NOTES ON SOME OF THE MORE IMPORTANT FIGURES PRESENTED IN THIS VOLUME.

It has been considered desirable to present the 1918-19 volume of the Annual Statistical Register of Western Australia, the first issue since the termination of the Great War, with an abstract of notes on some of the more important figures published in each part. The changes and fluctuations to which that stupendous event in the world's history gave rise are reflected in the statistics of this State, as they needs must be in those of all other countries; and to draw particular attention to this, as well as to all indications of the progress or otherwise of the community, is the object of the comments here furnished. In the present absence of an official Year-book of the State they may to some slight extent help to serve as a guide through the mass of figures tabulated.

S. BENNETT,
Government Statistician.

Government Statistician's Office,
Perth, Western Australia,
30th January, 1920.

Part I.—POPULATION AND VITAL STATISTICS, 1918.

For the first time since the beginning of the war a steady monthly increase of the male population was recorded during the year, amounting in all to 2,763, and making the total increase of the population 4,024; the estimated population on 31st December, 1918, being set down at 313,447 persons, of whom 161,464 were males. To this increase—also for the first time since 1914—immigration contributed, as regards the males, with an excess over emigration of 922; but as regards females the departures exceeded the arrivals by 1,171. The return of our soldier citizens has since considerably increased the immigration figures for 1919. Of a total number of arrivals of 24,262, in 1918, no less than 13,299 came by the Transcontinental Railway, whilst of 24,511 departures, 14,148 left the State by the same route. The male arrivals numbered 15,753, the female 8,509; the male departures totalled 14,831, the female 9,680. The military arrivals numbered 3,961, departures 909.

The birth-rate during 1918 was 22.8 per thousand of the mean population, representing a total of 3,615 male and 3,491 female births. This rate, which already before the war had not maintained its one-time height, fell considerably during the war years. Having, from 30.8 in 1900, and 30.7 in 1906, fallen to 28.5 in 1914, it was subsequently reduced to 28.0 in 1915, 27.2 in 1916, 25.5 in 1917, and 22.8 in 1918. Whether this decrease need be a reason for alarm, can only be determined after the next census in 1921. It may, however, be at once pointed out that the population, having been drained of its adults, and principally recouped by births, must at the present time contain a much lower percentage of marriageable persons than in the earlier years above referred to. As regards the distribution of the births according to the months of the year 1918, it is of interest to note that December maintains its customary low standard in this respect, the number for that month being only 472, as against the next lowest in November, 532, and the highest in July, 662.

The deaths of males totalled 1,774, as against 1,802 during the previous year; those of females numbered 1,059, as against 967 for 1917. Among the female deaths 100 were due to senility, as against 67 in 1917; 25 to influenza, as against 2 in 1917; 73 to tuberculosis of the lungs, as against 55 in 1917. The heavier female mortality appears to have occurred among the women of mature age.

The male deaths from influenza numbered 44, of which number 17 were those of returned soldiers who died at Woodman's Point Quarantine Station.

The infantile mortality rate differed only very slightly from that of 1917, the figures being 57.3 as against 57.1 for the previous year.

As a natural consequence of the dislocation caused by the war, the marriage rate has gradually fallen very low, from more or less normal in 1914, when it was 8.2, first to 8.0 in 1915, then to 7.5 in 1916, to 5.3 in 1917, and to 5.2 in 1918. The remark, however, made above with regard to the birth-rate applies equally here.

The number of naturalisations, from 45 in 1917, fell to 25 in 1918. One notices with some astonishment that in 1917 there were four Germans, and in 1918 there was one of the same nationality, who obtained naturalisation certificates.

No figures relative to the population of the metropolitan area of the capital, extending within a radius of slightly more than 10 miles, are at present published in this

Part, those prepared in this office being a more or less hypothetical estimate. It may be added, therefore, that this population, on 31st December, 1917, was roughly estimated at 54,000 males and 76,000 females, and on 31st December 1918, at 56,000 males and 77,000 females.

Part II.—PUBLIC FINANCE, 1918-19.

This Part gives in condensed form the leading figures of consolidated revenue and expenditure therefrom for the year 1909-10 and the past five years. The main features of Loan Expenditure are tabulated for the separate five financial years ended 30th June last, as are also the joint totals for all preceding years. A table giving details of the Property Sales Fund is given on a similar basis, showing the total receipts from this source, to 30th June, 1919, to have been over a million pounds. The particulars of Public Debt and Sinking Fund are classified under their principal headings for a similar series of years, and reveal the fact that the average nominal interest payable on the entire Public Debt was, on 30th June, 3.86 per cent., whilst the average interest borne by the Sinking Fund securities was 3.54 per cent. This part of the Register concludes with two Income Tax returns, showing the numbers of taxpayers, their total incomes, and the amounts paid, classified respectively according to incomes and occupations.

Part III.—ACCUMULATION, 1918-19.

BANKING.

During the early part of 1917, sixty days' sight Drafts on London were sold by the local banks at a premium of $\frac{1}{8}$ th per cent., but in 1918 the price was reduced to $\frac{3}{8}$ th per cent. discount. Exchange on bills drawn on London at 60 days' sight was increased from $1\frac{1}{4}$ to $1\frac{3}{4}$ th per cent. Interest on bills discounted increased slightly, the 1917 rate being from $5\frac{1}{2}$ per cent. to 8 per cent., and the 1918 rate from 6 per cent. to 8 per cent. The bank notes in circulation amounted to £26,892 as compared with £29,487 in 1914. The deposits during 1918, with the cheque-paying banks, showed an increase of £1,098,009 as compared with the 1917 deposits. The gold, silver, and other coins, held by the banks, have further decreased from £1,254,261 in 1917 to £1,615,353 in 1918. The total average liabilities were £10,082,493 (1917 £8,922,534), and the total average assets £14,019,872 (£13,870,301).

State Savings Bank deposits increased from £3,606,075 in 1917-18 to £4,415,732 in 1918-19. Withdrawals were £4,128,161 in the latter year, as compared with £3,549,293 in the former. The excess of deposits over withdrawals was £287,571, whereas the year before the excess was only £56,782, while in 1915-16 the withdrawals exceeded the deposits by £187,313. The average amount standing to the credit per head of the population was £16,995, as compared with £16,184 for the previous year. The total assets were £5,548,290, of which the sum of £3,758,966 was invested in Government securities. The gross revenue was £202,564, out of which interest amounting to £168,341 was paid to depositors. The number of accounts remaining open was 125,370.

The deposits in the Schools Penny Savings Banks show a decrease from £20,583 in 1917-18 to £19,962 in 1918-19, while the withdrawals increased from £19,165 to £19,256. The number of accounts remaining open at the end of the year, however, increased from 27,782 to 29,341.

The Commonwealth Savings Bank figures for 1918-19 show an excess of deposits over withdrawals of £270,005. The average amount standing to the credit per head of the population was £4.670, and the number of accounts remaining open was 41,873.

LIFE AND GENERAL ASSURANCES.

The total assets of the ten life assurance companies operating in Western Australia amounted at the end of 1918 to £349,670,743, of which the investments in this State totalled £3,490,734. The total revenue was £50,864,598, and the expenditure £43,344,069. The number of policies in force at the end of 1918 was Ordinary 2,274,639 and Industrial 838,575, while the sums insured were Ordinary £971,057,014, Industrial £21,971,238.

