No be treated as strictly CONFIDENTIAL and NOT to be published, broadcast or cabled before 6 P.M. on TUESDAY 22 JULY 1969

CONSUMER PRICE INDEX - JUNE QUARTER 1969

Variations in retail prices as measured by the Consumer Price Index for the pital cities and Canberra are shown herein.

- 2. Compared with the previous quarter, the All Groups Consumer Price Index for June Quarter 1969, increased by 0.8% for the weighted average of the six State capital cities. Changes in individual cities were: Sydney +0.9%, Melbourne +0.6%, Brisbane +0.5%. Adelaide +0.9%. Perth +1.3%. Hobart +0.5%. Canberra +C.4%.
- 3. Recent quarterly changes in the All Groups index have been as follows:

Percentage Change from Preceding Quarter

Ref. No. 9.1

- 5. A detailed description of the Consumer Price Index is contained in Labour Report No. 52, 1965 and 1966. For periods after December Quarter 1968, reference should also be made to the appendix of the statistical bulletin on the Consumer Price Index for the March Quarter 1969.
- 6. The Consumer Price Index measures quarterly variations in prices of commodities and services as affecting a high proportion of the expenditure of wage-earner households in the aggregate. Changes in the pattern of this expenditure since 1950 have been such as to render it necessary to construct the index with additional items and changes in weighting patterns at intervals (rather than on the basis of a list of items and set of weights which remained unchanged throughout the period). Six series for short periods, viz., September Quarter 1948 to June Quarter 1952; June Quarter 1952 to June Quarter 1956; June Quarter 1956 to March Quarter 1960; March Quarter 1960 to December Quarter 1963; December Quarter 1963 to December Quarter 1968; and from December Quarter 1968 have therefore been constructed and linked to form a continuous retail price index series published herein as the Consumer Price Index. At times of linking the weighting pattern was altered and, in addition, new items (mainly ones that had become significant in household expenditure) were introduced. In each period between links the items and weighting have remained unchanged.
- 7. The indexes measure price movements in each city individually. They do not provide a comparison of the retail price level in any city with the retail price level of any other city.
- 8. Table 1 on page 4 of this Bulletin shows Consumer Price Index numbers for each fiscal year from 1959-60 to 1968-69 and for each quarter from March Quarter 1966. Table 2 on pages 5 and 6 shows Group Index numbers quarterly from March Quarter 1967 to June Quarter 1969.
- 9. The following table is provided to assist interpretation of movements shown by the Consumer Price Index from March Quarter 1969 to June Quarter 1969.

CONSUMER PRICE INDEX Movement from March Quarter 1969 to June Quarter 1969 Approximate Analysis in Terms of "All Groups" Index Points(a)(b)

· · · · · · · · · · · · · · · · · · ·	State Capital Cities - Separately and Combined							
Group	Weighted Average of Six State Capital Cities		Melbourne					Canberra
	Index Points (a)	Index Points (a)	Index Points (a)	Index Points (a)	Index Points (a)	Index Points (a)	Index Points (a)	Index Points (a)
Food - Meat	+0.1		+0.1		+0.2	+0.6	+0.1	+0.1
Potatoes	-0,1	-0.1	-0.2	-0.2	-0.2		-0.2	-0.1
$\mathtt{0ther}$	+0.3	+0.4	+0.3	+0.4	+0.3	+0.3	+0.3	+0.2
Clothing and Drapery	+0.1	+0.1	+0.1	+0.1	+0.1	+0.1	+0.1	+0.1
Housing Household Supplies	+0.2	+0.3	+0,2	+0.1	÷0.1	+0.2	+0.1	• •
and Equipment	+0.1	+0.1	+0.1	• •		+0.1		
Miscellaneous	+0.1	+0.1	• •	+0.1	+0.4	+0.1	+0.1	+0.1
Total Change (Index Points)	40,8	+0.9	+0.6	+0.5	+0.9	+1.4	+0.5	+0.4

(a) For each city, the total change in index points since the preceding quarter is the arithmetical difference between the All Groups Index numbers for the last two quarters shown in Table 1, page 4 hereof (e.g. Weighted Average of Six State Capital Cities: March Quarter 1969, 106.4, June Quarter 1969, 107.2; difference of +0.8 index points). The dissection in this table shows the approximate amount each group has contributed to this total movement. (b) In terms of 1966-67 base.

10. A summary of the movements of the various group indexes, together with the main quarterly price changes which affected the index between March Quarter 1969 and June Quarter 1969 is shown below:

Food Group. Changes in meat and potato prices are frequently the major cause of movements in the total index and of disparate movements between cities. The effects of changes in the price of these items in each city for this quarter are shown in the table in paragraph 9 on page 2 of this bulletin. The price of butter increased in all cities and egg prices rose in six cities. The price of milk increased in Sydney, Brisbane and Adelaide and the price of bread increased in Perth.

The Food Group of the index (weighted average of the six State capital cities) showed an overall quarterly increase of 0.%.

Clothing and Drapery Group. The index for the weighted average of the six State capital cities showed a quarterly increase of 0.8% mainly due to increases in the prices of winter seasonal items.

Housing Group. Local Government rates and charges increased in Sydney and Melbourne. Increases also occurred in other sections of the group.

The group index for the weighted average of the six State capital cities showed a quarterly increase of 1.4%.

Household Supplies and Equipment Group. The price of electricity increased in Sydney.

The group index for the weighted average of the six State capital cities showed a quarterly increase of +0.7%.

Miscellaneous Group. The group index for the weighted average of the six State capital cities showed a quarterly increase of 0.4%.

(a) Figures appearing after the decimal point possess little significance for general statistical purposes. They are inserted to avoid the distortions that would occur in rounding off the figures to the nearest whole number. (b) Some of the annual index numbers shown above differ by 0.1 of an index point from those published in the March Quarter 1969 bulletin. This is because all the annual index numbers have now been rounded so that they are averages of the four quarterly index numbers as converted to the reference base year 1966-67. r - revised.

This document is published by the Commonwealth Statistician and contains statistics or abstracts thereof compiled and tabulated by the Commonwealth Statistician pursuant to the Census and Statistics Act 1905-1966.
