

LAW, CRIME, ETC.**THE LEGAL SYSTEM IN VICTORIA.**

The law of Victoria, in its basic principles and main provisions, is founded on the law of England. All laws in force in England in 1828 were, so far as they should be held to apply to the circumstances of Australia, by Imperial Statute made law in New South Wales (which then included Victoria); and, in case of any doubt as to their applicability, the Colonial Legislature was empowered to declare whether or not they did apply, or to establish any modification or limitation of them within the colony. The same Statute established a Legislature within New South Wales with power to make laws for that colony; and Supreme and other courts were constituted. On the separation of Port Phillip from New South Wales in 1851, the new colony of Victoria was invested with similar powers, which were widened on the establishment of responsible government in 1855. In order, therefore, to ascertain the law of Victoria as to any particular matter or point, considerable research is often involved. The first step is a search of the Victorian Statutes. If the matter is fully dealt with there, the labour is concluded; but, if it has never been dealt with by any Victorian Act, recourse must be had to the Statutes of New South Wales and the Imperial Statutes specially applicable to New South Wales passed between 1828 and 1851. If no law on the point is obtainable from these sources, the law of England in 1828 must be ascertained, which in most cases is found in the English text-books. Having found the apparent law from one of these sources, it is still necessary to search through series of law reports for decisions which may either modify or interpret the same.

LITIGATION AND LEGAL BUSINESS.

**Supreme
Court civil
business.**

The Supreme Court of Victoria was first established in 1852, and its constitution and powers remain substantially unaltered by recent legislation, although the procedure was entirely remoulded by the "Judicature Act of 1883." There were in 1919 five Judges, viz., a Chief Justice and four Puisne Judges.

The following is a statement of Supreme Court business during the last year of each of the five decennial periods ended 1910, and the last five years :—

SUPREME COURT CIVIL CASES, 1870 TO 1918.

Decline in litigation. There has been a considerable decline in litigation in the Supreme Court since 1890. In 1918, the writs issued were one-twelfth; the amount sued for was about two-fifths; and the causes which actually came to trial were about one-fifth of the corresponding numbers and amount in 1890. The figures show that a very small proportion of writs result in actual trials, whilst a large number of trials are either abandoned before a verdict is given, postponed to the following year, or settled.

County Court business. County Courts have a jurisdiction both in equity and common law cases, limited to £500; also in cases remitted by the Supreme Court. The cause of action must have arisen within 100 miles of the court in which proceedings are taken, which court must not be more than ten miles further away from defendant's residence than some other County Court in which the plaintiff might have sued. In 1918, there were 96 sessions lasting 415 days and held in 36 places. Particulars of litigation in the last

year of each of the five decennial periods ended 1910 and in each of the last five years are as follows :—

* No record.

The number of cases tried continues below the average of ten years ago. The number in 1918 was the lowest recorded, with the exception of 1917 (523), 1916 (480), 1913 (511), and 1911 (491), and was only one twenty-fourth of that in 1890. The amount sued for and awarded had not, however, fallen off to anything like the same extent. This would seem to indicate that the public is less inclined than formerly to institute legal proceedings for the settlement of disputes; and that the County Court is not resorted to for the recovery of petty and trade debts to the same extent as in former years.

Petty Sessions civil business. Courts of Petty Sessions were held at 222 places in Victoria in 1918 by stipendiary magistrates and honorary justices. Clerks of courts of ten years' standing, who have passed the prescribed examination, and barristers of five years' standing are eligible for appointment as police magistrates, but there is no legal training or knowledge of the law required as a condition precedent to the appointment of a person as an honorary justice of the peace. The jurisdiction in civil cases is limited to what may be called ordinary debts, damages for assault, and restitution of

goods, where the amount in dispute does not exceed £50. Particulars of such cases heard during a series of years are given hereunder :—

In addition to the ordinary cases above mentioned, and to the criminal jurisdiction hereafter mentioned, Courts of Petty Sessions deal with other business of a civil and quasi-criminal nature. During the year 1918, 219 appeals against municipal ratings, 1,096 maintenance cases, 484 fraud summonses against debtors, 54,677 electoral revision cases, 7,501 cases relating to licences and certificates, 797 garnishee cases, 471 ejectment cases, 157 prohibition cases, and 238 miscellaneous cases were heard, and 287 persons alleged to be lunatics were examined.