The revenue from general insurance amounted to £393,888, and the expenditure to £316,672, which was made up of losses £151,673, commission £56,671, and other £108,328. Fire insurance accounted for the biggest proportion of the business transacted, the revenue being £245,588, and the expenditure £187,531. Direct losses were experienced in hailstone, guarantee, and live stock insurances. The revenue and expenditure for these departments were respectively: hailstone £6,784 and £8,730; guarantee £3,380 and £9,427; live stock £3,234 and £3,465.

FRIENDLY, CO-OPERATIVE, AND BUILDING SOCIETIES AND INDUSTRIAL UNIONS.

The revenue of Friendly Societies in 1918 was £111,509, and the expenditure £106,041. The funds at the end of the year totalled £293,854. Building Societies granted loans to the extent of £46,572 during the year, and at the end of the year had £174,026 invested on mortgage. Co-operative Society sales during the year totalled £225,154; and the assets at the end of the year amounted to £106,868. The share capital was £19,256. Industrial Unions and Associations had a membership of 30,997. The income was £64,112; whereas the expenditure amounted to £66,304.

Part IV.—INTERCHANGE, 1918.
TRADE AND TRANSPORT STATISTICS.

The greater part of this volume is taken up with the detail returns of the imports and exports—the interstate and oversea trade being tabulated together.

The import tables, when compared with those for the preceding years of the war period, show but little fluctuation in the volume of trade, though a distinct variation in the sources of supply is noticeable.

The totals for four years are as follows:—

1914-15.	1915-16.	1916-17.	1917-18.
£8,301,280	£8,983,000	£9,382,210	£7,617,683

while the sources of supply for the same periods are:—

	£	£	£	£
Commonwealth States	4,315,082	4,813,891	4,995,823	5,112,421
United Kingdom ...	2,414,839	2,292,187	2,598,834	1,112,995
Other Oversea Countries	1,571,359	1,876,922	1,787,553	1,392,276

A comparison between the principal countries of origin during the first and last years of the period is interesting:—

	1914-15.	1917-18.
	£	£
Commonwealth States ...	3,786,350	4,234,479
United Kingdom ...	2,403,263	1,393,062
Canada ...	81,907	44,007
Ceylon ...	95,241	102,773
India ...	212,312	377,603
France ...	95,096	52,242
Germany ...	113,182	151
Japan ...	61,396	239,864
Norway ...	62,471	25,071
Switzerland ...	62,612	31,977
United States ...	630,880	680,357
China ...	40,583	24,331

Turning to the export records, the figures here dealt with are those relating exclusively to merchandise. The returns for the four years are:—

1914-15.	1915-16.	1916-17.	1917-18.
£3,112,012	£4,885,099	£5,562,066	£3,607,337

distributed as follows:—

	£	£	£	£
Commonwealth States	697,790	1,157,371	1,125,865	1,391,439
United Kingdom ...	1,399,019	2,508,137	2,807,639	1,129,992
Other Oversea Countries	1,015,203	1,219,591	1,629,462	1,085,904

Here, again, it is interesting to note the steadiness of trade during the trying years of war, the scarcity of shipping merely having the effect of diverting to the other States of the Commonwealth produce which under normal circumstances would probably have proceeded to other countries.

Customs and Excise Revenue.—The former, in sympathy with a diminished foreign import, shows a downward movement; collections in 1914-15 amounted to £764,521, and fell to £396,835 in 1917-18, while the excise amounts derived from internal sources rose from £117,012 to £170,316 during the same period.

Shipping Returns.—Here a strong upward movement is noticeable, due probably to the large number of men-of-war and troop transports calling at the ports of the State during the earlier years of the war. During 1914-15, 650 vessels, aggregating 2,366,855 tons, entered the State, increasing to 685 of 2,491,537 tons in 1915-16 and to 728 of 2,548,339 tons in 1916-17, then rapidly declining to 312 vessels of 1,094,000 tons in 1917-18.

The balance of the volume is devoted to tables dealing with the Railways and Tramways, both Government and private, and the transactions of the Post and Telegraph Department.

Part V.—LAND SETTLEMENT, AGRICULTURE, LIVE STOCK, AND METEOROLOGICAL STATISTICS, 1918-19.

Land Selection, during the year 1918, shows an increase in the area of land alienated or in process of alienation of 175,038 acres over the previous year, the total on the 31st December, 1918, being 21,744,863 acres, whilst the area of land held under lease or license increased by 23,468,436 acres, the total on the 31st December being 221,714,943 acres.

The area of land under crops (1,605,088 acres) on the 28th February, 1919, shows a decrease on the figure for the previous year, a decrease which, however, has been continuous since 1916, owing to the war, which naturally caused a great shortage of labour in the farming districts. Oats was the only crop to make any considerable advance in production, the quantity being 1,499,689 bushels, as against 908,592 bushels for the previous season.

The averages were again low this year, owing, according to the reports received, to unseasonable rain distribution, red rust, septoria, and other causes.

With regard to Dairy Produce, considerable increases are shown in the production of Butter, Bacon, and Ham over previous years, as disclosed by the following figures for the past three years:—

	1916.	1917.	1918.
Butter	1,080,466 lbs.	1,361,484 lbs.	1,789,390 lbs.
Bacon	389,500 lbs.	702,314 lbs.	1,266,526 lbs.
Ham	28,569 lbs.	55,221 lbs.	145,891 lbs.

The value of the production of Poultry and Eggs, and the products of Bee-farming, show only a slight increase on those of the previous year, the former being £189,471 as against £188,982, and the latter 9,126 lbs. of honey as against 7,902 lbs.

In Live Stock a slight increase is shown in the number of Horses, the figures for 1917 and 1918 being respectively 178,151 and 180,094. Cattle show a fair increase of 16,761, the figures being for 1917, 927,086, and for 1918, 943,847. The increase in Dairy Cows over the figures for 1917 is 4,154. Sheep show the splendid increase of 799,556 during 1918, the figure for that year being 7,183,747 as against 6,384,191 for 1917. This accession is mainly due to the South-West portion of the State, from Northampton to Albany, where an advance of 598,654 was recorded in the numbers, the balance being made up by the North and North-West portion 72,245, and the Central and Southern portion 128,657. Pigs show a decrease of 25,981 on the previous year's figure, the falling-off being accounted for to some extent by the much larger number slaughtered during 1918. Camels and mules show a slight decrease, and donkeys and goats a slight increase. There was a considerable increase in the lambing, but only a slight one in the calving; and a slight decrease in the foaling. A considerably larger number of sheep and pigs were slaughtered than previously, but rather less cattle. Other losses were somewhat heavy in cattle and sheep.

Wool shows the magnificent increase of 5,110,577 lbs. over the 1917 season, the figures being, for the 1917 season 38,294,093 lbs., and for 1918, 43,404,670 lbs.

