NOTES ON SOME OF THE MORE IMPORTANT FIGURES CONTAINED IN THIS VOLUME.

Following the usual custom, an abstract of particulars in each part is presented with this issue. From the records published therein it will be seen from the latest figures given that, with few exceptions, steady progress has again marked the operations of this State.

Owing to an alteration of dates for some of the parts, following on the Statistical Conference, it has been found possible to include the latest published figures of Part IV., "Interchange"; consequently issues of that part appear for two years.

I gratefully acknowledge the assistance of all Government Officers and others who have kindly supplied figures for the respective branches or business concerns under their supervision.

S. BENNETT,
Government Statistician.

PART I.—POPULATION AND VITAL STATISTICS, 1925.

On the 31st December, 1924, the population of the State consisted of 195,341 males, 168,783 females, making a total of 364,124 persons, whilst the figures on 31st December, 1925, were 199,596 males, 172,587 females, or a total of 372,183 persons, the gain for the year being 4,255 males, 3,804 females—total persons 8,059. Of this increase the gain in births over deaths was 2,053 males and 2,817 females, and by migration 2,202 males and 987 females.

The arrivals during the year 1925 numbered 20,358 males, 12,562 females, totalling 32,920 persons, whilst the departures were those of 18,156 males, 11,575 females—totalling 29,731.

Comparing the arrivals and departures by sea to and from the Eastern States, the arrivals numbered 7,471 persons, whilst the departures were 8,798, showing a loss of 1,327 persons. The returns from overland sources also show a loss of 1,432 persons, the figures being—arrivals 15,472 and departures 16,904.

From oversea sources the arrivals were 9,977 and departures 3,113, showing a gain by oversea migration of 6,864 persons.

The allowance made for unrecorded departures numbered 916, comprised of 598 males and 318 females.

The births for the year numbered 4,210 males, 3,975 females (exclusive of still-born and legitimated births), showing a decrease of 5 males and 111 females on the previous year's figures. The birth rate was 22.2 per 1,000 as against 23.1 for 1924.

Illegitimate births numbered 335, showing an increase of eight on the 1924 figures.

The deaths registered were those of 2,157 males and 1,158 females, or a total of 3,315, showing an increase of 118 male deaths and a decrease of 66 in the female deaths, the death rate being 9.0 as against 9.1 for 1924.

The infantile death rate of 56.8 reveals a considerable increase on the 1924 figures (49.9), being nearly seven per thousand births, and is the highest rate since 1921.

The principal causes of death for the year are as follows:—Cancer 299, phthisis 259, other tubercular 29, broncho-pneumonia and pneumonia 288, early infancy 190, senility 229, diarrhœa and enteritis 169, cerebral hæmorrhage and apoplexy 126, acute and chronic nephritis 130, influenza 38, typhoid fever 14, and diphtheria 6.

The marriages for 1925 numbered 2,746, an increase on the 1924 figures of 150, the rate being 7.5 and 7.2 respectively.

Naturalisations taken out numbered 171, the principal ones being those of 63 Italians, 29 Jugo-Slavs, 17 Greeks, and 13 Germans.

PART II.—PUBLIC FINANCE, 1925-26.

This part gives in detail for ten consecutive financial years ended 30th June, 1926, particulars relative to public debt, sinking funds, loan expenditure, and revenue and expenditure, also receipts and expenditure of Government Property Sales Fund for the financial year, together with totals at the beginning and end of period and the analysis of income taxation assessments for 1924-25.

The public debt on 30th June, 1926, amounted to £70,010,921, and the accrued sinking funds on 31st March, 1926, to £10,654,493. The nominal interest payable on the public debt averages 4.50 per cent., and the average rate of interest realised on the sinking fund was 3.84 per cent. The total loan expenditure on public works, etc., to 30th June, 1926, was £60,973,713, of which £4,078,686 was spent during 1925-26.

The Consolidated Revenue for the financial year 1925-26 amounted to £8,808,116 and the expenditure therefrom to £8,907,309. The income taxable during 1924-25 was £19,038,940 and the tax imposed totalled £456,220, or £11 13s. 1d. per taxpayer.

PART III.—ACCUMULATION, 1925-26.

This part deals with banking, life and general insurance, friendly, building, and co-operative societies, and industrial and trade unions.

Cheque-paying Banks.—On the 30th June, 1926, twelve of these banks, or one more than in 1925, with 245 branches including head offices, were operating in this State, the Australian Bank of Commerce having commenced business in January, 1926. The rates of exchange on drafts and bills drawn during the year on the other Commonwealth States, and New Zealand differ slightly from those of the previous year, but those drawn on London and at 60 days' sight on London showed considerable fluctuations.

The rates of discount on bills, interest on overdrafts, and interest on fixed deposits did not vary from those of the previous year, with the exception of interest on fixed deposits for three months which showed a slight reduction. The average liabilities on 30th June, 1926, amounted to £15,249,617, of which £14,443,658 was due to depositors, and the average assets to £19,958,993.

Savings Banks.—On the 30th June, 1926, the number of accounts remaining open in the State Savings Bank was 167,063, which represented an amount due to depositors of £6,346,713, or £37.990 per account. The figures for the School Savings Bank were 47,308, £81,282 and £1,718 respectively, and for the Commonwealth Savings Bank 77,982, £2,541,829 and £32,595 respectively. The total deposits in all Savings Banks in the State on the above date amounted to £8,969,824, which reveals an increase on the previous year of £665,890.

Life Assurance.—The number of companies doing business in this State during 1925 was 15, which is the same as for the previous year. Their assets in this State amounted to £6,029,300. New ordinary Westralian business was transacted during the year to the extent of 5,942 assurance policies for £2,328,819, with single and annual premiums amounting to £77,565; 974 endowment policies for £238,059 with single and annual premiums amounting to £9,341, and one annuity for £79 per annum. The increases for existing local policies over the previous year were as follows:—Assurance, 2,093 policies, and sum assured £1,086,982; endowments, 344 policies and £127,514; annuities, however, reveal a falling off of £127 per annum.

