ABOUT THIS PUBLICATION

This publication presents information on persons in custody and community-based corrections. The statistics are derived from information provided to the Australian Bureau of Statistics (ABS) from administrative records held by corrective services agencies in each state and territory, and from the Australian Government Attorney-General's Department for details on federal prisoners. Details are provided for each state and territory on: prisoner numbers and imprisonment rates by type of custody (i.e. open or secure custody or periodic detention); prisoner numbers by legal status (sentenced or unsentenced) for all prisoners and for Indigenous prisoners; the number of sentenced receptions into custody; the number of federal prisoners; and the numbers and rates of persons serving community-based corrections orders.

The ABS acknowledges the valuable contribution of the Board of Management and the Advisory Group of the National Corrective Services Statistics Unit as well as the staff of the various agencies that provide the statistics that are presented in this publication.

FURTHER INFORMATION

More information about ABS activities in the field of crime and justice statistics is available from the Crime and Justice theme page on the ABS web site <www.abs.gov.au>. Details of other ABS publications relating to Crime and Justice statistics can be found in paragraphs 39–40 of the Explanatory Notes.

SUMMARY OF FINDINGS

PERSONS IN CORRECTIVE SERVICES

Based on first day of the month averages, for the March quarter 2006 there were 78,153 persons under the authority of corrective services (excluding those in periodic detention). This represents an increase of 2% (1,848 persons) since the March quarter 2005. The total comprised 24,260 persons in full-time custody and 53,893 persons in community-based corrections. Since the March quarter 2005, persons in full-time custody increased by 1% (182 persons) and persons in community-based corrections increased by 3% (1,666 persons).

PERSONS IN CUSTODY *Number of prisoners*

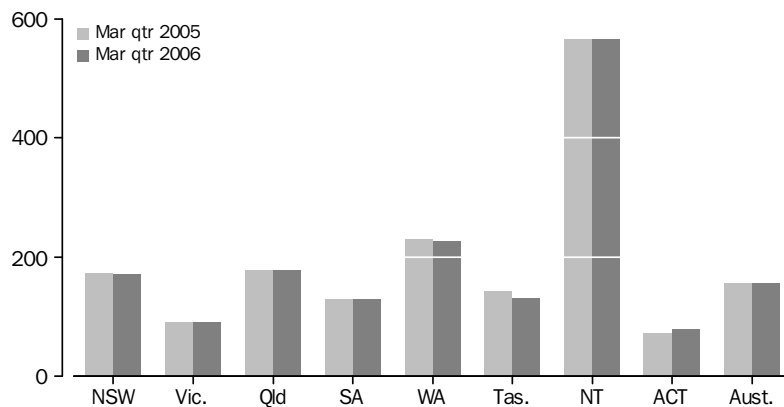

PERSONS IN PRISON CUSTODY, Average daily number per month

The average daily number of full-time prisoners in Australia in the March quarter 2006 was 24,425, an increase of 1% on the previous quarter and an increase of 1% on the March quarter 2005.

Rates per 100,000 adults

AVERAGE DAILY IMPRISONMENT RATE (a), By State and Territory

(a) Rate per 100,000 adult population.

Nationally, the March quarter 2006 average daily imprisonment rate was 156 prisoners per 100,000 adult population, the same as the March quarter 2005 (156 prisoners). The Northern Territory had the highest imprisonment rate (565 prisoners per 100,000 adult population), followed by Western Australia (227) and Queensland (178). The Australian Capital Territory (including Australian Capital Territory prisoners held in New South Wales prisons) and Victoria had the lowest imprisonment rates (79 and 91 prisoners per 100,000 adults respectively).

SUMMARY OF FINDINGS *continued*

Rates per 100,000 adults continued

The largest proportional increase in imprisonment rates since the March quarter 2005 was recorded in the Australian Capital Territory (9%) (including Australian Capital Territory prisoners held in New South Wales prisons). The largest proportional decrease over the same period was recorded in Tasmania (9%).

Sex

Of the average daily number of full-time prisoners in Australia in the March quarter 2006, 22,795 (93%) were male and 1,630 (7%) were female. The average daily imprisonment rate for males was 295 prisoners per 100,000 adult male population, while for females it was 21 prisoners per 100,000 adult female population. Males were 14 times more likely to be in prison than females.