The following notes on the rainfall during 1918 were supplied by the meteorological officer for the State:—

“Over the greater part of Western Australia the year 1918 was one of ample rainfall, but it was not without abnormal features. Amongst the more notable were the phenomenal rains during the opening months, more especially in February. January was productive of frequent depressions, which brought bountiful rains to the tropics, but reached the remainder of the State as little more than heat-wave systems. The final phases of two of them, however, resulted in very heavy downpours in the extreme South-West (on the 20th and 26th).

“With the opening days of the ensuing month a ‘Willy Willy’ appeared on the North-West coast, and brought heavy rains to the tropics and goldfields.

“Ordinary tropical depressions, associated with rain and intensely humid conditions, followed at regular intervals. Even in the tropics, where summer rains are the rule, the averages were greatly exceeded (10.38 inches above normal at Broome), and at a large number of sub-tropical stations, especially over the Murchison and Eastern Agricultural areas, all previous records for February were eclipsed.

“After the 25th the weather underwent a decided change. In the tropics the summer rains ceased suddenly, and over the remainder of the State a dry spell lasted until about the end of March, when another unusual feature came into prominence. On the 25th and 26th a general and heavy rainstorm swept over the South-West quarter and goldfields, yielding totals in excess of the month's average at the majority of stations; it was associated with violent thunderstorms and some local hail, and during the succeeding two months almost every disturbance was similarly characterised. In Perth, for example, scarcely a week passed without a terrific thunderstorm. During this period the systems were varied in type; some were clearly indicated on the isobaric charts, but of minor importance as rain-producing factors. To this type belonged a visitation on 21st April, which was reminiscent of the ‘Willy Willy’ which visited our western coastline in February, 1915. Others influenced the barometric readings very little, but were none the less active rain-bearing agents; while others again were well defined on the charts, and productive of violent wind and widespread rains. The most important were those that occurred (1) in the opening week of April, as a result of which the Eastern Agricultural areas and Coolgardie Goldfields registered totals in excess of those recorded for any previous April, except that of 1900; (2) between 9th and 14th May, when severe gales were experienced on the West, South-West, and South coasts; and (3) 20th and 25th May, when parts of the Nor-West participated. The May rainfall was chiefly confined to the Gascoyne, South-West quarter and South coast, where excesses occurred; but on the goldfields the month's totals were light.

“With the opening days of June winter conditions were well established. The rain fell throughout the month almost incessantly. On and near the coast, and at many agricultural centres, it was one of the wettest months ever experienced, but to the East and North it diminished in intensity, being about normal in the Gascoyne and goldfields.

“A totally different aspect was presented in July. After a brief rainy spell during the opening days, the remainder of the month was practically a continuous dry period,

broken by a single rainstorm from the 21st to the 23rd. In all, only about half the normal rainfall was registered in the West and South-West and over the agricultural country. Another unusual feature of the month was the occurrence of moderate rains in the Kimberley.

"After the close of July, about six weeks of persistently showery weather, chiefly controlled by passing Antarctic depressions, ensued. Heavy gaugings were almost entirely absent, and consequently this period, although an improvement upon the dry July weather, was not up to the usual standard. Towards mid-September, however, an abnormally active Antarctic disturbance was followed closely by a storm of tropical origin. The combined activities resulted in about a week of wet weather, culminating, on the 15th, in one of the finest rainfalls experienced during the whole winter season. Agricultural prospects, which were decidedly good prior to the end of June, but received a severe set-back as a result of the dry July, now brightened considerably, but a dry fortnight, which occupied the latter half of September, again occasioned considerable anxiety, as it was believed, in many quarters, that the winter rains had finally ceased for the year.

"October, however, saw a re-occurrence of the showery weather that prevailed in August and, on the whole, both this and the preceding month were in excess of the average in the South-West quarter, but deficient elsewhere. The final month's rainfall was sparse over all sub-tropical areas and generally deficient in the tropics, although good excesses were encountered at certain localities.

"Taking the year's totals as a whole, excesses were shown along the whole coastline (apart from three or four minor exceptions) from Cossack to Israelite Bay, and inland to the eastward fringe of the Murchison and Coolgardie goldfields. The Kimberley country north from Turkey Creek likewise recorded more than the normal amount (to the extent of from one to four inches). The largest excess occurred at Winning Pool (12.84 inches above), and excesses of 10 inches or over were also met with at widely separated stations on the Southern Murchison and in the South-West.

"At many agricultural centres the normal was surpassed by as much as seven or eight inches; but, on the other hand, a large number showed differences of less than one inch from the average values. The great majority, however, both in the South-West quarter and on the goldfields, were from two to five inches above.

"Deficiencies, of very variable quantity, occurred in the greater part of the Kimberley and De Grey districts, at several places in the extreme east of the Murchison and Coolgardie goldfields, and on the extreme South-East coast. At Condon, in the North-West, the defect amounted to five inches; but in no other case did it equal three inches."

Part VI.—INDUSTRIAL ESTABLISHMENTS, 1918 (EXCLUSIVE OF MINES).

During the period of the war there was a considerable disturbance in the ordinary channels of industrial production, and so for various reasons it is impossible to make an entirely satisfactory comparison with the years immediately preceding the one under review. It should be mentioned, too, that the Government Statisticians throughout Australasia, by agreement, do not collect particulars from industrial establishments unless four hands are employed or mechanical motive power is used. Young and growing industries are therefore sometimes necessarily unnoticed because of this limitation.

It is interesting to note that for the first time in three years the relative number of females to males employed has shown a declension—the number of females in 1917 and 1918 being 2,561 and 2,511 respectively, while the number of males has gone up from 10,789 to 11,338. (The 1918 figures in both cases are exclusive of firewood-yard employees.) This alteration is not so marked in the case of clerical workers, the females having shown another increase in 1918. The number of male clerks has not yet reached the 1915 standard. The employment in juniors under 16 is practically stationary, 423 males and 309 females being employed in the principal industries during 1918.

The number of establishments with four hands and over has declined from 657 (employing 2,998 persons) in 1917 to 559 (employing 2,777 persons) for 1918, firewood-yard employees as above being excluded. There were only 18 industrial establishments in the State with over 100 employees each in the year 1918. Of the 13,849 total employees, there were 2,485 engaged at sawmills: 1,410 at railway and tramway workshops; 1,080 at engineering works, foundries, plumbing, etc.; 1,000 at printing and bookbinding; 825 at tailoring, etc.; 943 at dressmaking, millinery, and whitework; 516 bakers, and 488 at breweries.

The rise in the price of petrol and similar fuels has been reflected in the decline in horse-power of oil engines (which were coming into prominence before the war) used in manufacture, from 1,033 in 1916 to 785 in 1918, and a corresponding increase in electric and other motive power (gas 5,368 to 5,374, electric 6,292 to 6,803). Electricity for power is now being employed on a large scale in some of the prominent metropolitan establishments, where it would have been absurd to have contemplated such extension in former years, before cheap production at central supply works had made such a proposition not only practicable but payable.

An important part of the publication deals with the value of the output of the industrial establishments in the State. The gross value of the output in 1918 was £8,399,262, made up in the following manner: salaries and wages, £1,863,213; fuel consumed, £218,824; materials, £5,021,298; margin for profit and other expenses, £1,295,927. Although the gross output has risen in value from £7,222,312 in 1914 to £8,399,262 in 1918, it may be observed that the percentage of "margin for profit, etc." has fallen from 18.82 to 15.43. Salaries and wages included in the value of the total output have declined from £2,474,443 (or 34.26 per cent.) in 1914 to £1,863,213 (or 22.18 per cent.) in 1918; fuel from £219,100 (or 3.03 per cent.) to £218,824 (or 2.61 per cent.), while material used has risen from £3,169,715 (or 43.89 per cent.) to £5,021,298 (or 59.78 per cent.).

