INTRODUCTION

This publication provides information about the basic and expanded Confidentialised Unit Record Files (CURF) from the Survey of Income and Housing (SIH) conducted in 2005–06. Two microdata files are available from this survey:

- a basic SIH CURF available on CD–ROM or through the Remote Access Data Laboratory (RADL),
- an expanded SIH CURF accessible only through the RADL.

The expanded CURF contains more detailed data for some variables than the basic CURF, as well as some additional variables.

The RADL is a secure on–line data query service that clients can access via the ABS website. Because the CURFs are kept within the ABS environment, the ABS is able to release more detailed data via the RADL than can be made available on CD–ROM. Further information about this facility is available on the ABS website <<http://www.abs.gov.au>> (see Services We Provide, CURFs).

This Technical Manual is available on the ABS website <<http://www.abs.gov.au>> (see Services We Provide, CURFs, List of available CURFs, Survey of Income and Housing, 2005–06).

ABOUT THE SURVEY

The SIH collects detailed information about income and personal and household characteristics of persons aged 15 years and over resident in private dwellings throughout Australia. In some cycles, information on other topics (such as assets and liabilities) is also collected.

The SIH was conducted continuously from 1994–95 to 1997–98, and then in 1999–2000, 2000–01, 2002–03, 2003–04 and 2005–06. Up to and including the 2002–03 survey the SIH sample was drawn from dwellings that had just completed eight months participation in the Monthly Population Survey (MPS). From 2003–04 the sample has been drawn from households that had not recently been included in an ABS household survey. In 2003–04 the SIH was integrated with the Household Expenditure Survey (HES), with a subsample of the SIH respondents being asked additional questions on expenditure. From 2003–04 on, the SIH is being conducted every 2 years, and will be integrated with the HES whenever the HES is run (currently every 6 years).

The 2005–06 SIH was conducted on a sample of dwellings throughout Australia from July 2005 to June 2006. These dwellings were selected through a stratified, multistage cluster design. The sample excluded non–private dwellings (such as hospitals, institutions, nursing homes, hotels, hostels, etc), and dwellings in collection districts defined as very remote.

ABOUT THE SURVEY

continued

Information was collected from all persons aged 15 years and over in the selected households. Computer assisted interviewing was used to conduct household and personal interviews. As far as possible, interviews were spread equally over the enumeration period. Information from 9,961 households was included in the final estimates.

The content of the 2005–06 SIH was largely a repeat of that used in the 2003–04 SIH, including the collection of detailed information on assets and liabilities that was first collected in the 2003–04 SIH.

Estimates from the 2005–06 SIH were, or will be, published in *Household Income and Income Distribution, Australia* (cat. no. 6523.0), *Household Income and Income Distribution, Australia – Detailed Tables* (cat. no. 6523.0.55.001), *Housing Occupancy and Costs, Australia* (cat. no. 4130.0.55.001) and *Household Wealth and Wealth Distribution, Australia* (cat. no. 6554.0).

The *Survey of Income and Housing, Australia: User Guide* (cat. no. 6553.0) gives more information to assist users in evaluating and interpreting the results of the survey, including the concepts, definitions, methodology and estimation procedures used in the survey.

The methodology of the 2003–04 SIH, including the collection of household asset and liability information, was retained for the 2005–06 SIH, except that there was no HES subsample in 2005–06. The next HES subsample will be included in 2009–10.

ABOUT THE CURFS

The 2005–06 CURFs contain unit records relating to almost all of the survey respondents.

The data are released under the *Census and Statistics Act 1905*, which has provision for the release of data in the form of unit records where the information is not likely to enable the identification of a particular person or organisation. Accordingly, there are no names or addresses of survey respondents on the CURFs and other steps have been taken to protect the confidentiality of respondents. These include:

- For the basic CURF, persons were removed from all households with 7 or more persons to reduce them to a maximum household size of 6. This was done across a variety of ages rather than targeting specific age groups to minimise the number of young children deleted from the file, and also to minimise the impact on family and relationship coding of other people in the household. This also resulted in the deletion of several whole income units, mainly comprising a single person record only. A total of 75 persons aged under 15 years were dropped and 22 persons aged 15 years or over were dropped.
- For the expanded CURF, persons were removed from households with 9 or more persons to reduce them to a maximum household size of 8. Again, this was done across a variety of ages and care was taken to minimise the impact on family and relationship coding. One person aged under 15 years was dropped and 4 persons aged 15 years or over were dropped.
- The level of detail for many data items has been reduced (for example, State of usual residence of the ACT and the NT have been combined as ACT/NT for the basic CURF, but shown individually for the expanded CURFs; area of usual residence for the ACT and NT has not been made available on the CURFs).

ABOUT THE CURFS

continued

- All income items, some items relating to housing expenditure, and some loans data have been perturbed.
- Some variables have had values ranged, collapsed or top-coded (for example, assets and liabilities).
- Changes have been made to some records to protect against identification. Amendments have been made to household level variables and/or person level variables such as state, area, remoteness, age, educational qualifications, industry and/or occupation.

As a consequence, aggregated data obtained from the CURF are slightly different to that published in *Household Income and Income Distribution, Australia* (cat. no. 6523.0), *Household Wealth and Wealth Distribution, Australia* (cat. no. 6554.0) and *Housing Occupancy and Costs, Australia* (cat. no. 4130.0.55.001). See Chapter 4 of this publication for more information.

Steps taken to confidentialise the datasets made available on the CURF are undertaken in such a way as to ensure the integrity of the datasets and optimise the content, while maintaining the confidentiality of respondents. Intending purchasers should ensure that the data they require at the level of detail they require are available on the CURF; data obtained in the survey but not contained on the CURF may be available in tabulated form on request. For a complete list of data items and categories on the basic and expanded SIH CURFs, see Appendix 1.

CHAPTER 2

USING THE DATA

INTRODUCTION

The expanded SIH CURF contains more detailed data for some variables than the basic CURF, as well as some additional variables.

This chapter provides details of the files included on each CURF, and some information to assist in using the files.

SIH BASIC CURF FILE CONTENTS

The basic CURF distributed CD-ROM contains the following files:

Raw data:

SIH05B.CSV

This file contains the raw confidentialised survey data in hierarchical comma delimited ASCII text format.

SAS files:

These files contain the data for the CURF in SAS for Windows format.

SIH05BH.SAS7BDAT contains the Household level data

SIH05BI.SAS7BDAT contains the Income unit level data

SIH05BP.SAS7BDAT contains the Person level data

SPSS files:

These files contain the data for the CURF in SPSS for Windows format.

SIH05BH.SAV contains the Household level data

SIH05BI.SAV contains the Income unit level data

SIH05BP.SAV contains the Person level data

STATA files:

These files contain the data for CURF in STATA format.

SIH05BH.DTA contains the Household level data

SIH05BI.DTA contains the Income unit level data

SIH05BP.DTA contains the Person level data

Information files:

FORMATS.SAS7BCAT

This file is a SAS library containing formats.

SIH05B.SAS

This file contains a SAS program to run the SAS formats.

Information files:

README.TXT

continued

This is a text file describing the file contents of the CURF.

RESPONSIBLE ACCESS TO ABS CURFS TRAINING MANUAL_MAR05.PDF

This is an acrobat file explaining the CURF users' role and obligations when using confidentialised data.

ABS CONDITIONS OF SALE.PDF

This file describes ABS conditions of sale.

COPYRITE1.BAT

This file describes copyright obligations for CURF users.

IMPORTANT INFORMATION FOR CURF USERS_300903.PDF

This file directs users to the ABS website for more and up to date information on what is available from the ABS.

65410_DATA_ITEM_LISTING_SIH05.XLS

This file contains documentation of the SIH 2005–06 raw data including data item labels, code values and category labels.

65410_SIH_TECHNICAL_MANUAL.PDF

This is an acrobat file that contains the Technical Manual.

Frequency files:

FREQUENCIES_SIH05BH.TXT

This file contains documentation of the Household level data. Data item code values and category labels are provided with weighted and unweighted household frequencies of each value. This file is in plain text format.

FREQUENCIES_SIH05BI.TXT

This file contains documentation of the Income unit level data. Data item code values and category labels are provided with weighted and unweighted income unit frequencies of each value. This file is in plain text format.

FREQUENCIES_SIH05BP.TXT

This file contains documentation of the Person level data. Data item code values and category labels are provided with weighted and unweighted person frequencies of each value. This file is in plain text format.

SIH EXPANDED CURF FILE
CONTENTS

The expanded CURF can only be accessed via the RADL and contains the following files:

Test files:

The test files mirror the actual data files, but have random data and random identifiers. These files are on the RADL website and can be downloaded so users can use these to trouble shoot their code prior to submitting RADL jobs.

SIH05EH.SAS7BDAT contains the test file of Household level data in SAS for Windows format

SIH05EI.SAS7BDAT contains the test file of Income unit level data in SAS for Windows format

SIH05EP.SAS7BDAT contains the test file of Person level data in SAS for Windows format

SIH05EH.SAV contains the test file of Household level data in SPSS format

SIH05EI.SAV contains the test file of Income unit level data in SPSS format

SIH05EP.SAV contains the test file of Person level data in SPSS format

SIH05EH.DTA contains the test file of Household level data in STATA format

SIH05EI.DTA contains the test file of Income unit level data in STATA format

SIH05EP.DTA contains the test file of Person level data in STATA format

Main files:

SIH05EH.SAS7BDAT contains the file of Household level data in SAS for Windows format

SIH05EI.SAS7BDAT contains the file of Income unit level data in SAS for Windows format

SIH05EP.SAS7BDAT contains the file of Person level data in SAS for Windows format

SIH05EH.SAV contains the file of Household level data in SPSS format

SIH05EI.SAV contains the file of Income unit level data in SPSS format

SIH05EP.SAV contains the file of Person level data in SPSS format

SIH05EH.DTA contains the file of Household level data in STATA format

SIH05EI.DTA contains the file of Income unit level data in STATA format

SIH05EP.DTA contains the file of Person level data in STATA format

DATA ITEMS

Data items included on the SIH CURFs are listed in Appendices 1 to 3. The detailed data item list and categories for the SIH CURF is contained in Appendix 1. Appendix 2 provides an index based on subject and Appendix 3 provides an index based on field name. The data items included on the CURFs, and the categories within the data items, differ between the basic and expanded CURFs. The expanded CURFs contain more variables than the basic CURF as well as more detailed data for selected variables. Table 2.1 shows the differences between the 2005–06 basic and expanded SIH CURFs. Many of the differences result from the difference in the maximum household size permitted on the basic and expanded CURFs. On the basic CURFs, households with 7 or more members have been reduced to a maximum of 6, while on the expanded CURF households with 9 or more people have been reduced to a maximum of 8.