A statement is given below of the number of writs received by the Sheriff for the last year of each of the five decennial periods ended 1910 and the last five years, from which it will be seen that the decrease in the later years is very considerable :—

* Information not available.

The number of insolvencies in 1918 was the lowest recorded since 1857, with the exception of 1917 (222). The average number during the last ten years was 358, and the average declared liabilities £226,517. During the ten years 1899 to 1908 the average yearly number was 445, with declared liabilities of £244,538, whereas, during the ten years 1889 to 1898, when the failures resulting from the financial crisis swelled the returns, the yearly average number was 833, with declared liabilities of £2,213,592. During the ten years 1879 to 1888 the average yearly number was 612, with declared liabilities of £661,720.

Insolvencies are of two kinds, voluntary and compulsory. The following table shows the number of petitions of each kind in the last five years :—

Year.	Voluntary.	Compulsory.	Total.
1914 409	41	450
1915 391	45	436
1916 300	37	337

**Occupations
of Insolvents.**

In the next return will be found the occupations, in six classes, of those who became insolvent or compromised with their creditors during the last five years, also the number of breadwinners in each class at the census of 1911, and the proportion of the former to the latter. The total number of insolvents does not include 70 whose occupations were not stated :—

OCCUPATION OF INSOLVENTS, 1914 TO 1918.

Occupation Groups.	Number of Breadwinners, Census, 1911.	Average Number of Insolvents, 1914 to 1918.	Insolvents to every 10,000 Breadwinners.
Professional	43,819	13	2·97
Domestic	62,175	23	3·70

Primary Producers	144,384	79	5·47
Total	569,000*	493	8·66

* Exclusive of 8,053 persons of independent means.

Fewer breadwinners of the domestic and professional classes became insolvent than those of other classes, in proportion to their numbers in the community, whilst a greater proportion of the commercial than of any other class found it necessary to file their schedules or compound with their creditors.

A table showing the occupations of insolvents in detail for the years 1912 to 1916 appears in the *Year-Book* for 1916-17, page 444.

DIVORCE.

The present law in regard to divorce is contained in the *Marriage Act* 1915, and a summary thereof is given in the *Year Book* for 1916-17, page 445. The grounds upon which divorce might be granted were considerably extended by an Act passed in 1889.

Number of Divorces.

Since jurisdiction was first conferred upon the Supreme Court of Victoria in matters matrimonial in 1861, 4,325 decrees for dissolution of marriage and 102 decrees for judicial separation have been granted. Of these, 3,977 and 31 respectively have been issued since 1890; so that, during the 30 years ended 1890, only 348 decrees for dissolution of marriage were issued, and 71 for judicial separation, or an average per annum of about twelve of the former and two of the latter; whereas, since the Divorce Act of 1889 received the Royal Assent in 1890, no fewer than 142 decrees per annum for dissolution of marriage have been granted, while the decrees for judicial separation have decreased to about one per annum.

Divorces, Sex.

The following table gives the sex of the petitioner, also the number of decrees granted for divorce, judicial separation, and nullity of marriage during the year 1918:—

Divorces, 1881 to 1918.

The following is a statement of the number of petitions and decrees for dissolution of marriage and judicial separation in the State of Victoria during the four decennial periods ended 1911 and each of the last five years, also of the proportion of decrees per 100,000 married couples living :—

1917	263	2	201	..	88
1918	304	9	230	3	101

The extension of the grounds upon which divorce may be obtained has had the effect of greatly increasing the number of petitions and decrees.

In New South Wales, where the law in regard to divorce does not differ much from that in Victoria, there were, in 1917 385 decrees for dissolution of marriage and judicial separation. The number of divorces and separations in that year per 100,000 married couples living was 123. The average annual number for the five years period 1913-17 in proportion to a like number of married couples was 111, as compared with an average of 96 for the same period in Victoria.