Type of full-time custody

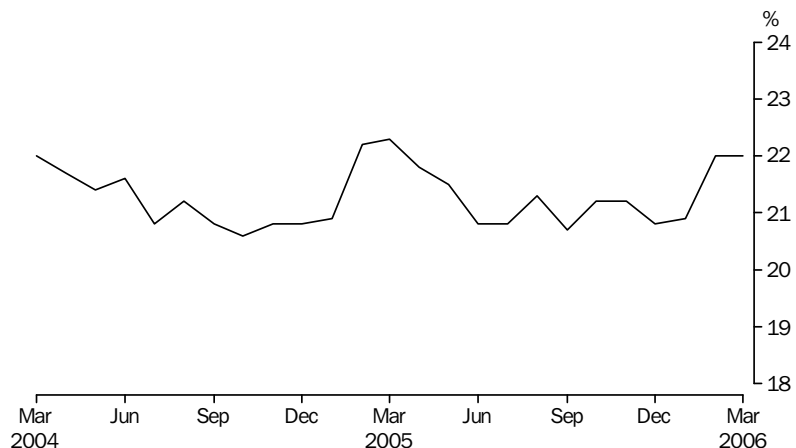

The average daily number of prisoners in secure prison custody in the March quarter 2006 was 18,436 (75% of prisoners in full-time custody). Open prison custody comprised 5,989 prisoners.

In the March quarter 2006, all prisoners held in full-time custody in the Australian Capital Territory were in secure custody. Of the other states and territories, South Australia had the highest proportion of prisoners in secure custody (90%), followed by Victoria (89%). New South Wales (including Australian Capital Territory prisoners held in New South Wales prisons) had the lowest proportion of prisoners in secure full-time custody (61%).

Legal status

The average number of prisoners in full-time custody on the first day of each month in the March quarter 2006 was 24,260, comprising an average of 5,254 (22%) unsentenced and 19,005 (78%) sentenced prisoners. South Australia and the Australian Capital Territory (including Australian Capital Territory prisoners held in New South Wales prisons) had the highest proportions of unsentenced prisoners (both 34%). The lowest proportions of unsentenced prisoners were recorded in Western Australia (17%), followed by Victoria (18%).

UNSENTENCED PERSONS IN PRISON CUSTODY, Proportion per month

Indigenous prisoners

In the March quarter 2006 there were 5,842 Indigenous adult prisoners in full-time custody in Australia, comprising 5,377 (92%) males and 465 (8%) females. Almost 80% of the total Indigenous prisoner population was located in three states: New South Wales (1,823 persons); Queensland (1,450); and Western Australia (1,351).

SUMMARY OF FINDINGS *continued*

*Indigenous prisoners
continued*

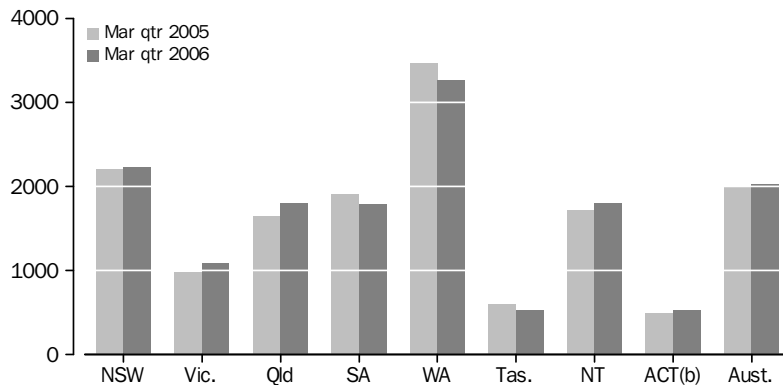

(a) Rate per 100,000 adult Indigenous population.

The national rate of imprisonment for Indigenous persons in the March quarter 2006 was 2,035 per 100,000 adult Indigenous population, an increase of 2% since the March quarter 2005 and an increase of 1% since the previous quarter.

The highest rate of imprisonment of Indigenous persons was recorded in Western Australia (3,268 Indigenous prisoners per 100,000 adult Indigenous population), followed by New South Wales (2,239).