Values in land and buildings taken with plant and machinery have been practically stationary throughout the war period, but now, owing to the unlocking of capital, and the facilities for procuring additional or new plant, a rise in both items may reasonably be expected. The totals are roughly: 1914, £5,219,000; 1918, £5,528,000.

The Nationality Tables do not disclose any considerable movement of alien races, apart from the fact that subjects of enemy countries have been, as employees, decidedly at a discount in late years. Italians still lead with 155; Greeks with 46, Chinese 35, Russians 27, and Swedish 25 employees, being the principal other nationalities represented. It is of course to be presumed that naturalised aliens have been counted in most cases as British. It may be mentioned that employees on mines are not included in these tables, but only what may be called "factory hands."

Some of the principal items manufactured during 1918 were: 1,007,374 lbs. of leather (24,180 hides and 17,369 skins being tanned); pottery, etc., to the value of £13,218; timber, hewn and sawn, 94,989,530 super feet; confectionery, 2,237,713 lbs. (1917, 1,689,412 lbs.); flour, 119,876 tons (1915, 32,396 tons); beer and stout, 5,361,712 gallons; electric light and power, 30,401,339 British units. There are also reported by the Fisheries Department pearls to the value of £63,332; the 1915 figures being £14,894.

Tables of rates of wages in the principal industries of the State as fixed under the local Arbitration Act up to the 30th June, 1919, will be found at the end of the Part.

Part VII.—MINERAL STATISTICS AND WATER CONSERVATION, 1918-19.

MINERAL STATISTICS.

In these statistics, as in all others dealing with industries involving employment of the manhood of the State, a certain falling-off was evident during the war period; but the wonder is that under the circumstances it was not greater. Thus, during the three years 1916-18 the annual value of gold and other minerals produced declined from £4,893,417 to £4,265,577; and the quantity of gold won, from 1,061,398 ozs. to 876,511 ozs., while the dividends paid by gold-mining companies shrank from £632,883 to £368,295 during the same period. On the other hand, the fact that the number of men employed in raising ores and minerals (other than gold) was in 1918 estimated to be 1,475 instead of 930 in 1915, gives good reason to hope for increased production in the immediate future in the mineral-producing industries. The value of coal raised, for instance (to mention one item), has of late years been steadily on the increase (1915, 286,666 tons; 1918, 337,039 tons), and the number of coal miners was in 1918 estimated as 618, instead of 498 in 1915. The number of gold miners exclusive of diggers was 7,575 in 1918.

The local branch of the Royal Mint has coined over 84,000,000 pounds' worth of sovereigns and half-sovereigns since its inception; and the total expenditure (apart from cost of construction of buildings, machinery, etc.) has been £406,376, while the total quantity of raw gold entered for export added to that received at the Mint was, up to the 31st December, 1918, 32,396,483 fine ozs.

Receipts from State Batteries for the year were: milling and tin, £18,504; tailings, slimes, and residues, £16,604.

Gold-mining leases numbered only 847 in 1918, but the total value of gold-mining machinery was estimated as still considerable—£2,771,456. In addition, there was machinery to the value of £301,317 used in mining other than gold in various parts of the State.

The values to the end of 1918 of the principal mineral products (besides those already mentioned) were: Copper (ore, ingot, and matte), £1,600,722; Lead and Silver Ore and Concentrates, £571,522; Pig Lead, £392,358; Silver, £441,470; Tin (ore and ingot), £1,380,838. The total value of gold and coal won to the same date was: Gold, £137,611,514; Coal, £2,053,556.

WATER CONSERVATION.

As far as Water Conservation in this State is concerned, the year 1918-19 was uneventful. The consumption in both the Goldfields and Metropolitan Supply Schemes was on the up-grade—the figures being 1,117,000,000 and 2,186,987,000 gallons respec-

tively for the twelve months. The revenue from the Goldfields Water Supply was £203,266, and from the Metropolitan Water Supply Department (without sewerage and drainage) £89,215. In addition, quantities of water were supplied from minor schemes to certain town districts: Leonora, 29,000,000, Collie, 27,000,000, and Meekatharra, 21,000,000 gallons, being the principal consumers. Eleven tanks were constructed under the Agricultural Water Supply Scheme, and five additional bores put down, the number of bores in existence being now 2,517, with a total of 124,251 feet bored. 427 of these bores have tapped *fresh* water.

The deep bores in artesian and sub-artesian strata supply a number of localities with water which otherwise would be without means of "carrying on." Thus, in the locality of Carnarvon, there have been sunk 18 bores, with a daily flow of at least 10,837,000 gallons (recorded), bringing prosperity to many portions of the district. Bores in Claremont, Leederville, Subiaco, Midland Junction, Guildford, and South Perth have been of great use in the past in supplementing the metropolitan supply from other sources.

It may be noted that there are nine bores scattered along that portion of the Trans-Australian Railway within this Stae. If by such bores water of even medium quality can be obtained, much railway expenditure is saved, and, as in all successful schemes of water exploitation and conservation, much otherwise useless land may be made available for pastoral or other settlement.

Part VIII.—LAW, CRIME, ETC., 1918-19.

This part of the Annual Statistical Register contains figures of the transactions of the Land Titles and Deeds office up to 30th June last, of Supreme Court business to 31st December, 1918, to the latter date also figures relative to the cases that came before Magistrates and Higher Courts, besides the general business of Local Courts, Wardens' Courts, Licensing Courts, and Coroners' Courts; and finally an abstract of the latest gaols and prisoners returns.

The war years were responsible for some telling changes in the Land Titles figures. Whereas in 1914-15 the Crown Leases registered numbered 4,573, in 1915-16 only 1,961 were registered; and the figures fell lower still subsequently. On the other hand, during the two years referred to Caveats increased from 1,968 to 4,278. This rush, however, seems to have fairly well covered the public need for caution, for during the following years the figures returned practically to normal. Whilst the receipts of the office, which in 1909-10 were £12,492, had risen to £21,537 in 1914-15, they fell in the subsequent years, until in 1917-18 they only amounted to £15,759. But a rapid rise was once more experienced in 1918-19, when the amount was £18,542. The figures may be taken as a fair index of what might be termed the condition of the war-pulse. It speaks well for the office administration that the expenditure has considerably decreased since 1914-15.

In the Supreme Court transactions, the war also left its mark, in the diminution of Actions under Common Law, also in that of the Bankruptcies, and the increased figures in Probate business and Intestates' Estates.

In the Crime figures also a considerable falling-off was noticeable, the total number of distinct persons brought before Courts of Justice being 13,657 in 1914, and only 9,705 in 1918. With regard to cases in which young children were brought before the courts, and convictions recorded, it is self-evident that the intention of such convictions was to compel parents to shoulder the responsibility where, say, injury to property had been done.