Six of the companies were also doing industrial business in the State during the year, and the new transactions were for assurances 15,716 policies for £736,576, with annual premiums amounting to £46,427, and endowments 1,978 policies for £111,673, with annual premiums amounting to £7,020. This business also discloses increases over that of the previous year in assurances of 3,921 policies and sum assured £222,124, and endowments of 320 policies for £3,359.

General Insurance.—The Western Australian transactions of companies operating in this State reveal a total revenue of £853,649, and expenditure of £719,255, which figures are in excess of those for the previous year by £76,444 and £129,138 respectively. £361,979 was paid out in losses as compared with £271,565 in 1924.

Friendly, Building, Co-operative and Provident Societies.—Fourteen friendly societies were in existence in the State on 30th June, 1926, with 339 branches and 3,278 benefit members. The revenue for the year amounted to £124,307 and the expenditure to £109,034, of which £44,912 was paid out for sickness, medical attendance and medicine. The funds at the end of the year totalled £368,944, of which £358,946 was invested. There were in addition 24 specially authorised societies, the total revenue of which amounted to £16,084, and expenditure to £16,968. The funds invested at the end of the year totalled £14,384, and those uninvested £705. On the above date there were 15 building societies with a membership of 10,280 persons holding 30,060 shares. Deposits received totalled £184,299 and loans were granted amounting to £155,785, whilst repayments were made to the extent of £111,827. The assets amounted to £548,455, of which £516,693 consisted of mortgages. Twelve co-operative and provident societies were also in operation, with 2,705 members. The total sales during the year amounted to £170,697, and other income £2,567. The assets at the end of the year were £68,660, of which £41,368 was invested in mortgages and land and house property.

Industrial and Trade Unions.—These numbered on the 31st December, 1925, 172, with 43,043 members. The total income during the year was £85,677 and expenditure £78,313.

PART IV.—INTERCHANGE, 1924-25 AND 1925-26.

This part deals with the total trade of the State (Oversea and Interstate), Customs and Excise, Transport and Communication, also operations of the Fremantle Harbour Trust and Bunbury Harbour Board.

In the tables of imports and exports the commodities have been compiled according to a statistical classification divided into 21 classes, with 1,448 separate items of import and 502 export items. An alphabetical index of imports is given in Table 5, and exports in Table 6. Imports are distinguished according to countries of origin.

The following figures show the variations of the past three years' transactions:—

1924-25.

Imports.—The percentage of goods of British origin was 78 per cent. of the total imports, as against 84 per cent. in 1922/23 and 80 per cent. in 1923/24.

The value of goods imported from the other States of the Commonwealth, of Australian origin, increased by £640,342 as compared with 1922-23, and £356,842 as compared with 1923-24. The United Kingdom supplied us with goods to the extent of £4,204,487, being £100,621 less than in 1922-23 and £466,894 more than in 1923-24. Other British possessions contributed £1,202,069, an advance of £396,965 over 1922-23 and £170,150 over 1923-24. The purchases from foreign countries increased considerably during the year. £3,561,550 was paid for goods of foreign manufacture, an increase of £1,359,670 over 1922-23 and £736,004 more than in 1924-25.

The following table shows the total imports from the more important countries of origin for the years 1920-21 and 1924-25:—

Grand Total of Imports	14,839,241	16,074,035

In comparison with the 1920-21 figures the total imports for 1924-25 show a decided increase. Some of the increases according to country of origin are as follows:—United Kingdom £792,603; Ceylon £112,330; India £141,690; Germany £114,635; France £89,039; Italy £47,179; and United States of America £611,720. The following decreases will be observed:—Commonwealth States £513,774; British Malaya £130,061; South African Union £74,243; Belgium £35,421; and Sweden £60,803.

Exports.—The figures for the past three years are as follows:—

Value of Total Exports per head of Mean Population	32·288	39·931	40·252

The exports were principally Western Australian primary products. It is interesting to note that while we sent to British possessions goods to the value of £9,321,494 in 1924-25 we purchased from the same source goods to the value of £12,512,485. Foreign countries purchased our primary products to the value of £4,849,692 during 1924-25 and sold us goods to the value of £3,561,550. The export of merchandise, principally of Western Australian origin, shows a very substantial increase during the past three years, the figures being:—1922-23, £8,886,333; 1923-24, £12,201,525; and 1924-25, £14,148,408.

Customs and Excise.—In addition to the gross and net collections particulars are given of the stocks of principal articles in bond, also excise duties and collections on spirits, beer and tobacco.

Transport and Communication.—The following tables are introduced into the publication for the first time:—

1925-26.

Imports.—The percentage of goods of British origin was 78 per cent. of the total imports as against 80 per cent. in 1923-24 and 78 per cent. in 1924-25.

The value of goods of Australian origin imported from the other States of the Commonwealth increased by £895,875 as compared with 1923-24, and by £539,033 as compared with 1924-25.

Great Britain supplied us with goods to the extent of £3,915,891, being £178,298 more than in 1923-24 and £288,596 less than in 1924-25.

Other British possessions contributed £1,320,923, an advance of £290,234 over 1923-24, and of £121,384 over 1924-25.

During the year £3,580,796 was paid for goods of foreign manufacture, an increase of £754,020 over 1923-24, and of £16,716 over 1924-25.

The following table shows the total imports from the more important countries of origin for the years 1923-24 and 1925-26 respectively:—

The exports were principally Western Australian primary products. In 1925-26 we sent to British possessions outside the Commonwealth goods to the value of £8,489,671, and we purchased from the same source goods to the value of £5,236,814. Foreign countries purchased our products to the value of £4,121,960 during 1925-26 and sold us goods to the value of £3,580,796.