INDIGENOUS IMPRISONMENT RATE(a), By State and Territory

(a) Rate per 100,000 adult Indigenous population, based on first day of month.

(b) Apparent variations in ACT rates may be as a result of small counts, see tables 11 and 12.

The largest proportional increases in the rate of imprisonment of Indigenous persons since the March quarter 2005 were recorded in Victoria and Queensland (both 10%). The next highest increase (5%) was in the Australian Capital Territory (including Australian Capital Territory prisoners held in New South Wales prisons).

The age standardised national rate of imprisonment of Indigenous people from the annual National Prisoner Census conducted at June 2005 was 12 times higher (1,561 per 100,000 adult Indigenous population) than the rate for non-Indigenous persons (129 per 100,000 adult non-Indigenous population). Imprisonment rates in the National Prisoner Census are able to take into account the different age profiles of the Indigenous and non-Indigenous populations. Further information on the comparison of imprisonment rates between Indigenous and non-Indigenous populations can be found in *Prisoners in Australia 2005* (cat. no. 4517.0).

SUMMARY OF FINDINGS *continued*

Periodic detention

Periodic detention is a form of custody only used in New South Wales and the Australian Capital Territory. During the March quarter 2006 there was an average daily number of 771 persons in New South Wales and 100 persons in the Australian Capital Territory held in periodic detention. The rate of imprisonment for periodic detainees decreased in New South Wales by 5% and increased in the Australian Capital Territory by 1% between the March quarters of 2005 and 2006.

Federal prisoners

In the March quarter 2006, there were 656 federal prisoners in Australia, a decrease of 5 (1%) since the March quarter 2005. More than half (58%) of these federal prisoners were sentenced in New South Wales.

**PERSONS IN
COMMUNITY-BASED
CORRECTIONS**

Community-based corrections orders are non-custodial orders under the authority of corrective services and include restricted movement, fine option, community service, parole, bail and sentenced probation. Unless otherwise specified figures are based on first day of the month. In the March quarter 2006, there were 53,893 persons in community-based corrections in Australia, a decrease of 2% (1,304 persons) since the December quarter 2005 and an increase of 3% (1,666 persons) since the March quarter 2005.

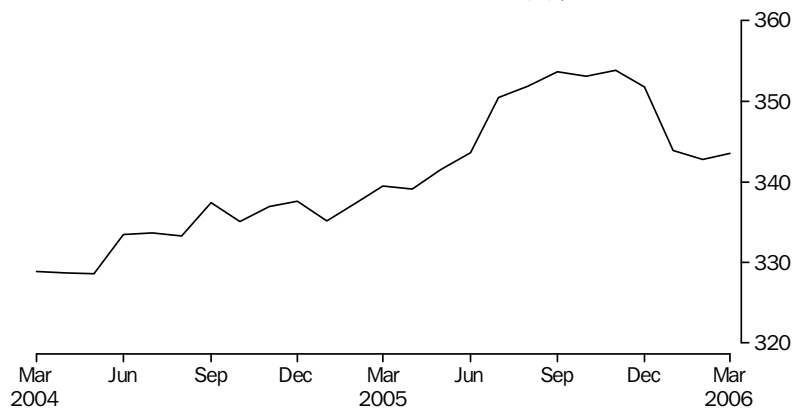

Sex

Of the average number of persons in community-based corrections in Australia in the March quarter 2006, 44,064 (82%) were male and 9,726 (18%) were female.

Rates per 100,000 adults

Nationally, the rate of persons in community-based corrections was 343 persons per 100,000 adult population for the March quarter 2006. This was an increase of 2% since the March quarter 2005 (337 persons per 100,000 adults), and a decrease of 3% since the December quarter 2005 (353 persons per 100,000 adults). The largest increases since the March quarter 2005 were recorded in South Australia (16%), followed by Tasmania (11%).