In the Local Courts and Wardens' Courts the same falling-off is observable as elsewhere, the Plaints in the former numbering 16,974 in 1914, and only 11,387 in 1918, whilst the cases heard in the latter numbered 117 in 1914, and in 1918 only 17, with a subsequent increase, however, to 54 in 1918. There was but little diminution in the publicans' licenses issued, viz., 539 in 1913, and 499 in 1918. On the other hand, Eating, Boarding, and Lodging-houses decreased from 191 in 1913 to 65 in 1918. Coroners' Inquests on males decreased from 218 in 1915 to 168 in 1917, but numbered 236 in 1918. The inquests on females numbered 33 in 1914 and 26 in 1917, but no less than 67 in 1918.

The numbers of prisoners in the gaols were naturally subject, during the years under review, to the same fluctuations as the general crime figures.

Part IX.—HOSPITALS, CHARITABLE INSTITUTIONS, ETC., 1918-19.

The number of patients admitted for treatment to the various Government Hospitals in the State during 1918 was 4,931, making, with 414 remaining in from the previous year, a grand total of 5,345 persons treated. Of this number 4,457 were discharged as either cured, relieved, or unrelieved; 404 died, leaving 484 patients in for further treatment during the ensuing year. The average daily number resident in Government Hospitals was 465.8, with an average residence of 31.8 days per patient. Attendances for out-door relief amounted to 4,278 distinct patients, whilst the total re-attendances numbered 10,884.

The figures for the Assisted Hospitals for the same period are as follows: 7,830 patients admitted; remaining from previous year, 345; grand total treated, 8,175. Of this number 7,072 were discharged as either cured, relieved, or unrelieved, whilst the deaths numbered 612; leaving 491 patients still in the hospitals for further treatment. Average daily number resident, 530.4, with an average residence of 36.2 days per patient. From out-door relief the distinct patients numbered 17,499, whilst the attendances amounted to 76,448.

Specially noteworthy diseases treated in Government and Assisted Hospitals respectively were: Diphtheria 494 and 480 cases, with deaths 9 and 13; Tuberculosis of the Lungs, 374 and 65 cases, deaths 138 and 15; Cancer of all kinds 62 and 210, deaths 25 and 65; Influenza 110 and 159, deaths 5 and 4; Typhoid Fever 61 and 119, deaths 6 and 4; Pneumonia and Broncho-Pneumonia 126 and 320, deaths 24 and 72; Bronchitis (acute and chronic) 99 and 134, deaths 5 and 5; Disease of the Circulatory System 137 and 328, deaths 27 and 65; Puerperal conditions 525 and 284, deaths 7 and 5.

In the Hospital for the Insane the number of patients at the close of the year was 1,123, an increase from the previous year of 57; whilst the deaths numbered 98, an increase of 12 on the previous year.

In Homes for the Destitute the number of inmates at the close of the year was: 585 in the Old Men's Home at Claremont, or an increase on the previous year of 38; whilst in the Women's Home at Fremantle the number was 78, the same as the previous year.

The number of children in Orphanages and Industrial Schools was 830, as against 789 for the previous year.

The number of Aborigines and Half-Caste Aborigines in institutions and missions was 450, as against 447.

The number of State-supported children amounted to 647, as against 660 for the previous year.

Part X.—EDUCATION, SCIENCE, AND ART, 1918-19.

The Expenditure from Consolidated Revenue for the year ended 30th June, 1919, on the various items coming under the above heading, amounted to £421,293, as compared with £412,643 for the previous year. The sum of £377,152 was directly expended in connection with the Department of Education. The grant to the University remained at £13,500, whilst the expenditure on Mining Schools decreased slightly, from £4,860 to £4,765. The Observatory, Libraries, Museum and Art Galleries accounted for £7,334, whilst Subsidies to various Institutes and Societies amounted to £5,949, this sum being a few pounds lower than for the preceding year.

The number of State schools in operation at the end of 1918 was 650, an increase of 11 on the previous year, and there were 1,653 teachers, with 48,431 scholars on the rolls (1917 figures having been 1,639 and 47,654 respectively), including those of schools closed during 1918. In private schools also there was an advance, from 11,484 to 11,619 scholars on the roll in the last school week.

In addition to general instruction, special religious teaching was given in 389 district schools, and the number of scholars in average attendance at such instruction was 26,579.

To enable promising State school scholars to continue instruction which will not be interrupted after leaving school on the score of want of means, a system of Government bursaries, scholarships, and exhibitions (which last take the successful candidates up to the University) has been instituted. In 1918, 10 exhibitions, 34 bursaries, and (including the District High School) 93 scholarships were awarded in this State. There are also continuation classes held, and household management and technical instruction for senior students given in various educational centres throughout the State. The totals of scholars attending the technical classes alone during the year were as follows: under 21, 2,352; over 21, 968—an advance of 386 and 167 respectively on the previous year. In addition, there were on the average over 200 students attending the School of Mines at Kalgoorlie.

Although work at the University has been undoubtedly hindered through war interferences, there were 221 matriculated and 49 non-matriculated students who attended lectures during 1918, and there were 635 certificates granted by the University authorities to competitors at examinations conducted by them.

The visitors at the Public Library and Museum during 1918-19 numbered 186,985—a slight decrease from the previous year. On the other hand, there was an increase in the number of institutes receiving books on loan and the number of volumes in the travelling libraries.

The various scientific societies and boards, though hampered in many instances by want of funds, have struggled on, and in peace time we shall no doubt reap the benefit of their persistent efforts to improve the culture of the community.

In connection with the literary institutes, agricultural halls, etc., throughout the State, the statistics which have been compiled show a gratifying increase in receipts; £19,508 for 1918, and £15,535 for 1917, which is no doubt, to a certain extent, connected with the increased use of facilities for social intercourse consequent on the recent return to this State of so many soldiers.

Part XI.—LOCAL GOVERNMENT, 1918.

MUNICIPALITIES.

The merging, during 1917, of Victoria Park in the Perth Municipality, and the dissolution of the Kanowna and Leonora Councils in the same year, are responsible for a decrease of three municipalities in the return under consideration, whilst during 1918 also the Norseman and Southern Cross Councils were dissolved. In spite, however, of this reduction in the number of towns classed as municipalities, the total number of dwelling-houses in their aggregate is 33,789 as against 33,733 for the previous year; due to a considerable amount of building in the remaining towns, and especially in the metropolis. The total recorded municipal population is 148,431, but the correct up-to-date figure would no doubt be considerably higher, as the Perth Municipality has no later figures available than those of the 1911 census.

The capital value of rateable property, including improvements (£26,077,875), shows an increase on the previous year of £1,144,449, whereas the annual value, £1,509,736, shows a decrease of £2,907.

The total revenue, £548,177, is a decrease on the previous year of £3,174, and the expenditure, £538,487, a decrease of £3,460.

The amount of Loans current on 31st October, 1918, £1,753,316, is a reduction on the previous year of £35,851, whilst the accrued Sinking Funds for the redemption of Loans, £308,559, have increased by £14,073.

The total length of Roads and Streets in existence on 31st October, 1918 (1,119 miles 60 chains), is 17 miles 75 chains less than in the previous year; this decrease is accounted for by particulars of some of the municipalities now defunct being included in the figures for 1917.