The export of merchandise, principally of Western Australian origin, shows a substantial increase over 1923-24, the figures being:—1923-24, £12,201,525; and 1925-26, £13,728,727.

Customs and Excise.—In addition to the gross and net collections covering a period of ten years, the amounts collected at each port and on each item for the year are shown, also the Excise duties collected on spirits, beer and tobacco, followed by the stocks of principal articles in bond as at 30th June, 1926.

Transport and Communication—

Shipping.—Amongst the tables dealing with shipping, Table 25 showing the total activity at each port, including intra-State movements, is of special interest.

Land Transport.—Tables 35-48 deal with Government, municipal, and privately owned railways, tramways and motor omnibuses, and serve to show what a large part transport plays in the development of our State.

The sharp rise in motor passenger traffic during the year ended 30th June, 1926, is clearly set forth in Table 45, also the phenomenal increase in motor vehicles of all kinds registered in the State.

Posts, Telegraphs, Etc.—Tables 49-60 deal with all the varied activities controlled by the Deputy Postmaster General's Department, as well as with the radio traffic handled at each station.

The transactions of the Fremantle Harbour Trust and the Bunbury Harbour Board will be found on page 121.

PART V.—LAND SETTLEMENT, AGRICULTURE, LIVE STOCK, AND METEOROLOGICAL STATISTICS, 1925-26.

Land Settlement.—On the 30th June, 1926, the area of land absolutely alienated was 11,688,569 acres, and that in process of alienation 18,588,989, whilst 230,562,767 was then held under lease or license. During the year 1925-26 3,665 lots, totalling 704,786 acres, were absolutely alienated and applications were approved for 2,579 lots containing 2,022,007 acres under conditional alienation. Of the 484,300 acres of land held under the Agricultural Lands Purchase Act on 30th June, 1926, 387,312 acres were selected, and of the 258,190 acres purchased for soldier settlement 252,132 acres selected.

The holdings of alienated lands and lands in process of alienation from which returns were collected during the year numbered 13,977, covering 21,303,481 acres, and from Crown lands held under lease or license 864 for an area of 187,889,212 acres.

The total area of land cropped, cleared and being prepared for cropping during the season 1925-26 amounted to 9,757,189 acres, which was in excess of the previous season by 657,256 acres. The estimated values of improvements on holdings were for buildings for sheltering stock, produce and machinery £2,313,286, and implements and machinery £5,238,681, whilst the numbers of wells and dams thereon were 26,145 and 18,441 respectively.

Agriculture.—This industry was not so prolific in 1925-26 as that of the previous season. The value of production, based on metropolitan sales, totalled £9,749,016, which was a decrease on the 1924-25 value of £1,430,493. This method of making the valuation, which has been shown for comparison, has now been altered and the new manner of arriving at the value is based on what is called the "farm value," i.e., the amount that would be available after deducting cost of containers, marketing, seed and other expenses, other than labour. The value for 1925-26 thus obtained amounts to £6,584,646.

The acreage under crop (2,932,110 acres) is greater by 221,254 acres than for the previous season; the production, however, of all cereal and root crops, with the exception of malting barley, peas, beans, onions and mangles, which are slightly greater, show smaller yields than in 1924-25.

The production of citrus fruits shows a falling off on that for the previous year, which is also the case with regard to apples, figs and quinces. The season was, however, more favourable for stone fruits and pears, which in all cases show increases. The production of grapes, under all headings, reveals an increase on the results of the previous year, the total yield being 206,750 cwts., or 42,335 cwts. more than in 1925. Although the drying grapes accounted for 37,000 cwts. of the increase shown above the quantity of fruit dried from the season's crop (20,540 cwts.) is a slight falling off on that of the previous year. The production of wine (238,762 gallons), however, reveals an increase of 15,001 gallons.

The quantity of seed wheat sown in 1925 was 2,328,315 bushels, and like that of the past nine years averaged one bushel per acre. The amount of natural manure used was 65,695 loads on 7,312 acres or an average of nine loads per acre, and artificial manures 2,561,837 cwts. on 3,008,335 acres, or an average of 0.9 cwts. per acre.

The area of land irrigated during the season was 3,551 acres, which was 436 acres more than in 1924-25, and the principal crops treated were lucerne, green feed, maize, fruit, and vegetables. The figures shown for the quantity of butter, bacon, and ham produced are greatly in excess of the previous year, but as these items include the amounts produced in factories for 18 months a fair comparison is not possible. Milk production and poultry keeping are on the up-grade but beekeeping shows a considerable falling off.

The number of persons permanently employed in farming was 24,640; dairy-ing, 2,386; orchards, vineyards, and market gardens, 2,877; and pastoral pursuits, 6,496. Included in these numbers were 440 Asiatics and 3,320 aboriginals.

The value of products imported into the State during 1925-26, which could be produced from the soil here, amounted to £3,217,215, which is £113,941 less than in the previous year.

Improvements effected in respect of money advanced under the Agricultural Bank Act to 30th June, 1926, were valued at £5,204,179, and the amount advanced under the Discharged Soldiers' Settlement Act £5,569,867. The Industries Assistance Board also made advances to settlers which totalled on the 31st March, 1926, £10,509,120, of which £8,788,548 has been repaid.

Livestock.—The numbers on the 31st December, 1925, reveal a decrease in all kinds except sheep, pigs and donkeys. Sheep show an advance of 465,231, pigs 7,941, and donkeys 277. The increase in sheep was mainly in the South-Western and Central portions of the State, and for pigs in the South-Western portion. Of the total number of sheep (6,861,795) the breeds consist of 6,319,135 merinos, 43,024 other pure breeds, 345,502 merino cross breeds, and 154,134 other kinds. The decrease in the number of cattle was mainly in the North and North-Western portion of the State, and was no doubt due to the droughts prevailing there during the past years.