COMMUNITY-BASED CORRECTIONS RATE(a), Per month

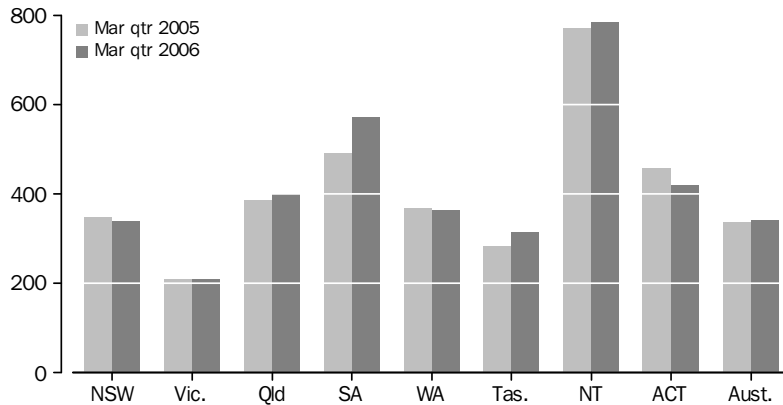

(a) Rate per 100,000 adult population.

SUMMARY OF FINDINGS *continued*

*Rates per 100,000 adults
continued*

COMMUNITY-BASED CORRECTIONS RATE(a), By State and Territory

(a) Rate per 100,000 adult population.

In the March quarter 2006, the rate of community-based corrections for males was 570 per 100,000 adult male population compared to 122 females per 100,000 adult female population. Males were almost five times more likely to be in community-based corrections than females.

Type of orders

In the March quarter 2006, there were 8,983 persons serving parole orders following a period of imprisonment. More than three quarters (76%) of persons serving parole orders were located in three states: New South Wales (3,886 persons); Victoria (1,540); and Western Australia (1,362).

- (a) Includes ACT prisoners held in NSW prisons. The ACT in NSW figures are a subset of the NSW figures and are not separately counted in the Australian totals – see Explanatory Notes, paragraph 19.
- (b) Refers to unsentenced persons in ACT prison custody and may include some sentenced fine default only prisoners – see Explanatory Notes, paragraph 19.

- (c) Prior to December quarter 2004, these figures are a single count taken on a specific day of the month and are not an average of the daily prisoner population for that month.
- (d) ACT in ACT figures and ACT in NSW figures may not add to ACT total due to rounding.

.. not applicable

- (a) Includes ACT prisoners held in NSW prisons. The ACT in NSW figures are a subset of the NSW figures and are not separately counted in the Australian totals – see Explanatory Notes, paragraph 19.
- (b) The classification of some NSW correctional facilities changed from July 2005 – see Explanatory Notes, paragraph 30.
- (c) Type of custody counts in Victoria have been affected by the closure of Beechworth Prison, and the opening of Beechworth Correctional Centre – see Explanatory Notes, paragraph 31.

- (d) Refers to unsentenced persons in ACT prison custody and may include some sentenced fine default only prisoners – see Explanatory Notes, paragraph 19.
- (e) Prior to December quarter 2004, the figures are a single count taken on a specific day of the month and are not an average of the daily prisoner population for that month.
- (f) ACT in ACT figures and ACT in NSW figures may not add to ACT total due to rounding.

- (a) Persons in custody are asked their Indigenous status during reception into custody. Persons with Indigenous status unknown are excluded from this table – see Explanatory Notes, paragraphs 17-18.
- (b) Figures for the quarter and year for first day of the month counts are calculated as a simple average – see Explanatory Notes, paragraph 5.
- (c) Includes ACT prisoners held in NSW prisons. The ACT in NSW figures are a subset of the NSW figures and are not separately counted in the Australian totals – see Explanatory Notes, paragraph 19.

(d) Tas. data prior to the September quarter 2003 are under enumerated – see Explanatory Notes, paragraph 37.

(e) Refers to unsentenced persons in ACT prison custody and may include some sentenced fine default only prisoners – see Explanatory Notes, paragraph 19.

(f) ACT in ACT figures and ACT in NSW figures may not add to ACT total due to rounding.

EXPLANATORY NOTES

INTRODUCTION

1 This publication presents statistical series on persons held in either adult corrective services custody or who are serving adult community-based orders in Australia. It contains data on the number of persons by their sex, Indigenous status, type of custody, legal status and sentence type; the number of sentenced persons received into corrective services custody each month; and the number of federal prisoners.