CRIME.

ADMINISTRATION OF THE CRIMINAL LAW.

In nearly all cases where the criminal law has been broken the alleged offender is brought at the very first opportunity before a Court of Petty Sessions, before two honorary justices or a police magistrate, or both, or in some cases a single magistrate, and the court, if the matter is one which comes within its summary jurisdiction, disposes of the case summarily. If the offence is an indictable one, the magistrates hold a preliminary investigation, and, if they are satisfied that

a *prima facie* case has been made out by the prosecution, the accused is committed for trial to a superior court. There are two superior courts with criminal jurisdiction, viz., the Supreme Court, and a Court of General Sessions, which are held at various places throughout the State. The latter court may deal with all cases of an indictable nature except such as are expressly excluded from its jurisdiction, viz., ten of the most serious crimes. A person may be brought before magistrates by three modes of procedure, viz., by an arrest by a police officer on warrant issued on a sworn information; or in a limited number of cases without warrant if the offence has been witnessed by the arresting constable; or by a summons. If at a coroner's inquest a verdict is returned of murder or manslaughter, the accused person is sent for trial to the Supreme Court without any investigation before magistrates. The Attorney-General or Solicitor-General also has the power of presenting any person for trial before a superior court without the necessity of a preliminary magisterial hearing; and upon the application of any person, properly supported by affidavit, a grand jury may be summoned, on the order of the Full Court, if the affidavit discloses that an indictable offence has been committed by a corporate body; or that such an offence has been committed by any person, and that some justice has refused to commit such person for trial; or in the case of a committal that no presentment has been made at the court at which the trial would in due course have taken place. The grand jury consists of 23 men, who investigate the charge, and, if they are of opinion that a *prima facie* ground of action has been made out, the case is sent for trial. The cases which are presented under these latter forms of procedure are, however, very rare.

Indeterminate sentences.

The Indeterminate Sentences Act came into force on 1st July, 1908. Its principal provisions are—

1. The adoption of the indeterminate sentence for (a) habitual criminals, and (b) certain classes of other offenders.
2. The appointment of an Indeterminate Sentences Board.
3. The establishment of reformatory prisons.
4. A system of probation applicable to adults as well as minors.

A Board was appointed on 18th August, 1908. Its present members are:—The Hon. S. Mauger (chairman), Mr. C. A. Topp, M.A., LL.B., and Mr. W. R. Anderson, P.M., Secretary to the Crown Law Department.

The chief functions of the Board are to make visits of inspection monthly to each reformatory prison, to examine the conduct reports of the inmates and accounts of their earnings, to authorize promotion in grade, to approve of indulgences, and to make careful inquiries

as to whether any persons detained in a reformatory prison are sufficiently reformed to be released on probation, and submit recommendations accordingly to the Chief Secretary; also generally to report on the working of the Indeterminate Sentences Act and the regulations. Additional important powers were vested in the Board under the provisions of the Amending Indeterminate Sentences Act of 1915, chief among which are:—

- (a) To parole a prisoner temporarily for the purpose of testing his reform;
- (b) To impose conditions of release;
- (c) To transfer prisoners from one reformatory prison to another;
- (d) To hear charges of misconduct and impose punishment in place of the visiting justice at a reformatory prison for the detention of persons not habitual criminals;
- (e) To control the disbursement of a prisoner's earnings upon release; and
- (f) To recommend to the Minister that he make an order permitting a prisoner detained in a reformatory prison to leave such prison temporarily—
 - (1) for the purpose of being treated in a hospital; or
 - (2) to visit a relative believed to be dying; or
 - (3) for any other reason which appears to the Board to be sufficient.

Another important change under the Amending Act is the substitution of "Minister" for "Governor in Council" as the authority by whose direction a prisoner may be released on probation on the Board's recommendation. Regulations governing the treatment of declared habitual criminals, and of offenders not habituals, who are detained under indeterminate sentence in a reformatory prison, are now in operation.