Meteorological Statistics, 1925.—During the year an excess was experienced through the inland portions of the De Grey extending southwards through the East Gascoyne to the Goldfields and thence to the Bight. The North Kimberley also showed an excess, as well as a few centres in the agricultural districts. The excesses ranged from a few points to 11.09 inches at Widgiemooltha, 8.69 at Roy Hill, 8.51 at Wyndham, and 8.13 inches at Esperance. The remainder of the State showed defects, which were most pronounced in the East and West Kimberleys, throughout South-West coastal areas and in the West Gascoyne.

January and February, 1925, will long be remembered on account of the two "willy-willies" which developed in the North-West. The first centred at Roebourne where great destruction was wrought, and the other to the North of Condon, its greatest intensity being felt between that centre and stations on the route to Marble Bar and Nullagine. In both instances extensive rains resulted not only throughout the North-West but also over the Gascoyne, Goldfields, and Agricultural districts. Although the rains were widespread weaknesses were indicated from many stations in the North-West and on the Ashburton and Gascoyne, where the position was not actually relieved until the latter half of May, when a general downpour embracing all sub-tropical areas occurred, particularly useful falls being registered in the Ashburton and Gascoyne.

From June to November a comparatively dry period ensued through the Kimberley, North-West, and all pastoral districts, broken here and there by some useful falls. A remarkable downpour on the 20th and 21st June was productive of 5.66 inches at Onslow. This was a strictly local fall and did not extend any distance from that centre. In November, thunderstorms visited the Kimberley on several occasions and a few spasmodic showers were noted in the North-West and Gas-

coyne. Throughout the Goldfields thunderstorms were most frequent on the 5th, 12th, 13th and 26th of that month, while in December the Kimberley reported some fair gaugings. The best falls of all, however, were noted through the country from the De Grey River to Meekatharra, registrations of two and three inches being numerous. Thunderstorms were also reported from the East Gascoyne and goldfields.

In the agricultural districts the winter rains started on the 13th May, and the good falls which occurred towards the end of that month had the effect of giving the season an excellent start. This was well maintained during June, when splendid rains fell during the latter part of the month. Below average falls were met with throughout July, and the lack of rain during August, together with the severe frosts experienced, had the effect of retarding the crops which were in a backward condition, while pastures had also suffered from the cold dry weather. As a result of two good downpours on the 10th and 21st September, the agricultural position greatly improved, but heavy frosts still checked the growth of pastures. Another general rain on the 11th and 12th October still further improved the crop prospects.

Thundery conditions were greatly in evidence during November and December, and considerable damage to crops through hail was reported.

The season closed with crops on fallowed land showing, on the whole, good results, but the lack of rain during the critical periods of the season was plainly visible on the crops on unfallowed land.

PART VI.—INDUSTRIAL ESTABLISHMENTS, 1925-26.

The figures in this publication represent the result of operations in the industrial establishments of the State covering a period of 18 months ended 30th June, 1926. Particulars were previously collected for a period of 12 months ending in December, but in order to meet the convenience of business people and to bring the returns in line with those in the other States it was decided to alter the end of the period from December to June. The figures now published, therefore, are, in the main, not comparable with those shown for previous periods.

The Government Statisticians throughout the Commonwealth, by agreement, do not collect particulars from industrial establishments unless four or more hands are employed at any one time or mechanical power is used. Certain industries, such as bread-baking, photography, small goods manufacture, hitherto included in this Part, and comprising Class XX., are now disregarded.

During the period under review, allowing for the exclusion of industries under Class XX., there was a decrease of 18 in the number of factories operating as compared with the previous year, but the number of hands employed increased from 21,754 to 22,140. Wages paid during the 18 months amounted to £6,587,595 as against £4,127,839 during the preceding 12 months, the average amount per annum received by each employee being respectively £198 7s. 3d. and £189 15s.

The gross value of the output during the 18 months was £21,449,799, made up as follows:—Salaries and wages £6,587,595; fuel consumed, etc., £1,571,404; material used, £10,267,282; margin for profit and other expenses, £3,023,518. The analysis of the proportion per cent. of the various items of outlay to the total output show that the proportion expended on salaries and wages and for fuel consumed, etc., exceeded those for the previous period; the latter item, however, takes into account the value of containers, replacements, repairs to plant, etc., which were not included in previous years. The proportion of the item "Cost of material used" decreased from 53.17 per cent. in 1924 to 47.86 in 1925-26. The percentage of "margin for profit, etc., has fallen during the same period from 16.68 per cent. to 14.10 per cent.

Some of the principal items manufactured during the 18 months ended 30th June, 1926, were:—2,951,512lbs. of leather (78,897 hides and 2,855 skins being tanned); pottery, etc., to the value of £89,661; timber, hewn and sawn, 323,011,703 super feet; confectionery, 6,104,151lbs.; flour, 190,369 tons; beer and stout, 7,592,900 gallons; tobacco, 12,349 lbs.; electric light and power, 99,853,372 British units; gas, 373,854,300 cubic feet. The figures for pearl and pearlshell fisheries show that during the 18 months period shell to the value of £276,474, and pearls valued at £71,393, were raised.

Tables of the rates of wages fixed by the State Arbitration Court, and revised to the 30th June, 1926, complete the Part.

Items of interest were the establishment of the Albany Worsted and Woollen Mills and the resumption of operations in the whale-oil industry.

PART VII.—MINERAL STATISTICS AND WATER CONSERVATION, 1925-26.

This publication deals with the mineral statistics for the year ended 31st December, 1925, and water conservation for the year ended 30th June, 1926.

The estimated total value of gold and other minerals produced in the State during 1925 was £2,393,390, which, added to all that produced in previous years, makes a total of £164,306,841.

The quantity of raw gold exported, plus that received at the mint, during the year totalled 441,252 fine ounces, valued at £1,874,320, making a total production to 31st December, 1925, of 36,271,167 fine ounces valued at £156,659,725, including premiums realised on export sales up to 1924. The production of gold during 1925 was less by 43,783 ounces than in 1924.