2 Statistics presented in this publication are compiled in three ways:

- Average daily prisoner population: Counts taken on each day of the month are summed and divided by the number of days in that month to determine the average daily prisoner population for that month. The average daily periodic detainee population is a count of persons on periodic detention on each day a centre is open, divided by the number of days a centre is open.
- Sentenced prisoner reception figures: Counts are provided each month on the number of receptions where a prisoner is received as a sentenced prisoner. This includes prisoners with a change of legal status from unsentenced to sentenced.
- First day of the month prisoner population: Counts of prisoner populations, taken on or near the first day of the month (see Explanatory Notes, paragraphs 4 and 5), and counts of persons serving community-based corrections orders.

3 Although national standards and classifications are used in the compilation of these statistics, some discrepancies remain between the states and territories. These are due to legislative and procedural differences between jurisdictions and the way that these differences are reflected in agencies' administrative data systems. As part of its quality assurance strategy, the ABS is working with corrective services agencies to minimise the effect of these differences.

REFERENCE PERIOD/DATE

4 The reference period for average daily prisoner population statistics and sentenced reception counts is the complete reference month. Prior to the December quarter 2004, average daily statistics for Australian Capital Territory prisoners held in New South Wales could not be supplied, and a single count taken on a specific day of the month was used instead. The reference date for all other figures is the first day of the reference month. However, not all states and territories report strictly according to this 'first day of the month' rule:

- The Western Australian and Victorian prison population and Australian Capital Territory prisoners in New South Wales prisons are counted as at midnight on the last day of the month. In these cases the figures provided are taken to represent the prison population at the beginning of the following month to align with practices in other states and territories.
- Prior to the September quarter 2004, the New South Wales prison population was counted on the last Sunday of the month. The New South Wales community-based corrections population is counted on the first day of the month.

5 Calculation of figures for the entire quarter and entire year varies depending on the counting unit and method of counting prisoners:

- Average daily figures: Figures are calculated by weighting the average according to the number of days in each month or year.
- First day of the month: Figures are simple averages. For quarterly figures, the sum of the monthly data is divided by three; for yearly figures, the figures for each month are added and the total divided by twelve.
- Sentenced receptions: Figures are totals of each month.
- These figures may be subject to rounding.

SCOPE

6 The scope of the statistics in this publication includes all persons remanded or sentenced to adult custodial corrective services agencies (including Work Outreach Camps and Community Custody Centres in Queensland), or who are serving adult community-based orders in each state and territory in Australia.

EXPLANATORY NOTES *continued*

SCOPE *continued*

7 Counts of prisoners in the following custodial facilities are included in the collection:

- gazetted prisons in all jurisdictions
- periodic detention centres in New South Wales and the Australian Capital Territory
- Community Custody Centres and Work Outreach Camps in Queensland
- cells in court complexes administered by corrective services in New South Wales
- transitional centres in New South Wales
- lock-ups in Western Australia operated by the police but designated as a prison by the Chief Executive Officer of Corrective Services.

8 The prisons and community corrections collection excludes the following custodial facilities:

- police lockups, police prisons and cells in court complexes not administered and controlled by corrective services
- gazetted police prisons in the Northern Territory
- juvenile detention centres, including those under the authority of adult corrective services
- immigration detention centres
- military prisons.

9 This collection includes counts of persons remanded or sentenced to adult custody facilities, or directed to serve community based orders administered by adult corrective services agencies. In all states and territories except Victoria and Queensland, persons are considered adults if aged 18 years and over. In Victoria and Queensland persons are considered adults if aged 17 years and over. The vast majority of persons counted in the collection are adults. However, juveniles may be included in exceptional circumstances.

10 Since December 2004, the Kariong Juvenile Correctional Centre in New South Wales has operated under the authority of adult corrective services. The population at Kariong Juvenile Correctional Centre may include adult persons as well as juveniles. New South Wales is unable to exclude juveniles based in Kariong from this collection, however, this facility accounts for less than 0.5% of the New South Wales prisoner population.