In the early part of the financial year 1916-17 the Board was enabled to bring into operation two valuable aids to the reformation of the inmates of the reformatory prisons, by the Government sanctioning the purchase of a farm in connexion with the Castlemaine Reformatory, and the establishment of a forestry settlement at French Island. The equipment of the Castlemaine Reformatory was further improved in 1917 by the addition of the necessary plant and tools for imparting technical instruction to the inmates, this being given by an expert of the local technical school. The lads are now receiving practical training in the use of tools, framing, jointing, &c., and they have already turned out much useful work. This instruction, coupled with the experience

they are gaining in farming operations, promises to be of value to them in gaining suitable employment in the country on release. The improvements carried out on the farm have added to the value of the property, and include the clearing, fencing, ploughing, trenching and planting of a 10-acre block for an orchard.

The Afforestation camp at French Island continues to work well, and the industry of the prisoners has received the commendation of the officers of the Forests Department. In addition to the work of afforestation, considerable improvements have been effected about the camp and additional buildings erected. The tree-planting season usually extends from May to September in each year, and in the course of the season upwards of 200,000 trees, *pinis insignis*, may be planted by the prisoners. During other months the men are occupied in cutting fire breaks, clearing, and preparing for the next planting season. The experiment is of value, as it provides strenuous work for the men who are drawn from those under indeterminate detention at Pentridge, and enables the "Honor" system to be carried out. At no time are the men under lock and key, and they are given a considerable amount of freedom, yet with few exceptions they have responded loyally to the trust placed in them. Any who fail to rise to the standard required of them are immediately returned to Pentridge. A few, before their perfidy could be discovered, managed to reach the mainland by appropriating a boat belonging to the Forests Department, but with two exceptions these have been recaptured. Both here and at Castlemaine the open air life and work have had a beneficial effect upon the health of the prisoners, and the privileges and freedom they enjoy have not made them less amenable to discipline.

The number of prisoners under indeterminate detention on 30th June in each of the last four years was as follows :—

Probation officers to supervise first offenders released by the courts, on recognizance under the provisions of the *Crimes Act 1915* are appointed by the Governor in Council on the recommendation of the Board, and 234 such officers have been appointed to date.

These particulars include the arrests and summonses disposed of in Children's Courts, which are detailed in the next table, other than arrests of neglected children.

Of the persons dealt with in the 48,619 summons cases, 38,813 were summarily convicted, 9,740 were discharged, and 66 were committed for trial. Of the total persons dealt with (58,965), 44,900 were summarily convicted, 13,659 were discharged, and 406 were committed for trial.

The table hereunder shows the number of arrests and summonses for various offences which were disposed of in Children's Courts during the year 1918:—

The arrests of neglected children, which in 1918 numbered 1,327, viz., 689 males and 638 females, have been included in this table to indicate the business done by Children's Courts, but they are eliminated from all other criminal tabulations.

Arrests and summons cases.

Of the persons who were brought before magistrates during the past five years, 28 per cent. were arrested, and 72 per cent. summoned. The great increase in summons cases since 1906 is due principally to the number of prosecutions under the Licensing, Pure Foods, Commonwealth Electoral, and Defence Acts, and is also partially accounted for by more parents having been summoned for neglecting to send their children to school than in previous years—the compulsory clauses of the Amending Education Act requiring children to attend a greater number of times than formerly. The particulars for the last year of each of the four decennial periods ended with 1911, and for each of the last five years, are given in the subjoined table :—

ARRESTS AND SUMMONSES, 1881 TO 1918.

Neglected children arrested.

The arrests of neglected children, which are excluded from this and the following tables, numbered 1,443 in 1914, 1,846 in 1915, 1,495 in 1916, 1,338 in 1917, and 1,327 in 1918.

The following are particulars of cases brought before magistrates, from which it will be seen that about 72 per cent. of the persons are generally summarily convicted and 27 per cent. are discharged, whilst 1 per cent. are sent for trial to superior courts :—

CRIME AND DRUNKENNESS.