The dividends paid during 1925 amounted to £54,109, and the total amount up to the end of 1925, £28,559,586.

There were 81,226 fine ounces of silver valued at £11,661 produced during 1925, which was 7,920 ounces less than in 1924. The total production of silver to the end of 1925 was 44,403,620 fine ounces, valued at £611,345.

The quantity of coal reported as having been produced during the year was 437,461 tons, valued at £363,203, which was 15,597 tons more than in 1924. The total production to end of 1925 was 7,253,979 tons, valued at £4,558,336.

The total values of the other more important minerals produced up to the end of 1925 were as follows:—Copper, £1,804,998; lead, silver lead, ore and concentrates, £889,780; pig lead, £628,956; and tin, £1,537,466.

The number of gold mining leases in force on 31st December, 1925, was 469, on which an average number of 5,009 men were employed.

Batteries, including those of the Government, with 1,272 head of stampers, besides other crushing mills, treated 800,298 tons of ore, which was 16,538 tons greater than in the previous year.

The value of the machinery used in the production of gold was estimated at £1,437,449. In addition there were 44 other crushing mills valued at £313,138. There were 1,002 men employed in the production of minerals other than gold on 246 leases during the year.

Mining accidents numbered 395, which was 154 more than in the previous year. Twelve were killed and 383 injured.

1,680,646 sovereigns were minted at the Royal Mint during the year ended 30th June, 1926, whilst the total number produced since its establishment in the State was 98,379,864 sovereigns and 367,338 half-sovereigns.

The consumption of water during the year ended 30th June, 1926, from the Goldfields Water Supply amounted to 1,161,000 thousands of gallons, and the revenue derived therefrom to £179,402. From the Metropolitan Water Supply the consumption amounted to 3,131,144 thousands of gallons.

The number of consumers in the metropolitan area, including Armadale, was estimated at 184,000, and the number of houses supplied from this service was 42,302. The Mundaring Reservoir furnished 277,814 thousands of gallons in this connection.

The revenue for 1925-26 from the Metropolitan Water Scheme totalled £149,176, whilst the expenditure for the same period was £188,236. £80,165 was expended on sewerage and drainage and £93,600 derived in revenue therefrom.

The consumption of water in the country and other goldfields towns having separate supply schemes under the control of the Public Works Department is also given, likewise statistics relative to deep and artesian boring operations, tank and well sinking; whilst information relating to water supplies controlled by the Government Railways and Water Boards, with the consumption of water in the latter case; also the estimated population served; conclude this part of the Statistical Register.

PART VIII.—LAW, CRIME, ETC., 1925-26.

The statistics contained in this part of the Statistical Register are those of the transactions of the Land Titles Office up to the 30th June last; of Supreme Court business to 31st December, 1925; to the latter date, also, figures relative to cases brought before Magistrates' Courts, besides the general business of the Local Courts, Licensing Courts and Coroners' Courts; and finally an abstract of the latest gaols and prisoners statistics.

Transactions in the Land Titles and Deeds Office compared with those of the previous year show a decrease of 132 in the number of applications approved and completed. The declared value of land brought under the Act decreased from £98,536 to £65,009. 11,125 transfers were registered, an increase of 1,185 in number, and the consideration expressed rose from £4,917,120 to £6,710,987. Mortgages

registered numbered 10,578 and the amount thereby secured was £5,375,266. 7,691 titles were registered, which was 1,916 more than in 1924. Receipts increased, the total fees collected was £32,192, whilst the expenditure, £15,095, decreased slightly; the net revenue, £17,097, was £5,327 more than in the year before.

In the Supreme Court transactions, actions under common law increased in number and amount involved; there were 801 writs for £166,380 in 1925; 300 judgments were signed and entered, and the total amount for these was £37,653. In the probate business there were slight increases. 707 applications were lodged and 331 letters of administration issued, the total sworn value for which was £2,367,853. The total fees and duty collected in the probate business was £79,269.

There were 44 bankrupts during 1925, the assets and liabilities of which were £11,219 and £37,962 respectively. In addition there were 11 compositions, 13 schemes of arrangement, and 63 deeds of assignment, for which no statement of assets and liabilities are possible as the Bankruptcy Act of 1898 does not require the particulars to be filed.

Bills of sale and liens registered numbered 9,956, representing £8,151,279, whilst 442 satisfactions were entered for £692,500.

In proceedings in divorce there were 151 petitions for dissolution of marriage; 1 for judicial separation; 10 for alimony; and 3 for restitution of conjugal rights. One hundred and fourteen decrees nisi and 121 decrees absolute were granted during the year.

Local companies registered numbered 112, with capitals amounting to £2,353,410. Three hundred and fifty-six intestate estates were reported, and the amount collected thereon £19,594.

The crime figures show that 11,358 cases, exclusive of those of aboriginals, were brought before Magistrates' Courts during the year 1925, and that 10,047 convictions in the lower and 67 in the higher courts resulted, of which, exclusive of drunkenness itself, 931 of the cases were due to drink. These totals exceeded those of the previous year by 679 cases and 513 convictions. There were, however, 151 fewer cases due to drink. The proportion of number of offences to the class of offence remained consistent in the main with that of the year before, the total increase being proportionately distributed over all the classes. Drunkenness decreased by 78 cases and 68 convictions, and accounted for 2,610 cases and 2,592 convictions of the total 7,080 cases and 6,713 convictions in the class of offences against good order. Breaches of the Traffic Act recorded numbered 2,466 cases and 2,291 convictions. The data of the repeated conviction of individual offenders in the lower courts during the year disclose that 6,791 persons were convicted but once, 784 twice, 211 three times, 78 four times and 42 five times, the remaining 70 comprising those whose convictions varied from six to more than twelve times. The total convictions, including aboriginals but excluding neglected children and lunacy cases, in all courts numbered 10,313, or 2.80 per cent. of the mean population, as against 2.72 per cent. in the previous year. The peremptory commitments to prison were 1,138 in the lower and 54 in the higher courts, whilst also 89 aboriginals from the lower and 16 from the higher courts were committed to prison. The percentage of all commitments to all convictions was 12.57, compared with 7.64 in 1924. The total juveniles, under 18 years, convicted was 1,000, being 248 more than in 1924. The principal convictions were 308 for stealing, including breaking and entering, 279 for breaches of local government by-laws, 220 for offences against the public welfare, and 89 for disorderliness. The number of destitute and neglected children dealt with by Children's Courts during 1925 was 214.