11 Federal prisoners include those persons charged and sentenced under a Commonwealth statute, and those persons who are charged and sentenced under the laws of another country but transferred to an Australian prison to serve their sentence under the *International Transfer of Prisoners Act 1997* (Cwlth). To give practical effect to this legislation in Australia, the framework was introduced in January 2003. For the purposes of this publication, federal sentenced prisoners are those persons who are recognised by the Criminal Law Division of the Australian Government Attorney-General's Department as having been charged and sentenced under a Commonwealth statute, or transferred from another country to serve their sentence in Australia.

12 Community-based corrections includes those persons with breached or suspended orders, with the exception of Victoria and Tasmania.

DATA SOURCE

13 Statistics in this publication are derived from information provided to the ABS from administrative records held by corrective services agencies within each state and territory. Statistics on federal prisoners are derived from records kept by the Criminal Law Division of the Australian Government Attorney-General's Department.

COUNTING RULES

14 Statistics for persons held in custody are presented by the state or territory in which they were held and therefore may not be the sentencing jurisdiction. The only exception to this are data for federal sentenced prisoners. These are presented by the state or territory in which they were sentenced, not where they were held in custody.

EXPLANATORY NOTES *continued*

COUNTING RULES *continued*

15 Sentenced prisoners who have other offences that are unsentenced are counted as sentenced. Prisoners may be unsentenced because they are awaiting the outcome of their trial, convicted but awaiting sentence, or awaiting deportation.

16 If an offender has two or more different types of community-based orders operating simultaneously, then each order will be counted. If two or more community-based orders are of the same type, these orders together will only be counted as one order.

INDIGENOUS IDENTIFICATION

17 In all states and territories persons are asked during entry into custody whether they are of Aboriginal or Torres Strait Islander origin. In states other than Victoria, it is uncommon for corrective services agencies to collect Indigenous status information from sources other than the person's own identification. In Victoria, Indigenous status data can also be accessed from data collected from other justice sources.

18 Some persons in custody are recorded with an unknown Indigenous status on the information systems of corrective services agencies as their status has not been able to be obtained. Persons with Indigenous status unknown are excluded from tables 11–14. Counts of persons with an unknown Indigenous status are included in all other tables.

AUSTRALIAN CAPITAL TERRITORY PRISONERS

19 Persons sentenced to full-time custody by the Australian Capital Territory are usually held in New South Wales prisons. The Australian Capital Territory has two remand centres for unsentenced prisoners and a periodic detention centre. During 2000 the Australian Capital Territory commenced detaining prisoners sentenced for fine default only at their remand centres. Unsented Australian Capital Territory prisoners may also be detained in New South Wales prisons.

20 To provide greater understanding of the number of prisoners attributed to the Australian Capital Territory, while presenting an accurate picture of the New South Wales prisoner population, statistics relating to Australian Capital Territory prisoners in New South Wales prisons are presented as a subset of the New South Wales figures.

21 Imprisonment rate data for the Australian Capital Territory are included in the publication and are calculated on the basis of the total number of Australian Capital Territory prisoners (i.e. Australian Capital Territory prisoners held in New South Wales prisons, and Australian Capital Territory prisoners held in the Australian Capital Territory) divided by the estimated resident Australian Capital Territory adult population and multiplied by 100,000. For New South Wales, the imprisonment rate is based on the count of New South Wales prisoners, excluding Australian Capital Territory prisoners held in New South Wales prisons, divided by the estimated resident New South Wales adult population and multiplied by 100,000. Time series data have also been derived on this basis.

RATES

22 Imprisonment and community-based corrections rates enable comparisons of prisoner numbers to be made across states and territories. Prisoner and community-based corrections rates are expressed per 100,000 adult population.

23 In this publication the population figures used in the calculation of rates are for persons aged 18 years and over for all states and territories except Victoria and Queensland where the population is persons aged 17 years and over (see Explanatory Notes, paragraph 9).

24 Rates for the total adult prisoner population and persons in community-based corrections are calculated using the estimated resident population (ERP) for each of the states and territories (refer *Australian Demographic Statistics* (cat. no. 3101.0)). All estimates for the Australian Capital Territory exclude Jervis Bay Territory. All estimates for Australia exclude the external territories of Christmas Island and the Cocos (Keeling) Island. As the population changes over time the denominator used for the calculation of

EXPLANATORY NOTES *continued*

RATES *continued*

rates varies, depending on the reference period. The most current ERP data available at the time of publication are used to calculate rates as follows:

- for the March quarter, ERP is from the previous September quarter;
- for the June quarter, ERP is from the previous December quarter;
- for the September quarter, ERP is from the previous March quarter;
- for the December quarter, ERP is from the previous June quarter; and
- annual rates are an average of the rates of the contributing quarters.