TABLE 2.1 COMPARISON OF DATA BETWEEN 2005–06 BASIC AND EXPANDED SIH CURFS

<i>Data Item</i>	<i>Treatment in Basic CURF</i>	<i>Treatment in Expanded CURF</i>	<i>Item number</i>
Household level			
Age of oldest dependent child in household	AGODCHBC 2 years or younger, 3 to 4 years, 5 to 9 years, 10 to 14 years, 15 to 24 years	AGODCHEC Single year ages except for grouping 6 to 9 years and 15 to 24 years	BH54, EH54
Age of youngest dependent child in household	AGYDCHBC 2 years or younger, 3 to 4 years, 5 to 9 years, 10 to 14 years, 15 to 24 years	AGYDCHEC Single year ages except for grouping 6 to 9 years and 15 to 24 years	BH55, EH55

Age	AGEBC Top coded at 80 years and over, single years except for 5 year range categories for 25-54 years and 65-79 years. Categories assigned codes 1-30.	AGEEC Top coded at 85 years and over. No ranges. Categories assigned codes 15-85.	BP183, EP183
Country of birth	Not on dataset	COB06EC	EP184
Year of arrival in Australia	YOABC Born in Australia, Arrived 1985 and before, Arrived 1986-1995, Arrived 1996 and later	YOAEC Born in Australia, Arrived 1955 and before, 5 year groups from 1956 to 2000, Arrived 2001 and later	BP192, EP193
Level of highest non-school qualification	HQUALBC 9 categories. Postgraduate degree, Graduate diploma/graduate certificate combined	HQUALCP 10 categories. Postgraduate degree separate from Graduate diploma/graduate certificate	BP196, EP197
Duration of unemployment	DURUNBC Under 4 weeks, 4 weeks and under 13 weeks, 13 weeks and under 26 weeks, 26 weeks and under 52 weeks, 52 weeks and over	DURUNEC Single weeks, topcoded at 104 weeks and over	BP199, EP200
Industry of main job	INDBC 18 categories.	INDEC 43 categories.	BP201, EP202

TABLE 2.1 COMPARISON OF DATA BETWEEN 2005–06 BASIC AND EXPANDED SIH CURFS *continued*

<i>Data Item</i>	<i>Treatment in Basic CURF</i>	<i>Treatment in Expanded CURF</i>	<i>Item number</i>
Person level			
Number of hours usually worked per week in main and second jobs	HRSWKABC 26 categories. Top coded at 50 or more hours. 2 hour ranges for 1-34, 36-39 and 41-49 hours.	HRSWKAEC 61 categories. Single hours, topcoded at 60 or more hours.	BP205, EP206
Number of hours usually worked per week in main job	HRSWKMBC 26 categories. Top coded at 50 or more hours. 2 hour ranges for 1-34, 36-39 and 41-49 hours.	HRSWKMEC 61 categories. Single hours, topcoded at 60 or more hours.	BP206, EP207
Number of hours usually worked per week in second job	HRSWK2BC 8 categories. 0 hours worked, 2 hour ranges for 1-13, topcoded at 14 or more hours.	HRSWK2EC 21 categories. Single hours, topcoded at 20 or more hours.	BP207, EP208
Occupation in main job	OCCCBC 11 categories.	OCC06EC 46 categories.	BP209, EP210

RECORD TYPES

Each of the CURFs contain the following record levels:

- Household level — contains information about state or territory and area (capital city/balance of state) of residence, type of dwelling, tenure type, landlord type, household type and composition, household income by broad level source of income, household net worth by category, housing costs, demographic information, and some information relating to the household reference person.
- Income unit level — contains income by broad level source of income, and demographic information
- Person level — contains information about age, sex, marital status, relationship in household, country of birth, year of arrival in Australia, family type, income unit type, labour force details, occupation and industry, education status, education qualifications and education institution attending, income by detailed source of income, and some information on personal assets. Person records exist only for persons aged 15 and over.

Table 2.2 shows the number of records on each level.

TABLE 2.2 RECORD COUNTS

	<i>SIH Basic</i>	<i>SIH Expanded</i>
Household level	9 961	9 961
Income unit level	12 082	12 092
Person level	19 190	19 208

IDENTIFIERS

There are several identifiers on records at each level of the file.

Each household has a unique random identifier. This identifier appears on the household level (ABSHID), and is repeated on the income unit and person level records relating to that household.

IDENTIFIERS *continued*

Each family within the household is numbered sequentially. Non family members, single person households and persons in group households have a sequential "family number" commencing at 50. Family number (ABSFIID) appears on the income unit level and the person level. The combination of household and family number uniquely identifies a family.

A family has one or more income units and each income unit within the family is numbered sequentially. Income unit number (ABSIIID) appears on the income unit level and the person level. The combination of household, family and income unit number uniquely identifies an income unit.

An income unit has one or more persons and each person within the income unit is numbered sequentially. Person number (ABSPID) appears on the person level. The combination of household, family, income unit and person number uniquely identifies a person.

CHILDREN UNDER 15

Children under 15 do not have their own person level record on the file. Information on the number and ages of such children was collected and is included on the income unit level file.

USE OF WEIGHTS

As the survey was conducted on a sample of private households in Australia, it is important to take account of the method of sample selection when deriving estimates from the CURF. This is particularly important as a person's chance of selection in the survey varied depending on the state or territory in which the person lived. If these chances of selection are not accounted for, by use of appropriate weights, the results will be biased.

Each household, income unit and person record contains a weight. This weight indicates how many population units are represented by the sample unit. Weights for each member of the household are the same as the weight for the household itself. Information for sampled households can be multiplied by the weights to produce estimates for the whole population.

In addition, the household, income unit and person records each include 60 replicate weights which can be used to derive estimates of standard error. Information on the use of these replicate weights is provided in the section Reliability of the estimates below.

In deriving weights, an initial weight, equal to the inverse of the probability of selection, was first calculated for each household. To adjust for under-enumeration and to align survey estimates with independent population estimates, the weights were then calibrated against person and household benchmarks.

The benchmarks are the same as those used in the 2003–04 SIH. The only change was in the age groups used. In SIH 2003–04, the age groups were: 15–24, 25–34, 35–44, 45–54, 55–64, 65+ except for NT where the age groups were 15–24, 25–44, 45+. The expanded detail for age groups in SIH 2005–06 aims to improve estimates across all ages. The impact of this change on all other estimates not involving age is expected to be minimal.

The benchmarks used in the calibration of the final weights for the 2005–06 SIH were:

- number of persons aged 15 and over —
 - by state or territory by age by sex;

USE OF WEIGHTS

continued

- age groups for the states were 15–19, 20–24, 25–29, 30–34, 35–39, 40–44, 45–49, 50–54, 55–59, 60–64, 65–69, 70–74, 75+
- age groups for the ACT were 15–19, 20–24, 25–29, 30–34, 35–39, 40–44, 45–49, 50–54, 55–59, 60–64, 65–74, 75+
- age groups for the NT were 15–19, 20–24, 25–29, 30–34, 35–39, 40–44, 45+
- by state or the ACT by labour force status ('Employed', 'Unemployed' and 'Not in the labour force');
- by state by capital city/balance of state;
- numbers of children under age 15 —
 - by state or territory by age (0–4, 5–14)
- numbers of households —
 - by household composition (number of adults (1,2 or 3+) and whether or not the household contains children)

The person and household benchmarks were based on preliminary estimates of numbers of persons and households in Australia in 2005–06 based on the 2001 Population Census. The benchmarks used include households and persons residing in occupied private dwellings only and therefore do not, and are not intended to, match estimates of the total Australian resident population published by the ABS.

If estimates of population sub-groups are to be derived from the CURF, it is essential that they are calculated by adding the weights of persons/households in each category and not just by counting the number in each category. If each person's/household's weight were to be ignored when analysing the data to draw inferences about the population, then no account would be taken of a person's/household's chance of selection or of different response rates across population groups, with the result that the estimates produced could be seriously biased. The application of weights ensures that estimates will conform to an independently estimated distribution of the population by age, sex etc rather than to the distributions within the sample itself.

It should be noted that as a result of some of the changes made to protect confidentiality on the CURF, estimates of benchmarked items produced from the CURF may not equal the benchmarked values. See Chapter 4 for more information.

NOTES ON SPECIFIC DATA ITEMS

Many of the data items included on the CURFs are self explanatory. The glossary provides definitions for most of the remaining data items. However, some items require further explanation.

Geographic items

To enable CURF users greater flexibility in their analyses, the ABS has included one Socio-economic Index For Area (SEIFA) and several sub-state geography items on the expanded 2005–06 CURFs. Conditions are placed on the use of these items. Tables showing multiple data items, cross tabulated by more than one sub-state geography at a time, are not permitted due to the detailed information about small geographic regions that could be presented. However, simple cross-tabulations of population counts by sub-state geographic data items may be useful for clients in order to determine which geography item to include in their primary analysis, and such output is permitted.

Income items

INTRODUCTION

The person level records contain detailed information on income by source. The income unit and household level records contain information at a broader level. If detailed information is required for income analyses at the income unit or household level, this can be calculated by aggregating the person level information for each income unit or household. Income is recorded on both a 'current' and a 'previous financial year' basis. For more information about current and previous financial year income, see the 'Current and Annual Income' Appendix in the *Survey of Income and Housing, Australia: User Guide* (cat. no. 6553.0).

The integration of the SIH and the HES in 2003–04 necessitated a number of changes to the content of income items. In addition, some improvements were made in the estimation of current income from investments and unincorporated business. In SIH 2005–06 additional changes were made to incorporate in employee income (wages and salary) estimates the value of all benefits received under a salary sacrifice arrangement.

Where possible, supplementary items have been included on the file which replicate the content of the items that have been included on previous issues of the SIH CURF. The files include 3 income aggregates, "Total current weekly income from all sources (2005–06 basis)", "Total current weekly income from all sources (2003–04 basis)" and "Total current weekly income from all sources (pre 2003–04 SIH basis)". These items will assist users interested in retaining comparability with previous surveys. Note that items labelled with "(prev SIH basis)" on the 2003–04 CURF have been renamed to "(pre 2003–04 SIH basis)" on the 2005–06 CURF. Items not labelled with qualifiers on the 2003–04 SIH CURF, but which now have multiple versions, have been renamed to be qualified with "(2003–04 basis)". New versions of income items created in 2005–06 have been labelled with the qualifier "(2005–06 basis)". See Table 3.2 in Chapter 3 for details of the individual item label changes.

TOTAL CURRENT WEEKLY INCOME FROM ALL SOURCES (2005–06 BASIS)

The publications relating to the 2005–06 survey used this measure of income. It is similar to the income in the 2003–04 SIH, but includes all amounts salary sacrificed in wages and salaries estimates and includes improved estimates of family tax benefit.

In previous surveys salary sacrificed amounts were included only where the respondent included them in their reported wages and salaries. Two thirds of the total amount that was reported as salary sacrificed in 2003–04 had been included in reported wages and salaries.

Family tax benefit estimates have been improved to include payments received via the tax system or as a lump sum, in addition to those received fortnightly. For more information see Chapter 3.

