to 8.9% in November 2001. The Australian *trend* estimate of the unemployment rate was 6.1% in November 2002 compared to 6.9% in November 2001 (see table 3 and 36, and *Labour Force*, *Australia*, *Preliminary* (cat. no. 6202.0)).

UNEMPLOYMENT, TASMANIA

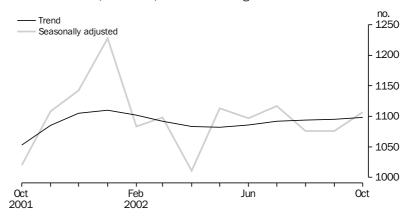

HOUSING FINANCE

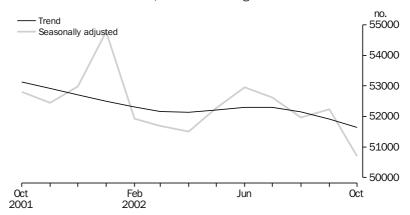

Trend estimates

The latest trend series for the number of housing finance commitments shows a 0.3% increase in Tasmania between September and October 2002, and a 0.5% decrease for Australia. The Tasmanian trend series shows an increase of 4.3% between October 2001 and October 2002, while the national trend series showed a decrease of 2.8%. The only other state/territory to show an increase (8.8%), between October 2001 and October 2002, was the Australian Capital Territory .

HOUSING FINANCE, TASMANIA, Number of dwellings

HOUSING FINANCE AUSTRALIA, Number of dwellings

The latest *trend* series for the total value of commitments for Tasmania shows an increase of 1.5% between September and October 2002 and an increase of 13.1% from October 2001 to October 2002. The national *trend* series shows the total value of commitments having increased by 0.6% between September 2002 and October 2002 with an increase of 6.5% between October 2001 and October 2002 (see table 28 and *Housing Finance for Owner Occupation, Australia* (cat. no. 5609.0). The only state/territory to show a decrease (28.6%), between October 2001 and October 2002 was the Northern Territory.

GOVERNMENT FINANCIAL ESTIMATES

Government Financial Estimates, Tasmania, Electronic Delivery (cat no. 5501.6.55.001) released 9 August, features forward estimates for 2002–03, estimated outcomes for 2001–02, and final data for 2000–01 back to 1998–99, for the Tasmanian State General Government sector, Public Non Financial Corporations and the consolidated Non-Financial Public Sector.

The introduction of the GST, by the Commonwealth Government on 1 July 2000, has seen the elimination of a number of state taxes and in particular the petroleum, liquor and tobacco franchise taxes from July 1 2000. The decrease in state taxes was accompanied by increases in commonwealth grants under the arrangements agreed to by the states and the commonwealth. The abolition of Financial Institutions Duty and the Electricity Levy from 1 July 2001 further reduced state taxes for 2001–02. Collections from duty on conveyances peaked in the year ended 30 June 2002 because of the impact of the Commonwealth Government's grants for First Home Owners. Along with the abolition or reduction in other state taxes, the drop-off in the expected duties on conveyances resulted in State tax collections expected to be lower again in 2002–03.

Expenditure on new fixed assets by Public Non-Financial Corporations in the year ended 30 June 2002, increased dramatically due to the acquistion of the two new Bass Strait ferries at a total cost of \$290m. Increased spending on electricity infrastructure also contributed to the high figure. Capital expenditure for 2002–03 is expected to return to more normal levels.

BANKING STATISTICS

The Banking Statistics shown in table 30 of issues of this bulletin prior to September 2002 are no longer available, and the table has been discontinued. The data were provided by the Australian Prudential Regulation Authority (APRA). APRA implemented a new data collection for April 2002 and as yet has not decided on what data will be released in future.

BUILDING APPROVALS

Original terms

There were 173 dwelling units approved during October 2002, including 152 new houses. This compares to 178 dwelling units approved during September 2002, including 172 new houses. The number of dwelling units approved increased from the 170 approvals recorded in October 2001.

At current prices, the value of total building was \$35.3m in October 2002, which was 0.6% above the September 2002 figure of \$35.1m and 31.3% below the October 2001 figure of \$51.4m. Residential building contributed \$25.0m and non-residential building \$10.3m in October 2002 (see table 25 and Building Approvals, Australia (cat. no. 8731.0).