Indigenous imprisonment rates

25 Rates for the Indigenous adult population in this publication are based on the low series projections for 30 June of the current calendar year (refer to *Experimental Estimates and Projections, Aboriginal and Torres Strait Islander Australians, 30 June 1991 to 30 June 2009* (cat. no. 3238.0)). These projections are based on the 2001 Census of Population and Housing.

26 The low series are one of two series of these projections that have been published for the years 2002 to 2009.

- The low series assumes no 'unexplained growth' – that is, the Indigenous population recorded in the 2001 Census of Population and Housing is projected to change only as a result of births and deaths (natural increase) and, for the states and territories, as a result of interstate migration.
- The high series assumes that there will be 'unexplained growth' in the Indigenous population – that is, the Indigenous population is projected to change as a result of an unexplained component in addition to the effects of natural increase and interstate migration. The size of the unexplained component is based on the 'unexplained growth' observed between the 1996 and 2001 censuses.

27 The decision to use the low series as the denominator in the calculation of Indigenous imprisonment rates from 2002 followed consultation with the National Corrective Services Statistics Unit Advisory Group and other stakeholders.

Revisions to historical Indigenous rates

28 Historical rates for Indigenous prisoners have been revised using Indigenous population projections based on the 2001 Census of Population and Housing (low series) for 2002 to 2004.

SIGNIFICANT EVENTS

29 New South Wales have implemented regular quality assurance processes on their community-based corrections data. Prior to the September quarter 2003, pre-sentence reports were omitted from reported bail figures, and therefore data for earlier reference periods are under enumerated.

30 The administrative classification of the following NSW correctional facilities was altered at 1 July 2005: Cooma, Dilwynia, Paramatta and Berrima. These facilities changed classification from 'open' to 'secure' to reflect alterations in the profile of inmates held, and the operational requirements of those centres. As such, the proportion of persons in secure and open custody altered in the September quarter 2005 compared to previous quarters.

31 In December 2004 Victoria's Beechworth Prison closed while a new correctional facility (Beechworth Correctional Centre) opened in February 2005. The old Beechworth Prison was classified as medium security and the new Correctional Centre is classified as minimum security. Data previously published for secure custody were overcounted and open custody were undercounted. Data for the March and June quarters have been revised to reflect this change.

32 The Maryborough Correctional Centre, Queensland, was officially opened in April 2003. The Centre has the capacity to hold 500 prisoners.

EXPLANATORY NOTES *continued*

SIGNIFICANT EVENTS *continued*

- 33** Data extracted from the South Australian information system for the June quarter 2005 and September quarter 2005 may be subject to data processing time lags. Procedures to overcome this have been implemented for the December quarter 2005.
- 34** During 2003 in Western Australia there was an increase in the number of Indigenous persons sentenced to imprisonment by the courts, mostly in relation to 'Driving/Traffic', 'Against the Person' and 'Justice/Good Order' offences.
- 35** A range of amendments to Western Australian corrections legislation came into effect in 2003 and 2004. As a result, bail figures were included for the first time in the December quarter 2003 for Western Australia. Prior to the September quarter 2004, counts of restricted movement orders included conditional bail orders (that may have a restricted movement condition). All conditional bail orders are now counted as bail orders.
- 36** In the June quarter 2005, Western Australia implemented a strategy to reduce the number of fine defaulters being taken into custody by offering alternative means of payment. This has resulted in a decrease in the number of sentenced receptions into custody for the September quarter 2005.
- 37** Tasmanian first day of month data for reference periods prior to the September quarter 2003 are under enumerated. Prior to January 2004, sentenced reception figures for Tasmania do not include all prisoners changing from unsentenced custody to sentenced custody.
- 38** In the Northern Territory, over the 12 months to 30 June 2003, there was an increase in the number of Indigenous persons sentenced to imprisonment for a range of assault and driving offences.