The component items of "Total current weekly income from all sources (2005–06 basis)" are:

- Total current weekly employee cash income (incl salary sacrifice)
- Current weekly cash income from own unincorporated business (reported)

*Income items continued*TOTAL CURRENT WEEKLY INCOME FROM ALL SOURCES (2005–06 BASIS) *continued*

- Total current weekly income from government pensions and allowances
 - Current weekly income from Austudy/Abstudy
 - Current weekly income from age pension
 - Current weekly income from carer allowance
 - Current weekly income from carer payment
 - Current weekly income from disability pension (DVA)
 - Current weekly income from disability support pension
 - Current weekly income from family tax benefits (modelled)
 - Current weekly income from maternity payment
 - Current weekly income from mature age allowance
 - Current weekly income from Newstart allowance
 - Current weekly income from one–off payment to older Australians
 - Current weekly income from one–off payments to carers
 - Current weekly income from other government pensions and allowances
 - Current weekly income from overseas pensions and benefits
 - Current weekly income from parenting payment
 - Current weekly income from partner allowance
 - Current weekly income from seniors concession allowance
 - Current weekly income from service pension (DVA)
 - Current weekly income from sickness allowance
 - Current weekly income from special benefit
 - Current weekly income from utilities allowance
 - Current weekly income from war widow's pension
 - Current weekly income from widow allowance
 - Current weekly income from wife pension
 - Current weekly income from youth allowance
- Total current weekly income from investments (reported)
 - Current weekly income from dividends (reported)
 - Current weekly income from financial institution account interest (reported)
 - Current weekly income from interest on debentures and bonds (reported)
 - Current weekly income from interest on loans to persons not in this household (reported)
 - Total current weekly income from property (reported)
 - Current weekly income from non–residential property (reported)
 - Current weekly income from residential property (reported)
 - Current weekly income from royalties (reported)
 - Current weekly income from trusts (reported)
 - Current weekly income from other financial investments (reported)
- Total current weekly income from other regular sources
 - Current weekly income from accident compensation and sickness insurance
 - Current weekly income from child support/maintenance
 - Current weekly income from persons not living in the household
 - Current weekly income from regular workers' compensation
 - Current weekly income from scholarships
 - Current weekly income from superannuation/annuity/allocated pension
 - Current weekly income from regular sources n.e.c.

*Income items continued***TOTAL CURRENT WEEKLY INCOME FROM ALL SOURCES (2003–04 BASIS)**

This measure of income is comparable to that used in the publications relating to the 2003–04 survey, with the only difference being the incorporation of any changes to government pensions and allowances since 2003–04 and the inclusion of improved estimates of family tax benefit. On the 2003–04 CURF the equivalent item is "Total current weekly income from all sources".

This item is similar to the income in SIHs prior to 2003–04, but instead of basing the estimate of current unincorporated business and investment income on the income from the previous financial year, the respondent's estimate of current year income is used.

The component items of "Total current weekly income from all sources (2003–04 basis)" are:

- Total current weekly employee cash income (as reported)
- Current weekly cash income from own unincorporated business (reported)
- Total current weekly income from government pensions and allowances
 - Current weekly income from Austudy/Abstudy
 - Current weekly income from age pension
 - Current weekly income from carer allowance
 - Current weekly income from carer payment
 - Current weekly income from disability pension (DVA)
 - Current weekly income from disability support pension
 - Current weekly income from family tax benefits (modelled)
 - Current weekly income from maternity payment
 - Current weekly income from mature age allowance
 - Current weekly income from Newstart allowance
 - Current weekly income from one-off payment to older Australians
 - Current weekly income from one-off payments to carers
 - Current weekly income from other government pensions and allowances
 - Current weekly income from overseas pensions and benefits
 - Current weekly income from parenting payment
 - Current weekly income from partner allowance
 - Current weekly income from seniors concession allowance
 - Current weekly income from service pension (DVA)
 - Current weekly income from sickness allowance
 - Current weekly income from special benefit
 - Current weekly income from utilities allowance
 - Current weekly income from war widow's pension
 - Current weekly income from widow allowance
 - Current weekly income from wife pension
 - Current weekly income from youth allowance

*Income items continued*TOTAL CURRENT WEEKLY INCOME FROM ALL SOURCES (2003–04 BASIS) *continued*

- Total current weekly income from investments (reported)
 - Current weekly income from dividends (reported)
 - Current weekly income from financial institution account interest (reported)
 - Current weekly income from interest on debentures and bonds (reported)
 - Current weekly income from interest on loans to persons not in this household (reported)
 - Total current weekly income from property (reported)
 - Current weekly income from non–residential property (reported)
 - Current weekly income from residential property (reported)
 - Current weekly income from royalties (reported)
 - Current weekly income from trusts (reported)
 - Current weekly income from other financial investments (reported)
- Total current weekly income from other regular sources
 - Current weekly income from accident compensation and sickness insurance
 - Current weekly income from child support/maintenance
 - Current weekly income from persons not living in the household
 - Current weekly income from regular workers' compensation
 - Current weekly income from scholarships
 - Current weekly income from superannuation/annuity/allocated pension
 - Current weekly income from regular sources n.e.c.

TOTAL CURRENT WEEKLY INCOME FROM ALL SOURCES (PRE 2003–04 SIH BASIS)

This item replicates income as recorded in SIHs prior to 2003–04, and is the same item as "Total current weekly income from all sources (prev SIH basis)" in the 2003–04 SIH.

The component items are:

- Total current weekly employee cash income
- Current weekly cash income from own unincorporated business (prev SIH basis using PFY data)
- Total current weekly income from government pensions and allowances
- Total current weekly income from investments (based on PFY)
 - Current weekly income from dividends (based on PFY)
 - Current weekly income from financial institution account interest (based on PFY)
 - Current weekly income from interest on debentures and bonds (based on PFY)
 - Current weekly income from interest on loans to persons not in this household (based on PFY)
 - Total current weekly income from property (based on PFY)
 - Current weekly income from non–residential property (based on PFY)
 - Current weekly income from residential property (based on PFY)
 - Current weekly income from royalties (based on PFY)
 - Current weekly income from trusts (based on PFY)
 - Current weekly income from other financial investments (based on PFY)
- Total current weekly income from other regular sources

Salary sacrifice and salary packaging

Information relating to salary sacrifice and other forms of salary packaging was collected for the first time in the 2003–04 SIH. In 2003–04, the salary packaging data was not included in income aggregates or used to adjust reported information on cash income, but the items were available for use by researchers. It should be noted that in 2003–04 respondents reported that about two thirds of salary sacrificed income had actually been included in their reported "cash" income (and therefore was already included in income estimates).

The same information was collected in the 2005–06 SIH. Changes outlined in *Information Paper: Changes to ABS Measures of Employee Remuneration* (cat. no. 6313.0), which was released in November 2006, require that all amounts salary sacrificed be included in wages and salaries and total income estimates. This change has been implemented for the output from the 2005–06 SIH.

The adjustment made to include all salary sacrifice in wages and salary estimates is derived as follows:

- If reported employee income does not include the amount salary sacrificed (WSSEICP=2) then Total current weekly employee income (incl salary sacrifice) is the sum of:
 - Total current weekly employee income
 - Current weekly employee income salary sacrificed for child care
 - Current weekly employee income salary sacrificed for computer
 - Current weekly employee income salary sacrificed for housing
 - Current weekly employee income salary sacrificed for superannuation
 - Current weekly employee income salary sacrificed for telephone charges
 - Current weekly employee income salary sacrificed for other benefits
- Otherwise, Total current weekly employee income (incl salary sacrifice) equals Total current weekly employee income.

The above derivation can also be used with the 2003–04 CURF to create employee income estimates for 2003–04 that are inclusive of all salary sacrificed amounts.

The following 2005–06 SIH income items include salary sacrifice amounts:

- Total current weekly employee income (incl salary sacrifice)
- Total current weekly income from all sources (2005–06 basis)
- Total current weekly employee IU income (2005–06 basis)
- Total current weekly IU income from all sources (2005–06 basis)
- Total current weekly HH employee income (2005–06 basis)
- Total current weekly HH income from all sources (2005–06 basis)
- Current weekly HH disposable income (2005–06 basis)
- Current weekly HH equivalised disposable income (2005–06 basis)

The following 2005–06 SIH source of income items are based on items including salary sacrifice amounts:

- Principal source of current income (2005–06 basis)
- Principal source of current IU income (2005–06 basis)
- Principal source of current HH income (2005–06 basis)

Information on salary packaging other than under a salary sacrifice arrangement are not included in income aggregates, but are available on the CURF.

Previous financial year exclusion flag

The previous financial year exclusion flag at the person level (FINSCOPE) has a value of 1 for females whose family situation changed since 1 July 2004 (by moving in with a new partner, separating from a partner or becoming widowed) and for persons who arrived in Australia during 2005–06. At the income unit level a value of 1 in the previous financial year exclusion flag (FINSCOPU) indicates income units where the reference person or spouse has FINSCOPE=1. At the household level the previous financial year exclusion flag (FINSCOPH) indicates households where the reference person or spouse of one of the income units in the household has FINSCOPE=1. Users wishing to analyse previous financial year income data may wish to exclude such persons from their analysis (by limiting their analysis to records where FINSCOPE=2).

Assets and liabilities

SIH surveys prior to 2003–04 collected information on the estimated value of owner occupied dwellings and some information on household loans. The 2003–04 survey for the first time collected information on a comprehensive range of household assets and liabilities to enable analysis of net worth and its components across households. This more detailed information about assets and liabilities was collected again in the 2005–06 SIH.

Housing costs

Weekly housing costs included on previous SIH CURFs and used in previous issues of the publication *Housing Occupancy and Costs, Australia*, (cat. no. 4130.0.55.001) is labelled on the 2005–06 CURF as "Weekly housing costs (SIH basis)" and has the field name HCOSTSH. The component items are:

- Weekly rent payments (WKRENTCH), where Tenure type = renter
- Weekly general and water rates payments (RATESCH), where Tenure type = owner
 - Weekly general rates payments (RATESGCH)
 - Weekly water rates payments (RATESWCH)
 - Weekly combined rates payments (RATESCCH)
- Weekly mortgage repayments to purchase/build (TRPAY1CH), where Tenure type = owner with mortgage
- Weekly mortgage repayments for alterations/additions (TRPAY2CH), where Tenure type = owner with mortgage
- Weekly repayments on unsecured loans for housing purposes (TRPAY4CH), where Tenure type = owner with mortgage

Note that the mortgage and loan repayments in the items listed above are allocated according to the main purpose of the loan. For example, if a loan was taken out primarily to buy a dwelling, but part of it was used to purchase a car, the entire repayment amount is included in housing costs.

In the 2003–04 and 2005–06 surveys, extra information on housing costs was collected which can be used to derive alternative measures of housing costs.

- Where a payment has been refunded by a business or someone outside the household, the amount of the refund was collected.
- Where a loan had multiple purposes, details of all purposes were collected, so repayments can be allocated to each purpose in accordance with the percentage split of the original loan amount by purpose.

Housing costs continued

- Loan repayments were able to be split into an interest component and a component representing repayment of principal. It could be argued that housing costs should only include the interest component — the portion of loan repayments that represents repayment of principal is a form of saving and possibly should not be regarded as part of housing costs.
- Information on body corporate payments was collected.
- Information on housing costs was collected from all tenure types. For example payments for water were collected from renters as well as owners.

As in 2003–04, an alternative series of housing cost items has been included on the 2005–06 CURF in addition to the housing cost items traditionally included on SIH CURFs. The alternative item "Weekly housing costs (after refunds, int only, incl body corp, loans prorated by purpose, no tenure adjustment)" has the field name HCOSTS2H and has the following components:

- Weekly rent payments with refunds deducted (WKRENTRF)
- Weekly body corporate payments with refunds deducted (BCORPRCH)
- Weekly general and water rates payments with refunds deducted (RATERCH)
 - Weekly general rates payments with refunds deducted (RATERGCH)
 - Weekly water rates payments with refunds deducted (RATERWCH)
 - Weekly combined rates payments with refunds deducted (RATERCCH)
- Weekly mortgage repayments to purchase/build (interest component with refunds deducted) (TINT1CH)
- Weekly mortgage repayments for alterations/additions (interest component with refunds deducted) (TINT2CH)
- Weekly repayments on unsecured loans for housing purposes (interest component with refunds deducted) (TINT4CH)

Note that the items TINT1CH, TINT2CH and TINT4CH all only include the proportion of the loan used for that purpose.