SALES OF NEW MOTOR **VEHICLES**

In trend terms, the number of new motor vehicles sold decreased from 1,223 in September 2002 to 1,211 in October 2002. In trend terms, the number of new motor vehicles sold decreased marginally by 0.2% from the October 2001 figure of 1,214. Passenger vehicles represented 56.6% of all new vehicles registered in Tasmania in October 2002. Nationally, the trend estimate of new motor vehicles sold in October 2002 was 70,739, an increase of 6.8% from the October 2001 figure of 66,216.

These statistics replace the New Motor Vehicle Registrations collection. They are based on the VFACTS series produced by the Federal Chamber of Automotive Industries. VFACTS reports the numbers of new motor vehicle sales by dealers and direct sales by manufacturers throughout Australia (see table 31 and Sales of New Motor Vehicles, Australia (Electronic Publication) (cat. no. 9314.0).

RETAIL

Trend estimates

In trend terms, the estimate of retail turnover in Australia for October 2002 was \$14,380.7m, a 6.8% increase from the October 2001 estimate of \$13,480.8m. In trend terms, the estimate of retail turnover in Tasmania for October 2002 was \$292.9m, 6.3% above the figure recorded in October 2001 (\$275.6m) (see table 32 and Retail Trade, Australia (cat. no. 8501.0).

CAPITAL EXPENDITURE

Original terms

In original terms, the estimate of total capital expenditure at current prices for Australia in the September quarter 2002 was \$11,508m, a 4.7% decrease from the June quarter estimate of \$12,070m. In original terms, the estimate of total capital expenditure at current prices for Tasmania in the September quarter 2002 was \$200m, a 34.9% decrease from the June quarter estimate of \$307m.

Original terms continued

For Tasmania, the estimate for expenditure on buildings and structures decreased by 36.2% and the estimate for expenditure on equipment, plant and machinery decreased by 33.7%. The estimates of expenditure by Mining, Manufacturing and Other selected industries each decreased in the September quarter.

LIVESTOCK SLAUGHTERING

Trend estimates

In October 2002, the trend estimate for Tasmania for the number of cattle and calves slaughtered increased by 1.9% over the previous month. Over the same period, the trend estimate for both the number of sheep and lambs slaughtered and the number of pigs slaughtered decreased, down by 2.3% and 1.1%, respectively.

The trend estimate for the number of cattle and calves slaughtered in October 2002 was 18,400, up by 4.7% on the estimate for October 2001, but down by 1.8% on the estimate for October 2000.

The trend estimate for the number of sheep and lambs slaughtered in October 2002 was 64,100, down by 5.4% on the estimate for October 2001 and down by 6.0% on the estimate for October 2000.

The trend estimate for the number of pigs slaughtered was 3,930, a decrease of 20.4% on the estimate for October 2001 and a decrease of 16.8% on October 2000. (See table 21)

OVERSEAS TRADE

The value of Tasmania's exports for the month of October 2002 was \$176m, a decrease of 5% on the month of September 2002. Australia's exports for October 2002 totalled \$10,455m, an increase of 5% on the previous month.

Tasmania's major export destinations for the month of October 2002 were Japan (\$53.6m), Korea (\$19.6m) and the United States of America (\$14.3m). Major commodity groups exported for the month were non-ferrous metals (\$56.8m), fish, crustaceans and molluscs (\$10.3m) and metalliferous ores and scrap (\$5.8m).

CONSUMER PRICE INDEX

The Consumer Price Index (All groups) for Hobart increased by 0.4% in the September quarter of 2002. For the weighted average of the eight capital cities, the index rose 0.7% for the September quarter. The largest quarterly increases were shared by Adelaide and Perth (both 0.9%) while Hobart's increase was the second lowest.

⁽a) Usual residents of Tasmania.

Source: Australian Demographic Statistics (cat. no. 3101.0).

⁽b) Percentage growth from same quarter in previous year.

⁽b) Deaths of children under one year of age.