Local Courts cases increased; the number heard was 21,029 and the amount recovered £97,415.

The total number of liquor licenses granted during 1925 was 1,961, which was 170 less than in 1924, the most important of the reductions being publican's general 29, and gallon licenses 8.

The gaols and prisoners statistics disclose an increase in the number of commitments and of distinct prisoners in the gaols for the year ended 30th June, 1926. The number of commitments was 2,324, and distinct prisoners 2,103. Prisoners in gaol on 30th June, 1926, numbered 237 and the daily average for the year was 263. The annual cost of prisons and prisoners amounted to £23,389 and the earnings of prisoners to £11,576.

PART IX.—HOSPITALS, CHARITABLE INSTITUTIONS, ETC., 1925-26.

During the year under review the Government hospitals numbered 26, as against 27 for the previous year, showing a decrease of one institution, whilst the assisted hospitals were 38 as against 37 of the previous year, an increase of one. The total number of both Government and assisted hospitals for the relief of the sick and suffering, situated in various parts of the State, numbered 64, the same as for the year 1924-25.

During the year under review 7,679 persons were admitted to the Government hospitals, 442 remained in from the previous year, making a total of 8,121 patients who received indoor treatment, whilst the assisted hospitals admitted 11,272 persons, 656 remained in from the previous year. Thus 11,928 patients received attention, making a total of 20,049 persons who availed themselves of hospital treatment in these institutions.

The table below shows the principal causes of accident and illness requiring medical and surgical treatment in these institutions:—

The patients in the Hospital for Insane at the 31st December, 1925, were 1,088, as against 1,058 for the previous year, whilst the deaths numbered 76, or 13 more than the previous year.

The increase in the number of inmates in the homes for the destitute was only one.

Children in orphanages and industrial schools numbered 1,006, an increase of 16 over the 1924 figures.

The number of State-supported children totalled 740 as against 746 for the year 1924.

Aboriginals and half-caste aboriginals in the various native missions numbered 1,039, an increase of 14.

A statement showing the receipts and expenditure of the various charitable institutions carried on, apart from the Government control, for the years 1921-2 to 1925-6, will be found on page 12.

PART X.—EDUCATION, SCIENCE, AND ART, 1925-26.

The information contained in this part includes financial figures relative to expenditure on Education, Public Library, Museum, and various societies to 30th June, 1926, and other information for the most part to earlier dates.

The expenditure on education for the year from Consolidated Revenue was £605,612, which included salaries and allowances £530,953. This was slightly in excess of that of the previous year but was only concomitant with the natural growth of educational requirements. £20,000 was disbursed in subsidies and grants to the University, and an amount of £11,473 to experiment farms, whilst scientific

and literary societies benefited to the extent of £8,843. Mining schools absorbed £5,689 and £8,338 was spent on the Observatory, Library, Museum and Art Gallery. The total expenditure for the year on education, science and art was £663,972.

The receipts for the year amounted to £18,751, which was £103 more than in the year before. The principal item was rents, £8,399, whilst £4,490 was received by way of fees.

The average enrolment of scholars in Government Primary Schools on 30th June, 1926, was 51,716 and the average attendance 46,332. The cost per head, based on attendance and including administration, was £10 8s. 11d., which was a decrease of 2s. 2d. per head on the cost of the previous year. At the end of the year 1925 the total enrolment in Government primary schools was 50,927, whilst that of the secondary schools was 1,128, and of the private schools 11,609. The total children receiving education at the end of 1925 was thus 63,664, or 203 more than at the end of 1924. The teaching staff of the Government primary schools numbered 1,894, in the full high schools 75, and in the private schools 512, whilst 40 were engaged exclusively in the manual training and household classes, making a total of 2,521 employed in the teaching of the 63,664 scholars, or an average of one teacher for every 26 scholars.

There were 75 competitors for Government exhibitions, 11 of whom were successful. In the secondary schools there were 630 competitors in the ordinary and 45 in the special scholarships for children of disabled or fallen soldiers, and 51 of the former and six of the latter succeeded. Sixty-eight other scholarships were awarded on the recommendations of district inspectors and by Soldiers' Children's Scholarship Trust.

In the Continuation Classes the average enrolment of individual students was 2,227, which was 441 less than in the previous year. There were 251 classes distributed over 20 centres.

Technical schools averages totalled 3,554 individual students, and the fees received amounted to £3,116.

In the Manual Training and Household Management Classes there was an increased average weekly attendance, numbering 5,035 in the former and 3,205 in the latter, whilst in the business colleges there was a total enrolment of 2,237, with fees received amounting to £19,615. Information relative to orphanages, industrial and kindergarten schools is also given. One hundred and ten students attended the School of Mines in the last term of the year. The expenditure on this institution for the year was £6,783.

At the University six scholarships were awarded. Receipts amounted to £24,361 and the expenditure to £25,541. At the public examinations at the University 740 school certificates were awarded, whilst 457 passed in the practice and 336 in the theory of music.

Visitors to the Public Library during the year numbered 195,098, which was 12,292 more than in the year before. Books in the library numbered 123,344, the estimated value of which was £52,500. Eighty-two thousand and forty-six persons visited the Museum and Art Gallery, where 103,519 specimens, etc., valued at £82,000, are housed. The expenditure on the Museum and Art Gallery for the year was £6,501.