ROAD DISTRICTS.

The number of Boards is one less than the previous year, but the total area is increased by two miles, which is owing to the inclusion of the area of two defunct municipalities. The area of all municipalities and Road Districts combined is equal to the total area of the State.

Some of the Boards rate on the annual valuation, some on the unimproved capital valuation, and some partly on both, so that no really satisfactory comparison of the figures can be made with previous years.

The total revenue, £195,026, is less than that of the previous year by £4,169, whilst the expenditure, £206,165, has been increased by £16,988.

The amount of Loans current on 30th June, 1918 (£107,155), is an increase on the previous year of £6,085, and the accrued Sinking Funds for the redemption of Loans, £8,213, also show an increase, viz., £1,828.

The total length of cleared, formed and metalled roads (31,018 miles) is an increase on the previous year of 1,076 miles; and the numbers of bridges (906), culverts (7,817), constructed fords (1,505), and wells, dams, and tanks (1,072) show increases respectively of 67, 384, 164, and 85.

LOCAL BOARDS OF HEALTH.

There were 26 municipal and 89 other Boards of Health in existence in 1917-18, eight of the latter being inactive during the year. The combined revenue (£97,741) shows a decrease on the previous year of £1,714; and the expenditure, £99,240, an increase of £354.

FIRE BRIGADES.

The number of Fire Brigades (42) was one less than the previous year, whilst the number of permanent firemen on the roll (109) was 28 less, and the number of volunteer firemen on the roll (490) was 91 more.

The actual fires attended (212) were ten less than in the previous year, whilst chimney and grass fires attended increased by 67.

The Revenue, £27,247, was less than the previous year by £4,996, and the expenditure, £31,042, was £1,287 less.

Part XII.—MISCELLANEOUS, 1918-19.

The first subject dealt with in the few pages of this small publication is that of Parliamentary Rolls and Elections, giving the figures for the State Government, as well as for that of the Commonwealth in so far as the State is concerned. In the return relative to Senate Elections and Referenda, it is worthy of note that in 1903, when the electors enrolled numbered 116,942, the number of ballot papers issued was only 33,148, whilst in 1917, when the enrolment was 162,347, the ballot papers numbered no less than 135,593.

‘Workers’ Homes’ figures are given in a combined return for the six years ended 30th June, 1919. The total cost of the approved applications during that period was £604,314.

Newspaper publications in Western Australia in 1918 numbered 84, of which five were dailies, 45 weeklies, and 21 monthlies.

The State Labour Bureau's returns show that during the year ended 30th June, 1919, a total of 4,447 men and 1,313 women applied for employment, and for 3,344 of the former engagements were found, whilst 2,062 engagements were provided for the aggregate of the latter, including 1,504 engagements as day-workers, viz., laundresses and charwomen. The engagements of men included 1,500 for agricultural labour.

A statement of the total "West Australian War Funds" collected to 30th June, 1919, amounting to £1,148,156, concludes this Part.

STATISTICAL VIEW OF NINETY YEARS' PROGRESS IN WESTERN AUSTRALIA, 1829 TO 1918-19.

The subjects represented in this publication are in the main those constituting the more important departments of statistical compilation, and in these a selection has been made of what may be termed leading figures. They are: Population, Migration, Vital Statistics, Posts and Telegraphs, Consolidated Revenue and Expenditure therefrom, Loan Expenditure, Public Debt, Lands, Agriculture and Live Stock, Gold and Coal Production, Railways, State Savings Bank, Shipping, Totals of Imports and Exports, and Exports of Wool, Raw Gold, and other articles the produce of the State.

The figures themselves have already been commented on in the other parts of the Statistical Register; but a new addition has been made this year of figures which it was thought would be useful, viz., the details of Consolidated Revenue under the headings Land, Land Tax, Mining, and Timber, and of corresponding Expenditure under the headings Land and Survey, Agricultural Bank and Industries Assistance, Agriculture Generally, Mining, and Woods and Forests.

The combined figures are intended to give a clear and rapid survey of the history of the State, from its foundation in 1829 to our days, as presented by the growth of the numbers expressing its progress.

PART I.—POPULATION AND VITAL STATISTICS

CONTENTS.

I.—POPULATION.

No.		Page
1.	Population of Western Australia at the date of each Census	3
2.	Estimated and Mean Population for each Month and Quarter of 1918	3
3.	Estimated and Mean Population, 1909 to 1918	3

II.—IMMIGRATION AND EMIGRATION.

4.	Immigrants and Emigrants during each month of 1918, distinguishing between Adults and Children	4
5.	Immigrants and Emigrants during the year 1918, classified according to Countries from which arrived or to which bound	4
6.	Immigrants and Emigrants, 1909 to 1918	4

III.—VITAL STATISTICS.

(a.) BIRTHS.

7.	Births registered during each month and Quarter of 1918	5
8.	Births registered, 1909 to 1918	5
9.	Births registered in Perth and Suburbs, 1909 to 1918	5
10.	Births, also Illegitimate Births, in Divisions, during 1918	6
11.	Legitimate First Births registered, 1918, classified according to the ages of Mothers, and periods elapsing since date of Marriage	6

(b.) DEATHS.

12.	Deaths registered during each Month and Quarter of 1918	6
13.	Deaths registered, 1909 to 1918	7
14.	Deaths registered in Perth and Suburbs, 1909 to 1918	7
15.	Deaths at various Ages, 1909 to 1918	7
16.	Deaths registered in Perth and Suburbs during 1918, classified according to Sex, Age, and Cause of Death	8
17.	Deaths during each month of 1918, classified according to Sex and Age at Death	8
18.	Deaths registered during 1918, classified according to Birth-place, Sex, and Age at Death	9
19.	Deaths registered during 1918, classified according to Sex, Cause of Death, and Division	9
20.	Deaths registered during 1918, classified according to Sex and Cause of Death	10-11
21.	Deaths registered during 1918, classified according to Sex, Age, and Cause of Death	11-12
22.	Deaths from Cancer during 1918, classified according to Sex, Age, Type of Disease, and part affected	13
23.	Deaths from all forms of Tubercular Disease during 1918, classified according to Sex, Age at Death, and length of Residence in Western Australia	13
24.	Deaths of Infants under two years, classified according to Classes of Disease and Age Groups	14
25.	Deaths from Phthisis during 1918, classified according to Sex and Age, and occupation or status	14

(c.) MARRIAGES.

26.	Marriages registered during each Month and Quarter of 1918	14
27.	Marriages registered, 1909 to 1918	15
28.	Marriages, 1909 to 1918, distinguishing Marriages celebrated by Ministers and by Registrars	15
29.	Ministers registered for the Celebration of Marriages in Western Australia, 1910 to 1919	15

IV.—VITAL STATISTICS OF PRINCIPAL TOWNS.

30.	Vital Statistics of the Principal Towns for the Years 1909 to 1918	16
-----	----------------------------------------------------------------------------	----

V.—NATURALISATION.