GLOSSARY

Bail	This is generally a pre-sentence option where a person is released into the community for a period before they appear in court for trial or final sentencing. Bail orders can require a financial surety to be lodged with the court, and a number of conditions including supervision and residential requirements designed to ensure the re-appearance of the person at court. Bail counts are available only in states and territories where bail orders are supervised by corrective services. Bail is a sub-category of Supervision where the person is under the supervision of corrective services (<i>see</i> Supervision).
Community-based corrections	This refers to the community-based management of court-ordered sanctions, post-prison administrative arrangements and fine conversions, which principally involve the provision of one or more of the following activities: supervision, programs or community work.
Community service	This category of community-based corrections orders includes sentencing options requiring offenders to undertake a specified number of hours of unpaid, supervised work to benefit the community on an approved project. Community service is a sub-category of Reparation (<i>see</i> Reparation).
Corrective services custody	Confinement in a place intended primarily for the purpose of confining prisoners, such as a prison, prison farm, Periodic Detention Centre or Community Custody Centre.
Federal sentenced prisoner	Persons charged and sentenced under a Commonwealth statute or transferred from another country to serve their sentence in Australia.
Fine option	A community-based sentence type where the offender is serving a sentence for default of a fine. In most jurisdictions this order type requires an offender to complete community service as a reparatory act. Fine option is a sub-category of Reparation (<i>see</i> Reparation).
Full-time prison custody	A type of custody where a prisoner is required to be held in custody on a full-time basis. This includes prisons, Queensland Community Custody Centres and work outreach camps. Full-time prison custody excludes periodic detention (<i>see</i> Periodic detention).
Home detention	(<i>see</i> Restricted movement)
Indigenous prisoner	A prisoner who identifies as being of Aboriginal or Torres Strait Islander origin, or both.
Legal status	A person may be either sentenced or unsentenced depending on the warrant(s) or court order(s) that provide the legal basis for the administration of the person through the criminal justice system.
Open custody	Refers to prisoners housed in minimum security custodial facilities that do not require them to be confined by a secure perimeter physical barrier, irrespective of whether a physical barrier exists.
Parole	A parole order is made following a period of imprisonment and requires an offender to be subject to supervision in the community. Additional conditions may also be applied such as programs, counselling or drug testing. Parole is a sub-category of Supervision (<i>see</i> Supervision).
Periodic detention	A type of custody or order where a sentenced prisoner is required to be held in custody on a part-time basis. Currently this consists of two consecutive days in a one-week period, while remaining at liberty during the rest of the week.
Prisoner	A person held in custody. For the purposes of this collection, prisoners are those whose confinement is the responsibility of a corrective services agency.
Remand	(<i>see</i> Unsented)
Reparation	Reparation refers to all offenders with an order that requires them to undertake unpaid, justice agency-approved community service work.

GLOSSARY *continued*

Restricted movement	This refers to persons who are subject to a system of restricted movement, including supervision and/or electronic monitoring. This category includes home detention that may restrict residence to a nominated place. Restricted movement can be either a pre-sentence or post-sentence order.
Secure custody	Refers to prisoners housed in medium or maximum security custodial facilities requiring them to be confined by a secure physical barrier.
Sentenced	A legal status indicating that a person has received a custodial or community-based order from a court in response to a conviction for an offence.
Sentenced prisoner reception	Refers to entry into corrective services custody from the community, having received a sentence of imprisonment as an outcome of a court proceeding; or persons who are sentenced to custody while in custody on remand (i.e. changed status from a remand to a sentenced prisoner); or persons entering custody as a result of defaulting on the payment of a fine. Sentenced prisoners in custody who receive a further sentence of imprisonment are not counted as sentenced receptions.
Sentenced probation	A supervision order made following an original sentence handed down in court following conviction. A probation order generally requires 'good behaviour' and compliance with the directions of supervisors. The order may also require compliance with conditions such as program attendance and residential requirements.
Supervision (compliance)	This includes community-based orders other than those categorised as restricted movement or reparation (e.g. parole, bail and sentenced probation).
Unsentenced	A legal status indicating that a person is confined to custody or supervision while awaiting the outcome of their trial.
