### Purpose of Collection

The Vineyards survey collects detailed information from wine grape growers in Australia to measure the viticulture industry's activity throughout Australia. The survey provides small area, regional data to support decision making, research and analysis by grape and wine industry policy makers, researchers and communities.

### Collection Authority

The information asked for is collected under the authority of the *Census and Statistics Act 1905*. Your co-operation is sought in completing and returning this form by the due date. The Act provides me with the power, if needed, to direct you to provide the information sought.

### Confidentiality

Your completed form remains confidential to the Australian Bureau of Statistics (ABS). Statistics will only be published in the form of aggregated data. Some very detailed statistics could relate to data of a single holding. Respondents who can show that their holding may be identified in the detailed statistics published by the ABS can apply to the ABS to further aggregate the data to avoid such identification.

### Due Date

Please complete this form and return it in the reply paid envelope to the Australian Bureau of Statistics by  
**or within 14 days of receipt.**