A number of other related items are included on the CURF:

- TOWE1CH, TOWE2CH, TOWE3ACH and TOWE4CH record the amount owing on mortgages/loans, allocated according to their main purpose
- TOWE1C2, TOWE2C2, TOWE3AC2 and TOWE4C2 record the amount owing on mortgages/loans, allocated according to the proportion of loan used for each purpose.
- TRPAY1RF, TRPAY2RF, TRPAY3ARF and TRPAY4RF record loan/mortgage repayments, allocated according to the proportion of loan used for each purpose.

The housing costs measure used in the 2005–06 issue of *Housing Occupancy and Costs, Australia* (cat. no. 4130.0.55.001), is similar to that used in previous issues of the publication (HCOSTSH) but includes the information on housing costs for tenure types other than owners and renters (such as rent–buy and shared equity arrangements), which was first collected in 2003–04. This housing costs measure is not included on the 2005–06 SIH CURF, but can easily be derived by summing the component items:

- Weekly rent payments (WKRENTCH)
- Weekly general and water rates payments (RATESCH)
 - Weekly general rates payments (RATESGCH)
 - Weekly water rates payments (RATESWCH)

Housing costs continued

- Weekly combined rates payments (RATESCCH)
- Weekly mortgage repayments to purchase/build (TRPAY1CH)
- Weekly mortgage repayments for alterations/additions (TRPAY2CH)
- Weekly repayments on unsecured loans for housing purposes (TRPAY4CH)

The revised definition adds only about \$1 to mean weekly housing costs (2005–06) so is still fairly comparable with that used in previous issues of the publication.

Imputation flags

Imputation flags exist for each module in the questionnaire, rather than for specific data items. A value of 1 (partially imputed) indicates that at least one question in that module was imputed. Referring to the contents of the questionnaire module can provide an indication of whether particular data items may have included imputed data. The number of flags with a value of 1 for a particular record provides an indication of the extent of imputation in that record.

Payments to non household members

The financial resources available to certain persons can be affected by regular payments that they may make to provide support for persons outside the household. Information on payments for child support, alimony to former spouse, and payments to family members not in the household have been included on the CURFs.

RELIABILITY OF THE ESTIMATES

Two types of error are possible in an estimate based on a sample survey: non-sampling error and sampling error.

Non-sampling error

Non-sampling error refers to inaccuracies that may occur because of imperfect reporting by respondents, bias resulting from an inability to obtain data from all households, reporting errors and errors made in processing the data. They can occur whether the estimates are derived from a sample or from a complete collection. It is not possible to quantify non-sampling error, but every effort is made to reduce it to a minimum. This is done by careful design and testing of questionnaire, training of interviewers and data entry staff and extensive editing and quality control procedures at all stages of data processing. In editing, particular attention was paid to verification of extreme values reported by respondents and to values outside the range considered plausible. Where possible, records were checked to ascertain their accuracy and amended using other information provided by respondents. However, it was not possible to amend all the records or all of the data items which may have suspect data. Where there was no additional information available, data items were not changed.

Sampling error

Sampling error arises because the estimates are based on a sample of possible observations and are subject to sampling variability. The estimates may therefore differ from the figures that would have been produced if information had been collected for all households in Australia.

One measure of the likely difference is given by the standard error (SE), which indicates the extent to which an estimate might have varied because only a sample of dwellings was included. There are about two chances in three (67%) that a sample estimate will differ by less than one SE from the figure that would have been obtained if all dwellings had been included, and about 19 chances in 20 (95%) that the difference will be less than

Sampling error continued

two SEs. Another measure of the likely difference is the relative standard error (RSE), which is obtained by expressing the SE as a percentage of the estimate.

For estimates of population sizes, the size of the SE generally increases with the level of the estimate, so that the larger the estimate the larger the SE. However, the larger the sampling estimate the smaller the SE in percentage terms (RSE). Thus, larger sample estimates will be relatively more reliable than smaller estimates. Only estimates with RSEs of 25% or less are considered reliable for most purposes. Estimates with RSEs greater than 25% but less than or equal to 50% should be used with caution, while estimates with RSEs greater than 50% are considered too unreliable for general use and should only be used to aggregate with other estimates to provide derived estimates with RSEs of 25% or less.

As mentioned above, each record on the CURF contains 60 'replicate weights' in addition to the 'main weight'. The purpose of these replicate weights is to enable calculation of the RSE on each estimate produced.

The basic idea behind the replication approach is to select subsamples repeatedly (60 times) from the whole sample. For each of these subsamples the statistic of interest is calculated. The variance of the full sample statistic is then estimated using the variability among the replicate statistics calculated from the subsamples. As well as enabling variances of estimates to be calculated relatively simply, replicate weights also enable unit record analyses such as chi-square tests and logistic regression to be conducted which take into account the complex sample design.

There are various ways of creating replicate subsamples from the full sample. The replicate weights produced for the 2005–06 SIH have been created using a group jack-knife method of replication. The formulae for calculating the standard error (SE) and relative standard error (RSE) of an estimate using this method are:

where

$g = 1, \dots, 60$ (the no. of replicate groups)

$y_{(g)}$ = weighted estimate, having applied the weights for replicate group g

y = weighted estimate from the full sample.

$RSE(y) = SE(y)/y * 100\%$.

It is not clear that the jackknife method will provide good estimates for the variance of quantile boundaries such as the median (see Rao, J.N.K, Wu, C.F.J., and Yue, K (1992) *Some recent work on resampling methods for complex surveys*, Survey Methodology, Vol 18, pp.209–217). An indirect approach (known as the Woodruff method) is available for estimating the variance of a quantile based on replicate weights (see Sarndal, Swenson, and Wretman: *Model Assisted Survey Sampling*, Springer-Verlag, 1992).

To enable CURF users to check that they are using the replicate weights correctly, RSEs for estimates other than medians for the SIH CURF data in table 4.1 have been calculated using the group jackknife method and are included as table 4.2. The RSEs shown for the medians have been calculated using the Woodruff method.

COMPARISON WITH PREVIOUS CURFS

While efforts have been made to maintain comparability between CURFs where possible, the integration of the HES and SIH in 2003–04 and then the SIH being run independently of the HES in 2005–06 has resulted in a number of changes to data items which may have an impact on the assessment of changes over time. For details on the changes in 2003–04 compared with previous cycles, please refer to the *Household Expenditure Survey and Survey of Income and Housing - Confidentialised Unit Record Files, Technical Paper, Australia, 2003–04* (cat. no. 6540.0.00.001). This chapter outlines changes between the 2003–04 SIH and the 2005–06 SIH.

CHANGES IMPACTING ON ALL ITEMS

The main changes which could impact on all data items were:

- the final sample size of the SIH decreased from 11,361 in 2003–04 to 9,961 in 2005–06
- the scope of the survey was changed slightly — in 2003–04, all people living in Indigenous communities were out of scope; in 2005–06 they were out of scope only if they were located in very remote areas
- benchmarks based on the 2001 Census have been used, and the benchmarks are consistent with the scope in that people living in very remote areas in all states and territories are excluded; in 2003–04, benchmarks were based on the 1996 Census and did not exclude people living in very remote areas, except in the Northern Territory where people living in areas defined as sparse were excluded
- more detailed age benchmarks were used when determining the weights to be allocated to each unit in 2005–06 estimates. For further information see the 'Use of weights' section in Chapter 2
- imputation procedures were changed — all households where one or more people did not respond were treated as non–responding; in 2003–04 these were imputed if the non–responding person was not a 'significant' person.

CHANGES RELATING TO SPECIFIC DATA ITEMS

There were also a number of changes that related to specific data items.

Inclusion of all salary sacrificed income

New income items have been included which include all salary sacrificed amounts in wages and salaries and total income estimates. Income items produced on the same basis as 2003–04 (where only those salary sacrificed amounts that had been reported by respondents as cash income were included in wages and salaries estimates) have been retained on the file to assist users who wish to analyse data that is comparable to 2003–04. It is also possible for users of the 2003–04 file to produce income estimates that include all salary sacrificed amounts. For further information see the 'Salary sacrifice and salary packaging' section in Chapter 2.

*Improvements to family
tax benefit estimates*

Improved estimates relating to current income from family tax benefit (FTB) have been included. Prior to 2005–06, the FTB item only included FTB received as fortnightly payments. FTB paid through the tax system or as a lump sum was excluded for practical reasons. The items 'Total current weekly income from government pensions and allowances' and 'Total income from all sources' also excluded these components, but they were included in measures of disposable income. In 2005–06 the new FTB item 'Current weekly income from family tax benefits (modelled)' includes all FTB payments regardless of whether they are received fortnightly, via the tax system or as a lump sum. It also includes the FTB supplements. Some components of the new item are modelled using information on income and household demographics reported in the survey. All income aggregates on the file include the new item. It should be noted that there is little impact on comparability of estimates of disposable income as a result of this change, since disposable income has always included modelled components relating to FTB paid through the tax system or as a lump sum.

Other changes

There have been changes to some pensions and allowances paid by the government, resulting in both the deletion of items and the addition of new items.

A number of changes have been made to the derivation process used to estimate income tax liability. In prior surveys estimates of imputed tax payable included an adjustment to subtract estimated FTB payments made through the tax system or as a lump sum. This ensured that FTB payments made through the tax system or as a lump sum were included in disposable income. This adjustment is no longer required since such payments are included in gross income estimates.

Categories for some data items have been changed due to changes in CURF standards. The items involved are 'Occupation in main job', 'Industry of main job', 'Country of birth' and 'Country of birth of HH reference person' on the expanded CURF.

DETAILS OF CHANGES

Table 3.1 shows details of items that are not on both the 2003–04 and 2005–06 SIH CURFs. In addition to the items shown in the table, a number of imputation flags that are not relevant to SIH data have been excluded from the 2005–06 CURF.

Table 3.2 outlines changes to field names, data item labels and categories between the 2003–04 and 2005–06 SIH CURFs.