⁽c) Total fertility rate. The sum of age specific fertility rates (live births at each age of a mother per female population of that age). It represents the number of children a woman would bear during her lifetime if she experienced age-specific fertility rates at each age of her reproductive life.

⁽d) Standardised death rate. The overall death rate, per 1,000 persons, that would have prevailed in a standard population if it had experienced at each age the death rates of the population being studied. The standard population used in these calculations is all persons in the 1991 Australian population.

⁽e) Rate per 1,000 live births.

⁽f) Crude marriage rate is the number of marriages registered during the financial year, per 1,000 estimated resident population at 31 December of

⁽a) Source: Australian Dairy Corporation.

Source: ABS data available on request; Employees Hours Worked Survey; Monthly Production Survey; Manufacturing Survey.

⁽b) Includes the whole milk equivalent of farm cream intake.

⁽c) Includes butter equivalent of butter oil.

⁽d) Includes spinning, weaving and carpet making. Reported by establishments which manufacture textiles only, or manufacture clothing and textiles in the one plant.

⁽e) Metallurgical refining index (Base year: 1979-80 = 100.0). Output from selected establishments covering the smelting and refining of ferro-alloys, zinc and aluminium. The weighting pattern is based on the establishments' value added as derived from the 1979-80 manufacturing Census. For multi product establishments, value added was apportioned to products on the basis of gross receipts from each product.

⁽a) A 'person entry' occurs whenever a visitor enters a National Park. Freycinet data, in particular, reflects repeat entries. Measurement occurs at the designated sites in brackets.

Source: Tasmanian Parks and Wildlife Service, Department of Primary Industries, Water and Environment.

⁽b) Estimated through a combination of traffic and booth counts.

⁽c) As of July 2002, estimates of person entries is derived using traffic counts only. As a result, pre and post-July 2002 data are not strictly comparable.

⁽d) Estimated through traffic counts.

⁽e) Number of people taken on a guided tour.

⁽⁽⁾ The sum of ferry arrivals only. From July 2000, excludes estimated plane passengers.

⁽a) It is difficult to get a complete picture of Tasmania's trade performance as imports recorded by the ABS include only goods imported directly into the state from overseas, and reported by the Australian Customs Service. Many of Tasmania's goods imported for direct consumption, or input into further processing industries, arrive via interstate ports, and are not included in this table.

Source: ABS data available on request, International Trade.

⁽b) Includes re-exports.

⁽a) Australian totals include the ACT and NT, with the exception of Agriculture, which excludes both.

⁽b) CPI applies to state capitals.

⁽c) This data is new and replaces the Registration of New Motor Vehicles data. The Australian Bureau of Statistics is no longer collecting and disseminating statistics relating to the registration of new motor vehicles. For more information please refer to the paper Developments in New Motor Vehicle Statistics, 2001 (cat. no. 9313.0)

⁽d) Total of four types of expenditure: Private investment, Private consumption, Government investment, Government consumption.

⁽d) From 2001 the Australian Standard Classification of Education (ASCED) (cat. no. 1272.0) replaced the ABS Classification of Qualifications (ABSCQ) (cat. no. 1262.0). For further information see ASCED.

FOR MORE INFORMATION...

INTERNET www.abs.gov.au the ABS web site is the best place to

start for access to summary data from our latest publications, information about the ABS, advice about upcoming releases, our catalogue, and Australia Now—a

statistical profile.

LIBRARY A range of ABS publications is available from public and

tertiary libraries Australia-wide. Contact your nearest library to determine whether it has the ABS statistics you require, or visit our web site for a list of libraries.

CPI INFOLINE For current and historical Consumer Price Index data,

call 1902 981 074 (call cost 77c per minute).

DIAL-A-STATISTIC For the latest figures for National Accounts, Balance of

Payments, Labour Force, Average Weekly Earnings, Estimated Resident Population and the Consumer Price Index call 1900 986 400 (call cost 77c per minute).

INFORMATION SERVICE

Data which have been published and can be provided within five minutes are free of charge. Our information consultants can also help you to access the full range of ABS information—ABS user-pays services can be tailored to your needs, time frame and budget. Publications may be purchased. Specialists are on hand to help you with analytical or methodological advice.