Offences and drunkenness.

The following table shows, for a series of years, the number of persons arrested or summoned, also the proportion per 1,000 of the population, for the only classes of offence for which complete comparisons can be made :—

191797	2.27	5.39	28.49	37.12
1918	1.01	2.46	4.22	33.90	41.59

The most noticeable feature of the above table is the large decrease in the arrests for drunkenness in 1917 and 1918 as compared with earlier years.

Almost all serious crimes are either offences against the person or offences against property. The first-named consist mainly of assault, but include murder, manslaughter, shooting, wounding, and all crimes of lust. Offences against property consist principally of larceny and similar offences; but include burglary, robbery, &c., cattle stealing, and wilful damage to property.

The only serious crimes included under "Other Offences" are forgery, counterfeiting, conspiracy, and

perjury, and these are very few in number, there having been in Victoria in 1918 only 23 of such crimes out of a total of 48,068 in the category to which they belong. A large proportion of the cases under the heading "Other Offences" are merely breaches of various Acts of Parliament, by-laws, &c., which indicate no degree of criminal instinct or intent on the part of the person charged. There is also among them a large number of offences against good order, including insulting behaviour, vagrancy, &c.

If it be desired to compare the above figures with those relating to other States or countries several considerations must be taken into account. The first point necessary is that the criminal law in the places compared be substantially the same; the second, that it be administered with equal strictness; and the third, that proper allowances be made for differences in the age and sex constitution of the population. The last consideration is one that must also be taken into account in comparing crime in recent years with that for previous periods when the population was very differently constituted in regard to sex and age.

In addition to being sent to gaol, two prisoners were ordered two whippings each with a cat-o'-nine tails. Prisoners remaining for trial from the previous year and sentenced in the year mentioned are included in the above statement, but those awaiting trial at the end of the year are excluded.

It has already been stated that in making up the returns a person arrested more than once is counted as a separate individual in respect of each arrest, but it is possible to ascertain approximately the number of distinct persons passing through the hands of the police by making a close comparison

Arrest of
distinct
individuals.

DISTINCT INDIVIDUALS ARRESTED, 1918.

[illegible]

of names, ages, birth-places, religions, occupations, &c., of the individuals dealt with. This has been done for 1918, so far as sex and age of the persons arrested are concerned, and the result is given in the following table :—

**Individuals
arrested more
than once.**

Of the total number of arrests, 10,346, only 8,044, or 78 per cent., were of distinct individuals. Of these, 6,825, or 84 per cent., were arrested only once; 796, or 10 per cent., twice; 206, or 3 per cent., three times; 93, or 1 per cent., four times; and 124, or 2 per cent., five times and over—one of these persons having been arrested twenty-seven times, and one thirty times. The table which follows gives a comparison of 1918 with 1884—the year preceding that in which an important Act relating to the obtaining and holding of licences was passed. From this it will be seen that there was a large decline in the later year in the number of distinct persons arrested, and that proportionately fewer persons were arrested more than once during the year:—

DISTINCT PERSONS ARRESTED, 1884 AND 1918.

Year.	Distinct Persons Arrested.						Percentage Arrested.				
	Number.			Per 100,000 of the Population.			Once.	Twice.	Thrice.	Four Times.	More than Four Times.
	Males.	Females.	Total.	Males.	Females.	Total.					
1884 ...	16,229	3,628	19,857	3,309	820	2,129	78	14	4	2	2
1918 ...	6,919	1,125	8,044	1,024	152	567	85	10	3	1	1

**Sexes of those
arrested more
than once.**

The tendency of females to be arrested over and over again is much greater than that of males, for, while only 14 per cent. of the males who fell into the hands of the police were arrested more than once, as many as 21 per cent. of the females were so arrested.

**Distinct persons
arrested more
than once for
drunkenness.**

The distinct persons arrested for drunkenness during 1918 numbered 4,317, and, of these, 783, or 18 per cent., were arrested more than once, viz., 464 twice; 151 thrice; 72 four times; 29 five times; and 67 more than five times, of whom 1 was arrested twenty-seven times, and 1 thirty times.