TABLE 3.1 COMPARISON OF DATA BETWEEN 2003–04 AND 2005–06 SIH CURFS, Items not on both the 2003–04 and 2005–06 SIH CURFs (ordered by field name)

<i>Data Item</i>	<i>Field name</i>	<i>Details of change</i>	<i>2005–06 item no.</i>
Current weekly HH disposable income (2005–06 basis)	DISPSCH	Not on 2003–04 dataset (new income item incl salary sacrifice)	BH112, EH116
Current weekly HH equivalised disposable income (2005–06 basis)	EQDSPSCH	Not on 2003–04 dataset (new income item incl salary sacrifice – on 2005–06 expanded only)	EH118
Current weekly income from family tax benefits	IFAMTBCP	Not on 2003–04 dataset (replaced by IFTBCP)	. .
Current weekly income from family tax benefits (modelled)	IFTBCP	Not on 2003–04 dataset (new item in 2005–06 incl IFAMTBCP and modelled components relating to FTB paid through the tax system or as a lump sum, and FTB supplement payments)	BP59, EP59
Current weekly income from maternity payment	IMATCP	Not on 2003–04 dataset	BP65, EP65
Prev fin year income from maternity payment	IMATPP	Not on 2003–04 dataset	BP90, EP90
Imputation flag for HH module COMPO	IMPCOMP	Not on 2003–04 dataset	BP9, EP9
Imputation flag for HH module VALOTH	IMPVALO	Not on 2003–04 dataset	BP28, EP28
Total current weekly HH income from all sources (2005–06 basis)	INCTSCH	Not on 2003–04 dataset (new income item incl salary sacrifice)	BH121, EH127
Total current weekly income from all sources (2005–06 basis)	INCTSCP	Not on 2003–04 dataset (new income item incl salary sacrifice)	BP170, EP170
Total current weekly IU income from all sources (2005–06 basis)	INCTSCU	Not on 2003–04 dataset (new income item incl salary sacrifice)	BU36, EU37
Current weekly income from one–off payment to families	IOOPFCP	Not on 2005–06 dataset	. .
Current weekly income from one–off payment to older Australians	IOOPOACP	Not on 2003–04 dataset	BP77, EP77
Current weekly income from seniors concession allowance	ISCACP	Not on 2003–04 dataset	BP76, EP76
Current weekly income from utilities allowance	IUTILCP	Not on 2003–04 dataset	BP75, EP75
Current weekly HH employee income (2005–06 basis)	IWSSUCH	Not on 2003–04 dataset (new income item incl salary sacrifice)	BH95, EH99
Total current weekly employee income (incl salary sacrifice)	IWSSUCP	Not on 2003–04 dataset (new income item incl salary sacrifice)	BP51, EP51
Current weekly IU employee income (2005–06 basis)	IWSSUCU	Not on 2003–04 dataset (new income item incl salary sacrifice)	BU18, EU19
Principal source of current HH income (2005–06 basis)	PSRCSCH	Not on 2003–04 dataset (new income source item incl salary sacrifice)	BH117, EH123
Principal source of current income (2005–06 basis)	PSRCSCP	Not on 2003–04 dataset (new income source item incl salary sacrifice)	BP166, EP166
Principal source of current HH income (2005–06 basis)	PSRCSCU	Not on 2003–04 dataset (new income source item incl salary sacrifice)	BU32, EU33
Weekly personal receipts from student financial supplement scheme	SFSSCP	Not on 2005–06 dataset	. .
Flag to indicate household converted from HES to SIH selection	SIHCCONV	Not on 2005–06 dataset (on 2003–04 when integrated with HES)	. .

. . not applicable

TABLE 3.2 COMPARISON OF DATA BETWEEN 2003–04 AND 2005–06 SIH CURFS, Data item changes (excluding items not on both CURFs)

<i>Data Item</i>	<i>Treatment in 2003–04 CURF</i>	<i>Treatment in 2005–06 CURF</i>	<i>2005–06 item no.</i>
Main field of highest non-school qualification	MNNSCHQ	MNSCHQCF – field name change only	BP197, EP198
Year purchased dwelling – HH	YRBUYCF – 34 categories	YBUY06CF – 36 categories (extra categories above 2001 to reflect more recent survey cycle)	BH93, EH97
Family composition of household	DCOMPH	DCOMPH – some categories renumbered	BH57, EH57
Weekly body corporate payments with refunds deducted – HH	BCORPCH – 'Weekly body corporate payments'	BCORPRCH – field name and data item label change only	BH29, EH29
Country of birth of HH reference person	COBHEC (expanded CURF only)	COBH06EC – change in categories due to new standard (expanded CURF only)	EH80
Country of birth	COBEC (expanded CURF only)	COB06EC – change in categories due to new standard (expanded CURF only)	EP184
Occupation in main job	OCCCEC (expanded CURF only)	OCC06EC – change in categories due to new standard (expanded CURF only)	BP209, EP210
Industry of main job	INDEC (expanded CURF only)	INDEC – additional category number for 'Inadequately Described'	BP201, EP202
Current weekly HH equivalised disposable income (2003–04 basis)	EQDISPCH – 'Current weekly HH equivalised disposable income'	EQDISPCH – data item label change only	EH117
Current weekly HH employee income (2003–04 basis)	IWSUCH – 'Current weekly HH employee income'	IWSUCH – data item label change only	BH94, EH98
Current weekly HH disposable income (2003–04 basis)	DISPCH – 'Current weekly HH disposable income'	DISPCH – data item label change only	BH111, EH115
Principal source of current HH income (2003–04 basis)	PSRCCH – 'Principal source of current HH income'	PSRCCH – data item label change only	BH115, EH121
Principal source of current HH income (pre 2003–04 SIH basis)	PSRC1CH – 'Principal source of current HH income (prev SIH basis)'	PSRC1CH – data item label change only	BH116, EH122
Total current weekly HH income from all sources (2003–04 basis)	INCTOTCH – 'Total current weekly HH income from all sources'	INCTOTCH – data item label change only	BH119, EH125
Total current weekly HH income from all sources (pre 2003–04 SIH basis)	INCTO1CH – 'Total current weekly HH income from all sources (prev SIH basis)'	INCTO1CH – data item label change only	BH120, EH126
Current weekly IU employee income (2003–04 basis)	IWSUCU – 'Current weekly IU employee income'	IWSUCU – data item label change only	BU17, EU18
Principal source of current IU income (2003–04 basis)	PSRC4CU – 'Principal source of current IU income'	PSRC4CU – data item label change only	BU30, EU31
Principal source of current IU income (pre 2003–04 SIH basis)	PSRC14CU – 'Principal source of current IU income (prev SIH basis)'	PSRC14CU – data item label change only	BU31, EU32
Total current weekly IU income from all sources (2003–04 basis)	INCTOTCU – 'Total current weekly IU income from all sources'	INCTOTCU – data item label change only	BU34, EU35

TABLE 3.2 COMPARISON OF DATA BETWEEN 2003–04 AND 2005–06 SIH CURFS, Data item changes (excluding items not on both CURFs) *continued*

<i>Data Item</i>	<i>Treatment in 2003–04 CURF</i>	<i>Treatment in 2005–06 CURF</i>	<i>2005–06 item no.</i>
Total current weekly IU income from all sources (pre 2003–04 SIH basis)	INCTO1CU – 'Total current weekly IU income from all sources (prev SIH basis)'	INCTO1CU – data item label change only	BU35, EU36
Total current weekly employee income (as reported)	IWSUCP – 'Total current weekly employee income'	IWSUCP – data item label change only	BP50, EP50
Principal source of current income (2003–04 basis)	PSRC4CP – 'Principal source of current income'	PSRC4CP – data item label change only	BP164, EP164
Principal source of current income (pre 2003–04 SIH basis)	PSRC14CP – 'Principal source of current income (prev SIH basis)'	PSRC14CP – data item label change only	BP165, EP165
Total current weekly income from all sources (2003–04 basis)	INCTOTCP – 'Total current weekly income from all sources'	INCTOTCP – data item label change only	BP168, EP168
Total current weekly income from all sources (pre 2003–04 SIH basis)	INCTO1CP – 'Total current weekly income from all sources (prev SIH basis)'	INCTO1CP – data item label change only	BP169, EP169
Total current weekly income from government pensions and allowances	ITGCBCP – excl FTB paid through the tax system or as a lump sum. Derived income from all sources and aggregate income items used this item in 2003-04.	ITGCBCP – incl new government allowances and all FTB regardless of whether it is received fortnightly or as a lump sum. Derived income from all sources and aggregate income items for 2003-04 and 2005-06 basis use this item in 2005-06.	BP78, EP78

INTRODUCTION

It is not possible to reconcile exactly the data produced from the CURF with published data. This is as a result of the steps taken to preserve confidentiality. These steps include:

- large households have been reduced to a maximum of 8 people on the expanded CURF and 6 people on the basic CURF
- the level of detail for some data items has been reduced (for example, State of usual residence of the ACT and the NT have been combined as ACT/NT for the basic CURF, but shown individually for the expanded CURF; area of usual residence for the ACT and NT has not been made available)
- all income items, some items relating to housing expenditure, and some loan data have been perturbed
- some variables have had values ranged, collapsed or topcoded
- demographic information of some respondents has been changed.

SIH DATA

A sample tabulation of SIH data is included in table 4.1, showing some estimates produced from the expanded SIH CURF, and equivalent estimates produced from both the basic SIH CURF and the unconfidentialised file. Reference should be made to this table for validation purposes. Note that the full population estimate derived from the basic CURF (19,839,413) is lower than that obtained from the expanded CURF (19,925,119) and the unconfidentialised file (19,930,681) because household size was restricted to 6 on the basic CURF and 8 on the expanded CURF.

A table showing the relative standard errors (RSEs) of the expanded CURF estimates in the sample table is also included (as table 4.2). For more information on the RSEs, see Chapter 2.

CONDITIONS OF RELEASE

The Survey of Income and Housing (SIH) 2005–06 basic and expanded CURF is released in accordance with a Ministerial Determination (Clause 7, Statutory Rules 1983, No.19) in pursuance of section 13 of the *Census and Statistics Act 1905*. As required by the Determination, the CURF has been designed so that the information on the file is not likely to enable the identification of the particular person or organisation to which it relates.

The Australian Statistician's approval is required for each release of the CURF. In addition and prior to being granted access to the CURF, all organisations, and individuals within organisations, who request access to the CURF will be required to sign an Undertaking to abide by the legislative restrictions on use. Organisations and individuals who seek access to the SIH 2005–06 basic and expanded CURF are required to give an undertaking which includes, among other conditions, that in using the CURF data they will:

- use the data only for the statistical purposes specified
- not attempt to identify particular persons or organisations
- not disclose, either directly or indirectly, the data to any other person or organisation other than members of their organisation who have been approved by the ABS to have individual access to the information
- not attempt to match, with or without using identifiers, the data with any other list of persons or organisations
- in relation to data made available via the Remote Access Data Laboratory (RADL) or the ABS Data Laboratory (ABS DL), access the data only in a manner specifically authorised in writing by the ABS
- not attempt to access the data after the term of their authorisation is rescinded by the organisation which provided it, or after they cease to be a member of that organisation.

Use of the data for statistical purposes means use of the content of the CURF to produce information of a statistical nature, i.e. the arrangement and classification of numerical facts or data, including statistical analyses or statistical aggregates. Examples of statistical purposes are:

- manipulation of the data to produce means, correlations or other descriptive or summary measures
- estimation of population characteristics
- use of data as input to mathematical models or for other types of analysis (e.g. factor analysis)
- providing graphical or pictorial representations of the characteristics of the population or subsets of the population.

CONDITIONS OF RELEASE

continued

All CURF users are required to read and abide by the *Responsible Access to ABS Confidentialised Unit Record Files (CURFs) Training Manual* available on the ABS Website <<http://www.abs.gov.au>> (see Services We Provide, CURF Microdata, Accessing CURF microdata). Use of the data for unauthorised purposes may render the purchaser liable to severe penalties. Advice about the propriety of any particular intended use of the data is available from the Microdata Access Strategies Section via <microdata.access@abs.gov.au>.

Conditions of sale

All ABS products and services are provided subject to the ABS conditions of sale. Any queries relating to these Conditions of Sale should be referred to <intermediary.management@abs.gov.au>.