Financial and other interesting data relative to societies, boards, etc., Royal Life Saving Society, and other public libraries are also given in the part.

PART XI.—LOCAL GOVERNMENT, 1925.

Municipalities.—The number (21) was the same on the 31st October, 1925, as on the same date in 1924. The number of dwelling houses within their boundaries was 35,550 and the population 172,866.

The capital value of rateable property, including improvements, £35,315,316, was greater by £2,433,355 than the previous year, the net annual value £1,982,967 by £72,169 and the amount payable in respect of rates £296,610 by £10,402.

The total revenue during the year was £838,498, which included £297,143 for rates; also loans to the value of £318,985 were raised during the year, making the amount available for expenditure £1,157,483, which exceeded that for the previous year by £127,208. The expenditure totalled £1,076,603, an increase on the previous year of £48,983, and included £300,799 for works and improvements to roads, streets, etc., and £198,643 for interest, sinking funds, etc., on loans. The loans current on the 31st October, 1925, amounted to £2,135,133, an advance on the previous year of £270,140, and the accrued sinking funds for the redemption of such loans amounted to £416,414.

The total length of macadamised, formed, cleared and not cleared roads and streets totalled 997 miles, while the length of footpaths was 779 miles.

All municipal authorities are also constituted as Health Boards, the total revenue of which amounted to £93,303 and the expenditure to £95,825. Included in the former were sanitary charges, rubbish fees, health and sanitary rates to the value of £42,607, and, in the latter, expenditure on sanitary and rubbish services £65,722.

District Road Boards.—The total number of these boards on the 30th June, 1925 (123), increased by one since the previous year. The number of dwellings was 47,412 and the population 195,337.

Both annual and unimproved values are used by the boards for the purpose of rating, and the total valuations were, in the former case, £309,075, and in the latter £18,444,720.

The total revenue, £440,542, included rates collected £233,770, and in addition loans to the value of £46,196 were raised during the year, making the amount available for expenditure £486,738, which exceeded that for the previous year by £51,963. The expenditure, £485,462, was an increase on 1923-4 by £39,611. £299,204 was expended on construction and maintenance works, and £30,962 on interest, sinking funds, etc., for loans.

On the 30th June, 1925, the loans current totalled £280,089, and the sinking funds for their redemption £37,424.

The total length of roads cleared, formed and metalled or otherwise constructed totalled 41,666 miles, whilst under the control of the various boards there were 1,050 bridges, 10,319 culverts and 2,002 constructed fords.

Seventy-eight of the boards are also constituted Local Health Authorities and their revenue and expenditure for the year were £43,847 and £44,085 respectively. Included in the former amount was £30,434 for health rates, sanitary charges and rubbish fees, and, in the latter, £20,379 for sanitary and rubbish services.

Other avenues of Local Government activities were—extra health boards numbering 24, with a revenue of £8,694 and expenditure of £8,355; 40 fire brigades having a revenue of £50,285 and expenditure of £45,564; and 11 water boards, the revenue of which amounted to £19,534 and the expenditure £19,875.

PART XII.—MISCELLANEOUS, 1925-26.

The first subject dealt with in this publication is that of Parliamentary rolls and elections, giving the latest figures available for the State Government and for the Commonwealth as far as this State is concerned, information relative to the second prohibition poll and also a summary of the Commonwealth referenda from 1903 to 1925.

The recorded figures disclose that the number of electors on the State rolls for the Assembly had increased by 6,333, of which 2,524 were males and 3,809 females. The total on the Assembly rolls on 30th June, 1926, was 206,545. Similarly in the case of the Legislative Council rolls, an increase of 12,656 had taken place, comprising 9,528 males and 2,733 females. The total on these rolls was 70,057. The electors on the Commonwealth rolls also increased in number by 5,038, the total names on those rolls on the 30th June, 1926, being 190,373.

The data relative to the Workers' Homes Board show that during the past ten years 1,396 applications had been approved, and the total cost involved to have been £357,916.

Newspapers decreased by three in number during the year, 104 being in circulation on 31st December, 1925. Of these three were dailies, 54 weeklies and 30 monthlies.

The statement relating to the Returned Soldiers' League discloses that there were 110 branches and 4,220 members on 30th June, 1926, which was an increase of 12 branches and 172 members on the totals of the previous year. The receipts for the year was £1,865 and the expenditure £1,723, while the receipts and expenditure of the Soldiers' Institute were £501 and £514 respectively.

The State Labour Bureau's return shows that during the year ended 30th June, 1926, applications for work from 11,303 men and 1,354 women were received, and that engagements for 6,890 of the former and 1,715 of the latter (including re-engagements) were found. The principal engagements of men included 2,345 labourers, 1,498 bushmen, 807 farm hands, 457 lads for farms, 330 road formers,

257 handymen, 167 sawmill hands and 105 handy lads; whilst those of women included 1,238 charwomen, 107 generals and 67 cooks. A detailed table shows that the amount in fares advanced to applicants during the past ten years was £24,873 and that £20,380 or 82 per cent. had to date been refunded. There were also 58 goldfield lads and 56 men and women given assistance during 1925-26 amounting to £135, drawn from the funds of the scheme for placing goldfields lads on farms and the Employers' Trust Fund. The rates of wages for the engagements secured at the Bureau conclude this part of the Register.

STATISTICAL VIEW OF NINETY-SEVEN YEARS' PROGRESS IN WESTERN AUSTRALIA, 1829 TO 1925-26.

Although the subjects dealt with in this publication are given more fully in other parts of the Statistical Register, it is very interesting as showing at a glance the State's progress from year to year since 1890 and before then in decennial periods.