**Drunkenness,
1884 and 1918.**

The number of distinct persons arrested for drunkenness was 10,287 in the year 1884, and 4,317 in 1918. The proportions per 1,000 of the population were 11·03 and 3·04 respectively in the years mentioned, the decrease in the later year being equivalent to a reduction of 72 per cent.

Drunkards charged w.th other offences. Whilst the number of distinct persons arrested for drunkenness in 1918 was 4,317, the charges of drunkenness brought against them numbered 5,924; these persons were also charged with 665 other offences, so that the total number of charges of all kinds against drunkards was 6,589. Fifty-seven per cent. of the arrests during 1918 consisted of persons who were charged with drunkenness.

Education of persons arrested. Two per cent. of the distinct individuals arrested in 1918 were entirely illiterate, over 97 per cent. could read only, or read and write, and under 1 per cent. were possessed of superior or good education.

Criminal cases in superior courts. The number of criminal cases tried and of convictions in the superior courts, the Supreme Court and the Court of General Sessions, throughout the State, in the last year of each of the five decennial periods ended 1910, and in each of the last five years, was as follows:—

CRIMINAL CASES—SUPREME COURT AND GENERAL SESSIONS, 1870 TO 1918.

Year.	Total Number of Cases Tried.	Total Number of Convictions.	Proportion of Convictions per 10,000 of Population.
1870 ...	835	573	8·03
1880 ...	567	387	4·55
1890 ..	964	662	5·92
1900· ..	652	451	3·78
1910 ...	669	435	3·35
1914 ...	708	494	3·47
1915 ...	777	533	3·74
1916 ...	644	462	3·28
1917 ...	506	360	2·56
1918, ...	462	279	1·97

This statement shows that there was a fall in 1918 as compared with 1890 of 52 per cent. in the number of criminal cases tried in the higher courts, and of 58 per cent. in the number of convictions.

Drunkenness. The number and proportion per 1,000 of the population of persons arrested or summoned for drunkenness during the last five years are given hereunder :—

**PERSONS ARRESTED OR SUMMONED FOR DRUNKENNESS,
1914 TO 1918.**

Year.	Number of Persons—			Proportion per 1,000 of Population.

1916 ...	11,264	52	11,316	8·03
1917 ...	7,502	73	7,575	5·39
1918 ...	5,924	63	5,987	4·22

Drunkenness The amount of drunkenness in proportion to population, as evidenced by arrests, being taken as 100 in 1874-8, the numbers for subsequent periods will show the increase or decrease by comparison :—

Period.	Index Number.	Period.	Index Number.
1874-78	100	1908-12	68
1879-85	88	1913	72
1886-92	106	1914	69
1893-97	65	1915	64
1898-1902	84	1916	55
1903-07	77	1917	37
		1918	29

A very considerable decrease in drunkenness is shown for the five years 1893-97, which was a period of general depression. In the five years following an increase occurred, but since that time the arrests for this offence have declined. In the middle of the year 1915, an Act was passed limiting the number of hours during which alcoholic liquors could be sold in hotels, and a further limitation was made in the following year. This may account in part for the marked decrease in drunkenness in the last three years. It will be noticed that the index number for the year 1918 was the lowest on record.

The accompanying table shows the number of persons under 20 years of age arrested for drunkenness, also the proportion per 100,000 of the population under that age, from which it will be seen that very few young persons are arrested for this offence :—

ARRESTS OF PERSONS UNDER 20 YEARS OF AGE CHARGED WITH DRUNKENNESS, 1895 TO 1918.

CONSUMPTION OF INTOXICATING LIQUOR.

The next table shows for a period of years the average yearly consumption of intoxicating liquors in Australia and New Zealand. It is not possible to give the Victorian consumption for a later year than 1909, as the Commonwealth Government discontinued keeping records of Inter-State trade in the following year.

AVERAGE CONSUMPTION OF SPIRITS, BEER, AND WINE IN AUSTRALIA AND NEW ZEALAND.