31.	Certificates of Naturalisation issued to Residents of Western Australia since 1871, the Birthplaces of the recipients being distinguished	16
-----	---------------------------------------------------------------------------------------------------------------------------------------------------	----

August	159,784	152,064	311,848	159,545	151,966	311,511
September	160,239	152,187	312,426	160,012	152,125	312,137
Quarter ended 30th September	160,239	152,187	312,426	159,826	151,948	311,774
October	160,105	152,253	312,358	160,172	152,220	312,392
November	160,743	152,255	312,998	160,424	152,254	312,678
December	161,464	151,983	313,447	161,104	152,119	313,223
Quarter ended 31st December	161,464	151,983	313,447	160,852	152,085	312,937
Year ended 31st December, 1918	161,464	151,983	313,447	159,515	151,577	311,092

* The mean population for the year is obtained as follows:—To the population at the end of the preceding year add four times the population on the 31st March of the year under review, twice the population on 30th June, four times the population on the 30th September, and the population on the 31st December, and divide the total by 12, which is the method now in use throughout the Commonwealth of Australia. Each quarterly mean is arrived at by adding together the number of the population at the beginning and at the end of the quarter and dividing the sum so obtained by two.

No. 3.—Estimated and Mean Population, 1909 to 1918.

Year	Estimated Population			Mean Population

* Owing to the Commonwealth Government having discontinued the distinction between the State production and that of the other States of the Commonwealth, it is now impossible to show the oversea destination of locally produced exports in this table, as shown previous to the year 1911. In the case of the Interstate Transfers, however, the value of local produce exported to each State of the Commonwealth is shown in the summary of Table No. 6, page 82.

** Merchandise of Australian Origin previously exported and now returned to this State.

No. 2.—Value of Imports and Exports of the State of Western Australia, from 1909 to the 30th June, 1918, showing the value per head of mean population, estimated on the basis of the 1911 census.

No. 5.—IMPORTS into the State of Western Australia during the Year ended 30th June, 1918.

Duties on British and Foreign Imports are collected under the provisions of the Commonwealth " Customs Tariff Act, 1902 " (Edwd. VII., No. 14).
 NOTE A.—On all British and Foreign Imports 10 per cent. has been added to the fair market value of the goods at port of shipment.
 NOTE B.—The " Quantity " columns are left blank in all cases where the quantities declared are packages of an irregular or unrecognised size, and consequently do not indicate the number, capacity, or weight of articles imported.

Land Settlement, Agriculture,
Live Stock, & Meteorological Statistics.

PERTH:

BY AUTHORITY: FRED. WM. SIMPSON, GOVERNMENT PRINTER.

1919.

PART V.—LAND SETTLEMENT, AGRICULTURE, LIVE STOCK, AND METEOROLOGICAL STATISTICS.

CONTENTS.

Map showing Statistical Districts, Sub-Districts, and Areas (facing page 2).

I.—LAND SETTLEMENT.

No	Page
1. Occupation of Land on 31st December, 1918	3
2. Land absolutely and conditionally alienated during 1918	3
3. Transactions under Agricultural Lands Purchase Act to 31st December, 1918	4
4. Number and Acreage of Holdings, Season 1918-1919, in Acreage Series	4
5. Private Lands, and Crown Lands under Lease or License, 1918-1919, Cropping, etc.	5
6. Permanent Improvements on Holdings, Season 1918-1919	6
7. Cropping, Clearing, etc., 1909-1910 to 1918-1919	7

II.—AGRICULTURE.

8. Acreage under various kinds of Crops, 1909-1910 to 1918-1919	7
9. Total Yield and average yield per acre of Principal Crops, 1909-1910 to 1918-1919	7
10. Wheat and Oats in each Statistical Area, 1918-1919	8-11
11. Barley and other Cereals in each Statistical District, 1918-1919	12
12. Green Food, Straw, Nurseries, Kitchen and Market Gardens, 1918-1919	13
13. Hay in each Statistical Area, 1918-1919	14-18
14. Potatoes, Root Crops, and other Crops, 1918-1919	19
15. Fruit Trees, Grape Vines, and other Fruit, 1918-1919	20-23
16. Vines and Fruit Trees, 1914-15 to 1918-1919	24
17. Wine and Dried Fruits from 1918-1919 Season's Grape Crop	24
18. Fruit Trees and Plants imported, 1918-1919	24
19. Fresh Fruits imported, 1918-1919	24
20. Seed Wheat used, Area under Irrigation, and Manure used, 1909 to 1918	25
21. Seed Wheat and Manure used, 1918	25
22. Irrigation during the year 1918	26
23. Dairying and Poultry Farming, 1918	27
24. Ensilage, Bee Farming, and Employment of Labour, 1918	28-29
25. Dairying, Poultry and Bee Farming, and Ensilage, 1909 to 1918	28
26. Agricultural and Pastoral Labour, 1909 to 1918	29
27. Monthly Wholesale Prices for each month, 1918	30-32
28. Agricultural Produce imported, 1909 to 30th June, 1919	33-34
29. Rates of Wages for Agricultural and Pastoral Labour, 1918	34
30. Improvements effected, under "Agricultural Bank Act, 1894," 1910 to 1919	34
31. Experiment and other State Farms, 1918	35

III.—LIVE STOCK.

32. Live Stock, 1909 to 1918	35
33. Live Stock in each Statistical Area, 31st December, 1918	36-47
34. Loss of Stock, Slaughtering, Lambing, Calving, and Foaling, 1918	48
35. Lambing, Calving, and Foaling, 1909 to 1918	48
36. Slaughtering and loss of Live Stock, 1909 to 1918	48
37. Imports and Exports of Live Stock, 1909 to 1918-19	48
38. Sheep Flocks, number contained therein, and Acreage of Holdings, 1918	49
39. Wool Clip for the Season 1918 and previous years	49

IV.—METEOROLOGICAL STATISTICS.

40. Meteorological Observations at Perth Observatory, 1918	50
41. Perth: Barometer and Temperature, Monthly Mean Readings, 1914 to 1918	51
42. Perth: Rainfall, Monthly Mean Readings, 1876 to 1918	52
43. Results of Observations at various Stations, 1914	53-54
44. Rainfall during 1918—with averages for previous years	55-57

PART V.—LAND SETTLEMENT, AGRICULTURE, LIVE STOCK, AND METEOROLOGICAL STATISTICS.

I.—LAND SETTLEMENT.

No. 1.—Occupation of Land on the 31st December, 1918.

Particulars.	Area.	Area.
I.—ABSOLUTELY ALIENATED—	acres.	acres.
Area sold by Public Auction or other forms of direct sale, or otherwise alienated, up to 31st December, 1918	...	8,516,208
II.—IN PROCESS OF ALIENATION ON THE 31ST DECEMBER, 1918—		
Midland Railway Concessions in process of alienation	54,800	
Free Homestead Farms	1,267,723	
Conditional Purchases	7,508,395	
Selections from late W.A. Land Company	2,290	
Selections under the Agricultural Lands Purchase Act	261,319	
Special Occupation Leases and Licenses	1,298	
Homestead of Grazing Leases	4,094,048	
Poison Land Leases and Licenses	43,275	
Village Allotments	31	
Working Men's Blocks	476	
		13,228,655
Total Area alienated or in process of alienation on 31st December, 1918	...	21,744,863
III.—LEASES OR LICENSES IN FORCE ON 31ST DECEMBER, 1918—		
Issued by Lands Department:		
Pastoral Leases	218,445,819	
Special Leases	41,960	
Leases of Reserves	1,706,199	
Residential Lots	273	
Issued by Mines Department:		
Gold Mining Leases	12,475	
Mineral Leases *	38,414	
Miners' Homestead Leases	39,421	
Timber Leases and Licenses	627,160	
Timber Permits	803,322	
		221,714,043
IV.—AREA NEITHER ALIENATED, IN PROCESS OF ALIENATION, NOR LEASED...	...	381,128,994
Total Area of Western Australia	...	624,588,800

* Inclusive of 68 acres on "Private Property."