Access method

Due to the level of detail provided, the SIH 2005–06 expanded CURF is only available via the ABS Remote Access Data Laboratory (RADL). The basic CURF is available on both CD-ROM and RADL.

Price

The current recommended retail price of the SIH 2005–06 CURF is \$1,320 (including GST) per CURF access type (\$1,320 to access the basic CURF via CD-ROM and/or RADL, or \$1,320 to access the expanded CURF via RADL). A bundled price of \$1,980 (including GST) is available where clients request access to both the basic (whether on CD-ROM or RADL) and expanded CURFs in one single application.

Accessing the CURF

All clients wishing to access the SIH 2005–06 basic and expanded CURF should refer to the ABS Website <<http://www.abs.gov.au>> (see Services We Provide, CURF Microdata) and read the *Responsible Access to ABS Confidentialised Unit Record Files (CURFs) Training Manual*, and other relevant information, before downloading the appropriate Application and Undertaking forms and applying for access.

AUSTRALIAN UNIVERSITIES

University clients should refer to the ABS web site <www.abs.gov.au> (see Services We Provide, Services to Universities). The SIH 2005–06 basic and expanded CURF can be accessed by universities participating in the ABS/AVCC CURF Agreement for research and teaching purposes.

OTHER CLIENTS

Other prospective clients should contact the Microdata Access Strategies Section of the ABS at <microdata.access@abs.gov.au> or on (02) 6252 7714.

Further information

For further information about accessing the CURF, clients should contact the Microdata Access Strategies Section of the ABS at <microdata.access@abs.gov.au> or on (02) 6252 7714. The CURF is not available on CD-ROM to overseas customers.

APPENDIX 1

SIH DATA ITEMS AND RECORD STRUCTURE

SIH DATA ITEMS

For data items and structure for the SIH CURF see the Excel spreadsheet available as a data cube '6541.0 Appendix 1 – SIH 2005–06 Data Item Listing' accompanying this Technical Manual. The Excel spreadsheet is also available as '65410_DATA_ITEM_LISTING_SIH05.XLS' on the CURF.

<i>Data item labels</i>	<i>Identifier</i>	<i>Item number</i>
Identifiers		
Unique household number – unique number allocated to all members in the household	ABSHID	BP1, EP1, BU1, EU1, BH1, EH1
Family number – in the household	ABSFID	BP2, EP2, BU2, EU2, BH2, EH2
Income unit number – within each family in the household	ABSIID	BP3, EP3, BU3, EU3, BH3, EH3
Person number within each income unit	ABSPID	BP4, EP4, BU4, EU4, BH4, EH4
Household Level identifier	LEVEL1	BH153, EH159
Income unit Level identifier	LEVEL2	BU45, EU46
Person Level identifier	LEVEL4	BP224, EP225
Person, income unit and household characteristics		
Demographics		
Age	AGEBC, AGEEC	BP183, EP183
Age of HH reference person	AGERHBC, AGERHEC	BH76, EH79
Age of oldest dependent child in household	AGODCHBC, AGODCHEC	BH54, EH54
Age of oldest dependent child in IU	AGODCUBC, AGODCUEC	BU5, EU5
Age of youngest dependent child in household	AGYDCHBC, AGYDCHEC	BH55, EH55
Age of youngest dependent child in IU	AGYDCUBC, AGYDCUEC	BU6, EU6
Country of birth	COB06EC	EP184
Country of birth by main language	COBL	BP184, EP185
Country of birth by main language of HH reference person	COBLH	BH77, EH81
Country of birth of HH reference person	COBH06EC	EH80
Family composition of HH (alternative)	FAMCOMP	BH56, EH56
Family composition of household	DCOMPH	BH57, EH57
Family type	FAMTYPE	BP185, EP186
Income unit type – IU	IUTYPE	BU7, EU7
Income unit type – person	IUTYPEP	BP186, EP187
Life cycle group – HH	LIFECYCH	BH58, EH58
Number of dependants aged under 25 years in household	DPKIDHBC, DPKIDHEC	BH59, EH59
Number of dependent children aged 0 to 2 years in income unit	KID0T2BC, KID0T2EC	BU8, EU8
Number of dependent children aged 10 to 12 years in the income unit	KID1012E	EU11
Number of dependent children aged 10 to 14 years in the income unit	KD1014BC	BU11
Number of dependent children aged 13 to 14 years in the income unit	KID1314E	EU12
Number of dependent children aged 15 to 24 years in household	DEP1524B, DEP1524E	BH60, EH60
Number of dependent children aged 15 to 24 years in IU	KID1524B, KID1524E	BU12, EU13
Number of dependent children aged 3 to 4 years in income unit	KID3T4BC, KID3T4EC	BU9, EU9
Number of dependent children aged 5 to 9 years in the income unit	KID5T9BC, KID5T9EC	BU10, EU10
Number of dependent children aged under 15 years in household	NUMU15BC, NUMU15EC	BH61, EH61
Number of dependent children in income unit	DEPKIDBC, DEPKIDEC	BU13, EU14
Number of families in household	DNFAMCF	BH62, EH62
Number of females in household	FEMHHBC, FEMHHEC	BH63, EH63
Number of income units in household	DNIUHBC, DNIUHEC	BH64, EH64
Number of males in household	MALEHHBC, MALEHHEC	BH65, EH65
Number of non-dependent children in household	NONDEPBC, NONDEPEC	BH66, EH66

<i>Data item labels</i>	<i>Identifier</i>	<i>Item number</i>
Person, income unit and household characteristics cont.		
<i>Demographics cont.</i>		
Number of non-family members in household	NONFHBC, NONFHEC	BH67, EH67
Number of other relatives in household	OTRELHBC, OTRELHEC	BH68, EH68
Number of persons aged 15 to 64 years in income unit	A1564UBC, A1564UEC	BU14, EU15
Number of persons aged 15 years and over in household	NOMEMHBC, NUMMEMEC	BH69, EH69
Number of persons aged 65 years or more in income unit	A6599UCF	BU15, EU16
Number of persons in household	PERSHBC, PERSHEC	BH70, EH70
Number of persons in income unit	PRNSUBC, PRNSUEC	BU16, EU17
Position in income unit (relationship to the IU reference person)	IUPOS	BP187, EP188
Position in the household (publication definition)	HHPOS	BP188, EP189
Relationship in household	RELATHCF	BP189, EP190
Sex	SEXP	BP190, EP191
Sex of HH reference person	SEXRH	BH78, EH82
Social marital status	MSTATP	BP191, EP192
Year of arrival in Australia	YOABC, YOAC	BP192, EP193
Year of arrival in Australia of HH reference person	YOARBC, YOAREC	BH79, EH83
<i>Education</i>		
Education status	STUDSTCP	BP193, EP194
Educational institution attending	INSTENRP	BP194, EP195
Highest year of school completed	SECQLCF	BP195, EP196
Level of highest non-school qualification	HQUALBC, HQUALCP	BP196, EP197
Main field of highest non-school qualification	MNSCHQCF	BP197, EP198
Number of full-time and part-time students in household aged 15 to 24 years	S1524HBC, S1524HEC	BH71, EH71
Number of full-time and part-time students in household aged 25 years and over	S2599HBC, S2599HEC	BH72, EH72
Type of study in current year	LDTQUAL	BP198, EP199
<i>Geography</i>		
Area of usual residence (excludes ACT/NT)	AREAHCF	BH73, EH73
Index of relative socio-economic disadvantage – decile – Australia	DLOWCA	EH74
Remoteness area	REMOTHEC	EH75
Section of state	SOS01HEC	EH76
State or territory	STATEHBC, STATEH	BH74, EH77
<i>Labour force</i>		
Duration of unemployment	DURUNBC, DURUNEC	BP199, EP200
Full-time/part-time status	FTPTSTAT	BP200, EP201
Industry of main job	INDBC, INDEC	BP201, EP202
Labour force status	LFSCP	BP202, EP203
Labour force status of household reference person	LFSRH	BH80, EH84
Looked for work	LKFTPTCP	BP203, EP204
Not in the labour force status	NILSTCF	BP204, EP205
Number of earners in the household	NOEARNBC, NOEARNEC	BH82, EH86
Number of employed persons in the household	NOEMPHBC, NOEMPHEC	BH83, EH87
Number of hours usually worked per week in main and second jobs	HRSWKABC, HRSWKAEC	BP205, EP206
Number of hours usually worked per week in main job	HRSWKMBC, HRSWKMEC	BP206, EP207
Number of hours usually worked per week in second job	HRSWK2BC, HRSWK2EC	BP207, EP208
Number of jobs currently held	NRJOBSCP	BP208, EP209
Number of unemployed persons in the household	NOUEMHBC, NOUEMHEC	BH84, EH88
Occupation in main job	OCCCBC, OCCO6EC	BP209, EP210

<i>Data item labels</i>	<i>Identifier</i>	<i>Item number</i>
Person, income unit and household characteristics cont.		
Labour force <i>cont.</i>		
Status in employment (main job)	STEMP1CF	BP210, EP211
Status in employment (second job)	STEMP2CF	BP211, EP212
Housing		
Amount owing on mortgages for alterations/additions – HH	TOWE2CH	BH21, EH21
Amount owing on mortgages for alterations/additions – HH (prorata)	TOWE2C2	BH22, EH22
Amount owing on mortgages for other purposes (excl business and investment loans) – HH	TOWE3ACH	BH23, EH23
Amount owing on mortgages for other purposes (excl business and investment loans) – HH (prorata)	TOWE3AC2	BH24, EH24
Amount owing on mortgages to purchase/build – HH	TOWE1CH	BH25, EH25
Amount owing on mortgages to purchase/build – HH (prorata)	TOWE1C2	BH26, EH26
Amount owing on unsecured loans for housing purposes – HH	TOWE4CH	BH27, EH27
Amount owing on unsecured loans for housing purposes – HH (prorata)	TOWE4C2	BH28, EH28
Canadian National Occupancy Standard	HUTILCHC	BH85, EH89
Dwelling structure – HH	DWELTCF	BH86, EH90
Landlord type – HH	LDLRDHCF	BH87, EH91
Number of bedrooms – HH	NRBEDSCF	BH88, EH92
Tenure type – HH	TENURECF	BH90, EH94
Weekly body corporate payments with refunds deducted – HH	BCORPRCH	BH29, EH29
Weekly combined rates payments – HH	RATESCCH	BH30, EH30
Weekly combined rates payments with refunds deducted – HH	RATERCCH	BH36, EH36
Weekly general and water rates payments – HH	RATESCH	BH31, EH31
Weekly general and water rates payments with refunds deducted – HH	RATESRCH	BH33, EH33
Weekly general rates payments – HH	RATESGCH	BH32, EH32
Weekly general rates payments with refunds deducted – HH	RATERGCH	BH34, EH34
Weekly housing costs (after refunds, int only, incl body corp, loans prorated by purp, no tenure adj)	HCOSTSH2	BH38, EH38
Weekly housing costs (SIH basis) – HH	HCOSTSH	BH37, EH37
Weekly mortgage repayments for alterations/additions – HH	TRPAY2CH	BH40, EH40
Weekly mortgage repayments for alterations/additions with refunds deducted – HH (prorata)	TRPAY2RF	BH41, EH41
Weekly mortgage repayments for alterations/additions (interest component with refunds deducted) – HH (prorata)	TINT2CH	BH39, EH39
Weekly mortgage repayments for other purposes (excl business and investment loans) – HH	TRPA3ACH	BH42, EH42
Weekly mortgage repayments for other purposes (excl business and investment loans) (interest component with refunds deducted) – HH (prorata)	TINT3ACH	BH44, EH44
Weekly mortgage repayments other purposes refunds deducted (excl bus and inv loans) – HH (prorata)	TRPA3ARF	BH43, EH43
Weekly mortgage repayments to purchase/build – HH	TRPAY1CH	BH46, EH46
Weekly mortgage repayments to purchase/build with refunds deducted – HH (prorata)	TRPAY1RF	BH47, EH47
Weekly mortgage repayments to purchase/build (interest component with refunds deducted) – HH (prorata)	TINT1CH	BH45, EH45
Weekly rent payments – HH	WKRENTCH	BH48, EH48
Weekly rent payments with refunds deducted – HH	WKRENTRF	BH49, EH49
Weekly repayments on unsecured loans for housing purposes – HH	TRPAY4CH	BH51, EH51
Weekly repayments on unsecured loans for housing purposes (interest component with refunds deducted) – HH (prorata)	TINT4CH	BH50, EH50
Weekly repayments on unsecured loans for housing purposes with refunds deducted – HH (prorata)	TRPAY4RF	BH52, EH52