Dominion of New Zealand ..	788,900	11,005,900	145,500	·72	10·02	·13

* Average for four years ended 30th June, 1918.

The proportions per head in Australia during the quinquennium 1909-13 were : spirits, ·82, beer, 12·40, and wine, ·42; and for New Zealand : spirits, ·79, beer, 9·69, and wine, ·14 gallons.

With the assistance of the figures in the preceding table, it is possible to estimate for Australia, with some degree of accuracy, the approximate expenditure of the people on intoxicating liquors in a year, and this is done in the following table, taking as a basis the yearly average consumption over a period of years :—

AUSTRALIAN DRINK BILL.—YEARLY AVERAGE.

	Expenditure by the People on—					
	Spirits.	Beer.	Wine.	Total.		
				Amount.	Per Head.	Per Adult Individual.
	£	£	£	£	£ s. d.	£ s. d.
*Commonwealth of Australia ..	6,809,500	9,105,600	818,700	16,733,800	3 8 0	6 0 0
†Dominion of New Zealand ..	1,596,700	1,677,400	72,800	3,346,900	3 0 11	5 6 6

* Average for four years ended 30th June, 1918.

† Average for five years ended 31st December, 1918.

These figures show that the average yearly expenditure on drink in Australia during the four years ended 30th June, 1918, was £16,733,800, and that in New Zealand during the quinquennium, 1914 to 1918, it was £3,346,900. The proportion per head for the Commonwealth was £3 8s., and for New Zealand £3 0s. 11d. The corresponding proportions for the quinquennium, 1909–13, were £3 10s. 2d., and £2 18s. 2d. per head.

During the period 1885 to 1905, 217 hotels were closed as **Local Option.** the result of local option polls. The amount of compensation awarded was £212,771, or an average of £980 for each hotel. This sum was provided partly out of the Licensing Fund, and, when this was insufficient for the purpose, out of the general revenue.

In the year 1915 an Act was passed (No. 2584) which **Restricting the hours for the sale of intoxicants.** fixed the hours during which alcoholic liquors might be sold in hotels during the period of the war at from 9 o'clock in the morning until half-past 9 at night. By an Act passed in 1916 (No. 2827) the closing hour was fixed at 6 o'clock instead of 9.30.

LICENCES REDUCTION BOARD.

Licences
Reduction
Board.

The Licences Reduction Board provided for by the *Licensing Act* 1906 was appointed on 21st May, 1907. At the same time a Compensation Fund was instituted which was raised by means of a percentage fee of £3 for every £100 of purchases of liquor, the owner of the premises being chargeable with two-thirds and the tenant with one-third of the fee. The duties of the Board are referred to in the *Year-Book* for 1915-16, page 476. Just before the close of the year 1916 an amending Licensing Act (No. 2855) was passed, in which the members of the Licences Reduction Board were constituted a Licensing Court for the whole State. The taking of a local option poll was postponed to the second general election after January, 1917, and the court was authorized in the meantime to close hotels to the extent of the Compensation Fund available, as if reduction had been carried in every Licensing District. No alteration was made in the provisions abolishing the statutory number of hotels for a district, so that the number existing on 1st January, 1917, is now the maximum number; a similar provision applying to grocers' licences, Australian wine licences, and club licences. The Mallee area was made the subject of special legislation, under which it is possible after a petition and a poll to obtain victuallers' licences in proclaimed areas containing at least 500 electors. These hotels are to be 12 miles apart, except at Mildura, where there can be three hotels. The whole system of licence-fees was re-cast, fixed fees in the retail liquor trade being abolished and percentage fees substituted. In the wholesale section there are now percentage fees for the sales to private customers, and fixed fees in respect of the balance of the trade. The percentage fee in the case of hotels has been fixed at 6 per cent. on the annual liquor purchases, the owner paying three-eighths, and the licensee five-eighths. This combines and takes the place of the old fixed fees, the 3 per cent. compensation fee, and the assessments for lost licence fees arising out of the closing of hotels. Spirit merchants and holders of grocers' licences and Australian wine licences pay 4 per cent. on the cost of liquors sold to non-licensed purchasers.