No. 2.—Land absolutely and conditionally Alienated during the year ended 31st December, 1918.

Particulars.	No.	Acres.
I.—ABSOLUTELY ALIENATED—		
<i>Auction Sales:</i>		
Town and Suburban Lots	206	746
<i>Selections for which the issue of Crown Grants was approved, the prescribed conditions having been complied with:</i>		
Free Homestead Farms	243	37,515
Conditional Purchases	598	115,256
Poison Land Leases	2	3,977
Village Allotments
Total	843	156,748
Total Area absolutely alienated	1,049	157,494
II.—CONDITIONALLY ALIENATED (Applications approved)—		
<i>Conditional Purchases:</i>		
By deferred payments, with residence	244	109,937
By deferred payments, without residence	69	46,402
By direct payments, without residence	41	350
Total Conditional Purchases	354	156,689
Free Homestead Farms	152	23,458
Selections under the Agricultural Lands Purchase Act	26	19,593
Homestead and Grazing Leases	483	357,364
Total Area conditionally alienated	1,015	557,604
Total area absolutely and conditionally alienated	2,064	715,098

No. 3.—Transactions under Agricultural Lands Purchase Act to 31st December, 1918.

Name of Estates Purchased.	Area originally available for Selection.	Total Area occupied on 31st Dec., 1918.	Balance of Area available for Selection on the 31st Dec., 1918.	Name of Estates Purchased. NOTES.—In addition to the above figures the following particulars were also obtained:—Acreage of Planted Forest Trees, 1,676 acres; Lands farmed on the "Share System", For Cultivation, 21,577 acres; For Draining, 573 acres. * The reason why Returns relative to certain alienated and leased lands do not obtained under the Statistics Act is mainly to be found in the fact that it has proved impracticable for the Statistical Collectors to enforce the provisions of the Act in connection with lands which remain *entirely unimproved or unstocked*, and also in a lesser degree in the fact that small holders under one acre in extent are exempted from supplying Returns. The Statistical returns are, however, collected from all lands over one acre in extent on which improvements have been effected, and upon which Agricultural or Pastoral pursuits are carried on, and, therefore, comprise all lands the obtaining of Returns from which would serve any practical purpose.

PART V.—LAND SETTLEMENT, AGRICULTURE, LIVE STOCK, AND METEOROLOGICAL STATISTICS.

No. 10.—Acreage and Production of Wheat and Oats in each Statistical District, Sub-District, and Area for the Season ended 28th February, 1919.

NOTES.—1. The rectangular areas adopted, which are shown on the map attached to this part of the Statistical Register, are comprised within the sheet lines of the Standard Plans of the Survey Department. Being permanently fixed they are units that can be readily sub-divided and re-grouped at any future time into new districts and sub-districts without impairing their use for comparative purposes. Except where the areas are broken by the sea coast or other causes, the area numbers here printed in black type represent areas of 8.4377 square miles each, whilst those printed in ordinary type represent areas of 937½ square miles each, and the sub-area numbers marked A, B, C, or D, as the case may be, represent areas of 234½ square miles each. 2. Areas in parentheses and marked with an asterisk (*) are those for which the returns, if any, have been included in those of an adjacent area where the homestead is situated. In most instances, however, they are unoccupied as regards the headings shown. Areas marked (†) are portions of areas only.

NOTE.—This table has been compiled with the special object of showing the values of the importations into Western Australia in the past decade of such products of the soil and of live stock as might in the future be produced within the State, but are at present introduced to supply the deficiency in local production. It serves, in some respects, as a basis for calculations as to the market reasonably to be expected therein for home-grown products.

No. 29.—Rates of Wages paid for Agricultural and Pastoral Labour, during the year 1918.

Occupation.	South-Western Agricultural and Pastoral Districts.			Northern Pastoral Districts.

PART VI.—INDUSTRIAL ESTABLISHMENTS (Exclusive of Mines).

NOTE.—The Industrial Establishments here dealt with are those which, excluding Mines, come under the definition, adopted for statistical purposes, of Industrial Establishments, each being a "factory, workshop, or mill, where either four persons or more have been employed at any one time during the year, or where an engine driven by steam, gas, oil, or electricity has been used, whatever be the number of persons employed."

No. 1.—Classified numbers of Industrial Establishments (exclusive of Mines) from which Returns were received under the provisions of "The Statistics Act, 1907," and numbers of Males and Females employed, for each of the years 1913, 1917, and 1918.

* Including working proprietors, managers, and overseers, but not persons employed in their own homes working for establishments. † Particulars combined in compliance with Section 18 of the "Statistics Act, 1907." ‡ The establishments contained in this class are those which come under the definition of Industrial Establishments, but which were excluded from the scheme of classification given in the foregoing 19 classes and adopted by the 1902 Conference of Statisticians held at Hobart. (a.) Including dental appliances, etc., for the year 1913. (b.) Including 77 firewood yards employing 179 males and 2 females, in previous years classified as Industrial Establishments. (c.) Exclusive of Monumental Works (transferred to Class III.), Winemaking (transferred to Class VI.), and Firewood yards.

Church of Christ	19	260	704	...
Salvation Army	21	460	539	...
Total	†	11,484	26,579	21

NOTE.—Children of different denominations attending religious teaching under a joint instructor are recorded as if each denomination formed a separate class.

* The attendance by a clergyman of these denominations is credited to the denomination whose minister he is, although he may be representing the others also in the same visit. † Special religious instruction has been given in 389 distinct schools.

B.—GENERAL RELIGIOUS INSTRUCTION.

This instruction, which excludes dogmatic or polemical theology, is given in all schools. The number of children withdrawn from it, in accordance with the written request of parents, amounted to 2,082, made up as follows:—Roman Catholics, 1,875; Hebrew, 120; Seventh Day Adventists, 34; No Denomination, 13; Church of England, 17; Methodist, 8; Mohammedan, 5; others, 10.

No. 8.—Compulsion and Exemption: Cases of Non-attendance reported to and dealt with by the Department or Magistrates, 1909, and 1914 to 1918.

* On 31st December. a From the first settlement of the colony up to the year 1837 there were no Blue Books issued, and the figures relating to arrivals and departures, shipping, imports and exports were taken either from the reports of the Harbour Master at Fremantle or from the Perth newspapers of that period. From 1838 to 1859, inclusive, the Blue Books give only the excess of arrivals over departures, or vice versa. b No records obtainable. c At end of year. d Departmental figures. e On 30th June.

Public Revenue, Expenditure, and Debt.

Year.	Consolidated Revenue.		Expenditure from Consolidated Revenue.	Expenditure from Loan Funds on—				Public Debt.