<i>Data item labels</i>	<i>Identifier</i>	<i>Item number</i>
Housing cont.		
Weekly water rates payments – HH	RATESWCH	BH53, EH53
Weekly water rates payments with refunds deducted – HH	RATERWCH	BH35, EH35
Whether dwelling purchased/built in last 3 years is first home owned – HH	FSTHHCF	BH91, EH95
Whether dwelling purchased/built in last 3 years was new or established – HH	NEWDWLH	BH92, EH96
Year purchased dwelling – HH	YBUY06CF	BH93, EH97
Income		
Employee income		
Current weekly benefit from employer provided car park (non salary sacrifice)	INSCPCP	BP31, EP31

GLOSSARY

Accounts with financial institutions	Accounts held with banks or any other financial institutions, e.g. credit unions, building societies, insurance companies, finance companies. Examples of types of accounts include: passbook, statement, cheque or term deposit accounts.
Assets	An entity of a financial or non-financial nature, owned by the household or its members, and from which economic benefits may be derived by holding or use over a period of time.
Balance of state	That part of each Australian state or territory not defined as capital city. All of the Australian Capital Territory is defined as capital city for this survey. Balance of state estimates for the Northern Territory are not available on the CURF.
Bond	A certificate of ownership of a specified portion of a debt. May be issued by a government agency or private corporation to individuals or companies and usually bears a fixed interest rate of return on investment.
Canadian National Occupancy Standard (CNOS)	<p>Provides a measure of housing utilisation. The CNOS assesses the bedroom requirements of a household by specifying that:</p> <ul style="list-style-type: none">■ there should be no more than two persons per bedroom■ children less than 5 years of age of different sexes may reasonably share a bedroom■ children less than 18 years of age and of the same sex may reasonably share a bedroom■ single household members aged 18 years and over should have a separate bedroom, as should parents or couples. <p>The CNOS variable on the file compares the number of bedrooms required with the actual number of bedrooms in the dwelling. Capital city estimates for the Northern Territory are not available on the CURF.</p>
Capital city	Refers to Australia's six State capital city Statistical Divisions and the Darwin Statistical Division as defined in the <i>Australian Standard Geographical Classification (ASGC)</i> (cat. no. 1216.0). All of the Australian Capital Territory is defined as capital city for this survey. Capital city estimates for the Northern Territory are not available on the CURF.
Changeover buyer	A household which bought their dwelling in the three years prior to the reference year and either the reference person or partner had previously owned a dwelling.
Children's assets	Any assets owned by children in the household that are not included in the value of the household contents. These assets can be financial (eg. a child's bank accounts, assets held in trusts, bonds, debenture stock) or can be non-financial such as jewellery or property held in trust for the children.
Contents of dwelling	This is a non-financial asset and comprises an estimated value of household contents. Examples include: clothing, jewellery, hobby collections, furniture, paintings and other works of art, soft furnishings and electrical appliances other than fixtures such as stoves and built-in items.
Couple	See One family households.
Couple family with dependent children	See One family households.
Couple, one family household	A one family household consisting of: <ul style="list-style-type: none">■ one couple only■ one couple, with their dependent and/or non-dependent children only

Couple, one family household <i>continued</i>	<ul style="list-style-type: none"> ■ one couple, with or without children, plus other relatives ■ one couple, with or without children and other relatives, plus unrelated individuals.
Credit card debt	The amount owing on the respondent's latest credit card account statement (including any government, interest or financial institution charges), irrespective of whether it was paid off by the due date. Includes amounts owing on specialised retail shopping cards as well as general credit cards such as Visa, Mastercard and Bankcard.
Debenture	A formal acknowledgement of indebtedness by a company. Interest is paid by the company at specific intervals. A loan or deposit can be called a debenture if it is secured over company assets. Unlike shareholders, debenture holders have a creditor relationship with the company. Instead of dividends, debenture holders receive interest on their debentures which is accounted for by the company as an expense.
Dependent children	All persons aged under 15 years; and people aged 15–24 years who are full-time students, have a parent in the household and do not have a partner or child of their own in the household.
Disposable income	Gross income after income tax and the Medicare levy are deducted. Income tax and the Medicare levy are imputed based on each person's income and other characteristics as reported in the survey. Disposable income is sometimes referred to as net income.
Dwelling	Defined as a suite of rooms contained within a building which are self-contained and intended for long-term residential use. To be self-contained the suite of rooms must possess cooking and bathing facilities as building fixtures. Examples of types of dwelling include: separate house; semi-detached, row or terrace house or townhouse; flat, unit, or apartment; and other dwelling, including caravan, cabin, houseboat, and house or flat attached to a shop.
Earners	Persons (excluding dependent children) who receive income from wages or salaries, who are engaged in their own business or partnership, or are silent partners in a business or partnership.
Employed	Persons aged 15 years and over who, during the week before the interview: <ul style="list-style-type: none"> ■ worked one hour or more for pay, profit, commission or payment in kind in a job or business, or on a farm (includes employees, employers and own account workers) ■ worked one hour or more, without pay, in a family business or on a family farm ■ had a job, business or farm but was not at work because of holidays, sickness or other reason.
Employee	An employed person who, for most of his/her working hours: <ul style="list-style-type: none"> ■ works for a public or private employer and receives remuneration in wages or salary, or is paid a retainer fee by his/her employer and works on a commission basis, or works for an employer for tips, piece-rates or payment in kind ■ operates their own incorporated enterprise with or without employees.
Employer	A person who operates his or her own unincorporated business or engages independently in a profession or trade, and hires one or more employees.
Equivalentised disposable household income	Disposable household income adjusted using an equivalence scale. For a lone person household it is equal to disposable household income. For a household comprising more than one person, it is an indicator of the disposable household income that would need to be received by a lone person household to enjoy the same level of economic wellbeing as the household in question. For further information, refer to Appendix 3 of <i>Household Income and Income Distribution, Australia, 2005–06</i> (cat. no. 6523.0).
Equivalentising factor	A factor that can be used to adjust the actual incomes of households in a way that enables analysis of the relative wellbeing of households of different size and composition. The equivalentising factor included on the file has been calculated using the 'modified OECD' equivalence scale. The factor is built up by allocating points to each person in a household. Taking the first adult in the household as having a weight of 1 point, each additional person who is 15 years or older is allocated 0.5 points, and each

Equivalising factor <i>continued</i>	child under the age of 15 is allocated 0.3 points. The equivalence factor is the sum of the equivalence points allocated to the household members. Equivalised household income can be derived by dividing total household income by the equivalence factor. Note that for large households, the equivalence factors included on this file are based on the household size after it has been reduced to the maximum size allowable on each CURF.
Family	Two or more people, one of whom is at least 15 years of age, who are related by blood, marriage (registered or de facto), adoption, step or fostering, and who usually live in the same household. A separate family is formed for each married couple, or for each set of parent-child relationships where only one parent is present.
Financial assets	An asset whose value arises not from its physical existence (as would a building, piece of land, or capital equipment) but from a contractual relationship. Financial assets are mostly financial claims (with the exception of shares). Financial claims entitle the owner to receive a payment, or a series of payments, from an institutional unit to which the owner has provided funds. Examples include accounts held with financial institutions, ownership of an incorporated business, shares, debentures and bonds, trusts, superannuation funds, and loans to other persons.
First home buyer	A household which bought their dwelling in the three years prior to the survey reference period, and neither the reference person nor partner had owned or been purchasing a house previously.
Flat, unit or apartment	Includes all self-contained dwellings in blocks of flats, units or apartments. These dwellings do not have their own private grounds and usually share a common entrance foyer or stairwell. This category includes houses converted into flats and flats attached to houses such as granny flats. A house with a granny flat attached is regarded as a separate house.
Full-time employed	Employed persons who usually work 35 hours or more a week (in all jobs).
Full-time student	A person 15 years or over who is classified as a full-time student by the institution they attend, or considers himself/herself to be a full-time student. Full-time study does not preclude employment.
Government pensions and allowances	Income support payments from government to persons under social security and related government programs. Included are pensions and allowances received by aged, disabled, unemployed and sick persons, families and children, veterans or their survivors, and study allowances for students. All overseas pensions and benefits are included here, although some may not be paid by overseas governments. The one-off payment to seniors paid in 2000-01, the one-off payments to families paid in 2003-04 and the one-off payments to carers paid in 2003-04, 2004-05 and 2005-06 are included. Family tax benefit is also regarded as income. However, prior to 2005-06 family tax benefit paid through the tax system or as a lump sum by Centrelink was only included in disposable income, and not gross income.
Gross income	Regular cash receipts (including salary sacrificed income) before income tax or the Medicare levy are deducted.
Group household	See non-family household.
Household	A person living alone or a group of related or unrelated people who usually live in the same private dwelling.
Household questionnaire	Used to collect information on household characteristics, housing costs and household assets and liabilities.
Household reference person	The reference person for each household is chosen by applying, to all household members aged 15 years and over, the selection criteria below, in the order listed, until a single appropriate reference person is identified: <ul style="list-style-type: none"> ■ one of the partners in a registered or de facto marriage, with dependent children ■ one of the partners in a registered or de facto marriage, without dependent children

.....