Provision was also made for the adjustment of rents owing to the reduction in the hours for selling liquor. This work was intrusted to the Board under the "9.30 Closing Act," and was subsequently extended to include alterations due to the "6 o'clock Closing Act." Under the provisions of the latter Act 340 applications were received for adjustment of rent in addition to 340 received under the "9.30 Closing Act."

Up to 30th June, 1919, 1,262 hotels had been closed by the Board or had surrendered their licences. Compensation has so far been awarded in 1,210 cases, and the total sum paid has been £625,486,

or an average of £517 each. Three hundred and eighteen of these hotels were located in the Greater Melbourne district, and their compensation totalled £277,682, making an average of £873 each; there were 892 in country districts, whose owners and licensees received £347,804, or an average of £390 for each hotel. In the appended table particulars are given regarding the hotels in the various licensing districts dealt with by the Board:—

* Compensation for two hotels.

† Compensation for Twenty-seven Hotels.

The return given hereunder shows the number of hotels in Victoria in 1885, 1906 and 1919, and the number of persons to each hotel in those years. The years 1885 and 1906 have been selected because in those years important alterations were made in the liquor licensing laws :—

NUMBER OF HOTELS, 1885, 1906 AND 1919.

Year.	Estimated Population.	Number of Hotels.	Persons to each Hotel.
1885	969,200	4,265	227
1906	1,244,474	3,473	358
1919 (30th June) ...	1,467,200	2,155	681
Increase, 1885 to 1919 ...	498,000	...	454
Decrease, " "	2,110	...

While the population has increased by 51 per cent. since 1885, the number of hotels has decreased by 50 per cent., and the number of persons to an hotel is now 200 per cent. more than it was in that year. During the period 1885-1919, 217 hotels were closed as the result of local option polls, 1,262 were deprived of their licences by the Licences Reduction Board, or surrendered their licences to the Board, and 631 were closed voluntarily.

Race-course licences and percentage fees. The *Lotteries Gaming and Betting Act 1906* (now Section 152 of the *Police Offences Act 1915*) provides that all race-courses must be licensed, for which a fee of £1 per annum is charged. It is stipulated that, in addition to this fee, there shall be paid annually a sum equal to 3 per cent. of the gross revenue derived from all sources. Where the gross revenue is less than £1,500, but more than £600, the annual sum payable is 2 per cent. of the revenue, and where the gross revenue is £600 or less no percentage is charged. The amounts paid into the Consolidated Revenue for licence fees and percentages on receipts during the past ten years were as follows :—

GAOLS AND PRISONERS.

Gaols and prisoners. There are seven gaols in Victoria, including the Pentridge Penal Establishment, and four reformatory prisons, also four police gaols which are used as receiving stations, and the figures below show that there is accommodation in the gaols for over three times the average number of prisoners in confinement.

The following statement gives for the year 1918 the accommodation for prisoners, the daily average in confinement, the number received during the year, and the number in confinement at the end of the year :—

* Proclaimed a police gaol, 28th May, 1918.

A statement is given below of the average number of prisoners in detention in the gaols of the State in the last years of the decennial periods 1871 to 1911 inclusive, and in each of the last five years. From this it will be seen that there has been a considerable decrease in late years as compared with earlier periods. The rate per 10,000 of population, aged fifteen years and over, was, in 1918, 54 per cent. less than in 1901, 74 per cent.

Prisoners in confinement, 1871 to 1918—decrease.

less than in 1891, 78 per cent. less than in 1881, and 82 per cent. less than in 1871.

Executions.

During the fourteen years ended with 1918 there were only six executions in Victoria, one of which took place in 1908, one in 1912, two in 1916, and two in 1918. Since the first settlement of Port Phillip in 1835, 174 criminals have been executed within the State, of whom only four were females.

The *Year-Book* for 1916-17 contains on page 490 a table showing the offences for which criminals were executed; also their birthplaces and religions for the years 1842 to 1916.