From the discovery of gold at Coolgardie in 1892 the State has made rapid strides, as disclosed by the figures shown in the publication then and now with regard to Population (58,658) 379,393; Revenue (£55,616) £8,907,309; Land Settlement (100,801,861 acres) 249,856,451 acres; Agriculture, area under crop (79,605 acres) 2,932,110 acres; Live Stock: Horses (44,963) 170,563; Cattle (162,886) 835,911; Sheep (1,685,500) 6,861,795; Pigs (24,417) 74,316; Government Railways, Miles open (453) 884; Savings Bank deposits (£74,926) £6,427,995; Imports (£1,391,109) £16,462,572; Exports (£882,148) £14,581,657; Shipping, Inward (572,000 tons) 3,268,883 tons. Figures in parentheses are for 1892. It also reveals the fact that whilst there has been a decline in the gold yield it has been more than compensated for by the steady progress in other primary industries.

TOTAL PRODUCTION.

As no Statement of the Total Production of the State is shown in any part of the Statistical Register the following table is here appended:—

Estimated Value of Western Australian Production, 1916 to 1925.

* In the case of Agricultural Production, seasons ended last day of February in following year. † Including Stone Quarrying which for previous years was included in manufacturing.

§ For period of 18 months ended 30th June, 1926.

(a) For future years the estimated value of production will be calculated on a different basis in accordance with a resolution passed at the Perth Statistical Conference held in August, 1926.

The figures for 1925 shown above in italics have been compiled in accordance with the resolution.

* The mean population for the year is obtained as follows:—To the population at the end of the preceding year add four times the population on the 31st March of the year under review, twice the population on 30th June, four times the population on the 30th September, and the population on the 31st December, and divide the total by 12, which is the method now in use throughout the Commonwealth of Australia. Each quarterly mean is arrived at by adding together the number of the population at the beginning and at the end of the quarter and dividing the sum so obtained by two.

No. 5.—IMPORTS into the State of Western Australia during the Year ended 30th June, 1925.

Duties on British and Foreign Imports are collected under the provisions of the Commonwealth "Customs Tariff Act, 1921" (George V., No. 25).

NOTE A.—On all British and Foreign Imports 10 per cent. has been added to the fair market value of the goods at port of shipment.

NOTE B.—The "Quantity" columns are left blank in all cases where the quantities declared are packages of an irregular or unrecognised size, and consequently do not indicate the number, capacity, or weight of articles imported.

TRADE CLASSIFICATION.

Owing to the grouping of the Import Items into Classes, in lieu of the alphabetical system followed prior to 1918-19 by the Customs Department, it has been decided to insert, for the convenience of the public, a résumé of the classes, together with a slightly condensed index of the items in alphabetical order.

No. 6.—EXPORTS of Merchandise from the State of Western Australia during the Year ended 30th June, 1925.

NOTE.—The "Quantity" columns are left blank in all cases where the quantities declared are packages of an irregular or unrecognised size, and consequently do not indicate the number, capacity, or weight of articles exported.

TRADE CLASSIFICATION.

Owing to the grouping of the Export Items into classes, in lieu of the alphabetical system followed prior to 1918-19 by the Customs Department, it has been decided to insert, for the convenience of the public, a résumé of the classes, together with a slightly condensed index of the items in alphabetical order.

No. 34.—Transactions of the Fremantle Harbour Trust and Bunbury Harbour Board during the undermentioned Periods.

NOTE.—The expenditure bases of the two Corporations are not the same. The Fremantle Harbour Trust employs all labour engaged in handling cargo on the wharves, whereas in the case of the Bunbury Harbour Board, general cargo is handled by the Railway Department for and on behalf of the Board and bulk cargo by the Storekeepers, and no revenue (other than wharfage) is derived therefrom or expenditure thereon incurred. The sinking fund of both Corporations is invested at an approved rate of interest.

* The Departmental Totals of Revenue and Expenditure are not identical with the Treasury Amounts published under corresponding headings in Part II, "Public Finance". The figures supplied by the Treasury represent the actual amounts received and expended within the period under review, whilst the Departmental Returns include all amounts directly relating to that period, although not all collected or paid. † For Financial Results of Government Railways, see Table Nos. 37-40. ‡ In accordance with uniform Australian Railways practice, 55 horse boxes previously included in Wagons and brakevans are now included under passenger carriages.

NOTE.—In addition to the above figures the following particulars were also obtained:—Acres of Planted Forest Trees, 1,575 acres; Lands farmed on the "Share System"; For Cultivation, 39,279 acres and dairying, 1,756 acres. * The reason why Returns relative to certain alienated and leased lands are not obtained under the Statistics Act is mainly to be found in the fact that it has proved impracticable for the Statistical Collectors to enforce the provisions of the Act in connection with lands which remain entirely unimproved or unstocked, and also in a lesser degree to the fact that small holdings under one acre in extent are exempted from supplying Returns. The Statistical returns are, however, collected from all lands over one acre in extent on which improvements have been effected, and upon which Agricultural or Pastoral Pursuits are carried on, and, therefore, comprise all lands the obtaining of Returns from which would serve any practical purpose.

NOTE.—This table has been compiled with the special object of showing the values of the importations into Western Australia in the past decade of such products of the soil and of live stock as might in the future be produced within the State, but are at present introduced to supply the deficiency in local production. It serves, in some respects, as a basis for calculations as to the market reasonably to be expected therein for home-grown products. †Corrected from previous issue.

PART VI.—INDUSTRIAL ESTABLISHMENTS (Exclusive of Mines).

NOTES.—The Industrial Establishments here dealt with are those which, excluding Mines, come under the definition, adopted for statistical purposes, of Industrial Establishments, each being a "factory, workshop, or mill, where either four persons or more have been employed at any one time during the year, or where an engine driven by steam, gas, oil, or electricity has been used, whatever be the number of persons employed."
Class XX. particulars shown in previous years, have for 1925-26 been excluded in order to bring the classification into line with other States of the Commonwealth.

No. 1.—Classified numbers of Industrial Establishments (exclusive of Mines) from which Returns were received under the provisions of "The Statistics Act, 1907," and numbers of Males and Females employed, for each of the years 1920, 1924, and 1925-26.