Household reference person <i>continued</i>	<ul style="list-style-type: none"> ■ a lone parent with dependent children ■ the person with the highest income ■ the eldest person. <p>For example, in a household containing a lone parent with a non–dependent child, the one with the higher income will become the reference person. However, if both individuals have the same income, the elder will become the reference person.</p>
Housing costs	See 'Notes on specific data items' in Chapter 2.
Income	<p>Regular and recurring cash receipts including money received from:</p> <ul style="list-style-type: none"> ■ wages and salaries (whether from an employer or own incorporated enterprise), including income provided as part of a salary sacrifice arrangement ■ profit/loss from own unincorporated business (including partnerships) ■ investment income (interest, rent, dividends, royalties) ■ government pensions and allowances ■ private cash transfers (e.g. superannuation, regular workers' compensation, income from annuities, child support, and other transfers from other households). <p>Gross income is the sum of the income from all these sources before income tax or the Medicare levy are deducted. Other measures of income are disposable income and equivalised disposable income.</p> <p>Note that child support and other transfers from other households are not deducted from the incomes of the households making the transfers.</p> <p>See also Gross income, Disposable income, Equivalised disposable income and 'Notes on specific data items' in Chapter 2 for the alternative measures of income included on the files.</p>
Income unit	One person or a group of related persons within a household, whose command over income is assumed to be shared. Income sharing is assumed to take place within married (registered or de facto) couples, and between parents and dependent children.
Income unit reference person	The male partner in a couple income unit, the parent in a one parent income unit and the person in a one person income unit.
Incorporated business	An incorporated business is a company that has a registered business name with the <i>Australian Securities and Investment Commission</i> (ASIC) and a legal status which is separate to that of the individual owners of the business.
Individual questionnaire	Used to collect information from each person aged 15 years and over on individual details such as income, personal assets, education and labour force status.
Industry	Coded for all employed people aged 15 years and over, using the <i>Australian and New Zealand Standard Industrial Classification</i> (ANZSIC) (cat. no. 1292.0).
Investment loan	A loan taken out for the purpose of financing investment, excluding loans for business purposes and rental property.
Labour force status	Classifies all people aged 15 years and over according to whether they were employed, unemployed or not in the labour force.
Landlord type	<p>For renters, the type of entity to whom rent is paid or with whom the tenure contract or arrangement is made. Renters are classified to one of the following categories:</p> <ul style="list-style-type: none"> ■ state/territory housing authority — where the household pays rent to a state or territory housing authority or trust ■ private landlords — where the household pays rent to a real estate agent or to another person not in the same household ■ other — where the household pays rent to the owner/manager of a caravan park, an employer (including a government authority), a housing cooperative, a community or church group, or any other body not included elsewhere.

.....

Liability	A liability is an obligation which requires one unit (the debtor) to make a payment or a series of payments to the other unit (the creditor) in certain circumstances specified in a contract between them.
Loan	A form of liability that is created when creditors lend funds directly to debtors. Examples are an overdraft from a bank, money lent by a building society with a mortgage over a property as collateral, and personal loans.
Lone person household	See Non-family households.
Main English speaking countries	For the purposes of the country of birth classification used on this file, main English speaking countries comprise New Zealand, United Kingdom, Ireland, Canada, United States of America and South Africa.
Mean income	The total income received by a group of units divided by the number of units in the group. For more detail about household weighted and person weighted means, see Appendix 1 of <i>Household Income and Income Distribution, Australia, 2005–06</i> (cat. no. 6523.0).
Median income	That level of income which divides the units in a group into two equal parts, one half having incomes above the median and the other half having incomes below the median. For more detail about household weighted and person weighted medians, see Appendix 1 of <i>Household Income and Income Distribution, Australia, 2005–06</i> (cat. no. 6523.0).
Medicare levy	Medicare is Australia's universal health care system. The Medicare levy is a specific tax, based on individual income, intended to assist in the funding of this system.
Mortgage	A mortgage is a loan taken out using the usual residence as security. An owner with a mortgage must still owe money from such a loan.
Multiple family household	A household containing two or more families. Unrelated individuals may also be present.
Negative income	Income may be negative when a loss accrues to a household as an owner or partner in unincorporated businesses or rental properties. Losses occur when operating expenses and depreciation are greater than gross receipts.
Negative net worth	Net worth may be negative when household liabilities exceed household assets.
Net worth	Net worth is the value of a household's assets less the value of its liabilities.
Non-dependent children	Persons aged 15 years and over who: <ul style="list-style-type: none"> ■ do not have a spouse or offspring of their own in the household ■ have a parent in the household ■ are not full-time students aged 15–24 years.
Non-family household	A household that consists of unrelated persons only. Non-family households are classified to one of the following categories: <ul style="list-style-type: none"> ■ Group household — a household consisting of two or more unrelated persons where all persons are aged 15 years and over. There are no reported couple relationships, parent-child relationships or other blood relationships in these households. ■ Lone person household — a household consisting of a person living alone.
Non-financial assets	Non-financial assets are all assets other than financial assets. Examples include residential and non-residential property, household contents and vehicles.
Not in the labour force	Persons not in the categories employed or unemployed as defined.
Occupation	Coded for all employed people aged 15 years and over, using the <i>Australian Standard Classification of Occupations (ASCO), Second Edition, 1997</i> (cat. no. 1220.0).
One family households	In publications relating to this survey, one family households are classified to one of the following categories: <ul style="list-style-type: none"> ■ Couple only — two persons in a registered or de facto marriage, who usually live in the same household

One family households <i>continued</i>	<ul style="list-style-type: none"> ■ Couple family with dependent children — a household consisting of a couple with at least one dependent child. The household may also include non-dependent children, other relatives and unrelated individuals ■ One parent family with dependent children — a household comprising a lone parent with at least one dependent child. The household may also include non-dependent children, other relatives and unrelated individuals ■ Other one family households — a household comprising: <ul style="list-style-type: none"> ■ one couple with their non-dependent children only ■ one couple, with or without non-dependent children, plus other relatives ■ one couple, with or without non-dependent children or other relatives, plus unrelated individuals ■ a lone parent with his/her non-dependent children, with or without other relatives and unrelated individuals ■ two or more related individuals where the relationship is not a couple relationship or a parent-child relationship (e.g. two brothers).
One parent family with dependent children	See One family households.
One parent, one family household	A one family household comprising a lone parent with at least one dependent or non-dependent child. The household may also include other relatives and unrelated individuals.
Other one family household	See One family households.
Other property loans	Principal outstanding on loans used to purchase, build, alter, or make additions to property rented out, loans taken out by people in rental properties who are buying or building a home somewhere else, and loans taken for alterations and additions to other property. Where only a proportion of a loan is used for the property, only that proportion of the principal outstanding is included.
Other tenure type	A household which is not an owner (with or without a mortgage), or a renter. Includes rent free.
Own account worker	A person who operates his or her own unincorporated business or engages independently in a profession or trade and hires no employees.
Own unincorporated business income	The profit/loss that accrues to persons as owners of, or partners in, unincorporated businesses. Profit/loss consists of the value of gross output of the enterprise after the deduction of operating expenses (including depreciation). Losses occur when operating expenses are greater than gross receipts and are treated as negative income.
Owner (of dwelling)	A household in which at least one member owns the dwelling in which the household members usually reside. Owners are divided into two categories — owners without a mortgage and owners with a mortgage. If there is any outstanding mortgage or loan secured against the dwelling the household is an owner with a mortgage. If there is no mortgage or loan secured against the dwelling the household is an owner without a mortgage.
Perturbation	Adjustment of estimates to disguise individual values without affecting the statistical validity of aggregate data.
Previous financial year exclusion flag	Indicates records that could be regarded as out of scope when analysing previous year income data. See Chapter 2 for more details.
Previous financial year income	Income earned in the period July 2004 to June 2005.
Principal source of income	That source from which the most positive income is received. If total income is nil or negative the principal source is undefined. As there are several possible sources, the principal source may account for less than 50% of gross income.

Private income	Regular, recurring receipts from private organisations, including wages and salaries, income from own business, superannuation, regular workers' compensation, income from annuities, interest, dividends, royalties, income from rental properties, scholarships and child support.
Property	All residential and non-residential properties owned by persons in the household, excluding properties owned by the respondent's business.
Reference person	See Household reference person and Income unit reference person.
Relative standard error (RSE)	The standard error expressed as a percentage of the estimate for which it was calculated. It is a measure which is independent of both the size of the sample, and the unit of measurement and as a result, can be used to compare the reliability of different estimates. The smaller an estimate's RSE, the more likely it is that the estimate is a good proxy for that which would have been obtained if the whole population had been surveyed.
Renter	A household which pays rent to reside in the dwelling. See further classification by Landlord type.
Salary packaging	An arrangement for the employer to remunerate the employee with a combination of cash wages and salaries and one or more non-cash benefits, to the value of the employee's total remuneration.
Salary sacrifice	An arrangement under which an employee agrees contractually to forgo part of the remuneration, which the employee would otherwise receive as wages and salaries, in return for the employer or someone associated with the employer providing benefits of a similar value.
Selected dwelling	The private dwelling selected in the sample for the survey.
Semi-detached, row or terrace house or townhouse	A dwelling with its own private grounds and no dwelling above or below. A key feature of this dwelling is that it is either attached in some structural way to one or more dwellings or is separated from neighbouring dwellings by less than one-half metre. Examples include semi-detached, row or terrace houses, townhouses or villa units. Multistorey townhouses or units are separately identified from those which are single storey.
Separate house	A dwelling which is self-contained and separated from other houses (or other buildings or structures) by a space to allow access on all sides (at least one-half metre). This category also includes houses that have an attached flat (e.g. a granny flat). The attached flat will be included in the flat, unit or apartment category.
Shares	A share is a contract between the issuing company and the owner of the share which gives the latter an interest in the management of the corporation and the right to participate in profits. On the file the "value of shares" excludes the value of shares held by individuals in their own incorporated business. Such shares are included in "value of own incorporated business".
Standard error	A measure of the likely difference between estimates obtained in a sample survey and estimates which would have been obtained if the whole population had been surveyed. The magnitude of the standard error associated with any survey is a function of sample design, sample size and population variability.
Superannuation	A long-term savings arrangement which operates primarily to provide income for retirement.
Tenure type	The nature of a household's legal right to occupy the dwelling in which the household members usually reside. Tenure is determined according to whether the household owns the dwelling outright, owns the dwelling but has a mortgage or loan secured against it, is paying rent to live in the dwelling or has some other arrangement to occupy the dwelling.
Topcoding	Reduction of all high values to a specified maximum value.

Trusts	Any type of managed fund which involves the pooling of investors' money in order for a trustee or professional manager to administer that fund. Examples include listed and unlisted public unit trusts, cash management trusts, property trusts and family trusts used only for investment purposes.
Unemployed	Persons aged 15 years and over who were not employed during the week before the interview and had actively looked for full-time or part-time work at any time in the four weeks before the interview and: <ul style="list-style-type: none"> ■ were available for work in the week before the interview, or ■ were waiting to start a new job within four weeks from the interview and would have started in the week before the interview if the job had been available then.
Unincorporated business	A business in which the owner(s) and the business are the same legal entity, so that, for example, the owner(s) are personally liable for any business debts that are incurred.
Unsecured loan	A loan not requiring any security or collateral.
Value of dwelling	The estimated value of the dwelling and its land, as estimated and reported by the respondent. The data are only collected for owners.
Vehicles	Vehicles include registered and unregistered vehicles used for private purposes including cars, trucks, buses, motorcycles, caravans, aircraft, boats and bicycles.
Vehicle loans	Principal outstanding on loans used to purchase motor vehicles. Where only a proportion of a loan is used to purchase a vehicle, only that proportion of the principal outstanding is included.
Wages and salaries	The gross cash income received as a return to labour from an employer or from a person's own incorporated business. Salary sacrificed income is regarded as cash or 'near cash' income and is included in the scope of wages and salaries.
Wealth	See Net worth.
Year of arrival in Australia	The year a person (born outside Australia) first arrived in Australia from another country, with the intention of staying in Australia for one year or more.
